Preface to the *New Shorter Oxford English Dictionary* · 1993

The *New Shorter Oxford English Dictionary* is a historical dictionary of modern English. It sets out the main meanings and semantic developments of words current at any time between 1700 and the present day: those which have been in regular literary or colloquial use at some point in their history; slang or dialect words which are nevertheless likely to be generally encountered through accessible literature or the modern mass media; and in addition a wide range of scientific and technical words such as may be of interest to serious amateurs or advanced students. Every headword is traced back to the time of its first known use, however early, in many cases to the manuscript records of the Old and Middle English periods.

Words which have fallen into disuse during the past three centuries are included if they meet the other general criteria. Words which became obsolete before 1700 appear if they are significant in the formation or history of some other headword in the text, or if they remain familiar from the works of Shakespeare, the 1611 Authorized Version of the Bible, and a small number of other influential literary sources (notably the poems of John Milton and Edmund Spenser's *Faerie Queene*).

This work is a replacement for the third edition of the *Shorter Oxford English Dictionary*, but not a direct revision of its text. The *New SOED* editors returned to the *Oxford English Dictionary* itself (in later stages the second edition of 1989, originally the first edition of 1884–1928 and its four-volume *Supplement* of 1972–86), and reabridged, conflated, revised, restructured, added, and updated. Every entry has been written afresh, taking into account the linguistic evidence of the Dictionary Department's extensive quotation files and computer databases. Many new words and senses have been added, and all have been reviewed in the light of social and political changes.

A more strictly chronological basis for entry structure has been adopted than in previous editions (which followed the *OED* more directly). Senses within major semantic and grammatical units are arranged according to the period or date range within which the first known example of each falls (for the definition of date ranges used see p. xxxiv). In many cases dates are at variance with those in the *OED* because earlier and later examples have now been identified. For the *New SOED*, researchers have systematically scrutinized historical dictionaries such as the *Middle English Dictionary* in progress in Ann Arbor, Michigan, the *Dictionary of the Older Scottish Tongue*, the *Scottish National Dictionary*, the *Dictionary of American English*, the *Dictionary of Americanisms*, and the *Australian National Dictionary*, looking for examples which would affect dates or descriptive labels. New information was sought in other known relevant publications, such as Jürgen Schäfer's *Documentation in the O.E.D.* and articles in *Notes and Queries*. Unresolved first dates in the *OED* were pursued and clarified. Several million paper slips in the English Dictionary Department's files were scanned for individual antedatings or postdatings. The editors of the *Middle English Dictionary* have further provided some information from their drafts of later parts of the alphabet which have not yet been published, and a number of unpublished earlier uses have been verified in the files of the *Dictionary of the Older Scottish Tongue*. New significant information will continue to come to light, but every effort has been made to present the most accurate and up-to-date record possible at the time of going to press.

The *New SOED* is founded in the *OED*, and shares its coverage of many words and senses from North America, Australia, New Zealand, South Africa, the Indian subcontinent, and elsewhere within the English-speaking world. Many of the entries for recent vocabulary are based on as yet unpublished additions prepared by members of the *OED*'s New Words section.

The main senses of the headwords are illustrated by 83,000 quotations, drawn from the Dictionary Department's quotation files and computerized databases. Their primary function here is to illuminate semantic distinctions and exemplify possible grammatical constructions. Defined phrases and combinations, and derivatives and minor words related to a headword, cannot receive such expansive treatment and are not illustrated. Where possible and historically appropriate, modern sources have been used, but real examples are notoriously ambiguous or resistant to intelligible abridgement, and the undeniable quotability of Defoe, Macaulay, and Dickens has ensured the use of many earlier quotations directly from the *OED*.

Pronunciations are provided in symbols of the International Phonetic Alphabet, and represent a style of British Received Pronunciation. Coverage of the wide regional, social, and other differences in spoken English in Britain and throughout the world would require more space and a more complex technical apparatus than would be suitable, given the emphases and intended non-specialist readership of the *New SOED*.

Editorial work on this completely new edition of the *SOED* began in 1980, with a build-up of staff from late 1983. Until well into the letter I, entries were handwritten on 6-by-4-inch paper slips. Then in 1987 the availability of the second edition of the *OED* in electronic form prompted a radical revision of editorial procedures. A complex specification was drawn up for the automatic modification of the *OED* text: certain categories of entry and types of information were omitted, senses and structural units

were reordered, old-fashioned modes of expression were modified, and many other changes were made to bring it closer to the spirit and style of the *New SOED*. This provisional abridged and transformed *OED* was made a reality as an electronic database and in proofed paper form on editors' desks by members of the Reference Computing team at Oxford University Press and members of the Centre for the New OED at the University of Waterloo in Ontario, Canada. Thereafter a team of keyboarders made the lexicographers' substantial alterations and additions directly to the central database.

Meanwhile International Computaprint Corporation (ICC) in Pennsylvania, who had undertaken data-capture of the second edition of the *OED*, keyed the handwritten slips for *A* to *interwreathe*, converting their conventional typographical mark-up into a generic form which identified the start and end points of the many different elements of dictionary structure. The tagging of the output was then refined and enhanced by programs written within OUP. Soon the sections of dictionary text produced by such contrasting means were formally indistinguishable.

Almost every member of the lexicographical team took part in the first round of editing. Proofs of the results were sent out to advisers for criticisms and suggestions, and many individual entries were also submitted to subject specialists. Comments from both these sources were then fed into a revision of the whole text by senior lexicographers. But for the requirement of publication, this revision could continue for ever.

A project of the size and duration of the *New Shorter Oxford English Dictionary* inevitably draws upon the time and expertise of members of many different departments within Oxford University Press. The editors thank them all. In particular the Reference Computing team helped transform working methods and perceptions and provided the support to sustain the transformation. From outside the organization we wish to mention Hazel Wright and Deborah Honoré, for general critical reading of the text; Dr Clive Upton, for advising on pronunciation and checking phonetic transcriptions; G. Elizabeth Blake, for the programs for preliminary shortening of the *OED*; Julia Cresswell, for historical research in published materials; Ralph Bates, for bibliographical and other library research; Lidie Howes and Barbara Grant, for information from the *Middle English Dictionary* materials; Lorna Pike, for quotations from the *DOST* collections; Helen De Witt, Sara Hawker, Rachel James, Marcia Slater, Jerry Spring, Jeremy Trevett, Penny Trumble, Penny Waddell, Carl Watson, Seren Wildwood, and Jane Windebank, for data-capture and structural tagging; Patricia Moore, for this and on-line regularization of stylistic inconsistencies; Fabia Claris, Louise Keegan, Christina Malkowski-Zaba, Helen Marriage, Margaret McKay, and Coralie O'Gorman, for proofreading and checking of underlying structure; Dorothy McCarthy, for establishing proofreading procedures; Patricia Greene, Lisa Johnston, and Sandy Vaughan, for cross-reference checking; Fred Gill and Peter Gibbs, for checking final page-proofs; Peter Robinson, Catherine Bates, Stephen Shepherd, Lynda Mugglestone, Alexandra Barratt, and Rod McConchie, particularly for searching files for dating and usage information; Margaret Davies, for file-searching and research for the list of authors and publications; Philippa Berry, for work on the authors' list and for identifying potential cross-references for inclusion; Clare Todd, particularly for research for the authors' list, for identifying cross-references, and for quotation abridgement and copying; Kate Batchelor, Mary Burns, and Katie Weale, for quotation copying and for other clerical and administrative help; Colinette Dorey, for file-searching and for filing and clerical help; Kay Pepler, particularly for keying information for the authors' list; Clare Senior, for clerical and filing assistance; Carol Percy, for bibliographical research; Anna Taylor, for distributing proofs. At various earlier stages of the project Karen Cooper, Hania Porucznik, and Annabella Duckit were project administrative assistants, and M. A. Mabe, K. Atherton, and M. C. Palmer contributed to early editorial work.

For specific advice on particular languages and areas of knowledge, we are indebted to Mrs A. J. Allott, Dr Philip Baker, Mr David Barrett, Professor Tomás de Bhaldraithe, Mr R. J. Bowater, Dr Savile Bradbury, Dr Jean Branford, Mr David Bunker, Mr Andrew Burrows, Miss Penelope Byrde, Dr Stanley Chapman, Mr Howard Colvin, Mr Yassin Dutton, Mr Colin Dyson, Mr Elwyn Hartley Edwards, Mr D. H. Fowler, Mr J. B. Franks, Mr Alan J. Gamble, Professor Bryan Garner, Dr Ives Goddard, Mr Noël Goodwin, Mrs Judy Gray, Dr Anne Grinter, Dr P. T. Harries, Mr Andrew Hawke, Professor Tony Honoré, Mr Simon James, Dr W. J. Johnson, Dr Russell Jones, the late Mr Peter Kemp, Professor Harriet Klein, Dr Ann Lackie, M. Pierre-Yves Lambert, Professor J. D. Latham, Professor G. L. Lewis, Professor Robert E. Lewis, Dr Andrew Louth, Professor J. B. McMillan, Dr C. M. MacRobert, Dr F. H. C. Marriott, Professor P. H. Matthews, Dr M. J. Morris, Mr James Mosley, Professor P. Nailor, Mr David Parlett, Professor Andrew Pawley, Ms Jenny Putin, Dr D. A. Roe, Dr H. M. Rosenberg, Captain A. B. Urmson, Professor Geza Vermes, Miss Freda Walker, Lord Walton of Detchant, Mr Harry D. Watson, Ms Niki Watts, Dr M. Weitzman, Mr Ken Whyld, Mr Thomas Woodcock, Professor Clifford Wright, Mrs Hazel Wright, and Dr R. David Zorc.

L. B.

March 1993

Preface to the sixth edition

The English language has changed rapidly in the five years since the previous edition of the *Shorter Oxford English Dictionary* was published. This sixth edition takes in new terms from such productive areas as computing, communications, science, and slang while also casting new light on the history of English.

Some 2,500 new entries have been added for words and phrases which have entered the language since the last edition of the *Shorter* was published in 2002. These were identified by our analysis of the new Oxford English Corpus, which contains more than a billion words of real contemporary English from around the world, and the database of the Oxford Reading Programme, now amounting to nearly 100 million words.

More than 1,300 new illustrative quotations have been added, mostly from authors and periodicals of the late 20th and early 21st centuries, in all parts of the English-speaking world. For the first time Internet sources have been used. Professor Paul Luna, of the Department of Typography & Graphic Communication at the University of Reading, has adapted the design he originated for the fifth edition to place illustrative quotations immediately after the sense they relate to, rather than collecting them together in a block at the end of the entry or section. This makes the text easier to navigate and follows the practice of the *Oxford English Dictionary*.

We have taken advantage of the work in progress for the third edition of the *Oxford English Dictionary*, notably by incorporating their discoveries concerning earlier first dates of use. For this edition of the *Shorter* we have been able to antedate nearly 4,500 words and senses, among them *bog-standard*, *maestro*, *muggins*, *mujahideen*, and *phase*. In addition, many etymologies, especially for words of non-European origin, have been revised.

Professor David Crystal has contributed a new essay, 'A Brief History of English', which gives an overview of the development of the language from Old English to the 21st century.

As part of general revision, spelling and orthography have been modernized throughout the text, in many cases by the removal of hyphens in compound nouns. This reflects the evidence of prevailing use and is in line with treatment in the rest of the Oxford dictionaries range. Although the *Shorter* is a historical dictionary that includes words of the past as well as those of today, its definitions are written in contemporary English, and we have updated the defining language where appropriate. Special attention has been given to sensitive terms relating to ethnicity, sexuality, and disability. To this end the usage notes contained in around 1,000 entries have been rewritten, and many new ones added.

A great many people gave generous assistance to the project, both within OUP and outside. We would like to acknowledge the help of the staff of the *Oxford English Dictionary*, in particular Graeme Diamond and his group for their work on new words. Other colleagues deserving special mention are Jude Craft, Anthony Esposito, Gillian Evans, Sara Hawker, Alan Hughes, Nick Rollin, Bill Trumble, and Ben Zimmer. Information on English from outside Britain and the USA was given by Dianne Bardsley, Satarupa Chaudhuri, Tony Deverson, Bruce Moore, Leela Pienaar, and Lise Winer. Stephen Cretney QC advised on our coverage of law terms, and Catherine Sangster of the BBC Pronunciation Unit gave advice on the pronunciation of new entries. We would also like to thank the many people who have corresponded with us, in particular Yukio Ooka of Nagoya, Japan, and V. D. Paulose of Badarpur, India.

A. J. S.

April 2007

A brief history of English by David Crystal

Introduction

Sometime between AD 700 and 800, in Anglo-Saxon England, a scribe compiled a list of 3,200 Latin words and translated 970 of them into Old English. The manuscript is now in the library at Épinal, capital of the Vosges region of north-east France, and is known as the Épinal Glossary. It is in a poor state of preservation: some of the pages are missing, and the tops of several have suffered from wear and damp. But it is a most remarkable document: it is the earliest glossary we have of Old English, and, in its rough-and-ready alphabetical grouping, the earliest known English ancestor of the present Dictionary.

The words come mainly from several Latin Christian sources, such as the Vulgate translation of the Bible, and cover a wide range of topics, as can be seen in these examples from letter A. The Latin word comes first, then the Old English gloss, and I have added a Modern English translation.

LATIN	OLD ENGLISH	MODERN ENGLISH
aleator	*teblere*	gambler
abortus	*misbyrd*	miscarriage
appetitus	*gitsung*	craving
aestuaria	*fleotas*	tidal waters

Glosses are given for plants, animals, illnesses, legal concepts, and many other 'hard words'. It was an important document, influencing several later compilations of a similar kind, and well illustrates the efforts that scribes were taking to bring the latest language to evolve in the British Isles under some sort of practical control.

Where did this language come from? Our main source of information is Bede's *Ecclesiastical History of the English Nation*, written *c.*730:

> This island at present ... contains five nations, the English, Britons, Scots, Picts, and Latins, each in its own peculiar dialect cultivating the sublime study of Divine truth. The Latin tongue is, by the study of the Scriptures, become common to all the rest.

Subsequent chapters describe in detail how this situation evolved. The first arrivals, Bede says, were Britons (we would now call them Celts), and they gave their name to the land. The Picts then arrived in the north, from Scythia via northern Ireland, where the resident Scots would not let them stay. The Scots themselves arrived some time later, and secured their own settlements in the Pictish regions. Then, 'in the year of Rome 798' [= AD 43], Emperor Claudius sent an expedition which rapidly established a Roman presence in most of the island.

The Romans ruled there until the early fifth century, when Rome was taken by the Goths, and military garrisons were withdrawn. Attacks on the Britons by the Picts and Scots followed. The Britons appealed to Rome for help, but the Romans, preoccupied with their own wars, could do little. The attacks continued, so the Britons came to a decision. As Bede recounts in Chapters 14 and 15:

> They consulted what was to be done, and where they should seek assistance to prevent or repel the cruel and frequent incursions of the northern nations; and they all agreed with their King Vortigern to call over to their aid, from the parts beyond the sea, the Saxon nation. ... Then the nation of the Angles, or Saxons, being invited by the aforesaid king, arrived in Britain with three long ships.

The Anglo-Saxon Chronicle reports their landing in Ebbsfleet (Pegwell Bay, near Ramsgate, Kent) in AD 449. Within 250 years, it would seem from the earliest records, the language we now know as Old English (sometimes called Anglo-Saxon) achieved its distinctive character.

Old English

What was this Germanic language like? Only fragments are immediately intelligible to a modern reader. The orthography devised by missionaries to write the lan-guage down made use of a number of symbols and abbreviatory conventions which no longer exist, and these act as a barrier. In the following lines, for example, we see the use of the symbol called 'ash' (æ), a name borrowed from the runic alphabet, representing a sound similar to the vowel sound of *cat* today. And we see the use of another runic symbol called 'thorn' (þ) as well as a symbol (ð) which was later called 'eth' (pronounced as in the first syllable of *leather*), both of which were used to represent the 'th' sounds in such words as *thin* and *the*. This text is the opening of the Lord's Prayer.

> *fæder ure þu þe eart on heofonum, si þin nama gehalgod, to becume þin rice, gewurþe ðin willa on eorðan swa swa on heofonum.*

If we substitute modern spellings, such as *thu* for *þu* or *eorthan* for *eorðan*, the language becomes a little easier to read—but only a little, because the grammar and vocabulary are still quite alien.

Old English grammar is very different from Modern English, as this literal translation shows:

> *fæder ure þu þe eart on heofonum*
> father our thou that art in heaven
>
> *si þin nama gehalgod, to becume þin rice,*
> be thy name hallowed, to become thy kingdom
>
> *gewurþe ðin willa on eorðan swa swa on heofonum*
> be done thy will on earth as as in heaven

The most notable difference is the altered word order, especially the placing of the verb: 'be thy name ...', 'become thy kingdom ...', 'be done thy will ...'. Important too are the endings ('inflections') which appear with

some of the nouns: the Old English words for 'heaven' and 'earth' were *heofon* and *eorðe*, but after the preposition *on* we see these words change their form (or 'case'). Certain types of meaning, such as the relationship between words in a sentence, were very largely expressed by inflections. Modern English, by contrast, has very few such inflections; it expresses most meaning relationships either by using extra words or by varying the order of words in a sentence. For example, the meaning of 'who does what to whom' is signalled by changing the order of the words: in 'The man saw the woman', we know that it is the man who is doing the seeing (it is the subject of the clause); in 'The woman saw the man', we know that it is the woman. In Old English, these two sentences would have been like this:

se guma geseah þa cwen	the man saw the woman
seo cwen geseah þone guman	the woman saw the man

Because the endings tell us who did the action and who received the action, the word order can alter without ambiguity. This next sentence is perfectly clear:

geseah þone guman seo cwen	the woman saw the man

Even though the words for 'the woman' appear last, the form of the words tells us that this phrase is nonetheless the subject of the clause.

The other element in the barrier between Old and Modern English is, of course, the alien-looking vocabulary. This is not so noticeable in the Lord's Prayer example, where—*rice* (pronounced 'ree-chuh') and *gewurþe* aside—there are several clear correspondences; but it is immediately obvious in the Épinal glosses, where there is little resemblance to modern usage. And when we take a text that is less familiar, such as the opening lines of the epic poem *Beowulf*, the need for translation is immediately apparent:

Hwæt, we gardena in geardagum,
Lo we of the spear-Danes in days of old

þeodcyninga þrym gefrunon
kings of a people greatness have heard

hu ða æþelingas ellen fremedon.
how the princes deeds of valour carried out.

[Lo! we have heard of the greatness of the kings of the spear-Danes in days of old, how the princes carried out deeds of valour.]

Words like *þeodcyninga*, literally 'people-kings', and *geardagum* 'year-days' illustrate one aspect of Old English vocabulary: two-element words, or 'compounds'. There is another a few lines later: *hronrade* 'whale-road', a vivid metaphor for 'sea'.

Poetic expressions such as *hronrade* illustrate a major feature of Old English linguistic creativity. A ship, for example, might be described straightforwardly as a *scip* or *ceol* ('keel'), but in addition there are descriptions using a variety of compounds—some fairly literal, such as *wægflota* ('wave-floater'), *sægenga* ('sea-goer'), and *brimwudu* ('water-wood'), some more imaginative, such as *merehus* ('sea-house'), *sæhengest* ('sea-steed'), and *yþmearh* ('wave-horse'). Huge leaps of imagination can be seen: the human body is described as a *banhus* or *bancofa* 'bone-house, bone-coffer'; a sword as a *beadoleoma* 'battle-light'; the eye as a *heafodgim* 'head-gem'. The descriptive phrases of Old English are so distinctive that a term from Old Norse poetic treatises, the 'kenning', has been used to describe them.

THE INFLUENCE OF LATIN

In addition to these home-grown creations, Old English borrowed many words from other languages, and from Latin in particular. This trend had begun on the European mainland, where we find dozens of words in the Germanic languages which have come from Latin. They include words for plants and animals (including birds and fish), food and drink, household objects, vessels, coins, metals, items of clothing, settlements, houses, and building materials, as well as several notions to do with military, legal, medical, and commercial matters.

OLD ENGLISH	LATIN ORIGIN	MODERN ENGLISH
butere	*butyrum*	butter
ceaster	*castra*	city
munuc	*monachus*	monk
win	*vinum*	wine

As we move into the period of early Anglo-Saxon settlement in England, we find these semantic areas continuing to expand, with the growing influence of missionary activity reflected in an increase in words to do with religion and learning. This became especially noticeable after the Benedictine revival of the monasteries at the end of the tenth century, when we find such loans as *creda* 'creed' from *credo* and *diacon* 'deacon' from *diaconus*. The emphasis is not surprising: the teaching of the Church had to be communicated to the Anglo-Saxon people, and new vocabulary was needed to express the new concepts, personnel, and organizational procedures.

Borrowing Latin words was not the only way in which the missionaries engaged with this task. Rather more important, in fact, were other linguistic techniques. One method was to take a Germanic word and adapt its meaning so that it expressed the sense of a Latin word: examples include *rod*, originally meaning 'rod, pole', which came to mean 'cross'; and *gast*, originally 'demon, evil spirit', which came to mean 'soul' or 'Holy Ghost'. Another technique, relying on the type of word creation which permeates Old English poetry, was to create new compounds—in this case, by translating the elements of a Latin word into Germanic equivalents: so, *liber evangelii* became *godspellboc* 'gospel book' and *trinitas* became *þrines* 'threeness' = 'trinity'.

THE INFLUENCE OF OLD NORSE

Scandinavia provided another source of words in the Anglo-Saxon period, but only after a considerable passing of time. The Vikings made their presence felt in Britain in the 780s, attacking the south coast, and during the next decade the monasteries in the north. Conflict continued for a century, until the Treaty of Wedmore in 886 between King Alfred and the Danish leader Guthrum established

an area of eastern England which, because it was subject to Danish laws, came to be known as the Danelaw. It is evident from the place names which eventually appeared that Danes were present in the whole of the northern and north-eastern third of the country, roughly between Cheshire and Essex. Over 2,000 Scandinavian place names are found throughout the area, chiefly in Yorkshire, Lincolnshire, and the East Midlands. Over 600 end in *-by*, the Old Norse word for 'farmstead' or 'town', as in *Rugby* and *Grimsby*. The other element in such names often refers to a person's name (Hroca's and Grim's farm, in these two cases), but sometimes to general features, as in *Burnby* ('farm by a stream') and *Westerby* ('western farm'). The distribution of Scandinavian family names—such as those that end in *-son* (*Johnson*)—also shows a concentration throughout the Danelaw.

The Treaty of Wedmore contains the first Scandinavian loans known in Old English texts: *healfmarc* 'half a mark' comes from the Scandinavian currency unit, *mǫrk*, and *liesengum*, a variant of *liesing* 'freedmen', comes from *leysingiar*. A few more are found in northern versions of the Anglo-Saxon Chronicle and the Gospels, and in a sprinkling of other sources. But they do not amount to very many. Only about 30 Norse words came into Old English during this period, such as *wrang* 'wrong' from *vrang* and *utlaga* 'outlaw' from *utlagi*. Most are terms reflecting the imposition of Danish law and administration throughout the region, social structure, or cultural objects or practices, such as seafaring and fighting. Very few had enough broad applicability to survive into later periods of English, once Scandinavian culture and power declined. When we count up all the Scandinavian words which entered Old English between the ninth and the twelfth centuries, we arrive at a surprisingly small total—about 150.

But something remarkable was taking place in the period between Old and Middle English. Although there are no written records to show it, a considerable Scandinavian vocabulary was gradually being established in the language. We know that this must have been so because the earliest Middle English literature, from around 1200, shows thousands of Old Norse words being used, especially in texts coming from the northern and eastern parts of the country. They could not suddenly have arrived in the twelfth century, for historically there was no significant connection with Scandinavia at that time; England was under Norman French rule. And as it takes time for loanwords to become established, what we must be seeing is a written manifestation of an underlying current of Old Norse words that had been developing a widespread vernacular use over the course of two centuries or more. There is no doubt that many of these words were well established, because they began to replace some common Anglo-Saxon words. The word for 'take', for example, was *niman* in Old English; Old Norse *taka* is first recorded in an English form, *toc* (= 'took') during the late eleventh century, in the *Anglo-Saxon Chronicle* (year 1072), but by the end of the Middle English period *take* had completely taken over the function of *niman* in general English. The everyday flavour of the Scandinavian loans can be seen in these words, all of which survived into modern Standard English:

cake, dirt, egg, freckle, get, leg, seem, Thursday, window

We must not overrate the impact of Scandinavian words on English: they are only a fraction of the thousands of French words which entered the language during the Middle Ages. Moreover, the majority fell out of use. Modern readers would make no sense of most of the entries in a dictionary of Scandinavian words in Middle English, such as *crus* 'fierce', *goulen* 'scream', and *stor* 'strong'. Yet some of the ones that did survive exercised a disproportionate influence, because (like *take* and *get*) they were very frequently used. And they were supplemented by another set of changes which were even more influential, because they made a permanent impact on the grammar of the language.

The most important of these changes was the introduction of a new set of third person plural pronouns, *they*, *them*, and *their*, which replaced the earlier Old English plural forms *hi*, *him*, and *hira*. Pronouns do not change very often in the history of a language, and to see one set of forms replaced by another is truly noteworthy. Another development was the use of *are* as the third person plural of the verb *to be*. This form had already been used sporadically in northern texts during the late Old English period—for example, in the Lindisfarne Gospels—but in Middle English it steadily moves south, eventually replacing the competing plural forms *sindon* and *be*. *Sindon* disappeared completely by the mid-1200s, but *be* remained in use for several centuries—and indeed may still be encountered today, in such usages as *if they be there* or *the powers that be*.

OTHER INFLUENCES

A few other foreign linguistic elements can be identified in the Old English period. The major impact of French on English would not take place until after the Norman Conquest, but French influence in Britain did not suddenly start in 1066. Trading relationships with the north European mainland had been growing throughout Anglo-Saxon times, and there were religious and political contacts too. During the tenth century there was a renewal of monastic life and learning (the Benedictine revival) which began on the Continent. As a result, we have a sprinkling of French loans recorded in eleventh-century sources: *capun* 'capon' comes from this period, as do a number of words illustrating a more general kind of cultural contact, such as *tumbere* 'dancer', *servian* 'serve', and *prisun* 'prison'.

There is one other source of foreign words in Old English: the other Germanic languages which had been developing in parallel with Old English in other parts of Europe, such as Frisian and Old Saxon. Contacts had been maintained between England and the Baltic territories. English missionaries had worked there, and King Alfred had employed scholars from the European mainland

during his cultural revival. A few words in West Saxon have been attributed to that influence, notably *macian* 'make'. And the Old English word for 'island', spelled as *iland* and in other ways, is probably Frisian in origin.

The transition to Middle English

We are lucky to have any evidence of Old English at all. Thousands of manuscripts were destroyed in the Viking invasions. As it is, the surviving material is not very great. Toronto University's *Dictionary of Old English* corpus shows that the entire body of Old English material from 600 to 1150 consists of only 3,037 texts (excluding manuscripts with minor variants), amounting to a mere three million words—not a great deal of data for a period in linguistic history extending over five centuries. A single prolific modern author easily exceeds this total: Charles Dickens's fiction, for example, amounts to over four million. The contrast with the Middle English period, where there is a plethora of texts, is striking.

'Middle English' is a difficult period to identify. Some people define it with reference to historical events, usually selecting the Norman invasion of 1066 as its starting point, and the beginning of the Tudor dynasty, the accession of Henry VII in 1485, as its close. Some use a mixture of literary, linguistic, and cultural criteria, starting with the earliest texts that show significant differences from Old English towards the end of the twelfth century, and finishing with Caxton's introduction of printing towards the end of the fifteenth (1476). Some take 1100 as the starting point; some leave it as late as 1200. But no one feels really comfortable with an identification in terms of boundary points. As the name 'Middle' suggests, we are dealing with a period of transition between two eras that each have stronger definition: Old English and Modern English. Before this period we encounter a language which is chiefly Old Germanic in its character—in its sounds, spellings, grammar, and vocabulary. After this period we have a language which displays a very different kind of structure, with major changes having taken place in each of these areas, many deriving from the influence of French.

However we define it, this period of roughly 300 years is remarkable for its textual fecundity. A huge amount of administrative ephemera built up during the late eleventh century and throughout the twelfth—records of apprenticeship, guild membership, and military conscription (muster rolls), records of assize courts and quarter sessions, enclosure awards, and parish registers. Manorial records, for example, listed such matters as land transfers within a manor, and the names and deaths of tenants. Occasional taxes, or subsidies, were collected by local assessors who kept detailed accounts on behalf of the Exchequer. It might be thought that the vast increase in documentation in Early Middle English is of little importance for the history of English, because they were almost entirely written in Latin. But this is to forget the importance of names—both of people and of places—which can provide a great deal of information about social and regional background. And it would in any case not be long before this documentation began to be written in English.

People often talk about a 'break' between Old and Middle English; but there was never any break. Although the pace of linguistic change between Anglo-Saxon and early medieval times does seem to have been quite rapid, it was still gradual, and we find texts which are amalgams of Old and Middle English and texts which fall 'midway' between Old and Middle English. The eleventh and twelfth centuries have a transitional character of their own. The continuity is mainly to be seen in texts of a religious, political, or administrative character, thousands of which have survived. Most of the surviving material in English is religious in character—about a third are collections of homilies. The writings of Ælfric, in particular, continued to be copied throughout the eleventh and twelfth centuries, and these overlap with sermons from the twelfth century that are very clearly in an early form of Middle English. A copy of the Old English Gospels (Bodleian MS Hatton 38), made in Christ Church, Canterbury, probably in the 1190s, has been called 'the last Old English text'. That is very much later than a manuscript which has been called 'the earliest Middle English text': the *Sermo in festis Sancti Marie uirginis* ('Homily for Feasts of the Blessed Virgin Mary'), a translation of a Latin sermon by Ralph d'Escures, who was Archbishop of Canterbury between 1114 and 1122.

The religious material is of great sociolinguistic significance. If Ælfric's work was still being copied or quoted as late as *c.*1200, this gives us the strongest of hints that the language had not moved so far from Old English as to be totally unintelligible. It is inconceivable that the huge labour involved in copying would have been undertaken if nobody had been able to understand them. On the other hand, we can sometimes sense a growing linguistic difficulty from some of the contemporary decision-making, as when the monks of Worcester requested William of Malmesbury to have the Old English life of Wulfstan translated into Latin—presumably because they found it easier. And sometimes there is a frank admission of failure. Around 1300 we find someone adding the following note in the margin of an Old English text: *non apreciatum propter ydioma incognita*—'not appreciated because unknown language'.

Middle English

Middle English is very different from Old English: it feels familiar. Although the earliest surviving writings in the period are only about a century after the latest writings in Old English, we sense that Middle English texts are very much closer to Modern English. By the time we get to Chaucer, in the fourteenth century, we can find many phrases and sentences which—if we modernize the spelling—look just like an archaic version of Modern English, as in these extracts from *The Reeve's Tale*:

How fares thy fair daughter and thy wife?
And John also, how now, what do ye here?

By contrast, as we saw above, most of the extracts from Old English give the impression of a totally different language, even when the old letters are replaced.

Familiarity is not just a linguistic matter. There is also a continuity of literary content between Middle and Modern English which had not existed previously. English readers today are aware of the subject matter of the Middle English period in a way that they are not in relation to Old English. Chaucer's *Canterbury Tales* have been constantly retold, as has Thomas Malory's account of King Arthur and the knights of the Round Table. Several modern Christmas carols are medieval in origin, and children still learn the verse mnemonic for the number of days in a month, first found in a fifteenth-century collection, albeit in a somewhat different form:

Thirty dayes hath November,
April, June, and September;
Of xxviii is but oon [one],
And all the remenaunt xxx and i.

The difference between Old and Middle English is primarily due to the linguistic changes that took place in grammar. Old English, as we have seen, was a language which contained a great deal of inflectional variation; Modern English has hardly any. And it is during the Middle English period that we see the eventual disappearance of most of the earlier inflections, and the increasing reliance on alternative means of expression, using word order and prepositional constructions rather than word endings to express meaning relationships. All areas of grammar were affected. Among the new kinds of construction were the progressive forms of the verb (as in *I am going*), and the range of auxiliary verbs (*I have seen, I didn't go*, etc). The infinitive form of a verb starts to be marked by the use of a particle (*to go, to jump*). A new form of expressing relationships such as possession appeared, using *of* (as in *the pages of a book*). In addition, as already noted, several new grammatical forms appeared through the influence of Old Norse.

Other areas of language were also affected. The pronunciation system underwent significant change. We see several consonants and vowels altering their values, and new contrastive units of sound ('phonemes') emerging. In particular, the distinction between the /f/ and /v/ consonants began to differentiate words (e.g. *grief* vs. *grieve*), as did that between /s/ and /z/ (e.g. *seal* vs. *zeal*). The *ng* sound at the end of a word also became contrastive (in Old English the *g* had always been sounded), so we now find such pairs as *sin* vs. *sing*. And at the very end of the period, all the long vowels underwent a series of changes. On top of all this, the way sounds were spelled altered throughout the period, as French scribes introduced their own spelling conventions, such as *ou* for *u* (*house*), *gh* for *h* (*night*), and *ch* for *c* (*church*).

THE INFLUENCE OF FRENCH

The French influence on English in the Middle Ages is second to none—a consequence of the dominance of French power in England and of French cultural pre-eminence in mainland Europe. As a separate tongue, French did not last long in England—by the time of Chaucer it was learned only as a foreign language—and English soon reasserted its position, being used at the opening of Parliament for the first time in 1362. But even though French died out as a language of everyday discourse (at least, by the aristocracy), its influence remained. When English once again came back into public use it had assimilated a great deal of the language which had previously been the medium of power.

By the end of the twelfth century people were already trying to use English to cope with the unfamiliar domains of expression introduced by the Normans. The pressure was growing to use English, but there was no suitable English to use. Writers could not rely on the vernacular varieties available from earlier times, such as had evolved to meet the needs of chronicle history and religion, because the ancient language was no longer in use: Old English had become Middle English. And in the case of the domains most affected by the Norman invaders, such as law, architecture, estate management, music, and literature, there was a new, francophone vision to be expressed. Here, an Anglo-Saxon perspective, with all its associated vocabulary and conceptualization, was irrelevant. People had no alternative but to develop new varieties of expression, adopting Continental models, and adapting traditional genres to cope with the French way of doing things.

The development of new domains of expression involves all aspects of language. A distinctive vocabulary is the most noticeable feature—clusters of words introduced to express sets of related concepts. In ecclesiastical architecture, for example, French architects in England adapted Continental sources for their cathedral designs, so that in due course the buildings are better described as Romanesque or Gothic rather than Early English. The associated specialist terminology needed to express this fundamental shift of vision was very large, covering everything from building tools to aesthetic abstractions. But the 'language of buildings' involves far more than vocabulary. New words from abroad bring new patterns of sound, so pronunciation changes. These pronunciations need to be written down, so new spellings appear. The character of phrases and sentences also changes, with the adoption of foreign compounds, idioms, formulaic expressions, and other multi-word constructions. And individual authors, schools, and genres influence general patterns of style.

A MULTILINGUAL CHARACTER

During the Middle Ages in Britain, educated English people were trilingual as a matter of course. English would have been their mother tongue. They would have learned Latin as the required language of the Church, the Roman Classics, most scholarship, and some politico-legal matters. And they would have found French essential both for routine administrative communication within Britain and

in order to be considered fashionable throughout Western European society. The twelfth-century Renaissance reinforced this situation: it affected all areas of knowledge, and new language emerged to express fresh thinking in such domains as theology, philosophy, logic, law, cosmology, medicine, and mathematics. A renewal of interest in the Classics and the nature of ancient learning increased the prestige of Latin; but other languages—notably, Arabic and Greek—also received fresh attention.

The trilingual situation would not last. As the Middle Ages progressed, we find English gradually making inroads into domains of discourse which had previously been the prerogative of Latin or French. Legal English, medical English, philosophical English, literary English, parliamentary English, and other varieties started to appear, and quite quickly evolved the distinctive and sophisticated styles of expression still used today. But in every domain the new vernacular displays the influence of its linguistic antecedents, and by the end of the Middle English period the Germanic element in the English vocabulary had been firmly put in the shade by a Romance and Italic lexical invasion of unprecedented proportions.

The combined influence of French and Latin—with French at the outset by far the more important—radically altered the character of the language. The impact was most noticeable in vocabulary, though all aspects of language were affected to some degree. Around the year 1000, non-Germanic words in English could be numbered in the hundreds; by 1500 the language had incorporated tens of thousands. The words entered English through both written and spoken mediums, and at various stylistic levels within each medium. Many loans were general in character, but some were informal, and others were technical. Large numbers of terms related to specialized domains, such as horse-riding, law, religion, politics, society, and culture.

French words began as a trickle and soon became a stream and then a flood. In the mid-twelfth-century *Peterborough Chronicle* we find only 29 new words, and they belong to just a few domains of discourse. There are religious words such as *cardinal* and *miracle*; words to do with social position such as *duc* 'duke' and *curt* 'court'; administrative words such as *canceler* 'chancellor' and *rent*; and general terms of law and politics such as *iustise* 'justice' and *pais* 'peace'. The numbers quickly increase. In a text probably written less than fifty years later, but with no manuscripts extant earlier than the early thirteenth century, we find nearly 250. This is *Ancrene Riwle* ('Anchorites' Rule'), also known as *Ancrene Wisse* ('Anchorites' Guide'), a lengthy work providing spiritual direction for a group of three female recluses. Of particular note is that the religious subject matter has motivated many specialized terms, such as *grace* and *scrowe* 'scroll'. There is a large increase in abstract words, especially to do with morality and behaviour, such as *chastete* 'chastity', *kurteisie* 'courtesy', and *largesse* 'generosity'. But there are also many everyday words, such as *avancen* 'advance', *broche* 'brooch', *cite* 'city', *flur* 'flower', *jurneie* 'journey', *manere* 'manner', and *tendre* 'tender'.

Middle English also saw a huge increase in the use of affixes (prefixes and suffixes). Excluding inflectional endings, there are just over 100 prefixes and suffixes available for use in everyday English, and at least one of these will be found in 40–50 per cent of all the words in the language. It is during Middle English that we find the first great flood of these affixed words, with French introducing such (Latin-derived) prefixes as *con-*, *de-*, *dis-*, *en-*, *ex-*, *pre-*, *pro-*, and *trans-*, and such suffixes as *-able*, *-ance/-ence*, *-ant/-ent*, *-ity*, *-ment*, and *-tion* (at the time usually spelled *-cion*). The suffixes were especially productive, as seen in the many words typified by *tournament*, *defendant*, *solemnity*, and *avoidance*. The *-tion* ending alone produced hundreds of creations, such as *damnation*, *contemplation*, and *suggestion*. Prefixes, as seen in *conjoin*, *disobedient*, and *enchant*, were important too, but not so widespread; we have to wait until the end of the Middle English period before we find a comparable explosion in their use.

Each of the major literary works of the Middle English period provides evidence of the way new French loans were continuing to arrive and older loans being consolidated. Some texts contain relatively few such words, and some contain many, but all texts have some. By the time we reach the opening lines of *The Canterbury Tales*, the French lexical content (italicized below) is a major linguistic feature:

> When that *Aprill* with his shoures soote
> The droghte of *March* hath *perced* to the roote,
> And bathed every veyne in swich *licour*
> Of which *vertu engendred* is the *flour* …
>
> [When April with its sweet showers has pierced the drought of March to the root, and bathed every vein in such liquid from which strength the flower is engendered]

It is difficult to be precise about the number of French words entering English during Middle English, because no dictionary has yet found it possible to take into account the lexical content of the thousands of manuscripts which exist, and many words and senses await identification. We also have to remember that some words which did arrive had a very short lifespan, often being used just once, or having a recorded history of only a few decades or centuries. But in order to assess the general impact of French on English we can nonetheless gain a great deal of relevant information by examining the earliest recorded instances of words contained in the unabridged *Oxford English Dictionary* (*OED*). Between 1250 and 1450 just over 27,000 words are identified as having a first recorded usage in at least one sense in a particular year, and (excluding the derived forms, such as *advisedly* from *advise*) around 22 per cent of these are words of French origin. The peak of borrowing was the last quarter of the fourteenth century, when over 2,500 French words are identified. By the end of the Middle English period we find that—regardless of exactly when the words came into the language, and including the derived forms—around 30 per cent of English vocabulary is French in origin.

The flow of French loanwords into English reduced during the fifteenth century, but the overall rate of foreign borrowing did not, because of the growing influence of Latin. Indeed, thanks chiefly to its role as the language of scholarship and science, Latin words would eventually have a much greater impact on English than French: today, just over 30,000 words (excluding derived forms) have French identified as part of their history in the *OED*; for Latin, the corresponding figure is over 50,000.

As the language of the Church, medieval scholarship, and early political administration, many of these are technical terms or part of a domain's standard nomenclature. Here is a representative sample from some of the chief domains. (In several cases, such as the names of many minerals, Latin is being used as a 'relay' language, re-expressing a term which was originally found in Greek.)

alchemy: dissolve, distillation, elixir, essence, ether, mercury

astronomy: ascension, comet, eccentric, equator, equinox, intercept

biology: asp, cicada, juniper, locust, lupin, pine

language and literacy: allegory, clause, index, neuter, scribe, simile

law: client, debenture, executor, gratis, legitimate, proviso

medicine: diaphragm, digit, dislocate, ligament, orbit, saliva

mineralogy: antimony, arsenic, chrysolite, garnet, lapis lazuli, mineral

religion: collect, diocese, lector, limbo, redemptor, psalm.

In literature a style developed in which authors attempted to emulate the great Classical writers, with intricate sentence patterns and erudite, euphonious vocabulary. The fifteenth-century poet John Lydgate described it as 'aureate'.

Although French and Latin were the major influences on English vocabulary in the Middle Ages, we must not forget that other foreign language sources also contributed to its growing lexical diversity. Scandinavian words had begun to surface in Middle English, as we have seen, and we also find a sprinkling of loanwords from other European languages. Contact with the Netherlands, both abroad and as a result of Flemish settlement by weavers and farmers in England and Wales, brought in some Dutch words from as early as the end of the thirteenth century—*poll* ('head') was one of the first, and later borrowings included *bounce*, *booze*, *dote*, *hobble*, *kit*, and *splint*. Maritime contacts brought in such words as *buoy*, *deck*, *hoist*, and *skipper*. Within the British Isles Celtic words continued to provide a small but steady trickle: Welsh *crag*, Irish *kern* (a type of foot soldier), Scottish Gaelic *clan*. And Celtic words arrived from the Continent, too: *gravel*, *lawn*, *truant*, and *vassal* are some of the Gaulish words which first entered French and thereby came into English.

French found itself in the position of being a relay language very often during the Middle Ages. In the Middle English period virtually all loanwords from languages other than French and Latin were French-mediated. These included words from the other Romance languages, such as *marmalade* from Portuguese, *cordwain* from Spanish, and *brigand* from Italian. *Sable* arrived from Russian. *Bible*, *character*, *horizon*, *tragedy*, and many others came from Greek. A large number came from the Middle East. From Arabic we find a virtual alphabet of forms, from *admiral* to *zenith*, and the distinctive *al-* forms begin to appear, as in *alchemy* and *almanac*. From Persian we find *azure* and *taffeta*, as well as several terms to do with the game of chess: *check*, *rook*, *checkmate*—and *chess* itself. It is not until the sixteenth century, following the growth in continental travel and trade, an increased awareness of European literature and the Italian Renaissance, and a renewed interest in Classical authors, that we find words from a range of other languages coming into English directly.

When we combine all these sources of vocabulary we begin to get a sense of the scale of the lexical change that had taken place during Middle English. At the end of the Old English period the size of the lexicon stood at something over 50,000 different words. Many words then fell out of use, but the rate of replacement was such that by the end of the Middle English period we see this total doubled; and the Early Modern English period would more than double it again. By 1450 something like half of the available word stock was non-Germanic. Thanks to the nature of English grammar, which continued to give a high profile to such words as *the*, *of*, *and*, and *have*, the fundamental Anglo-Saxon character of the language was maintained. And in vocabulary, too, if we were to order Middle English words in terms of their frequency of use, we would find that around half of the most commonly used words were from Old English.

The real importance of the Middle English period was the way in which this additional vocabulary became the primary means of introducing new concepts and new domains of discourse into the language, as well as giving novel ways of expression to familiar concepts within old domains of discourse. The period was offering people a much greater linguistic choice. In 1200 people could only *ask*; by 1500 they could *question* (from French) and *interrogate* (from Latin) as well. What could be done with such new-found linguistic opportunities? During Middle English we see the evolution of a language which is increasingly exploiting the potentialities of regional, social, and stylistic variation. At one extreme there was a learned, literary style, typically formal and elaborate, characterized by a lexicon of French and Latin origin, and employed by the aristocratic and well educated; at the other, there was an everyday, popular style, typically informal and casual, full of words with Germanic roots, and used by ordinary folk.

The poets of the period provide the clearest evidence of the growth in stylistic awareness taking place in Middle English. Chaucer is the primary source because his undisputed pre-eminence in portraying the range of his social milieu has a linguistic reflex in his ability to give so many language varieties of the time a literary presence. Although overlaid with stylistic features of a specifically poetic kind—notably, a remarkable creativity in the use

of different metres, verse forms, and rhetorical figures of speech—his characters, belonging to different classes, occupations, and regional backgrounds, come alive in a way that had not previously been seen in English. A little later the poets would be joined by Thomas Malory, whose Arthurian saga raised the level of achievement for narrative prose. And there would be the proliferation of mini-dramas in the play cycles of York, Wakefield, and elsewhere. It was an age, in short, when literary genres were maturing, becoming recognizable and imitable.

THE RISE OF STANDARD ENGLISH

Middle English illustrates an age when all dialects were equal, in the sense that the written language permitted the use of a wide range of variant forms, reflecting the regional backgrounds of the authors, all of which were acceptable. But without a standard to act as a guide, texts present a remarkable number of orthographic variations. A selection of spellings for *day*, for example, includes *dai*, *day*, *daye*, *dæi*, *deai*, *dey*, *dei*, and *dawe*. By 1400 a sense of communicative difficulty must have been present within the literate community. People were trying to work with a written language where variation had become so uncontrolled that words could be spelled in dozens of different ways. A scribe might write a form, and it would be impossible to say whether it was an intentional usage or a mistake. Things could not go on like this. People needed a standard.

The need grew during the fourteenth century, as English became the language of the nation and thus had to be used in a wide range of social settings throughout the country. And by this time a candidate dialect had evolved. The south-east, and in particular the east Midlands area with focal points in London, Oxford, and Cambridge, had become a region of special cultural influence. As a result, the speech of the south-east—or, at least, of those south-easterners in routine contact with the worlds of courtly culture, commerce, and learning—increased in prestige, and began to be evaluated as a more polished, elegant, and altogether more desirable medium of communication than the varieties available elsewhere.

Another indication of the need for a standard is the development of literacy. By the beginning of the fifteenth century the ability to read and write was no longer the province of an aristocratic and scholarly elite, but was becoming widespread among the new middle classes. Some 10 per cent of the male population could sign their names in 1500; this had doubled by 1550 (the corresponding figures for women were 1 and 5 per cent). Although verse was much more popular than prose, and courtly tales in particular, it was not only creative literature which was being read. Homes were acquiring manuscripts of many kinds, as well as producing their own in the form of letters, journals, and business papers. Religious literature was receiving a wide secular circulation. There were manuscripts dealing with medicine, domestic affairs, and pastimes. Ballads, folktales, and secular lyrics were popular. So too were histories, reports of current affairs, and accounts of exotic travel abroad. Educational resources proliferated, such as dictionaries, grammars (of Latin and French), reading primers, and alphabet books. And once printing arrived, in 1476, the availability of home reading material, from Bibles to epic romances, greatly increased. Printing exposed people, far more than had been possible previously, to writing whose source lay outside their locality. The climate needed for the emergence of a standard variety of the language was slowly being formed.

For the basis of a standard language to have emerged so quickly during the fifteenth century, its roots must already have been present in a broad cross-section of society. There must have been a growing sense of shared usage, as individual scribes with different backgrounds came into contact with each other. Language change then will have been no different from language change now, and today sociolinguists have repeatedly drawn attention to the important role social networks play in fostering the diffusion of features throughout a community. Norms quickly grow when a social network is dense—that is, when many people interact regularly and frequently—and the network to which scriveners belonged in fifteenth-century London was, by all accounts, of great density. Large numbers of people were involved in literary activities in the city area.

Individuals belong to more than one network; and literary authors perhaps more than most. When it comes to discussing the sources of influence upon the development of the standard language, it makes no sense to draw sharp dividing lines around the concept of 'literature'. If we wish, we may talk about Chaucer having an influence on the development of the language; but if we do so we must remember that Chaucer was not only a poet, he was also a civil servant—first as a controller of customs in the port of London, later as a clerk of the king's works—as well as a soldier, diplomat, intelligence officer, and parliamentarian. And the same point applies to any of the clusters of scriveners who worked together in those days. If we identify one group as being potentially of great significance, as in the case of the clerks of Chancery, we must not forget that several other groups were also influential. The teaching institutions, in particular, must have been important—the big London grammar schools and convents. Chancery writers would have mixed with teachers, clerics, merchants, and lawyers from the Inns of Court, along with the clerks who worked for them, and been familiar with current linguistic trends.

The influence of the capital made itself increasingly felt throughout the country, through the medium of English. The amount of written record-keeping and correspondence to support a national administrative framework was enormous, especially after the thirteenth century, when the making of copies of important documents became routine. Written material emanating from the civil service, law offices, ecclesiastical bodies, and business centres always operates with a rather special cachet. It is likely to be important and authoritative, and the language in

which it is written will be formal. In the fifteenth century most such missives would have originated in London, and whatever linguistic norms were developing there would have been slowly but persistently transmitted around the country. All regions would have been exposed to them, and this would have been the first contact most people had with a written English from outside of their own locality.

By the end of the Middle English period there had been a fundamental change in the literary and linguistic climate in England. There was also a greater consciousness about the nature of English. One consequence was a growing sense that English was not as 'good' as French and Latin, and needed to be improved—a mindset which became a dominant theme of the sixteenth century. And in due course it was the massive borrowing of vocabulary from French which became the chief butt of criticism. The arrival of loanwords may have made the language elegant, in the eyes and ears of some, but it also made it alien. This difference of opinion came to the surface in the sixteenth century, when, for the first time, we see fashion exercising a real influence on the developing standard.

Early Modern English

The linguistic jump from Middle English to Modern English is too great to make in one step, and for this reason scholars have identified a transitional period which usually goes under the name of Early Modern English. It is fairly easy to assign a conventional date to the beginning of this period; less easy to say when it ends. The introduction of the printing press into England is an event of acknowledged significance, and several accounts recognize 1476 for a starting point. Others opt for an earlier onset, such as the death of Chaucer (1400) or the century midpoint (1450); and some a later one, attracted by the nicely rounded appeal of 1500. Candidates for the end point have been even more various, offering the date of the first declaration of American independence (1776), the date of publication of Dr Johnson's *Dictionary* (1755) or some other significant literary work of the time, or the century midpoint (1750). 1700 has appealed to some, as has 1800. A few writers avoid precise dates altogether, preferring a less specific time reference, such as 'fifteenth to eighteenth century', a historical notion such as 'Renaissance English', or a descriptive statement such as 'English from Caxton to Johnson'.

The common focus for the end of the period is evidently the eighteenth century, and from a strictly linguistic point of view it is indeed possible to sense a qualitative difference between 1700 (which plainly is within the Early Modern English period) and 1800 (which plainly is not). The spelling, punctuation, grammar, and vocabulary of Jane Austen or William Hazlitt are appreciably closer to Modern English than is the language of John Dryden or Jonathan Swift. But more important than the structural changes which were taking place in English at the time are the changes in attitude towards the language, in particular the emergence of an explicit prescriptivism midway through what has been called the 'century of manners', and the clear recognition, as a consequence, of what a 'correct English' should be. Publications such as Bishop Robert Lowth's *Short Introduction to English Grammar* (1762) and John Walker's *Pronouncing Dictionary of English* (1774), along with Johnson's *Dictionary* (1755), identify a two-decade period which, sociolinguistically speaking, was a defining moment, after which things were never the same again.

The Early Modern English period is essentially an age of linguistic awareness and anxiety, in which Caxton's writing represents a dawning appreciation that the language is in a mess and needs sorting out, and the rise of the prescriptive movement represents the feeling that the matter is about to be satisfactorily resolved. It was during the sixteenth century that anxiety levels about the nature of the English language rose noticeably. People began to 'notice' the language, and many did not like what they saw. Printers, spelling reformers, and biblical translators were uncertain and confused, both about the state of the language and about the direction in which it seemed to be moving. But the malaise was general, attracting comment from writers of diverse backgrounds. Everyone, whether expert in linguistic matters or not, felt entitled to have an opinion—as indeed they still do today.

The most general worry in the early part of the period was whether English could really carry out the range of communicative functions that French and Latin had previously performed. As early as Caxton's time we find it routine to comment about English being 'symple and rude', whereas French would be described as 'fayr', and although these comments were usually conventional, self-effacing expressions, they helped to inculcate a mindset that the language was inferior. The solution to the problem seemed straightforward. If languages like French and Latin were superior to English, then English would automatically improve its quality by adopting their properties, such as their vocabulary, balanced sentence construction, and features of rhetoric. As early as 1531 we find the writer and diplomat Sir Thomas Elyot (in *The boke named the Gouernour*) commending 'the necessary augmentation of our language', pointing out that once people started using 'strange and darke' words they would soon become 'facile to vnderstande'.

Latin was the chief source of new words. There had been a steady trickle of Latin borrowings into English throughout the Middle English period, but during the fifteenth century their number greatly increased, and in the sixteenth century they became so numerous, along with words from Greek, that the character of the English lexicon was permanently altered. The linguistic development reflected a cultural and cognitive shift. The period from the time of Caxton until around 1650 was later to be called the 'Renaissance'. It included not only a 'rebirth of learning', in the sense of a renewal of connection with classical languages, literatures, and the arts, but also a rethinking of religious and scientific values, as seen in the

Reformation and the discoveries of Copernicus, as well as an expansion of global horizons through the European explorations of Africa, the Americas, and the Far East. There were few words in English to talk precisely about the new perspectives, concepts, techniques, and products which were being seen in Europe or further afield; but the classical languages, increasingly encountered through translations, presented a solution, offering hundreds of Latin and Greek words which could be readily adapted. Writers such as Elyot went out of their way to 'enrich' the language with classically derived words, to enable the new learning to become accessible to the English public.

New varieties of discourse developed as English took over the range of functions previously performed by French and Latin. Legal, scientific, religious, educational, medical, and other 'institutions' developed their distinctive modalities of expression. The 'language of law' is one domain which had begun to develop its own stylistic norms during Middle English, and parallel developments were taking place elsewhere. The glossaries compiled by translators show the range of specialist usage which was emerging, in such fields as alchemy, architecture, fencing, grammar, heraldry, hunting, navigation, and military science. From anatomy, biology, and medicine, for example, we find *larynx*, *pancreas*, *pneumonia*, *skeleton*, *tibia*, and *virus*. Borrowings greatly facilitate stylistic differentiation because they provide synonyms with different sense associations and tonal resonances. Although *hearing* (from the early twelfth century) and *audition* (first recorded use, 1599) basically mean the same thing, the later word came to be used in more intellectual and scientific settings, and developed a greater formality of tone and eventually a distinctive range of meanings.

It is difficult to be definite about the rate at which the neologisms came into Early Modern English. Traditional linguistic indices, such as the *OED*, are only a partial guide because some periods have been covered more thoroughly than others, and a literary bias privileges the later part of the period, when authors such as Spenser, Shakespeare, and Jonson began to write. There is no doubt, however, that this was an age of particularly rapid vocabulary growth, and that Latin was the dominant source: about two-thirds of all borrowing at the time was from that language—a momentum which continued until late in the seventeenth century, when still a third of all borrowing was from Latin. Latin was also the means of entry for many words which ultimately came from Greek. A huge number of words from these two languages entered the general vocabulary, as this short selection illustrates:

> absurdity, adapt, appropriate, benefit, chaos, commemorate, crisis, disability, encyclopedia, exaggerate, fact, habitual, immediate, invitation, malignant, offensive, official, relaxation, relevant, skeleton, species, susceptible, temperature, vacuum.

The presence of suffixes should be noted, and of some suffixes in particular. For example, two-thirds of all verbs which came into the language at the time ended in *-ate*, as did many adjectives.

Elyot had described the classical words as 'strange and darke', and it was precisely those properties which made them appeal to many writers and speakers. But others strongly objected to them, calling them *inkhorn* ('inkpot') terms. In the fifteenth century other words had been used to describe classical borrowings, such as 'ornate' and 'aureate', but the phrase 'inkhorn terms' seemed to appeal more to the imagination, in its scornful suggestion that the words were lengthy and therefore used up more ink. Some people condemned all borrowings, and demanded their removal. Sir John Cheke, for example, writes in a letter (1557):

> I am of the opinion that our tung shold be written cleane and pure, vnmixt and vnmangeled with borowing of other tunges.

He would have been unable to achieve the desired purity even in his own writing. In this sentence alone Cheke used four words of Latin or French origin: *opinion*, *mix*, *mangle*, and *pure*.

In the inkhorn debate both sides won: many Latinate words stayed, and many disappeared. A little-understood system of checks and balances operates in language, as the centrifugal forces which introduce variation and change compete with the centripetal forces which keep people communicating with each other, and we can see it operating in Early Modern English. Over a third of all neologisms which entered the language at that time are not recorded after 1700. They include:

> accersite ('summon'), cohibit ('restrain'), deruncinate ('weed'), dominicall ('lordly'), eximious ('excellent'), suppeditate ('supply').

It remains a lexicological puzzle why some words were accepted and some rejected. Both *impede* and *expede* were introduced during the period, as well as *disabuse* and *disadorn*, but in each of these pairs the first item stayed in the language and the second did not. We do not know how to account for this linguistic 'survival of the fittest'.

As the century progressed, more balanced views began to appear, along with defences of the increasingly mixed character of the language. The matter was put into its historical perspective by William Harrison, in *Description of Britaine* (1587). In Chapter 6, 'Of the languages spoken in this Iland', he sums up the contemporary situation: 'Ours is a meane ['in-between'] language, and neither too rough nor too smooth in vtterance.'

By the end of the century it was widely held that the language had succeeded in making good its deficiencies. Handbooks of rhetoric, modelled on Latin, had shown how English could be made more ornate, and a literature of impressive poetry and drama was accumulating in the work of Shakespeare and his contemporaries. A principle of decorum was widely advocated, characterized by such properties as proportion, harmony, brevity, order, naturalness, and vitality. As a result, a sharper sense of stylistic differentiation emerged. The prestige of the south-east of England was now undisputed. As William Harrison put it, 'This excellencie of the English toong is found in one, and the south part of this Iland.'

A clear sense of a southern standard now existed in people's minds. And during the sixteenth century the use of regional dialect for the literary expression of serious subject matter went into a long period of hibernation.

WIDENING HORIZONS

Latin and Greek were not the only sources of loanwords in the sixteenth century. The Renaissance brought a widening of horizons—indeed, English horizons had never reached so far or in so many directions. Words were introduced from all the major European languages. French continued to be a source of supply, either directly or as a 'relay' language, channelling words from further afield, such as *anatomy, detail, equip, passport, ticket,* and *volunteer*. Words which came from or via Italian include *argosy, balcony, carnival, concerto, grotto, lottery, macaroni, opera, sonnet, soprano, stanza,* and *volcano*. And there were many from or via Spanish and Portuguese, such as *alligator, armada, banana, cannibal, canoe, cocoa, guitar, mosquito, mulatto, negro, potato, sherry, sombrero,* and *tobacco*. In this last list many of the words ultimately come from South or Central American Indian languages: *canoe* and *potato*, for example, are from the Caribbean languages Carib and Taino via Spanish.

The atmosphere of global exploration is unmistakable. By 1600 there had been plenty of time for words to arrive via Spanish or Portuguese: the first voyages of Columbus and Cabot had been a century before, in 1492 and 1497. Direct loans into English, however, had to wait for the first English settlement. The first expedition from Britain to Virginia was not until 1587, and it took another twenty years before there was a permanent English presence. Even so, that initial contact introduced a few words from North American Indian languages; the first records of *skunk, cashaw* (a squash), and *manitou* (a deity) are 1588. After 1607 we find a number of other Algonquian words, such as *totem, moose, opossum, tomahawk, caribou,* and *moccasin*.

The explorations on the other side of the world likewise brought in new vocabulary from several languages, in some cases expanding the presence of a language source known from earlier times. Quite a few Arabic words, for example, had come into Middle English, especially reflecting scientific notions, but in the sixteenth century there is a significant expansion, reflecting the contacts with North Africa and the Middle East. In many cases, the Arabic words enter English through another language: *assassin*, for example, is ultimately from Arabic *hashshashin* 'hashish-eaters', but came to English via Italian *assassino*. The new words generally reflect an encounter with the various aspects of culture and religion, as in *alcove, civet, emir, fakir, harem, hashish, hegira, jar, magazine, mameluke, muezzin, sheikh, sherbet, sofa,* and *tariff*. Other countries of the region also became a lexical source, sometimes directly, sometimes via another European language or Latin. Such cases include:

> coffee, horde, janissary, kaftan, kiosk, koumiss, pasha, vizier, yogurt (*Turkish*)
>
> hallelujah, midrash, mishna, sanhedrin, shekel, shibboleth, torah (*Hebrew*)
>
> bazaar, caravan, cummerbund, dervish, divan, lascar, shah, turban (*Persian*).

The British East India Company was established in India in 1600, and travel to the region greatly increased. From the north of the Indian subcontinent, where Indo-European languages are spoken, such as Hindi, we accordingly find such seventeenth-century words as *bungalow, chintz, cot, dungaree, guru, juggernaut, punch* (the drink), *pundit, rupee,* and *sahib*. And from the south, where Dravidian languages are spoken, such as Tamil, we find such words as *atoll, calico, catamaran, cheroot, copra, curry, mango, pariah,* and *teak*. In the Far East, Tibetan, Malay, Chinese, Japanese, and other languages all began to supply new items, such as *bamboo, cockatoo, gingham, ginseng, ketchup, kimono, lama, lychee, sago,* and *shogun*. The African connection, via the Portuguese or French, was less productive. It did bring a few English loans by the end of the sixteenth century, such as *yam* and *banana*, and during the following century we find a few more, such as *harmattan* and *zebra*. But significant borrowing from African languages does not take place until the 'scramble for Africa' in the nineteenth century.

Although processes of word formation had been much used in previous stages of the language, they were particularly active between 1500 and 1700, accounting for almost a half of all new words. Suffixation was the primary means employed, chiefly in the formation of new nouns and adjectives (e.g. *-ness, -er, -tion, -ment, -ship*), but also helping to form verbs (notably with *-ize*) and adverbs (with *-ly*). The *-ness* and *-er* endings (the latter in various senses) were especially popular, appearing in about half of all the new nouns (e.g. *delightfulness, bawdiness, togetherness; caterer, villager, disclaimer*). The literary authors of the period massively exploited the expressive potential of affixation and compounding. Moreover, affixes were used to coin words even if a perfectly satisfactory word for the same concept already existed, as in the case of *immenseness* (1610) alongside *immensity* (1450), and *delicateness* (1530) alongside *delicacy* (1374). Usually, in such competitions, the earlier form won; but the naturalness of the *-ness* ending still surfaces today: in casual speech, we occasionally hear non-standard forms such as *immediateness* and *immenseness*.

The Early Middle English period is still at an early stage of investigation, compared with Middle English, but it was a period of particular significance, especially in the creation of English vocabulary. The indications are that about four times as many words were introduced between 1500 and 1700 as between 1200 and 1500. The increase is partly a function of the greater number and survivability of texts, as a result of printing: nearly 160,000 early printed titles are listed in the standard catalogues of the period. But it is also a matter of authorial inventiveness, for the late sixteenth and early seventeenth centuries contain some of the most lexically creative authors in English literature. After their attentions, the language emerges with a new and confident character. And several

basic linguistic notions—such as dialect, variety, and style—would come to be viewed in a fresh light at the end of the literary 'golden age'.

Whatever the feelings writers expressed about the inferiority of English compared to other languages at the beginning of the sixteenth century, these had largely disappeared by the end. During the Early Modern English period the English lexicon grew from around 100,000 to over 200,000 items. (It would double again, during the eighteenth and nineteenth centuries, as a result of the Industrial Revolution and scientific progress.) The classical origins of much of the new vocabulary sharpened writers' sense of style, widening the range of choices which were available to characterize 'high' and 'low' levels of discourse, and offering the option of intermediate levels. Professional domains, such as science, law, and medicine, developed their expressive capabilities, becoming increasingly standardized. And standardization within the language as a whole made significant progress. All this was reinforced by an increased awareness of the nature of language and of linguistic performance, as seen in such treatises as Philip Sidney's *Defence of Poesie* (1595). The language was undoubtedly richer, in quantitative terms, than it had ever been.

The Elizabethan age had given the language literary eminence, and authors such as Shakespeare, Marston, Nashe, and Spenser created thousands of new words in the process. The Shakespearean ones, such as *assassination* and *incardinate*, are often referred to—there are some 1,700 of them. The other authors are less often illustrated. About 500 or so words have a first recorded use in Spenser, for example. Among those which entered the language are *amenable, baneful, blandishment, chirruping, cheerless, dismay, heart-piercing, heedless, indignant, jovial, lambkin, lawlessness, life-blood, suffused, tambourine,* and *thrilling*. He had a great liking for new adjectives in *-ful*, adding it to verbs as well as the more usual nouns, but hardly any survived:

> adviceful, avengeful, baneful, chanceful, choiceful, corruptful, deviceful, discordful, dislikeful, dueful, dureful, entreatful, gazeful, grudgeful, groanful, listful, mazeful, rewardful, sdeignful, senseful, spoilful, toilful, tradeful, tuneful, vauntful, wreckful.

Spenser is a good example of how an individual author's stylistic preferences do not always have a permanent effect on a language. There can be a big gap between what an author wants to say and what the community thinks is routinely worth saying.

ATTEMPTS AT CONTROL

Today we celebrate the lexical expansion and innovation of the Early Modern English period, but as that period came to a close the opposite opinion was widely expressed. Many people felt that the language was out of control and was descending into chaos. The statesman Philip Stanhope, Earl of Chesterfield, for example, wrote in 1754: 'It must be owned that our language is at present in a state of anarchy.'

And Samuel Johnson, in the Preface to his *Dictionary* (1755) concurred:

> When I took the first survey of my undertaking, I found our speech copious without order, and energetick without rules: wherever I turned my view, there was perplexity to be disentangled, and confusion to be regulated; choice was to be made out of boundless variety, without any established principle of selection.

This impression was partly a reflection of population growth. At the end of the Early Modern English period there was a remarkable doubling of the population of England. From about 2.5 million in 1550, we see a rise to some 5 million by 1650, and a further significant increase to about 6 million by 1700. Immigration to London continued, so that by 1650 the number of people living in the capital had reached 400,000, and 575,000 by 1700, making it the largest city in Western Europe. But more dramatic than this was the rise in urban growth which was beginning to take place outside London. It is in the Hanoverian era (after 1714) that we encounter the rise of cities in Central Scotland and South Wales, the ports of Liverpool, Bristol, and Glasgow, the manufacturing centres of Birmingham, Leeds, and Manchester, and the leisure resorts of Bath, Scarborough, and Brighton. Nor should we forget Ireland, part of Britain at the time: in the seventeenth century Dublin was the second largest city in the British Isles.

Population growth has obvious implications for language. As social groups grow within a township, subgroups proliferate, based on geography, social structure, and social networks. Notions such as 'East End', 'south of the river', and 'well-to-do area' become current. *Ghetto* is first recorded in 1611, with reference to the Jewish quarter of a city; *suburban* in 1625. Differences between townships become more marked, and more noticeable, as people move more about the country and encounter how 'other people' live. In the 1700s we see improved roads and methods of transportation significantly reducing travel times, and increasing the number of journeys.

Britain had never seen such an increase in the numbers of regional speakers as took place in the seventeenth and eighteenth centuries. We might interpret this as a sign of linguistic vitality; but what one person sees as an enriching diversity another person sees as a divisive fragmentation. To the observers of the time, such as Swift and Chesterfield, this was further evidence that the language was headed for disaster.

It was not just the increase in numbers which was significant; it was the increase in the social character of those numbers. These were not all rustics. They were businessmen, merchants, and industrialists, an increasingly powerful sector of society, whose numbers would be further swelled as the Industrial Revolution progressed. They were also an increasingly literate section of society: by 1700 nearly half of the male population and a quarter of the female population of England were able to read and write. And they were an increasingly genteel section of society. The growth of the gentry, a class below the

peerage, had been one of the most important developments of the late Middle Ages, and it became a major feature of seventeenth- and eighteenth-century life.

Books of etiquette, conduct guides, and courtesy manuals came to be written, defining gentility. In an era where there is so much emphasis on social hierarchy as part of a stable state, degrees in society become especially important, and social ranks need to be recognized, otherwise they cease to have any value. Far more is involved than being able to demonstrate status through possessions—housing, gardens, furnishing. In the seventeenth century we find special attention being paid to codes of appearance, notably in dress, hairstyle, and body decoration, and in all aspects of behaviour, especially language. There are several words which capture the spirit of the age—'polish', 'refinement', 'propriety', and 'manners'; but the most important watchword for behaviour was 'politeness', recorded in this sense in 1702. 'Polite language' would be a use of English which was widely intelligible and acceptable—polished, elegant, correct. It was the correctness which was the ultimate guarantor of its politeness. 'Every polite tongue has its own rules', affirmed the grammarian Lindley Murray. And it was the job of the grammarians, lexicographers, pronunciation analysts, and usage stylists to make sure that these rules were known, appreciated, and followed.

At the end of the seventeenth century a rigorous approach was perceived to be the only remedy for the 'disease' which was thought to have infected the language. No writers had proved to be immune, no matter how great. Johnson, in his *Dictionary*, focused on the need to institutionalize the lexicon of the standard language. 'I have laboured', he says in *The Rambler*, 'to refine our language to grammatical purity, and to clear it from colloquial barbarisms, licentious idioms, and irregular combinations'. But it was in three other areas that prescriptive opinion was most apparent: in pronunciation, spelling, and grammar. These three domains are central to the definition of a standard language because, as distinct from vocabulary, they are finite and highly rule-governed. There are only so many sounds and letters, and the ways in which they combine to produce syllables and words, although intricate, are limited. Likewise, there are only so many ways in which words vary their grammatical shape, and only so many ways in which they are arranged into sentences. If people are to be persuaded about the value of a standard variety of English, little progress will be made by concentrating on individual words which, by their nature, are only occasionally encountered. It is much better to draw attention to problems which turn up on every page and in every conversation. If standard English is to be a badge of politeness or education, then people need to be able to show it continually in their writing and speech. And that means showing it in spelling, in pronunciation, and in grammar.

Of the three, in the eighteenth century, it was grammar that was considered to be the most powerful means of drawing attention to the importance of linguistic standards. The half-century between 1750 and 1800 saw more English grammars published than in the whole of the previous two centuries. All played their part in fostering a new attitude towards grammar, which in the twentieth century would come to be called the prescriptive or normative approach, because of the way it formulated rules defining what was to count as correct and incorrect usage. One of these grammars had particular influence: Lindley Murray's *English Grammar* of 1795. It became the second best-selling work (after Noah Webster's spelling book) in the English-speaking world, selling over 20 million copies, even more popular in the United States than in Britain, and translated into many languages. Twentieth-century school grammars—at least, until the 1960s—would all trace their ancestry back to Murray.

It took time to build up the accumulation of rules which defined 'correct' grammatical usage. Some of these rules pre-date Murray—such as Dryden's concern about never ending a sentence with a preposition (*That is the man I was talking to*). Some of the rules most widely debated today post-date Murray, such as the one which says it is wrong to split an infinitive by inserting an adverb between the *to* and the verb—to say *I want to really understand what they are saying* rather than *I want really to understand what they are saying* or *I want to understand really what they are saying*. If we count them all up, they do not amount to very many—a few dozen points only, which forms a very small part of the grammar of English. Yet, despite their paucity, the set of rules which comprised the prescriptive element in English grammar proved to be immensely powerful as class discriminators, and by the early nineteenth century they were unquestioned as indicators—along with the rules of the spelling system—of a standard variety of the language. From then on, to speak or write Standard English meant primarily to spell it according to the norms, and to construct sentences according to the norms.

INCREASING DIVERSITY

When might we say with confidence that a standard variety of English arrived? The end of the eighteenth century is usually cited, when influential dictionaries, grammars, and pronunciation manuals had 'institutionalized' the variety, and it had begun to be taught routinely in schools. By then a process of standardization had resulted in a variety whose character was represented throughout the country. The books and teaching were initially influential in America too. For just a few brief decades the English-speaking world—from about 1760 to 1800—was more unified in the way it was taught spelling, grammar, and vocabulary than it had ever been before.

But Standard English, conceived as a uniform mode of linguistic behaviour uniting English speakers everywhere, began to fragment almost as soon as it had appeared. While Johnson, Murray, Walker, and the other prescriptivists were busy inserting the remaining bars into a cage which they thought would keep English under proper control in Britain, on the other side of the Atlantic the cage door was about to be opened by Noah Webster,

who was proposing a different set of linguistic norms for American English. Webster saw the arrival of American independence in 1776 as an opportunity to get rid of the linguistic influence of Britain. The new nation needed new language—rationalized and refined as British English had been, but with a fresh identity. In his *Dissertations on the English Language* (1789) he therefore proposed the institution of an 'American standard'. It was hardly possible, he reasoned, for British English to continue to be the model for the American people. It was a matter of honour, he affirmed, 'as an independent nation ... to have a system of our own, in language as well as government'.

As English began its journey around the globe the same pressures of identity which had promoted a standard variety in England began to operate again, except now they operated in different directions. American English, as it soon came to be called, was the first major variety of English to emerge outside of the British Isles, and it was soon followed by others. During the late eighteenth and early nineteenth centuries the geographical horizons of the language steadily expanded as the British Empire grew. To the dialect situation within the British Isles and the USA was now added the foundation of other varieties, as English began to be adapted to meet the communicative demands of new locations. Nothing happened overnight. The power-brokers who took the language around the world—the governors, officers, diplomats, senior civil servants, schoolteachers, missionaries, and their entourages—initially worked through the medium of standard British English, and in many parts of the English-speaking world, 200 years on, still do. But within fifty years of Johnson's *Dictionary* it was possible to see the language adapting in several different directions at once as it came to be taken up by people in the new imperial dominions. The process of expansion would continue throughout the nineteenth century and beyond.

It does not take long for a language to show the effect of being in a new location, when we are dealing with such dramatically different parts of the world as India, West Africa, and Australia. A country's biogeographical uniqueness will generate potentially large numbers of new words for animals, fish, birds, insects, plants, trees, rocks, and rivers. There will be words for foodstuffs, drinks, medicines, drugs, and the practices associated with eating, healthcare, disease, and death. The country's mythology and religion, and practices in astronomy and astrology, will bring forth new names for personalities, beliefs, and rituals. The country's oral and perhaps also written literature will give rise to distinctive names in sagas, poems, oratory, and folktales. There will be a body of local laws and customs, with their own terminology. The culture will have its own technology with its own technical terms—such as for vehicles, house-building, weapons, clothing, ornaments, and musical instruments. The whole world of leisure and the arts will have a linguistic dimension—names of dances, musical styles, games, sports—as will distinctiveness in body appearance (such as hairstyles, tattoos, decoration). Virtually any aspect of social structure can generate complex naming systems—local government, family relationships, clubs and societies. A regionally distinctive English vocabulary involving thousands of items can emerge within just a few years.

As the eighteenth century reached its close English had either been established, or was about to be established, in many regions outside the British Isles and the United States: the Caribbean, Canada, Australia, South Asia, South Africa, West Africa, South-east Asia, and the South Pacific. In each case, a distinctive variety (more accurately, group of varieties) began to emerge, identified chiefly through pronunciation and vocabulary, and some areas would develop norms of educated usage which would eventually attract the designation of 'regional standard'. In the earliest literature of these regions, sparse though it often is, we can see both a backwards-looking and a forwards-looking identity. People who have arrived in a new territory remember their roots, and often incorporate a dialectal dimension into what they write. At the same time they are looking towards a new future for themselves, and their language begins to be shaped by fresh forces.

During the later part of the nineteenth century further expansion took place as British and American colonial interests grew, notably in East Africa and the Pacific. Under the former heading we find the presence of British English in Kenya, Tanzania (formerly Tanganyika and Zanzibar), Uganda, Malawi (formerly Nyasaland), Zambia (formerly Northern Rhodesia) and Zimbabwe (formerly Southern Rhodesia). Under the latter heading we find American English introduced (after the Spanish–American War of 1898) into the Philippines, Guam, and Hawaii, as well as into Puerto Rico in the Caribbean. By the end of the nineteenth century nearly a quarter of the Earth's landmass was part of the British Empire, containing a population of over 400 million.

Modern English

During the nineteenth century processes of linguistic change continued to operate in pronunciation, grammar, and vocabulary, and imperceptibly Early Modern English became Modern English. The changes affected all aspects of English structure. As always, the most noticeable sign of change is in vocabulary, which in this period reflected the multiple social, scientific, technological, and economic developments that cumulatively made up the Industrial Revolution. By 1800 Britain had become the world's leading industrial and trading nation. Most of the innovations of the Industrial Revolution were of British origin: the harnessing of coal, water, and steam to drive heavy machinery; the development of new materials, techniques, and equipment in a wide range of manufacturing industries; and the emergence of new means of transportation. The chief growth areas, in textiles and mining, were producing a range of manufactured goods for export which led to Britain being called the 'workshop of the world'.

The linguistic consequences of this achievement were far-reaching. The new terminology of technological and scientific advance had an immediate impact on the language, adding tens of thousands of words to the English lexicon. Indeed, 'hundreds of thousands' is a better way of expressing this approximation. The bulk of Modern English vocabulary lies in its scientific and technological nomenclature, and most of this arrived during and after the Industrial Revolution. From an examination of any modern professional scientific work in, say, botany, medicine, or chemistry, it is obvious that we are dealing with an unprecedented increase in the size of the English lexicon, which continued into the twentieth century as specialized domains proliferated.

Borrowings from Greek and Latin continued to perform the role they had been assigned in Renaissance English, introducing a large number of forms to science and scholarship, such as *bacillus*, *influenza*, *nickel*, and *rhizome*. More important than borrowing, however, was compounding. Most of the terminological 'monsters' of modern science arise from the stringing together of separate roots—in chemistry, for example:

chlorofluorocarbon	(chloro+fluoro+carbon)
benzoylnitroacetanilide	(benzoyl+nitro+acet+anilide).

The words that tend to get into the record books are usually from chemistry: the full name for *deoxyribonucleic acid* (DNA), cited as the longest scientific name by the *Guinness Book of Records*, contains 16,569 elements. Rather more usual are compounds of just two or three elements, sometimes printed solid or hyphenated:

> agoraphobia, crankshaft, daisywheel, kleptomania, radio-isotope, steady-state, turboprop, wavelength

and sometimes spaced:

> ammonium chloride, atomic mass unit, bar code, central nervous system, Parkinson's disease, shock absorber, signal-to-noise ratio.

Affixation was also important, using both prefixes and suffixes. Scientific and technical vocabulary of course continued to use everyday prefixes, such as *pre-*, *dis-*, *un-*, and *co-*, and suffixes such as *-al*, *-ful*, *-ous*, and *-less*, but several prefixes were of special scientific relevance:

> *numerical prefixes*, such as bi-, di-, mono-, multi-, poly-, semi-, tri-, uni-
>
> *metrical prefixes*: micro-, nano-, pico-, femto-, atto-, mega-, giga-, tera-
>
> *orientation prefixes*, such as anti-, auto-, contra-, counter-, pro-.

Different domains had their 'favourite' suffixes, as can be seen from the following selections of terms:

> *geology*: Pliocene, Miocene, Jurassic, Triassic, Silurian, Cambrian, Cretaceous, Carboniferous
>
> *botany*: mesocarp, pericarp; fusiform, napiform; anterhozoid, spermatozoid; bacterium, sporangium
>
> *chemistry*: acetylene, benzene; oxalic, acetic; methane, alkane; ethanol, alcohol; chromium, sodium; chlorine, fluorine; nitrate, sulphate.

Abbreviation has also grown in importance, as we enter the age of modern science. Indeed, abbreviated forms are now so many and varied that their study has evolved its own nomenclature:

> *initialisms or alphabetisms* (spoken as individual letters): BBC, DJ, GM, EU, USA
>
> *acronyms* (initialisms pronounced as single words): NATO, UNESCO, laser, radar
>
> *clippings* (part of a word serves as the whole): ad, demo, flu, fridge, max, phone, pub
>
> *blends* (a word made from two shortened forms): brunch, heliport, infotainment, motel, Muppet (marionette+puppet), Oxbridge, smog.

Everyday usage has employed all these processes, of course, and extended them in various ways. Borrowing has continued from an increasingly diverse range of languages, following the spread of English around the world. Over 350 languages are identified as sources for the present-day lexicon in the *OED*, and the arrival of English in a country where there are many contact languages (over 400 in Nigeria, 10 other official languages in South Africa) immediately increases the rate of lexical borrowing in those countries. Only a small proportion of these words actually end up in standard English, in its British or American incarnations, but they are nonetheless a significant element in the lexical mix. For example, the following words appear towards the beginning of the alphabet in one dictionary of South African English; just two are known in British or American English:

> aardvark (*Afrikaans*), abafazi (*Nguni*, 'women'), afdak (*Afrikaans*, 'shed'), agterskot (*Afrikaans*, 'final payment'), amabutho (*Zulu*, 'fighter for a cause'), amadhlozi (*Xhosa*, 'ancestral spirit'), apartheid (*Afrikaans*), askoek (*Afrikaans*, 'dough cake').

The amount of borrowing is always influenced by the number of cultures which coexist, and the status which their languages have achieved. In a highly multilingual country, such as South Africa, Malaysia, or Nigeria, where issues of identity are critical, we might expect a much greater use of loanwords. There is already evidence of this in the range of words collected by lexicographers. In the South African dictionary, depending on the initial letter preferences of the contributing languages, there are long sequences of loanwords: *aandag, aandblom, aap, aar, aardpyp, aardvark, aardwolf, aas*, and *aasvoël* (all from Afrikaans) are immediately followed by *abadala, abafazi, abakhaya, abakwetha, abantu, abaphansi, abathagathi*, and *abelungu* (all from Nguni languages). Only on the next page of the dictionary do we encounter items from British English with local senses, such as *administrator* and *advocate*. The influence of local languages is also apparent in hybrid forms, where a foreign root is given an English affix (as in *Afrikanerdom* and *Afrikanerism*), or where two languages are involved in a blend (as in *Anglikaans*).

Although the amount of borrowing into the two standard varieties was less in the nineteenth and twentieth centuries than it had been in earlier periods, it remained an important feature of lexical growth in English. We find French continuing to exercise its traditional influence,

especially on British English, in such loans as *chic, gourmet, art nouveau*, and *voyeurism*. But words continued to arrive from all parts of the world. Of particular note are words from the East, relating to Chinese philosophy and alternative medicine (such as *feng shui, qi*), Indian philosophy and religion (such as *chakra, karma*), and Japanese business, culture, technology, and sport: *aikido, futon, honcho, kanban, karaoke, karate*, and *sushi*. A sense of other regional contributions can be obtained from this mixed bag of examples:

> autobahn (*German*), balti (*Urdu*), bhangra (*Punjabi*), blitz (*German*), bolshy (*Russian*), cappuccino (*Italian*), ciabatta (*Italian*), conga (*Spanish*), dunk (*German*), espresso (*Italian*), fatwa (*Arabic*), flak (*German*), glasnost (*Russian*), intifada (*Arabic*), juggernaut (*Hindi*), kung fu (*Chinese*), lambada (*Portuguese*), latte (*Italian*), lebensraum (*German*), macho (*Spanish*), mah jong (*Chinese*), moussaka (*Turkish*), paparazzo (*Italian*), paso doble (*Spanish*), perestroika (*Russian*), putsch (*German*), robot (*Czech*), rumba (*Spanish*), safari (*Swahili*), schlep, schlock, schmaltz (*Yiddish*), slalom (*Norwegian*), taramasalata (*Greek*), wok (*Chinese*).

GRAMMATICAL FACTORS

Converting one word class into another is a long-standing means of making new words in English. It was a favourite device of Shakespeare, as seen in the Duke of York's 'Grace me no grace nor uncle me no uncle' in *Richard II* or Cleopatra's 'He words me, girls, he words me' in *Antony and Cleopatra*. It continued to be an important process in the nineteenth and twentieth centuries, and is widely encountered today. Modern examples include *spend* as a noun, or *handbag, text, out, spam*, and *surf* as verbs. The process began to incorporate trade names, which developed generic meanings, such as *Filofax, Band-aid, Zimmer, Levi's, Perspex*, and *Xerox*. And there were many instances of personal or place names developing uses as common nouns—*ampere, biro, joule, mae west, ohm, quisling, watt*—or being used as the root for a general concept: *Blairite, Darwinism, Dianamania, Einsteinium, Kremlinology, Leninist, Pinteresque, Reaganomics*.

The modern period is also notable for the way certain types of word formation, sporadic in earlier periods, became widespread. An example is the proliferation of nouns composed of a combination of verb and particle: *knock-out* and *stand-by* are examples from the eighteenth century, *stick-up* and *take-off* from the nineteenth, *check-up* and *fly-past* from the twentieth. The type of word formation known as a 'back-formation' has also become popular. Back-formations occur when a shorter word is made by removing the affix from a longer word. Illustrating from agent nouns, we find *edit* formed from *editor* in the eighteenth century, and *swindle* from *swindler*. Later examples are *shoplift* and *housekeep* in the nineteenth century and *sleepwalk* and *name-drop* in the twentieth.

During the Modern English period the grammar of Standard English continued to change, but at a very much slower rate than in previous centuries. Indeed, a comparison of an early nineteenth-century text with one from the present day seems to show very little difference, from a grammatical point of view. When we read a Jane Austen letter or a Charles Dickens novel we do not feel the need to make regular allowances for points of grammar, such as we do when reading Chaucer or Shakespeare. But some allowances do have to be made, for the grammar is not exactly the same. Whenever we sense that the phrasing of a passage is somewhat 'awkward' or 'old-fashioned', or a conversation is in some way 'stilted' or 'unidiomatic', we are probably noting a difference in grammatical norms between the beginning of the Modern English period and today. For example, there are several differences in the way verbs are used. Keats writes in a letter (1819): *I wonder your Brother don't put a monthly bulleteen in the Philadelphia Papers*; today we would say *doesn't*. And in another letter (1804), Jane Austen writes: *Jenny & James are walked to Charmouth this afternoon*; today we would say *walked* or *have walked*.

PRONUNCIATION CHANGE

In the nineteenth century pronunciation still had some way to go to reach its present-day position. We know this because more information is available about the way words were pronounced at that time, compared with previous periods. Writers were much fuller in their descriptions, and in the last few decades of the century the first cylinder recordings of speech came to be made. Thus we find British observers talking about the pronunciation of *oblige* as *obleege*, *daughters* as *darters*, *gold* as *goold*, *seven* as *sivin*, and *china* as *chayney*, as well as many words where the stress pattern was different from what it is today, as in *balcony* and *compensate*. Probably the most important change during this period affected the pronunciation of *r* after a vowel, in such words as *far* and *heart*. Present in English since Anglo-Saxon times, it weakened during the seventeenth and eighteenth centuries, and by the nineteenth we find rhymes and respellings suggesting that it had actually disappeared: *harm* is said to rhyme with *calm*, and *alms* with *arms*. Also, when people wrote *calm* in a mock-phonetic way they sometimes spelled it *karm*, which they would never have done if the *r* had continued to be sounded.

The most important British development of the nineteenth century, however, was the arrival of a non-regional educated accent—what would later be called 'Received Pronunciation' (or RP), and often described as an 'Oxford accent', a 'BBC accent', the 'King's/Queen's accent', or a 'public-school accent'. This did not exist at the end of the eighteenth century. On the contrary, features of regional pronunciation were a normal characteristic of educated speech, and attracted no comment. But by the 1830s writers were advising provincials to use the RP of fashionable Londoners. RP was never a totally uniform accent, but it was certainly one which was much more widely used than any previous English accent had ever been. The regional neutrality came from a natural process of levelling, with educated people from different regional backgrounds increasingly coming into contact and accommodating to each other's speech. Greater social

mobility brought urban and rural dwellers together more than before. University education brought people from many different regional backgrounds together. Schoolteachers were exercising an increased influence on their charges, and a momentum was building up within the schools themselves, especially in the private system. The new accent eventually did come to be associated with a 'public-school education' at such schools as Eton, Harrow, Winchester, and Westminster, followed by higher education at Oxford or Cambridge. And the accent then rapidly spread through the career structure which such an education opened up—in the civil and diplomatic service (especially abroad, as the Empire expanded) and the Anglican Church. It was further institutionalized when it was adopted as the voice of the BBC.

But almost as soon as RP arrived it began to fragment. It already contained a great deal of personal variation, and it was subject to change, as any other accent. By the beginning of the twentieth century it was displaying a range of chiefly age-related differences often described as 'conservative' (used by the older generation), 'general' (or 'mainstream'), and 'advanced' (used by young upper-class and professional people), the latter often being judged as 'affected' by other RP speakers. It retained its upper and upper-middle social-class connotation, as a national standard, but from the 1960s it slowly came to be affected by the growth of regional identities, resulting in the re-emergence of regional colouring—a phenomenon now described as 'modified RP'. There was also a reduction in the extent of the country which recognized the accent as a desirable standard. From a characterization in terms of 'Britain' it came to be restricted to 'England'. And even here, the range of the accent as spoken by the educated class has dramatically altered in recent decades, incorporating a number of features previously associated with local London speech to produce the accent that the media have happily designated 'Estuary English'. The number of people using a non-regionally tinged RP accent has fallen greatly, as a consequence. Estimates of usage in the 1980s were that between 3 and 5 per cent of the British population still used it—around two million. This must be now less than 2 per cent and falling.

A DIVERSE FUTURE

The watchword of the twenty-first century is diversity—in vocabulary, grammar, spelling, and pronunciation. Non-standard forms of English are increasing across the English-speaking world, and being represented in novels, poems, and plays. They illustrate the way people have adapted the language to express new identities and attitudes. Regional accents and dialects have begun to attract a status which previously was associated only with the standard varieties of British and American English. In some countries there are already clear signs of further 'regional standards' emerging, such as Australian English and Indian English. This is not surprising. There is no reason why the same processes which governed the consolidation of a standard variety within Britain and America should not manifest themselves in Australia, India, South Africa, or wherever a country is sufficiently concerned about its linguistic identity to institutionalize its usage in the form of regional dictionaries, grammars, pronunciation guides, and style manuals. Ironically, prescriptive attitudes once again arise, in these circumstances. The debates surrounding a question of what is the 'correct' form of Australian or Indian English can be just as heated as anything seen in eighteenth-century Britain. But there is a difference. In a world where the language is used in dozens of countries, there is no longer a notion of private ownership.

In the twenty-first century no country can be said to 'own' English any more. Or rather: everyone who has opted to use it has come to have a part-ownership in it. That is what happens to a language when it achieves an international or global presence, as English has, with some two billion people using it in 2006. And when people adopt a language they immediately adapt it, to make it suit their needs. As Chinua Achebe once said: 'The price a world language must be prepared to pay is submission to many different kinds of use'. English has now become a language whose norms and functions vary globally and develop independently according to sets of forces that no longer reflect the influence of a single (British or American) point of origin. Even a native-speaking point of origin is becoming less relevant as time goes by. The centre of gravity of the English language is steadily shifting from the native speaker to the non-native speaker. People who use English as a second or foreign language are now very much in the majority, with three non-native speakers in the world for every one native speaker.

The literary implications are profound. Most English literature hitherto has come from people who speak English as a first or second language—that is, they learned their English in a country where the language had some kind of special status arising out of its colonial history. Commonwealth literature was one of the consequences of this situation, with such linguistically distinctive voices as Benjamin Zephaniah and Chinua Achebe. It remains to be seen what contribution will one day be made by those who have learned English as a foreign language—that is, from countries where English has had no colonial history but where fluent levels of competence are increasingly routine, such as Sweden, the Netherlands, and Denmark. Writing in English from such countries is currently always in standard (British or American) English, but it will not always be that way. One day we could be reading Swedish English novels—that is, novels written by people who have Swedish as a mother tongue but who choose to write in a Swedish-coloured variety of English, analogous to those currently found in Commonwealth literature. There could be poetry in Japanese English or Russian English. And English will be pulled in new directions as a consequence.

It is always difficult to predict the future, when it comes to language. Who would have dared suggest, five hundred years ago, that Latin would one day cease to be

the language of educated discourse? There are always competing possible scenarios. American English may come to be increasingly dominant. The English spoken in India—a country which has far more speakers of English than any other, mainly as a second language—may come to exercise an increasingly influential role in world affairs. Regional varieties may diverge so much from the standard that one day we may see the emergence of an English 'family of languages'. Mutually unintelligible varieties, historically derived from English, can already be heard in some parts of the world, such as Singapore ('Singlish') and Papua New Guinea ('Tok Pisin').

It is important to emphasize that standard English, as manifested in its two main varieties, is not yet threatened by all these regional developments. That could hardly be, given that the vast majority of the world's printed English output is in either the British or American standard, or in a standard heavily influenced by one or the other (as in the case of Australia and Canada). Nor should we underestimate the common core of linguistic identity which unites them. Every few decades someone predicts that British and American English are one day going to become mutually unintelligible, but there is very little sign of this happening as far as the written language is concerned. When we add up all the differences between these two varieties—all the points of contrast in spelling, grammar, and vocabulary—we are talking about a very small part of the language as a whole. That, of course, is why we usually find the term 'standard English' used without any regional qualification. We sense the common core.

The Internet has added a fresh dimension to these various scenarios. Before the World Wide Web (1991), it would have been difficult to encounter new varieties of English or to interact with them. Now it is easy. We can visit the websites of an English-language newspaper in Tokyo, Cairo, or Athens, read and listen to examples of regional accents and dialects, and through email, chatrooms, and blogging give our own linguistic idiosyncrasies a public presence. The Internet gives us immediate access to national and international Englishes, standard and non-standard alike. We do not know what happens to a language, under such circumstances.

The Internet is changing everything. No one knows exactly how large it is, but the quantity of linguistic data it contains must rival the contents of all the libraries in the world. Much of this content is indexed, by the major search engines, making the Internet the largest corpus of usage that there has ever been. The speed with which additions to the Internet can be circulated is likely to add greatly to the pace of linguistic change. And the lack of centralized control over Internet submissions, in such domains as email, chatrooms, instant messaging, and blogging, is rapidly increasing the amount of diversity that is 'out there'. We have not seen such linguistic spontaneity since the Middle Ages, and nothing then resembles the way we can give our outpourings an elegantly printed shape, as is routinely possible on screen now.

The long-term effects of all this uncontrolled variation are unclear. To take just one area of usage: spelling. Non-standard spelling now has an unprecedented public printed presence. The controls which prevented mis-spelled words getting into print (using copy-editors and proofreaders) are often lacking on the Web, and completely absent in most private interactions, such as blogging, where the language is under the total control of the writer. Type a mis-spelled word into a search engine and you will often find thousands of hits. In due course such popular consensus is bound to alter our perception of what counts as correct—and as many of these 'errors' are phonetically based simplifications, we may find that the Internet will foster a natural kind of spelling reform. Alternatively, there may emerge a neo-prescriptivism which will reassert the norms of traditional standard English.

Checks and balances must continue to operate if we wish to continue understanding each other. On the one hand, the Internet presents unprecedented opportunities for individual self-expression and the public representation of linguistic diversity. On the other hand, there is a pressing need for mutual intelligibility among the millions of people who are the inhabitants of the online 'global village'. Perhaps more than ever before, the English-speaking world needs a standard variety to maintain its role as a lingua franca; but this is likely to be a standard containing rather more variation than has traditionally been the case. It will be interesting to see how these competing pressures manifest themselves in an electronic medium, and how dictionaries and language books cope with the process. One thing is certain: the Internet will present lexicography with one of its greatest challenges.

Guide to the use of the dictionary

1 Purpose

The following guide aims to explain to the user the kind of information that is available in the *Shorter Oxford English Dictionary*, and to assist in the finding of particular information. It outlines the types of entry which appear in the dictionary, lists the possible places where certain kinds of words or phrases may be found, details the different features which may occur in an entry, and explains some of the conventions the dictionary uses.

2 The dictionary entry

2.1 TYPES OF ENTRY

There are five basic types of entry in this dictionary: standard entries, combining entries, letter entries, variant entries, and abbreviation entries.

2.1.1 *Standard entries.* The majority of entries are standard entries. In these the headword, or word being defined, does not belong to any of the other entry types below. The typical standard entry has a headword (in **bold** type), pronunciation (in the International Phonetic Alphabet), part of speech (in *italic* type), date (expressed as a period of part of a century), etymology (in square brackets **[ ]**, introduced by **ORIGIN**), and definition section. The definition section may be accompanied by one or more paragraphs containing illustrative quotations, phrases which contain the headword, compounds whose first element is the headword, or derivatives consisting of the headword and a suffix. Sections containing illustrative quotations are tinted. Usage indicators (labels), variant spellings, and grammatical or other information may also appear in the entry. More information on all these features is given in section 4 below.

2.1.2 *Combining entries.* In these entries the headword either begins or ends with a hyphen, and in use generally occurs joined to another word (either hyphenated or as a solid word). Combining entries include affixes of three types: suffixes (like *-ly, -ness*), prefixes (like *re-, un-*), and combining forms (like *hyper-, kilo-*). See further under section 6 below.

2.1.3 *Letter entries.* Each letter of the alphabet has an entry which contains a brief account of the history of the letter and lists its most important uses as an abbreviation or symbol. See further under section 7 below.

2.1.4 *Variant entries.* A variant entry refers an alternative spelling or grammatical form of a headword to the standard or combining entry with the main form and all other information. See further under section 8 below.

2.1.5 *Abbreviation entries.* Abbreviations and symbols consisting of more than one letter have their own entries. See further under section 9 below.

2.2 ORDERING OF ENTRIES

Entries are listed in strict alphabetical order. Those with hyphens or spaces follow otherwise identical words written solid; a headword with an accent or diacritic over a letter follows one consisting of the same sequence of letters without. Capital and lower-case letters are regarded as equivalent. Strict alphabetical order applies also to prefixes of titles and names (such as *Mc-*) which in other contexts may conventionally be placed elsewhere.

The order of headwords which are spelled the same way but have different parts of speech is as follows:

abbreviation
symbol
noun
pronoun
adjective
verb
adverb
preposition
conjunction
interjection
prefix/combining form
suffix

Entries are positioned in the headword sequence by their first part of speech. The order of headwords with the same spelling and the same (first) part of speech is chronological (according to date ranges: see 4.8 below), with variant entries following any full entries: see 4.4 below.

Subcategorizations of parts of speech, such as participial (*ppl*) of adjectives, verbal of nouns, or personal (*pers.*) of pronouns, are disregarded in determining entry order.

3 How to find a word or phrase

Look in the obvious alphabetical place in the main sequence of entries. If the item sought is not there, consider the following:

(i) Is it formed from a prefix or a combining form (as *dis-, Euro-*)? If so, is it included in the entry for that prefix or combining form? It may be listed (in italics) as an example there, or be treated in a small-type paragraph.

(ii) Is it a derivative, i.e. does it end with a suffix (as *-ly, -ness*)? If so, is it included at the end of the entry for the word from which it is derived? For example, *befitting* appears under **befit** *verb*, *disclosing* under **disclose** *verb*, and

lacelike and *lacery* under **lace** *noun & adjective*: none would be found in its own alphabetical place.

(iii) Is it a phrase or combination, or other compound? If so, is it included in a small-type paragraph in the entry for one of the words which it contains? For example, *three cheers* and *sling mud* are respectively under **cheer** *noun*[1] and **mud** *noun*[1], *colour-blind* is under **colour** *noun*, and *infant prodigy* is under **infant** *noun*[1] & *adjective*. Sometimes an entry for one word in a phrase or compound will contain a cross-reference to one of the other elements, under which the definition will be found. For two-word compounds it is generally best to look initially under their first element. For further information see 4.14 below.

(iv) Is it very similar to a word included as a headword? If so, and especially if it is an uncommon or obsolete word, it may also be included in the small-type derivative block at the end of the entry for that word. (See 4.16 below for more information on derivatives.)

4 The features of a standard dictionary entry

This section describes the elements which may appear in a standard dictionary entry, in the order in which they most usually occur. Some, such as labels or phrases, can occur in several places: this is mentioned, and the range of places indicated, later in the guide in the section for the feature in question. Many of the characteristics of standard entries are shared by the other types of dictionary entry.

4.1 HEADWORD

Every entry opens with a headword, printed in bold type. The headword is the word whose meaning, etymology, history, pronunciation, etc., are the subject of the entry.

If the headword is obsolete (i.e. no longer in use in current English) it is preceded by a dagger: †.

If the headword is a word (or phrase) which, although used in English, is still regarded as essentially foreign, it is printed in bold italics. In their normal contexts such items are often written or printed in light italics or within quotation marks, and many may still usually be pronounced in a foreign way.

Where a word has more than one spelling, the spelling used for the headword is usually the one regarded as the dominant or preferred current form. Other spellings may be given later in the entry, as variants (see 4.6 below). Historical considerations occasionally require a form which is less usual for some senses to be chosen as the headword, but in such cases current usage is made clear.

4.2 PRONUNCIATION

4.2.1 The pronunciations shown are those which can safely be regarded as allowable in British English at the present time, within the form of received pronunciation that does not give rise to any negative social judgement when heard by most native speakers. An attempt has been made to represent the English spoken by the current generation, older forms being discarded where necessary, but absence of a variant need not indicate that it is completely unacceptable, and the order of variants need not be one of decreasing frequency.

Pronunciations are given, between slashes, in the symbols of the International Phonetic Alphabet (IPA). The symbols and conventions used are intended to provide sufficient information for accurate production of the appropriate sounds, without needless detail.

4.2.2 *Vowels.* In a conventional vowel diagram (representing the position and degree of raising of the tongue in articulating each sound), the vowel symbols used in this dictionary appear as follows:

	Front	*Central*	*Back*
High	i y		u
	ɪ		ʊ
	e ø	ə	o
Mid	ɛ œ	ʌ	ɔ
Low	a		ɑ ɒ

Lengthening is indicated by ː

Nasality is indicated by the superscript diacritic ˜

The front vowels with lip-rounding, /y/, /ø/, and /œ/, occur only in words which are not fully naturalized. See further the Pronunciation Guide.

The English vowel sounds are

Short		*Long*	
a	as in **c**a**t**	ɑː	as in **arm**
ɛ		bed	ə:	**her**
ɪ		s**i**t	iː	**see**
i		cos**y**	ɔː	**saw**
ɒ		h**o**t	uː	**too**
ʌ		r**u**n	ɛː	**hair**
ʊ		p**u**t		
ə		**a**go		

Diphthongs

ʌɪ	as in m**y**
aʊ	h**ow**
eɪ	d**ay**
əʊ	n**o**
ɪə	n**ear**
ɔɪ	b**oy**
ʊə	p**oor**
ʌɪə	t**ire**
aʊə	s**our**

4.2.3 *Consonants and semivowels.* The following sounds are recorded in this dictionary:

Plosives: p, b, t, d, k, g

Fricatives: f, v, θ, ð, s, z, ʃ, ʒ, ç, x, h

Affricates: tʃ, dʒ

Liquids and nasals: l, ʎ, m, n, ɲ, ŋ, r

Semivowels: j, w, ɥ

Of these, b, d, f, h, k, l, m, n, p, r, s, t, v, w, and z have their usual English values. Other symbols are used as follows:

g	as in	**g**et
tʃ		**ch**ip
dʒ		**j**ar
ŋ		ri**ng**
θ		**th**in
ð		**th**is
ʃ		**sh**e
ʒ		vi**s**ion
j		**y**es

in some Scottish and foreign words

x	as in	lo**ch**, German a**ch**

and only in respect of words which are not fully naturalized

ç	as in	German ni**ch**t
ʎ	as in	Spanish **ll** or Italian **gl** in *gli*
ɲ	as in	Spanish **ñ**, French **gn**, Italian **gn** in *gnocco*
ɥ	as in	French n**u**it.

See further the Pronunciation Guide.

4.2.4 Primary stress is indicated by superscript ˈ before the stressed syllable, secondary stress by subscript ˌ. Primary stress is shown for words with two or more syllables; secondary stress only where its marking is needed to avoid doubt. Word stress is not a significant feature of the French language, and no stress is marked in words retaining a true French pronunciation. See further 4.2.9 below.

4.2.5 Unstressed vowels are reduced to /ə/ unless they are likely to have their full phonetic value when the word is pronounced in isolation.

4.2.6 Optional sounds, sometimes pronounced, sometimes not, are enclosed within round brackets.

E.g. **prompt** /prɒm(p)t/
delivery /dɪˈlɪv(ə)ri/.

The bracketing of schwa, (ə), before /l/, /m/, and /n/ shows that these consonants are often syllabic in the words concerned.

4.2.7 An explicit pronunciation is given for a derivative only if it differs in some unpredictable way from that of the headword or from that usual in combination with the suffix in question. If the derivative bears primary stress on a different syllable from the headword (and consequently has a predictably different pronunciation) this is indicated by a primary stress mark before the stressed syllable within the actual form; any secondary stress is assumed to fall on the syllable bearing primary stress in the headword unless otherwise marked.

E.g. (s.v. FALSIFY) **falsifiable** bears no stress mark so is stressed like falsify on the first syllable, but **falsi**ˌ**fia**ˈ**bility**.

Among predictable changes associated with the position of primary stress are

ə or (ə) → a in nouns in *-ality* formed from adjectives in *-al* (e.g. **practi**ˈ**cality** and not the full phonetic transcription /praktɪˈkalɪti/ is given under **practical** /ˈpraktɪk(ə)l/);

əʊ or ə(ʊ) → ɒ in derivatives of combining forms in *-o* or words formed from them (e.g. **ma**ˈ**cropterous** and not the full phonetic transcription /maˈkrɒpt(ə)rəs/ is given under **macro-** /ˈmakrəʊ/).

A final *-r* is pronounced in derivatives formed with a suffix beginning with a vowel.

E.g. **authoress** under **author** /ˈɔːθə/ is to be understood as /ˈɔːθərɪs/.
cellarage under **cellar** /ˈsɛlə/ is to be understood as /ˈsɛlərɪdʒ/.

An exception to this is the suffix *-ed*, which results in a pronunciation /əd/ not /-ərəd/ after /ə/.

The pronunciation of *-icity* in derivatives of adjectives in *-ic* (/-ik/) is /-ɪsɪti/.

4.2.8 A second or subsequent pronunciation is often abbreviated so as to show just the part where it differs from the first; the same applies to pronunciations of variant or inflected forms.

4.2.9 An alternative non-anglicized pronunciation may be given for a word which is largely but not fully naturalized. Such pronunciations are preceded by *foreign*. The first (or only) pronunciation of any non-naturalized word, phrase, or form (printed in italic bold) from one of the more familiar modern European languages will represent the foreign pronunciation but will have no specifying label. A second or subsequent fully anglicized pronunciation will often be given.

4.2.10 A hyphen may be used in a phonetic transcription to clarify or emphasize that the divided sounds are to be separately pronounced, for example where they could be mistaken for a diphthong or single affricate, or where /l/ is repeated when *-less* or *-ly* is added to a word ending in *-l*.

E.g. **Mazdaism** /ˈmazdə-ɪz(ə)m/
potsherd /ˈpɒt-ʃəːd/
drolly /ˈdrəʊl-li/
moralless /ˈmɒr(ə)l-lɪs/.

Most often, however, hyphens simply open or close truncated pronunciations.

4.2.11 Additional examples of words illustrating particular sounds are to be found in the Pronunciation Guide, and the main English sounds are summarized at the foot of the page throughout much of the dictionary.

4.3 PART OF SPEECH

A part of speech is given for all entries, except letter entries. It appears in italics after the pronunciation, or after the headword if no pronunciation is shown.

All the parts of speech of a headword are listed at the beginning of an entry, e.g. ***adjective & adverb***; ***noun, adjective, & verb***. Sometimes parts of speech are treated together, but more often they are in separate sections, in which case each section is headed with a capital initial followed

by the part(s) of speech being treated in that section, e.g. **A** *noun*, **B** *adjective*.

If the headword consists of two or more separate words, it may be specified as a phrase (*phr.*). For example, *noun phr.*, or *adjectival phr.*, or (when parts of speech are combined) *noun & adverbial phr.*

If the headword is a verb, the part of speech may be followed by an indication of the verb's transitivity (e.g. *verb intrans.*, *verb trans.*). For more information about transitivity see 4.11.1 below.

Parts of speech are also given for some of the items in combination and other subentry blocks (see 4.14 below) and for derivatives (see 4.16 below).

4.4 HOMONYMS

If two or more headwords have the same spelling and part of speech, but each has a different origin and meaning, the headwords are homonyms. They are distinguished by a superscript number after the relevant part of speech. In this dictionary, homonyms include headwords whose only difference is an initial capital, but not headwords which differ in respect of hyphenation, spacing, or letters with accents or diacritics. If the first part of speech of two or more homonyms is the same, the entries are presented in chronological order (according to date range: see 4.8 below). If successive entries have more than one part of speech, homonym numbers of later parts of speech are allocated in the order in which the entries appear in the text. E.g. if *noun*[1] *& adjective*[1] is followed by *noun*[2] *& adjective*[2], it is to be understood that the second noun is recorded later (or at least no earlier) than the first, but nothing is implied about the relative first dates of the adjectives. Homonyms which are variant entries follow all standard- or combining-entry homonyms of the same (first) part of speech.

E.g. **cupper** … *noun*[1] … ME.
cupper … *noun*[2] … E20.
cupper *noun*[3] var. of CUPPA.

Only the simple part of speech is relevant in allocating homonym numbers. Qualifications such as *verbal* and *ppl* are disregarded (cf. last paragraph of 2.2 above).

E.g. **picking** *noun*[1]
picking *verbal noun*[2].

In cross-references to combining entries the part of speech is omitted and the homonym number is attached to the small-capital form, e.g. **-ER**[1], **-Y**[6].

4.5 LABELS AND SYMBOLS

4.5.1 *Subject and status labels.* Restrictions in the usage of words or senses are frequently conveyed by the use of labels: subject labels in small capitals, regional and other labels in italics. These can show restriction to the English of a particular geographical area (e.g. *dial.*, *Scot.*, *US*, *Austral.*), to a specific style or register of language (e.g. *colloq.*, *poet.*, *slang*), or to a particular branch of knowledge or field of activity (e.g. CRICKET, HERALDRY, LAW, NAUTICAL), or can denote frequency or extent of use (e.g. *rare*).

Subject labels precede any definition (or partial definition) or any variant spelling or form to which they apply. (If they apply to a complete entry they therefore follow the etymology.)

E.g. **infauna** /ɪnˈfɔːnə/ *noun*. E20. […] ZOOLOGY. The animal life …
(s.v. COLOUR *noun*) **8** MINING. (A particle of) gold. M19.
(s.v. OCCLUDE *verb*) **5** *verb intrans.* METEOROLOGY. Of a front …

Geographical, stylistic, and frequency labels (together here referred to as 'status labels') applying to the whole entry appear at the top of the entry after the part of speech.

E.g. **peripherial** /pɛrɪˈfɪərɪəl/ *adjective*. *rare*. L17.

In a main definition section a status label applying to a complete dated sense follows the definition and immediately precedes the date.

E.g. (s.v. CHIP *verb*[1] 9) ▸**b** *verb trans.* Tease, chaff. *colloq.* L19.

Within dated senses, a status label applying to only part of a definition generally precedes that part to which it applies. If the definition has formal divisions (as (***a***), (***b***), etc.) the label always precedes the part it qualifies; if there is no formal division, the label follows the first part of the definition but precedes any later parts.

E.g. (s.v. OVERLANDER *noun*) **1** A person who drove livestock overland (*Austral. & NZ hist.*); *Austral. hist* a person who journeyed overland; *slang* a tramp.

In small-type subentries (as combinations or derivatives) labels of any kind precede the relevant definition or partial definition.

E.g. (s.v. BASE *noun*[1]) **base hit** *BASEBALL* a hit enabling the batter to reach a base safely.
(s.v. LOCAL *adjective*) **local talent** the talented people or (*colloq.*) the attractive women or men of a particular locality.
(s.v. PUPPET *adjective & noun*) **puppetish** *adjective* (*rare*) pertaining to …
(s.v. JESSED) wearing jesses; *HERALDRY* having jesses of a specified tincture.

Status labels precede any variant spelling or form to which they apply.

E.g. **kiln** /kɪln/ *noun & verb*. Also (now *Scot.*) **kill** …

Interests of clarity may produce some variation of label positioning, particularly in subentries and individual parts of definitions.

Labels can be combined with other labels, of either the same or a different type. Combined subject and status labels are positioned as for the latter. Labels can also be qualified by words like 'Now' or 'Only'.

E.g. Now *rare* or *obsolete*.
Somewhat *derog.*
Chiefly *US*.
obsolete exc. *hist*.

These are largely self-explanatory. 'Long' (as in 'long *rare* or *obsolete*') implies for several centuries, usually from before the eighteenth.

Certain italic labels can also be used to link or clarify the relationship between (parts of) definitions, e.g. *esp.*, *spec.*, *fig.*, *gen.*, *transf.* The abbreviations used in these labels

also appear in other contexts. (The specification *esp.* is in italics if it introduces a complete definition, but in roman if introducing a parenthetical part of a larger definition.)

4.5.2. *Status symbols.* Two symbols are used to express status: a dagger (†) and an asterisk (*).

The dagger indicates that a word, sense, form, or construction is obsolete. It is placed before the relevant word(s) or relevant sense number.

The asterisk indicates that a spelling or form is now used primarily in the United States, and elsewhere where US spelling conventions are followed. The asterisk does not exclude the possibility that the form was standard or common in British use in the past. It is placed before the form it qualifies.

E.g. (s.v. FAVOURITE) Also ***favorite**.

Very occasionally an American pronunciation is given, in which case an asterisk is similarly used.

4.6 VARIANT SPELLINGS

If a headword has a significant alternative spelling, this is given, in bold type, before the date (and inflection if appropriate) at the top of the entry. Variants are generally preceded by 'Also', or sometimes 'Orig.', and are often further qualified in some respect.

E.g. **defence** … *verb trans.* Also ***defense**.
locale … *noun.* Also †**local**.
jaunty … *adjective.* Also (earlier) †**janty**.
disc … *noun.* Also (*US* & *COMPUTING* now the usual form) **disk**.
set … *noun*[1]. Also (now chiefly in senses 16, 23, 24, 32, 33) **sett**.

Frequently the difference from the headword is highlighted by abbreviating the variant to the significant part, the missing part(s) being indicated by a hyphen.

E.g **émigré** … *noun.* Also **e-**.
dislikeable … *adjective.* Also **-likable**.
Amerikan … *adjective.* Also **-kkk-**.

If a variant form is current and has a different pronunciation from the headword, this is given.

E.g. **McCoy** /məˈkɔɪ/ *noun.* … Also **Mackay** /məˈkʌɪ/.

Variants differing only in initial capitalization are not usually given except for proprietary terms, for nouns from modern German, and for words passing into names or titles. If the capitalization difference applies only to certain senses, it can be specified under those senses.

E.g. **La** /la/ *adjective (def. article).* Also **la**.
(s.v. BEAUTY *noun* 1) ▸**b** (**B-**.) This quality personified.

Many compounds can be (or, in the past, have been) written in several different ways: as two or more words, hyphenated, or (increasingly) as one solid word. In most cases one form (the usual modern form) is given, but this does not mean that the others are unacceptable or even, in some cases, uncommon.

This dictionary follows the tradition of Oxford University Press in using *-ize* (and corresponding *-ization*, *-izer*, etc.) rather than *-ise* for verbs (and corresponding nouns etc.) derived from Greek *-izein* or Latin *-izare*, and for words modelled on these forms. The *-s-* variants are specified for headwords and are to be assumed for derivatives.

Variants with the ligatures *æ* and *œ* are to be assumed for words (usually of classical origin) written in this dictionary with *ae* and *oe*.

Not all possible variants (current or obsolete) of a headword are listed, but only those of particular significance. Among these are variants which are used in the works of a major author (such as Shakespeare), variants which are important for the development or current spelling of the headword or for the etymology of another word, obsolete variants which were widely current up to the modern period, and current variants which are usual in the United States.

A variant entry in the main alphabetical sequence cross-refers the user to the full entry for the word except where the two would be immediately adjacent (see further under 8 below).

4.7 INFLECTIONS

Three kinds of inflected forms may be specified:

1. plurals of nouns (and very occasionally of French adjectives)
2. forms of verbs (according to person, tense, aspect, etc.)
3. comparatives and superlatives of adjectives.

Inflections are specified only if they are unpredictable or irregular in some way, or if there are several alternative inflections for one headword.

4.7.1 *Nouns.* No plural form is given for nouns which simply add *-s* or (in the case of those ending in *-s*, *-x*, *-z*, *-sh*, or soft *-ch*, or in *-j*) *-es*, including those in which final *-y* inflects as *-ies*. Other plural forms are specified, and they include those for:

- nouns ending in *-o* (as the plural may vary between *-os* and *-oes*);
- nouns ending in Latinate forms such as *-a* and *-um*;
- nouns with more than one plural form;
- nouns whose plural involves a change in the stem (as **foot**, **feet**);
- nouns whose plural and singular are the same (as **sheep**; in such cases the formula used is 'Pl. same').

'Pl. pronounced same' with no specified form implies a regular inflection.

4.7.2 *Verbs.* Inflections which are regarded as regular and are not specified are (i) third person singular forms adding *-s* or *-es* (when the stem ends in *-s*, *-x*, *-z*, *-sh*, or soft *-ch*), including most of those in which *-y* inflects as *-ies*; (ii) past tenses and past participles adding *-ed* and, where appropriate, dropping a final silent *-e* (as **changed**, **walked**); (iii) present participles adding *-ing* and, again where appropriate, dropping a final silent *-e* (as **changing**, **walking**); (iv) regular archaic *-est* and *-eth* in older verbs. Other inflections are specified, and they include:

- inflections where a final consonant is doubled (as **bat**, **batted**, **batting**; in such cases the formula used is 'Infl. **-tt-**');
- inflections for the past tense and past participle which involve a change in the stem (as **drink**, **drank**, **drunk** and **go**, **went**, **gone**).

4.7.3 *Adjectives.* Adjectives which add *-er* and *-est* to form the comparative and superlative, including those which drop a final silent *-e* (e.g. **braver**, **bravest**), or replace a final *-y* by *-i-* (e.g. **happier**, **happiest**), are regarded as regular and their inflections are not specified. Single-syllable adjectives which double a final consonant (as **hot**, **hotter**, **hottest**) do have their inflections specified (the formula used is 'Compar. & superl. **-tt-**'), as do adjectives with irregular inflections (as **good**, **better**, **best**).

4.7.4 Inflected forms are given in bold type, usually at the top of the entry before the date. Frequently only the part of a form which differs from the headword is specified. Pronunciations are not given for the most regular forms. The pronunciations of *-ed*, *-s*, and *-es* vary according to the preceding letter(s) or sound(s): for fuller details see the entries for **-ed** *suffix*[1], **-s** *suffix*[2], and **-s** *suffix*[3].

E.g. **hoof** /huːf/ *noun*. Pl. **hoofs**, **hooves** /huːvz/.
canephora /kəˈnɛf(ə)rə, -ˈniː-/ *noun*. Pl. **-rae** /-riː/.
fly /flʌɪ/ *verb*. Pa. t. **flew** /fluː/; pa. pple **flown** /fləʊn/.
learn /ləːn/ *verb*. Pa. t. & pple **learned** /ləːnd/, **learnt** /ləːnt/.
learned … *adjective*. Compar. (*arch.*) **learneder**; superl. (*arch.*) **learnedest**.

4.7.5 Inflectional information usually follows any variant forms, except where it does not apply to the variant(s).

E.g. **defer** /dɪˈfəː/ *verb*[1]. Infl. **-rr-**. Also †**differ**.

If an entry has several parts of speech and an inflection applies to only one of them, the inflection is usually specified at the beginning of the section for that part of speech.

E.g. **lasso** … *noun & verb* … ▶**A** *noun*. Pl. **-o(e)s**.

4.8 DATES

Provision of information about the age of all words included, and of their principal senses, is one of the distinctive features of this dictionary. The date of first (and, if relevant, last) recorded uses is given in terms of date ranges: after the Middle English period (and the introduction of printing) according to a tripartite division of centuries into early, middle, and late; in earlier times, where dating depends on less secure manuscript sources, according to broader divisions. The date ranges are defined and abbreviated as follows.

OE	Old English –1149
LOE	late Old English 1000–1149
ME	Middle English 1150–1349 or, in some contexts, 1469
LME	late Middle English 1350–1469
L15	late fifteenth century 1470–1499
E16	early sixteenth century 1500–1529
M16	mid sixteenth century 1530–1569
L16	1570–1599
E17	1600–1629
M17	1630–1669
L17	1670–1699
E18	1700–1729
M18	1730–1769
L18	1770–1799
E19	1800–1829
M19	1830–1869
L19	1870–1899
E20	1900–1929
M20	1930–1969
L20	1970–1999
E21	2000–

Every standard entry bears at least one date, indicating the earliest recorded use of the word. Combining entries are also sometimes individually dated for the combining form.

The word's earliest recorded date is given at the top of the entry, immediately before the etymology. Exceptions to this are Old English words which are presumed to be older than the written record (for example because of the existence of parallel words in other Germanic languages) or for which the exact Old English form is considered to be significant. In these cases **OE** (or **LOE**) and a specified form begin the etymology, and the date is not repeated immediately before the opening etymological bracket.

Old English words and senses are usually only specified as 'late' if use earlier in the period (for which written records are scarce) seems unlikely.

Every main numbered or lettered sense in the large-type section of an entry also bears a date, at the end of the definition and after any labels.

4.8.1 *Obsolete words and senses.* If a word or sense is obsolete, the date of its last recorded use is given, linked to the opening date by a dash (e.g. **LME–E18**). If an obsolete headword has only one sense, or if all senses have exactly the same period of currency, a final date is given with the opening date at the top of the entry. In other cases final dates are given after the opening dates at the end of each obsolete sense.

Currency for only one date range, or for one main period or century, is indicated by 'Only in'. For example, 'Only in **L16**', 'Only in **ME**' (either only between 1150 and 1349 or only in the Middle English period as a whole, 1150 to 1469), 'Only in **17**' (in all three parts of the 17th century only). If a word or sense is current for two consecutive date ranges in the same century, the century is given only in the closing date, e.g. **E–M17**; **M–L18**.

4.8.2 *Dates for derivatives.* Derivatives at the end of a standard entry and in most combining entries are also dated. Each bears a single date of first (or, if obsolete, first and last) use at the end of its entry. The dates of individual senses or parts of speech are not distinguished.

4.9 ETYMOLOGY

All entries which are not simply variant entries contain etymological information, explaining the origin and formation of the headword. In standard entries and some combining entries, this information is generally placed in square brackets on a new line after the first date. In some combining entries and all letter entries the etymological information is not formally distinguished, but forms part of a general description of the head form.

Within an entry a particular sense or subentry may also have its own additional etymology.

Etymologies in square brackets frequently contain a great deal of information, sometimes in abbreviated form, with various conventions of presentation. This section aims to explain only those most likely to require clarification.

4.9.1 *Basic etymological forms and facts.* If a word is formed from one or more other words (as by contraction or combination, or by the addition of a prefix or suffix) the etymology gives the words from which it is formed and often explains the nature of the formation.

E.g. **Amerindian** ... *noun.* ... [ORIGIN Contr. of *American Indian*.]
fatuous ... *adjective.* ... [ORIGIN from Latin *fatuus* foolish ... + -OUS.]
initial ... *verb.* ... [ORIGIN from the noun.]
jama ... *noun*[3]. ... [ORIGIN Abbreviation.] Pyjama.
matchmake ... *verb intrans.* ... [ORIGIN Back-form. from MATCHMAKER *noun*.]
outswinger ... *noun.* ... [ORIGIN from OUT- + SWINGER *noun*[1].]

If a word is an adoption from another language, the etymology opens with a specification of the language of origin and, if it differs from the English spelling of the headword, the form of the word in the foreign language.

E.g. **scandal** ... *noun.* ... [ORIGIN Old French & mod. French *scandale* ...]
bigot ... [ORIGIN French, of unknown origin.]

'From' is widely used to open etymologies where the headword is formed from several combined elements or from another headword. The formula 'formed as' (usually followed by a cross-reference) indicates that the headword is from the same principal or initial word as the other word mentioned.

E.g. **anonymity** ... [ORIGIN formed as ANONYMOUS + -ITY.]
—the etymology of **anonymous** is also valid for the *anonym-* part of **anonymity**.

References to other headwords are in the usual cross-reference style of small capitals (see section 5).

A half bracket can be used to exclude part of a word in an etymology that is not represented in the headword.

E.g. **Politbureau** ... [ORIGIN Russian *politbyuro*, from *polit(icheskii* political + *byuro* bureau.]

Foreign forms from languages which do not use the Roman alphabet (as Greek, Russian, Sanskrit, Hebrew, Arabic, and Chinese) are transliterated. The transliteration system used for Chinese is Pinyin, although the Wade–Giles transliteration is also given if it sheds light on the English form. Transliteration tables for Greek and Russian are on p. xlvi.

4.9.2 *References and cross-references in etymologies.* Etymologies often contain cross-references to other entries, frequently at the end of the etymology, preceded by either 'see' or 'cf.'

E.g. **nitrogen** ... [ORIGIN French *nitrogène*, formed as NITRO: see -GEN.]
lecherous ... [ORIGIN Old French *lecheros*, from *lecheor*: see LECHER *noun*[1], -OUS.]
buffalo ... [ORIGIN Prob. immed. from Portuguese *bufalo* ... . Cf. BUFF *noun*[2], BUFFLE.]

If 'see' is used to refer to another entry, the etymology of the entry referred to directly extends or elaborates on the first etymology, and there is usually an identifiable point of contact, often a shared foreign form. For example in **lecherous** above there is a reference 'see LECHER *noun*[1]', and under **lecher** *noun*[1] the etymology runs [Old French *lichiere* (nom.), *lecheor*, *-ur* (accus.), from *lechier* live in debauchery ...]. The point of contact is the form *lecheor* and the etymology of **lecher** *noun*[1] contains more information about that form.

'Cf.' simply draws attention to some parallel or point of interest shared by etymologies.

A reference beginning 'See also' usually refers to a word derived from, or from the same source as, the headword.

4.10 DIVISIONS IN AN ENTRY

Every standard entry has a possible maximum of five hierarchical levels of formal sense division, though in practice two levels (those designated by bold arabic numerals and bold lower-case letters) are most frequent. The five levels are as follows:

►A, **►B**, etc.—Bold capital letters are used in entries with more than one part of speech, each of which is treated separately. The section for each is designated by a capital letter. A statement of the part(s) of speech being treated in that section immediately follows the letter: **►A** *noun*, **►B** *attrib.* or as *adjective*.

►I, **►II**, etc.—Bold capital roman numerals are used to indicate major grammatical or semantic divisions of the same part of speech, especially in long or complex entries. The basis of the division may be specified after the roman numeral.

1, **2**, etc.—Bold arabic numerals divide different basic meanings of the same part of speech. These are the most common sense divisions.

a, **▸b**, etc.—Within basic senses identified by arabic numerals, related subsenses are designated by bold lower-case letters. The first division may be unmarked if further subsenses are subdivisions of or subordinate to the first definition.

(***a***), (***b***), etc.—Bold italic lower-case letters in brackets are used to designate minor divisions in a main sense and senses of phrases, derivatives, and other subentries.

The first, third, and fourth of these levels are individually dated, and the second is implicitly dated from the next following sense. Within each dated level senses and divisions are ordered chronologically. The dagger for

obsolete uses is usually attached to the highest relevant sense level and not repeated for each of the ranks below.

4.11 GRAMMATICAL INFORMATION

Many definitions (and other parts of entries) contain grammatical information about the word being defined. Much of this information is straightforward, and this section aims only to explain some features which may require further clarification.

4.11.1 *Transitivity of verbs.* All verbs have a specification of transitivity, according to the two main categories transitive and intransitive: ***verb trans.*** and ***verb intrans.*** Fully established uses of fundamentally transitive verbs with an object understood are in this dictionary classed as intransitive.

If a verb has the same transitivity in all its senses, a single indication of transitivity is given. This will be at the top of the entry beside the part of speech if the headword is a verb only, or has no part-of-speech divisions, and after a bold capital if the entry is divided into separate parts of speech. If transitivity varies among senses, it is shown after each relevant sense number or letter, before the definition. Possibilities are ***verb trans.***, ***verb intrans.***, and, where the definition covers both transitive and intransitive uses, ***verb trans. & intrans.*** or ***verb intrans. & trans.*** (either the older or the more frequent being specified first).

Reflexive senses may be marked by ***refl.***, alone if the verb is otherwise only transitive, as ***verb refl.*** if transitivity is mixed.

If a sense of a transitive verb occurs only in the passive, the definition is expressed in the passive form, preceded by 'in ***pass.***'.

If transitivity is the basis of major divisions within an entry, it is specified after each roman numeral, and not at the lower sense divisions.

4.11.2 *Plurality of nouns.* A use or sense of a noun may be specified as 'In ***pl.***'. This means that the following definition relates to the plural form of the noun.

E.g. **acoustic** *noun*, sense 1 opens 'In ***pl.***' and the definition which follows is of *acoustics*.

gubbin *noun*, sense 3 opens 'In ***pl.*** (treated as sing.)' and the definition which follows ('A fool') is of *gubbins*.

By contrast ***pl.*** alone implies no change of form (as in **people** *noun*, **2a** ***pl.*** The persons belonging to a particular place ..., where the use defined is of *people* not *peoples*).

4.11.3 *Constructional information.* Many definitions contain information about the constructions which the headword takes or the contexts in which it is habitually used. Most of this information is in the form of self-explanatory statements of fixed or typical phrases, but in entries for verbs and for limited-set grammatical words (such as determiners) details can be more complex. Often the focus is on what the headword is followed by: either a general category of grammatical construction, for example 'with double object' (as *envied her her job*), 'Foll. by inf. without *to*' (as *shall go*), or a particular word (especially an adverb or preposition) specified in italics, as 'Foll. by *out*'. In these contexts *to do* stands for any infinitive, *doing* stands for any gerund, and *that* stands also for object clauses without explicit *that* ('I said I would' as well as 'I said that I would').

Constructional information can appear before or after a definition, or can form an integral part of it. If the constructional statement precedes the definition, the definition is of the whole construction. If it follows the definition, the definition is of the headword only.

E.g. (s.v. **LAY** *verb*[1]. **18**) ▸**b** NAUTICAL. Foll. by *aboard*: run into or alongside (a ship), usu. for boarding.
—the definition is of *lay aboard* and in this use *lay* is always followed by *aboard*.

(s. v. **LIVE** *verb*) **5** ***verb intrans.*** Continue in life ... Also foll. by *on*.
—the definition is of *live* but *live on* means the same and is also covered.

(s.v. **REFER** *verb*) **2** Assign *to* a particular class ...
—when *refer* means 'assign' it is always followed by *to*.

(s.v. **ENCLOSE** *verb*) **3** Surround with or *with* a wall, fence, etc.
—*enclose* means 'surround with a wall etc.' and may or may not be followed by a specifying phrase beginning *with*.

Following elements which occur frequently (but not always) and which extend the meaning of the headword are shown in brackets or preceded by 'Also'.

E.g. (s.v. **PRELUDE** *verb* 2 b) be introductory (*to*).
(s.v. **LIKENESS**) **4** The quality or fact of being like ... (Foll. by *between*, *to*, †*with*.)
(s.v. **RACKET** *verb*[2]) **3** ***verb intrans.*** Make a racket, esp. by noisy movement. Also foll. by *about*, *along*, *around*.

Verbal transitivity can be qualified by constructional information.

E.g. (s.v. **HARE** *verb*[2]) **2** ***verb intrans. & trans.*** (with *it*). Run or move with great speed.
—the verb is used either intransitively, or transitively in the form *hare it*.

(s.v. **LICK** *verb*[1]) ▸†**b** ***verb trans. & intrans.*** (with *of*, *on*). Lap with the tongue; drink, sip, (a liquid).
—*lick of* and *lick on* mean the same here as *lick* with a direct object.

4.12 USE OF BRACKETS

Brackets are used in many places and for many purposes, and this section does not cover all of these.

A specified direct object of a verb is bracketed.

E.g. (s.v. **LIMB** ***verb trans.***) **3** Remove branches from (a tree).

Definitions in such a form may, when the usage of the verb permits, be designated both transitive and intransitive. In such cases the intransitive definition is to be understood by mentally removing the brackets from around the direct object.

The referent of an adjective or subject of a verb is bracketed when it applies to only part of a sense or to a subsense.

E.g. (s.v. **GREEN** *adjective*) **2** Covered with herbage or foliage; (of a tree) in leaf.

(s.v. **GO** *verb*) (***b***) (of a firearm etc.) explode.

If the referent applies to a whole main sense it opens the definition and is followed by a colon.

E.g. (s.v. **FOUL** *adjective*) **4** Of speech etc.: indecent, obscene.

Brackets are frequently used in definitions to combine information and avoid repetition.

E.g. (s.v. **CHEEP** *noun*) A shrill feeble sound (as) of a young bird.
(s.v. **LEAVE** *verb*) **1** *verb trans.* **a** (Arrange to) transfer possession of at one's death …
(s.v. **COLOUR** *noun*) **8** *MINING.* (A particle of) gold.
(s.v. **BEEP** *verb trans. & intrans.*) (Cause to) emit a beep or beeps.
(s.v. **MINNESOTAN** *noun & adjective*) (A native or inhabitant) of Minnesota …
(s.v. **LACK** *verb*) **lackland** *adjective & noun* (designating) a person owning no land …
(s.v. **COLOUR** *noun*) **colour-wash** *noun & verb trans.* (paint with) coloured distemper.

In such cases, separate definitions are obtained by including and excluding the bracketed section.

A clarifying or reinforcing part of a definition, which may be useful but is not essential, may also be bracketed.

E.g. (s.v. **CYLINDER** *noun*) **2** A (solid or hollow) body …

4.13 ILLUSTRATION BLOCKS

Any main sense in an entry may be followed by a small-type tinted paragraph containing illustrative quotations and phrases linked to the main sense and its related subsenses.

4.13.1 *Illustrative quotations.* The purpose of the illustrative quotations is to complement the definitions by clarifying sense distinctions, illustrating constructions, and representing common collocations. Consequently, quotations are selective and many words and senses are not illustrated. The first quotation for any use is not the first known example.

If an entry has more than one quotation for a sense, these are arranged in basically chronological order. If a quotation illustrates a type of usage not explicitly covered by the definition, the quotation may be preceded by a qualification, such as *attrib.*:, *fig.*:.

The source of a quotation is given immediately before the quotation text. This is usually either an author (in small capitals except for true capitals) or a published newspaper, journal, etc. (in italics). No quotation from a periodical dates from before the nineteenth century, and the great majority are from the twentieth. With a few exceptions titles of individual works are given only for Shakespeare. Chapter and verse are given for books of the Bible.

E.g. (s.v. **CHEER** *noun*[1] 6) *Times* The market took cheer … and marked the shares up 3p.
(s.v. **RAIN** *verb* 6) SHAKES. *Twel. N.* The rain it raineth every day.
(s.v. **DISCIPLE** *noun* 1) AV *John* 20:20 Then were the disciples glad, when they saw the Lord.

Quotations specified 'OED' reproduce examples included in the *Oxford English Dictionary* but attributed to no particular source and usually described as 'Modern'. They belong to the late nineteenth or early twentieth century.

Omissions from quotations are indicated by ellipses.

See also the list of Authors and Publications Quoted.

4.13.2 *Other illustrative material.* Illustration blocks are sometimes folllowed by defined phrases and cross-references to phrases defined elsewhere. Typical or common types of uses of a headword may be illustrated by italic examples rather than quotations from specified sources.

E.g. (s.v. **ANALYSIS** 2) **bowling analysis** *CRICKET* a statement of a bowler's performance record.
(s.v. **BUTCHER** *noun* 1) *FAMILY* ***butcher***.
(s.v. **RHYME** *noun* 3) ***double rhyme***, ***eye rhyme***, ***imperfect rhyme***, ***treble rhyme***, etc.

4.14 PHRASES AND COMPOUNDS

Phrases and compounds (collectively referred to here as subentries) are usually included (either listed or defined) in small-type blocks in the main entry for one of their significant words. The blocks in which they appear are located after a definition section and any illustration block. These blocks are of several kinds, and each has a heading, as

— **PHRASES**:
— **COMB.**:
— **ATTRIB. & COMB.**:
— **SPECIAL COLLOCATIONS**: (only of adjectives)
— **WITH ADVERBS** (or **PREPOSITIONS**) **IN SPECIALIZED SENSES**: (only of verbs)

or some combination of these. Within such blocks subentries are in alphabetical order. Defined items are in bold type, and there may also be cross-references to similar phrases containing the headword but defined under another entry (see section 5). Subentries in these blocks are not dated. Separate senses or parts of speech of a subentry can be divided by a bracketed bold italic lower-case letter: (***a***), (***b***), etc. Any status labels and symbols at the top of an entry apply also to the subentries in these blocks.

4.14.1 *Phrases.* Phrases can appear in several places in an entry: in a small-type block headed — **PHRASES**:, in an illustration block (see 4.13.2), in a main definition, or (occasionally) in another subentry block as a phrase of a compound. The examples below illustrate the latter two of these:

(s.v. **KIBOSH** *noun*) **1** ***put the kibosh on***, put an end to; dispose of finally.
(s.v. **LEG** *noun*) **leg-of-mutton** *adjective* resembling a leg of mutton, esp. in shape; ***leg-of-mutton sail***, a triangular mainsail; ***leg-of-mutton sleeve***, …

Phrases are usually treated in the entry for their first significant word, but if a later word in the phrase has particular importance, the phrase can be treated under that word.

E.g. **ship of the line** is treated under **line** *noun*[2], not under **ship** *noun*.

4.14.2 *Combinations.* A combination is a compound (usually a two-word compound) the first element of which is

the headword. A combination most often consists of two nouns, but may also be made up of a noun and some other part of speech (especially an adjective), a verb plus a noun object or adverb, or an adjective plus any part of speech other than a (separately written) noun (when the formation is classed as a special collocation: see 4.14.3 below). If a combination is a noun only, no part of speech is given. Otherwise a part of speech is specified.

If a noun is particularly frequently used attributively in a certain manner or sense, a combination paragraph may be headed —**ATTRIB. & COMB.**:, and may open with a statement of the headword's attributive use(s) and some italic examples.

E.g. (s.v. **LAND** *noun*[1]) —**ATTRIB. & COMB.**: In the senses … 'situated or taking place on land …', 'living on land …', as ***land battle***, ***-bird***, … ***-journey***, ***-monster*** … etc. Special combs., as **land agency** …

If the first word of the definition of a combination would simply repeat the second word of the combination, a colon may be subsituted.

E.g. (s.v. **CREAM** *noun*[2]) **cream bun**, **cream cake**: filled with cream.

4.14.3 *Special collocations.* A special collocation is a compound (written as two words) consisting of an adjective (the headword) and a following noun used in a fixed way or in a way which is not simply determinable from the separate meanings of its two elements.

No part of speech is given; all special collocations are nouns.

4.14.4 *Verbs with adverbs/prepositions in specialized senses.* A verbal phrase consisting of a verb headword plus a preposition or adverb, whose meaning is not simply the sum of its parts, has a 'specialized sense', and such phrases may be treated (in verb entries) in a block headed

With adverbs in specialized senses:
With prepositions in specialized senses:
With adverbs & prepositions in specialized senses:
etc.

Adverbs in such verbal constructions are sometimes referred to in grammatical literature as 'particles', and with transitive verbs can typically both precede and follow a direct object: *phone her up*, *phone up her father*.

A small-type block like this is normally created only when the uses with adverbs or prepositions are numerous. Isolated or specific examples can be treated under numbered senses or in an illustration block.

E.g. (s.v. **LIGHT** *verb*[1]) **4** *verb trans. & intrans.* NAUTICAL. Move or lift (a sail etc.) *along* or *over*.
11 *verb intrans.* Foll. by *out*: depart, get out.

Transitivity for items in these blocks is not usually specified unless a definition is ambiguous or transitivity varies among senses.

4.15 NOTES

Information of relevance or interest, usually relating to a whole entry, which does not fit obviously into the normal entry structure appears in a small-type note at the end of an entry (but before any derivative block). Such a note opens with —**NOTE**:.

Notes can be on a range of subjects, including dating, pronunciation, etymology, usage, and other relevant entries.

E.g. (s.v. **SERENDIPITY**) —**NOTE**: Rare before 20.
(s.v. **PORT** *noun*[1]) —**NOTE**: See also **CINQUE PORTS**.
(s.v. **MINUSCULE**) —**NOTE**: Spelling *miniscule*, formed by assoc. with **MINI-**, is very common but regarded as erroneous.

4.16 DERIVATIVES

A derivative is formed by adding a suffix (such as *-able*, *-ly*, *-ness*) to a word. Many such formations are treated as main entries, but many others, especially if they are fairly simple, with few senses and without further derivatives or compounds of their own, are placed in a small-type derivative block at the end of an entry.

A derivative block always comes last in its entry. Derivatives themselves are in bold type and always have a part of speech and one date, but regular formations with readily deducible meanings (e.g. those with the adverbial suffix *-ly* or the noun suffix *-ness*) may be left undefined.

Derivatives appear in alphabetical order. Alphabetically adjacent items with the same part of speech, definition, and date may be combined.

E.g. (s.v. **METAPSYCHICS**) **metapsychic**, **metapsychical** *adjectives* **E20**.
(s.v. **NEW JERSEY**) **New Jerseyan**, **New Jerseyite** *nouns* a native or inhabitant of New Jersey **M20**.

If a derivative is divided into formal senses or parts of speech, or if it has a compound definition (i.e. its definition contains a semicolon), its date is separated from its definition(s) by a colon.

A variant of a derivative may be given after the main form, often abbreviated to its differing element.

E.g. (s.v. **CONTEST** *verb*) **contester**, **-or** *noun* a person who contests **L19**.

As long as historically appropriate, any variant spellings specified for the headword occur also in its derivatives. Status and subject labels given at the top of an entry and applying to all its senses are assumed also to apply to any derivatives.

A derivative preceded by 'Also' is a synonym of the headword.

E.g. (s.v. **CONVALESCENCE**) Also **convalescency** *noun* (*rare*) **M17**.

Minor words which are not formal derivatives of the headword but which are etymologically related to it may also be included in the derivative block.

Derivatives are cross-referred to in small capitals (the same style as for headwords).

For pronunciation of derivatives see section 4.2.7.

5 Cross-references

A standard style is used in this dictionary to refer from one dictionary entry to another. For main entries and derivatives (including words defined within combining

entries) the word being referred to is represented in small capitals (though any true large capitals are retained). The part(s) of speech may follow in italics (with any homonym number), and a particular branch or sense number may be specified.

E.g. **À LA CARTE**
FREE *adjective*
ORTHOPTER 1
POST *noun*[2].

Phrases, combinations, and special collocations which constitute cross-references are given in italic type. Direction to the entry or subentry at which the definition appears is made explicitly by 'see' or implicitly (when the direction is to a unique head form and no individual sense number) by presenting the relevant headword or derivative in small capitals in context within the italic phrase.

E.g. ***abjure the realm***: see **ABJURE** 3.
Flanders poppy.

Explicit cross-references may be made from one subentry to another. The subentry to which direction is made appears in italics followed by 's.v.' (when reference is to another entry) or 'above' or 'below' (when reference is to another subentry or sense within the same entry).

E.g. ***catch cold***: see ***catch a cold*** above.
Cornish moneywort: see ***moneywort*** s.v. **MONEY** *noun*.

A definition may consist of an equation of one word, sense, or phrase with another. An equals sign is followed by a small-capital or italic cross-reference, as described above.

E.g. (s.v **COON** *noun*) **1** = **RACOON**.
(s.v. **FIN** *noun*[1]) **finback** = ***fin whale*** below.
(s.v. **GUN** *noun*) **6** = ***electron gun*** s.v. **ELECTRON** *noun*[2].
(s.v. **LINE** *noun*[2] 17) ▸**c** A particular policy … which a politician may maintain or expect others to follow; = ***party line*** s.v. **PARTY** *noun*.

When a cross-reference constitutes the only definition, the item cross-referred to is the more common or important one in that sense.

A cross-reference simply to a headword or part of speech equates the item being defined with all senses of that referred to.

6 Combining entries

In combining entries the headword is an affix, either beginning or ending with a hyphen and generally used joined to another word. Combining entries treat affixes of three types: suffixes, prefixes, and combining forms.

The dividing line between prefixes and combining forms is not always clear cut, and for purposes of ordering and cross-reference they are regarded as a single part of speech. In this dictionary combining forms generally represent either (i) modified forms of independent words in English or the source language, often in, or in imitation of, Latin and Greek forms and ending in *-i-* or *-o-* (e.g. **Anglo-**, **auto-**) or (ii) identical and closely related independent English words combining more or less freely with others and in combination not always readily differentiable one from the other (e.g. **after-**, **back-**). All other initial elements that form words are classed as prefixes (e.g. **ex-**, **non-**, **re-**).

7 Letter entries

Each of the twenty-six letters of the alphabet is treated in its own entry. The headword consists of an upper- and lower-case representation of the initial letter, separated by a comma.

E.g. **A**, **a**

The headword is followed by a pronunciation and a description and brief history of the letter.

This is typically followed by three branches: the first covering senses relating to the letter itself and to its shape or size; the second covering symbolical uses; the third containing the letter used as an abbreviation.

Some digraphs and ligatures, such as **ch**, **ph**, **ae**, and **oe**, are also included as headwords.

8 Variant entries

Variant spellings or inflectional forms specified at the top of an entry will usually also be mentioned in their proper alphabetical sequence. Exceptions are those which would be alphabetically adjacent to the headword, noun plurals in *-os* or *-oes*, regular inflections specified because there is an (irregular) alternative, inflections deducible from statements of consonant doubling, and inflections stated to be the same as those of the root (as in the case of some minor or obsolete words, such †**acknow** which is 'Infl. as **KNOW** *verb*').

In a variant entry the headword (in bold) is referred to the word under which it is mentioned (in small capitals) by means of the direction 'see' or by means of a statement of its relationship with the word referred to, as 'var. of', 'pa. t. & pple of'.

If a form is obsolete or foreign, this is reflected in the variant entry by a dagger or italicization as appropriate. Other qualifications are restricted to the main entry, which the user is directed to 'see'.

Headwords in variant entries may be combined if they are alphabetically adjacent and are for the same entry or for several correspondingly adjacent entries. If many related words share the same spelling variation, not all will necessarily be listed in the variant entry.

E.g. **honyock**, **honyocker** *nouns* vars. of **hunyak**.
labored *adjective*, **laborer** *noun*, **laboring** *adjective* see **LABOURED** *adjective* etc.
serjeant, **serjeantcy** *nouns* etc., see **SERGEANT** etc.

Variant entries which are homonyms follow all the main entries for that homonym.

9 Abbreviation and symbol entries

Abbreviations and symbols consisting of more than one letter have their own entries, which are in many respects

similar to standard dictionary entries. The main differences are that no dating information is given, and if there is more than one meaning, these are given in alphabetical rather than chronological order. A pronunciation is only given if it is not simply that of the constituent letters.

E.g. **BAFTA** /'baftə/ *abbreviation*. British Academy of Film and Television Arts.
Brig. *abbreviation*. Brigadier.
Cr *symbol*. CHEMISTRY. Chromium.
DF *abbreviation*. **1** Latin *Defensor Fidei* Defender of the Faith.

The dividing line between abbreviations *per se* and acronyms and initialisms is not always clear cut, and this dictionary lists as abbreviations a number of formations which will probably come to be considered as nouns or other words in their own right, such as **ISA** and **JPEG**.

Abbreviations are subject to considerable variation of form. For example, they often occur with a full stop after each letter, and those all in capitals may occur with initial capital only, or in lower-case letters. Such variations are not always explicitly covered.

Abbreviations and symbols

In this list the abbreviations are printed in the type and with the capitalization that is normally used for them, but variation according to context will be found. Some general abbreviations, such as those for units of measurement or points of the compass, are not listed here, but can be found in the main dictionary text.

abl.	ablative

Symbols

† obsolete

* now chiefly in the United States (see p. xxxiii)

The printing of hyphens

Hyphens introduced at line breaks in words or formulae not otherwise hyphenated are printed -. The regular form - represents a hyphen which would occur in any circumstance in the text.

Note on proprietary status

This dictionary includes words which have, or are asserted to have, proprietary status as trade marks or otherwise. Their inclusion does not imply that they have acquired for legal purposes a non-proprietary or general significance, nor any other judgement concerning their legal status. In cases where the editorial staff have some evidence that a word has proprietary status this is indicated in the entry for that word, but no judgement concerning the legal status of such words is made or implied thereby.

Shorter Oxford English Dictionary

Aa

A, a /eɪ/.
The first letter of the modern English alphabet and of the ancient Roman one, corresp. to Greek *alpha*, Hebrew *aleph*. The sound orig. represented by the letter, in English as in Latin, was a low back vowel, articulated with the tongue as low as possible in the mouth, considerable separation of the jaws, and spreading of the lips. For its principal mod. sounds see the Key to the Pronunciation. Pl. **A's**, **As**.

▸**I 1** The letter and its sound.
A per se A by itself, esp. as a word; *fig.* the first, best, or unique person or thing. **A to Z** a comprehensive manual. **from A to Z** over the entire range, completely.

2 The shape of the letter.
A-frame (a house or other structure supported by) a frame shaped like a capital A. **A-line** (a garment) having a narrow waist or shoulders and a somewhat flared skirt. **A-shaped** *adjective* having a shape or a cross-section like the capital letter A. **A tent** a tent with sides sloping down to the ground from a ridge pole.

▸**II** Symbolical uses.

3 Used to denote serial order; applied e.g. to the first group or section, sheet of a book, etc.

4 *MUSIC.* (Cap. A.) The sixth note of the diatonic scale of C major, or the first of the relative minor scale of C. Also, the scale of a composition with A as its keynote.

5 *LOGIC.* (Cap. A.) A universal affirmative proposition.

6 The first hypothetical person or example.
from A to B from any one place to some other place.

7 *MATH.* (Usu. italic *a.*) The first known quantity.

8 (Usu. cap. A.) Designating the first or highest class (of road, academic marks, population as regards affluence, etc.).
A-list (orig. *US*) *noun & adjective* (*a*) a (notional) roster of the most celebrated or sought-after individuals (esp. in the film industry); (*b*) *adjective* pre-eminent, top-ranking. **A No. 1** *US colloq.* excellent, first-rate. **A1** in Lloyd's Register of Shipping, used of ships in first-class condition as to hull (A) and stores (1); *colloq.* excellent, first-rate. **A-side** (the music of) the more important side of a gramophone record. **A Special** *hist.* a member of a full-time special police force in Northern Ireland.

9 (Cap. A.) The blood group characterized by the presence of the agglutinogen designated A and the absence of that designated B.
AB the blood group characterized by the presence of both A and B agglutinogens. **ABO** *adjective* designating or pertaining to the system in which blood is divided into four types (A, AB, B, and O) on the basis of the presence or absence of certain inherited antigens.

10 (Cap. A.) Designating a series of international standard paper sizes with a fixed shape and twice the area of the next size, as *A0*, *A1*, *A2*, *A3*, *A4*, etc.

11 *ANATOMY & ZOOLOGY.* [initial letter of *anisotropic.*] ***A band***, a dark transverse band in a myofibril, consisting of interdigitating filaments of actin and myosin.

▸**III 12** Abbrevs.: **A.** = Academician; Academy; Associate. **A** = (*BIOLOGY*) adenine (in DNA sequences); (*hist.*) adult (as a film classification); advanced (in ***A level***, ***A/S level***, of the General Certificate of Education examination); all (in ***A-OK***, ***A-okay*** (colloq.) in perfect order or condition); ampere; atom(ic) (in ***A-bomb*** etc.); attack (in designations of US aircraft types). **a.** = accepted (on bills of exchange); active (of verbs); adjective; [Latin] *ante* before (with dates; also *a*). **å** = (as *prefix*) atto-. **Å** (*PHYSICS*) = angstrom. **@** = at: (***a***) used to indicate cost or rate per unit item; (***b***) used in Internet addresses between the user's name and the domain name.

a /ə/ *pronoun. obsolete* exc. *dial.* ME.
[ORIGIN Unstressed form of *ha* he, *heo* she, *hi* they, etc.]
He, she, it, they.

SHAKES. *Haml.* Now 'a is a-praying. TENNYSON Doctors, they knaws nowt, for a says what's nawways true.

a /ə; *stressed* eɪ/ *adjective* (usu. called the ***indefinite article***; in mod. usage also classed as a *determiner*). Before a vowel sound (see below) **an** /ən; *stressed* an/.
[ORIGIN Old English *ān* one, weakened to proclitic form in early Middle English.]

▸**I 1** One, some, any, (the oneness, or indefiniteness, being implied rather than asserted). OE. ▸**b** One like. LME.

SHAKES. *Wint. T.* I have . . said many A prayer upon her grave. KEATS I had a dove and the sweet dove died. C. TOMLINSON As good a student As any in the house. M. LASKI They had passed and repassed each other a dozen times. J. BETJEMAN In Ealing on a Sunday Bell-haunted quiet falls. **b** SHAKES. *Merch. V.* A Daniel come to judgment. TENNYSON Shall I weep if a Poland fall?

2 Before quantifiers: some, a matter of, about. *obsolete* exc. *dial.* & in ***a few***, ***a great many***, ***a good many***. OE.

WILLIAM TURNER Stepe them a fiue or sixe dayes in vineger.

3 A certain, a particular. ME. ▸**b** A single; the same. M16.

Notes & Queries It was popularized by a Mr. Trudgen. **b** SHAKES. *Haml.* These foils have all a length? E. DICKINSON I'll tell you how the Sun rose—A ribbon at a time.

▸**II 4** In, to, or for, each. (Orig. the preposition ***a***, Old English *an*, *on*, defining time, as in twice *a* day; afterwards identified with the indef. article, and extended from time to space, measure, weight, number: see **A** *preposition*[1] 3.) OE.

DEFOE Four pieces of eight a man. YEATS But always went to chapel twice a week. *Oxford Times* Teams of six a side, each member of the one team fighting a duel with the six members of the other. J. STALLWORTHY Roast chestnuts, a shilling / a bag.

— **NOTE**: *An* was freq. before a consonant to end of 13, before sounded *h* until 18. In standard English *an* is now used before a vowel sound (including *h* mute), e.g. *an egg*, *an honour*, and *a* is used before a consonant (including sounded *h* and *eu-*, *u-* pronounced /jʊ, juː/), e.g. *a pen*, *a host*, *a eunuch*, *a unit*. In 18–20 *an* was commonly retained before an unstressed *h* (as in *an historian* and *an hotel*), because the initial *h* was often not pronounced, and less commonly before *eu-*, *u-* (*an university*).

a /ə/ *verb trans. & intrans.* Now chiefly *slang*. ME.
[ORIGIN Unstressed var.]
= **HAVE** *verb*. Freq. written joined to a preceding aux. verb, as ***coulda***, ***mighta*** (= **-A**[5]).
— **NOTE**: Common 13–17. After 17 the reduced form of **HAVE** *verb* was freq. written *ha*, *ha'*, though no *h* was pronounced.

a /ə/ *preposition*[1]. *arch. & dial.* See also **A-**[2]. OE.
[ORIGIN Unstressed form of **ON** *preposition*: cf. **O'** *preposition*[1].]
= **ON** *preposition* in various senses current before the 18th cent.

1 Position or direction: on, on to, at, in, towards. OE.

LD BERNERS The quene was brought a bedde. SHAKES. *Hen. V* Stand a tip-toe. C. TOURNEUR That's enow a' conscience!

Compounds: ***aback***, ***abed***, ***aboard***, ***afield***, ***afoot***, ***ashore***, etc.

2 Partition: in, into. OE.

SHAKES. *Hen. VIII* Torn a pieces.

Compound: ***asunder***.

3 Time: in, on, by. Esp. with adverbs of repetition (taken as the indef. article: see **A** *adjective* 4). OE.

CHAUCER Ful ofte a day. BUNYAN The bold villain . . haunts . . honest men's houses a nights. D. RUNYON A sure thing that is coming up a Monday.

Compound: ***nowadays***.

†**4** Manner: in, with. OE–L17.

C. MARLOWE Stands here a purpose.

†**5** Capacity: in (someone's name). OE–E18.

SHAKES. *Rich. II* A God's name, let it go.

6 State: in. OE.

AV 2 *Chron.* 2:18 To set the people a worke.

Compounds: ***afloat***, ***alive***, ***asleep***, etc.

7 Process (with a verbal noun taken pass.): in course of, undergoing. LME.

AV 1 *Pet.* 3:20 When the Arke was a preparing.

8 Action (with a verbal noun taken actively). With *be*: engaged in. With a verb of motion: to, into. E16.

ROBERT BURTON He would burst out a laughing. R. BENTLEY To set them a going. OED Such positions rarely go a begging.

a /ə/ *preposition*[2]. Now chiefly *slang*. LME.
[ORIGIN Var.]
= **OF** *preposition* (cf. **O'** *preposition*[2]). Now freq. written joined to a preceding word, as ***cuppa***, ***kinda***, ***loadsa***, ***lotsa***, ***lotta***, (= **-A**[6]).

a *interjection* see **AH** *interjection*.

a' /ɔː/ *adjective, noun, & adverb. Scot.* Also †**a**; **aw** & other vars. LME.
[ORIGIN Form of **ALL**, with *l* vocalized.]
= **ALL**.

a- /ə/ *prefix*[1] (not productive).
Old English *ā-*, orig. *ar-*, away, on, up, out, chiefly forming verbs, as ***abide***, ***arise***. Sometimes conf. with **A-**[5].

a- /ə/ *prefix*[2]. OE.
[ORIGIN Proclitic var.]
= **A** *preposition*[1].

a- /ə/ *prefix*[3] (not productive). OE.
Reduced form of Old English *of* off, from, of (see **A** *preposition*[2]), as ***anew***.

a- /ə/ *prefix*[4]. Now *dial.* ME.
Reduced form of **I-**[1], **Y-** (from Old English *ge-*). Also written as a separate word.

a- /ə/ *prefix*[5] (not productive). ME.
Repr. French *a-*, *à* from Latin *ad(-)* with the sense of motion to, change into, addition, or intensification, as ***abandon***, ***alarm***, ***amass***, ***avenue***: see **AD-**.

a- /ə/ *prefix*[6] (not productive). ME.
Repr. French *a-* from Latin *ab(-)* off, away, from (see **AB-**), as ***abridge***. Sometimes refash., as ***abstain***, or conf. with **A-**[5] and respelt, as ***assoil***.

a- /ə/ *prefix*[7] (not productive). ME.
Repr. Anglo-Norman *a-*, Old French *e-*, *es-* from Latin *ex-* out, utterly (see **EX-**[1]), as ***abash***.

a- /ə/ *prefix*[8] (not productive).
Repr. Latin *a-* reduced form of *ad-* before *sc*, *sp*, *st*, as ***ascend***: see **AD-**.

a- /ə/ *prefix*[9] (not productive).
Repr. Latin *a-* reduced form of *ab-* before *v*: see **AB-**.

a- /ə, eɪ, *stressed* a/ *prefix*[10].
Repr. Greek *a-* used before a consonant for *an-* without, not (see **AN-**[5]), as ***abyss***, ***apetalous***. A productive prefix of negation and privation with words of Greek and also Latin origin, as ***agnostic***, ***amoral***.

†**a-** *prefix*[11].
Prefixed (esp. by Spenser and other archaists) to words where it had no historical or etymological basis. Often treated like **A-**[8] and spelt *ad-*, *ac-*, *af-*, etc.

-a /ə/ *suffix*[1].
Repr. Greek & Latin nom. sing. ending of fem. nouns, as ***idea***, ***arena***: cf. **-IA**[1].

-a /ə/ *suffix*[2].
Repr. mod. Romance (Italian, Portuguese, & Spanish) ending of fem. nouns, as ***stanza***, ***duenna***.

-a /ə/ *suffix*[3].
Repr. Greek & Latin pl. ending of neut. nouns, adopted unchanged as English pl., as ***phenomena***, ***data***: cf. **-IA**[2].

-a /ə, ɑː/ *suffix*[4].
Appended to lines in burlesque poetry and other popular verse for metrical reasons.

-a *suffix*[5] see **A** *verb*.

-a *suffix*[6] see **A** *preposition*[2].

MILTON This wording . . accuses the whole composure to be conscious of some other Author.

▸**†B** *noun.* (An) accusation. LME–M17.
■ **accusable** *adjective* liable to be accused; open to an accusation *of*: E16. **accusal** *noun* (an) accusation L16. **accused** *ppl adjective & noun* (***a***) *adjective* charged with a crime or fault; (***b***) *noun the* prisoner at the bar: U15. †**accusement** *noun* the action of accusing; an accusation: LME–E18. **accuser** *noun* a person who accuses or blames someone; *esp.* a person who accuses someone in a court of justice: ME. **accusing** *adjective* blaming, reproachful L16. **accusingly** *adverb* L16.

accustom /əˈkʌstəm/ *verb & noun.* LME.
[ORIGIN Anglo-Norman *acustumer*, Old French *acost-* (mod. *accout-*), formed as A-[5] + CUSTOM *noun*.]
▸**A** *verb.* **1** *verb trans.* Foll. by *to*, †*with*: make (oneself or another, or a thing) used to or familiar with. LME.
▸**b** *verb intrans.* Be wont *to*. M16–M17.

G. B. SHAW Time to accustom myself to our new relations.
V. WOOLF The eyes accustom themselves to twilight and discern the shapes of things in a room. M. MCCARTHY We accustomed him to noise. **b** EVELYN Those . . who . . accustom to wash their heads.

†**2** *verb trans.* Make customary or familiar; practise habitually. Usu. in *pass.* L15–M18.

C. MARLOWE Such ceremonious thanks, As parting friends accustom on the shore.

†**3** *verb intrans.* Become or be familiar; mix or act familiarly. M16–L17.
†**accustom to** frequent. †**accustom with** consort or cohabit with.

▸**†B** *noun.* Custom; habituation. LME–M17.
■ †**accustomable** *adjective* habitual, customary LME–M18. †**accustomably** *adverb* habitually, customarily LME–E19. †**accustomance** *noun* customary use or practice LME–M19. **accustomary** *adjective* (*arch.*) usual, customary M16. **accusto'mation** *noun* (*rare*) habitual practice or use; being accustomed *to*: E17.

accustomed /əˈkʌstəmd/ *adjective.* LME.
[ORIGIN from ACCUSTOM *verb* + -ED[1].]
1 Made customary; wonted, used; usual. LME.

SHELLEY The accustomed nightingale still broods On her accustomed bough.

accustomed to used to, in the habit of.
†**2** Frequented by customers. L17–L19.

SMOLLETT A well accustomed shop.

■ **accustomedly** *adverb* E17. **accustomedness** *noun* M17.

AC/DC *abbreviation.*
1 Alternating current/direct current.
2 Bisexual. *slang.*

ace /eɪs/ *noun, verb, & adjective.* ME.
[ORIGIN Old French & mod. French *as* from Latin *as* unity.]
▸**A** *noun.* **1** The 'one' on dice, later also on playing cards or dominoes; a throw of 'one', or a card etc. so marked (in some card games reckoned as of the highest value). ME. ▸**b** In tennis etc.: an unreturnable shot, now *spec.* a service that an opponent fails to touch; a point scored. E19. ▸**c** GOLF. A hole in one. E20.
AMBS-ACE. **deuce ace** [Old French] two aces at one throw (now taken as ***deuce* + *ace*** = 2 + 1; so ***trey ace***, ***sice ace***, etc.). **an ace up one's sleeve**, *N. Amer.* **an ace in the hole** something effective in reserve. **play one's ace** use one's best resource.
2 *fig.* A single point; a jot, a particle, an atom; a hair's breadth. E16.
bate an ace *arch.* make the slightest abatement. **within an ace of** on the very point of, within a hair's breadth of.
3 **a** Esp. in the First and Second World Wars: a pilot who brought down many enemy aircraft. E20. ▸**b** *gen.* A person who excels at something. E20.

b P. G. WODEHOUSE George Bevan's all right. He's an ace.

– COMB.: **ace-high** *adjective* (*N. Amer. colloq.*) highly valued.
▸**B** *verb.* **1** *verb trans.* **a** In tennis etc.: score an ace against (an opponent). L19. ▸**b** GOLF. Complete (a hole) in one stroke. M20.
2 *verb trans. & intrans.* Achieve the top grade in (an examination etc.). Also foll. by *out*. *N. Amer. slang.* M20.
ace it achieve the top grade.
▸**C** *adjective.* First-class, excellent. *colloq.* M20.

-acean /ˈeɪʃ(ə)n/ *suffix.*
[ORIGIN from Latin *-acea* neut. pl. of *-aceus* -ACEOUS + -AN.]
Forming adjectives or nouns from names of zoological classes etc. ending in *-acea*, as ***crustacean***.

acedia /əˈsiːdɪə/ *noun.* E17.
[ORIGIN Late Latin *acedia* from Greek *akēdia*, from *a-* A-[10] + *kēdos* care, concern.]
= ACCIDIE.

Acehnese *noun & adjective* var. of ACHINESE.

Aceldama /əˈkɛldəmə, əˈsɛl-/ *noun.* M17.
[ORIGIN Greek *Akeldama* from Aramaic *ḥăqel dĕmā* field of blood: see *Acts* 1:19.]
A field of bloodshed; a scene of slaughter.

acellular /eɪˈsɛljʊlə/ *adjective.* M20.
[ORIGIN from A-[10] + CELLULAR.]
Not divided into cells.

acentric /eɪˈsɛntrɪk/ *adjective.* M19.
[ORIGIN from A-[10] + CENTRIC.]
Without a centre.

-aceous /ˈeɪʃəs/ *suffix.*
[ORIGIN from Latin *-aceus* of the nature of, belonging to: see -EOUS, -OUS.]
Forming adjectives from Latin words in *-aceus* etc., *spec.* in BOTANY from names of plant families ending in fem. pl. form *-aceae*.

Acephali /əˈsɛfəlaɪ, -liː/ *noun pl.* L16.
[ORIGIN medieval Latin (Isidore), pl. of *acephalus*: see ACEPHALOUS.]
1 Imaginary men or animals without heads. Now *rare* or *obsolete*. L16.
2 *ECCLESIASTICAL HISTORY.* Any of various Christian bodies which owned either no leader or no earthly head. L16.

acephalous /eɪˈsɛf(ə)ləs, -ˈkɛf-/ *adjective.* M18.
[ORIGIN from medieval Latin *acephalus* from Greek *akephalos*, from *a-* A-[10] + *kephalē* head: see -OUS.]
1 *gen.* Headless. M18.
2 Having or recognizing no governing head or chief. M18.
3 *ZOOLOGY.* Having no part of the body organized as a head. M18.
4 Lacking the beginning, as an imperfect manuscript or verse. M18.
■ **ace'phalic** *adjective* = ACEPHALOUS M17. **acephaly** *noun* absence of a head, esp. as a congenital malformation M20.

acer /ˈeɪsə/ *noun.* L19.
[ORIGIN Latin = maple.]
A tree or shrub of the large genus *Acer*, which includes the maples and the European sycamore.

aceramic /eɪsɪˈramɪk/ *adjective.* M20.
[ORIGIN from A-[10] + CERAMIC *adjective*.]
ARCHAEOLOGY. Of a culture: having no pottery.

acerb /əˈsəːb/ *adjective.* E17.
[ORIGIN Latin *acerbus*: cf. French *acerbe*.]
= ACERBIC.
■ **acerbly** *adverb* M20.

acerbate /əˈsəːbət/ *adjective.* M19.
[ORIGIN formed as ACERBATE *verb*: see -ATE[2].]
Embittered; exasperated.

acerbate /ˈasəbeɪt/ *verb trans.* M18.
[ORIGIN Latin *acerbat-* pa. ppl stem of *acerbare*, formed as ACERB: see -ATE[3].]
Sour, embitter; exasperate.

acerbic /əˈsəːbɪk/ *adjective.* M19.
[ORIGIN formed as ACERB + -IC.]
Astringently sour, harsh-tasting; *fig.* bitter and sharp, esp. in speech, manner, or temper.
■ **acerbically** *adverb* L20.

acerbity /əˈsəːbɪti/ *noun.* L16.
[ORIGIN French *acerbité* or Latin *acerbitas*: see ACERB, -ITY.]
1 Bitterness and sharpness, keen harshness, (of character, manner, speech, etc.). L16.
2 Sourness of taste, with astringency. E17.
3 A bitter experience; a harsh or sharp comment etc. E17.

acerebral /eɪˈsɛrɪbr(ə)l/ *adjective.* M20.
[ORIGIN from A-[10] + CEREBRAL *adjective*.]
Brainless; unintelligent; unthinking.

acerose /ˈasərəʊs/ *adjective.* E18.
[ORIGIN Latin *acerosus*, from *acer-*, *acus* chaff: see -OSE[1]. In sense 2 erron. referred to *acus* needle, or *acer* sharp.]
†**1** Chaffy. Only in Dicts. E18–L19.
2 *BOTANY.* Needle-shaped and rigid. Now *rare*. M18.

acervation /asəˈveɪʃ(ə)n/ *noun.* L17.
[ORIGIN Latin *acervatio(n-)*, from *acervat-* pa. ppl stem of *acervare* heap up, from *acervus* heap: see -ATION.]
The action of heaping up; an accumulation.
■ **acervate** /əˈsəːvət/ *adjective* heaped, growing in clusters M19. **acervuline** /əˈsəːvjʊlaɪn/ *adjective* in the form of little heaps M19.

acervulus /əˈsəːvjʊləs/ *noun.* Pl. **-li** /-laɪ, -liː/. E19.
[ORIGIN mod. Latin, dim. of Latin *acervus* heap: see -ULE.]
1 *ANATOMY.* In full ***acervulus cerebri*** /ˈsɛrɪbraɪ/. = ***brain-sand*** s.v. BRAIN *noun*. Now *rare* or *obsolete*. E19.
2 *BOTANY.* A flat mass of fungal conidiophores embedded in the tissue of the host plant. L19.

acescent /əˈsɛs(ə)nt/ *adjective.* M18.
[ORIGIN French, or Latin *acescent-* pres. ppl stem of *acescere* become sour: see -ESCENT.]
Turning sour; tending to turn acid; somewhat sour (*lit. & fig.*).
■ **acescence** *noun* the act of turning sour, acetous fermentation L17. **acescency** *noun* tendency to sourness; incipient or slight acidity: M18.

acesulfame /asɪˈsʌlfeɪm/ *noun.* L20.
[ORIGIN Uncertain; see SULF-.]
A white crystalline sulphur-containing heterocyclic compound, $C_4H_5NO_4S$, used as a low-calorie artificial sweetener, esp. in the form of a potassium salt (***acesulfame-K***).

acet- *combining form* see ACETO-.

acetable /ˈasɪtəb(ə)l/ *noun.* Now *rare* or *obsolete*. L15.
[ORIGIN formed as ACETABULUM.]
= ACETABULUM.

acetabulum /asɪˈtabjʊləm/ *noun.* Pl. **-la** /-lə/. LME.
[ORIGIN Latin, from *acetum* vinegar + *-abulum* denoting a container.]
1 *ROMAN ANTIQUITIES.* A cup to hold vinegar at table; a liquid measure of the capacity of such a cup. LME.
2 *ANATOMY.* **a** The socket of the hip bone, with which the head of the femur articulates. L16. ▸**b** A sucker possessed by some cephalopods, trematodes, etc. M17.

acetal /ˈasɪtal/ *noun.* M19.
[ORIGIN from ACET(IC + -AL[2].]
CHEMISTRY. **1** An odoriferous liquid, $CH_3CH(OC_2H_5)_2$, formed by reaction of acetaldehyde and ethyl alcohol. Also, any other compound with one hydrogen atom and two alkoxy groups attached to the same carbon atom. Also *gen.* = KETAL. M19.
2 = POLYOXYMETHYLENE. M20.

acetaldehyde /asɪtˈaldɪhʌɪd/ *noun.* M19.
[ORIGIN from ACET(IC + ALDEHYDE.]
CHEMISTRY. A volatile pungent liquid, CH_3CHO, obtained by the oxidation of ethyl alcohol; ethanal.

acetamide /əˈsiːtəmʌɪd, əˈsɛt-/ *noun.* M19.
[ORIGIN from ACET(YL + AMIDE.]
CHEMISTRY. The amide of acetic acid, a crystalline solid, CH_3CONH_2; ethanamide.

acetanilide /asɪtˈanɪlʌɪd/ *noun.* M19.
[ORIGIN from ACET(YL + ANIL(INE + -IDE.]
CHEMISTRY. A crystalline solid, $C_6H_5NHCOCH_3$, obtained by acetylation of aniline.

A

acetate /'asɪteɪt/ *noun*. L18.
[ORIGIN from ACET(IC + -ATE¹.]
1 *CHEMISTRY*. A salt or ester of acetic acid. L18.
2 The cellulose ester of acetic acid, in the form of an artificial fibre or a plastic. E20. ▸**b** A disc coated with cellulose acetate, for direct recording by a cutting stylus; any direct-cut disc. M20. ▸**c** A clear plastic film of cellulose acetate, used in photography, as a display medium, etc.; a sheet of this. M20.
attrib.: ***acetate fibre***, ***acetate rayon***, ***acetate silk***, etc.

acetic /ə'si:tɪk, ə'sɛt-/ *adjective*. L18.
[ORIGIN French *acétique*, from Latin *acetum* vinegar: see -IC.]
1 *CHEMISTRY*. ***acetic acid***, a weak acid, CH_3COOH, of which vinegar is a crude dilute solution, and which when pure and anhydrous (***glacial acetic acid***) can be obtained as colourless crystals melting at 16.7°C; ethanoic acid. L18.
2 Pertaining to or producing acetic acid. L19.
acetic anhydride a liquid, $(CH_3CO)_2O$, the anhydride of acetic acid.

acetify /ə'sɛtɪfʌɪ, ə'si:t-/ *verb trans*. M19.
[ORIGIN from Latin *acetum* vinegar + -I- + -FY.]
Subject to fermentation producing acetic acid; convert into vinegar.
■ **acetifi'cation** *noun* the process of acetifying M18. **acetifier** *noun* an apparatus in which vinegar is produced M19.

aceto- /ə'si:təʊ, 'asɪtəʊ/ *combining form* of ACETIC, ACETYL: see -O-. Before a vowel also **acet-**.
■ **acetoa'cetic** *adjective*: ***acetoacetic acid***, an acid, CH_3COCH_2COOH, present in the urine of diabetics, and when pure a viscous unstable liquid L19. **aceto'acetate** *noun* a salt or ester of this acid L19. **aceto'nitrile**, †**-il** *noun* a toxic odoriferous liquid, CH_3CN; methyl cyanide: M19.

acetobacter /ə,si:tə(ʊ)'baktə, asɪ-/ *noun*. M20.
[ORIGIN mod. Latin (see below), formed as ACETO- + BACTER(IUM.]
A bacterium that oxidizes organic compounds to acetic acid (as in vinegar formation), *esp.* one of the genus *Acetobacter*.

acetogenic /ə,si:tə(ʊ)'dʒɛnɪk, asɪt-/ *adjective*. L20.
[ORIGIN from ACETO- + -GENIC.]
MICROBIOLOGY. Forming or producing acetic acid, esp. as a metabolic by-product.

acetone /'asɪtəʊn/ *noun*. M19.
[ORIGIN from ACET(IC + -ONE.]
CHEMISTRY. A fragrant volatile liquid ketone, CH_3COCH_3, obtained chiefly by the dehydrogenation of isopropyl alcohol and widely used as a solvent; propanone.
■ **aceto'naemia** *noun* (*MEDICINE*) = KETOSIS M19. **aceto'nuria** *noun* (*MEDICINE*) = KETONURIA L19.

acetous /ə'si:təs/ *adjective*. LME.
[ORIGIN from late Latin *acetosus*, from *acetum* vinegar: see -OUS.]
Having the qualities of vinegar; producing vinegar; sour.
– **NOTE**: Rare before L18.

acetyl /'asɪtʌɪl, -tɪl/ *noun*. M19.
[ORIGIN from ACET(IC + -YL.]
CHEMISTRY. The radical $\cdot COCH_3$, derived from acetic acid. Usu. in *comb.*
– **COMB.**: **acetylcholine** the acetyl ester of choline and a major neurotransmitter; ***acetylcholinesterase***, a cholinesterase that causes rapid hydrolysis of acetylcholine after transmission of an impulse; **acetyl coenzyme A** the acetyl ester of coenzyme A, involved as an acetylating agent in many biochemical processes; abbreviation ***acetyl CoA***; **acetylsalicylic acid** the acetyl derivative of salicylic acid, $C_9H_8O_4$ (cf. ASPIRIN); **acetyl silk** acetate silk.

acetylation /əsɛtɪ'leɪʃ(ə)n/ *noun*. L19.
[ORIGIN from ACETYL + -ATION.]
CHEMISTRY. A reaction or process in which one or more acetyl groups are introduced into a molecule.
■ **a'cetylate** *verb trans*. subject (a compound) to acetylation L19. **a'cetylator** *noun* (*BIOCHEMISTRY*) an individual capable of metabolic acetylation (at a specified characteristic rate) M20.

acetylene /ə'sɛtɪli:n/ *noun*. M19.
[ORIGIN formed as ACETYLATION + -ENE.]
CHEMISTRY. A gaseous hydrocarbon, C_2H_2, which burns with a bright flame, used in welding and (esp. formerly) for illumination; ethyne.
■ **acety'lenic** *adjective* containing the carbon–carbon triple bond characteristic of acetylene and the alkynes L19. **acetylide** *noun* a saltlike derivative of acetylene formed by replacement of one or both of the hydrogen atoms by a metal M19.

ach /ɑːx, *foreign* ax/ *interjection*. L15.
[ORIGIN Celtic, German, & Dutch.]
Ah!

Achaean /ə'ki:ən/ *adjective & noun*. Also **Achaian** /ə'kʌɪən/. M16.
[ORIGIN from Latin *Achaeus* from Greek *Akhaios*, from *Akhaia* Achaea, + -AN.]
Of or pertaining to, a native or inhabitant of, Achaea (in Homer a name of Greece generally, later a district of the Peloponnese).

Achaemenian /akɪ'mɛnɪən/ *adjective & noun*. E18.
[ORIGIN from Latin *Achaemenius*, from Greek *Akhaimenēs* Achaemenes, reputed ancestor of Cyrus: see -IAN.]
Of or pertaining to, a member of, the dynasty that ruled in ancient Persia from the time of Cyrus the Great (d. 529 BC) until the death of Darius III (330 BC).
■ Also **Achaemenid** /ə'ki:mənɪd/ *adjective & noun* [-ID³] E20.

Achaian *adjective & noun* var. of ACHAEAN.

achalasia /akə'leɪzjə/ *noun*. E20.
[ORIGIN from A-¹⁰ + Greek *khalasis*, from *khalan* relax: see -IA¹.]
PHYSIOLOGY. Failure of the muscles of the lower part of the oesophagus to relax, which prevents food from passing into the stomach.

achar /ə'tʃɑː/ *noun*. L16.
[ORIGIN Ult. from Persian *āchār*.]
Pickles, as prepared in the Indian subcontinent.

†**a-char** *adverb & pred. adjective* var. of AJAR *adverb*¹ *& pred. adjective*¹.

acharnement /a'ʃarnəmɑ̃, ə'ʃɑːnmɑ̃/ *noun*. M18.
[ORIGIN French, from *acharner* give a taste of flesh (to dogs etc.): see -MENT.]
Bloodthirsty fury; ferocity; gusto.

acharya /ɑː'tʃɑːrjə/ *noun*. E19.
[ORIGIN Sanskrit *ācārya* master, teacher.]
In the Indian subcontinent, (a title given to) a spiritual teacher or leader; *transf.* an influential mentor.

achate /'akət/ *noun*¹. *arch*. ME.
[ORIGIN Old French *ac(h)ate* from Latin *achates*: see AGATE *noun*.]
An agate.

†**achate** *noun*² var. of ACATE.

†**achater** *noun* var. of ACATOUR.

Achates /ə'keɪti:z/ *noun*. *literary*. L16.
[ORIGIN The faithful friend of Aeneas (Virgil *Aeneid* VI. 158 etc.).]
A devoted follower; a loyal friend and companion. Also FIDUS ACHATES.

†**achatour**, **achatry** *nouns* see ACATOUR.

ache /eɪk/ *noun*¹.
[ORIGIN Old English *æce*, from ACHE *verb*: see note below.]
A continuous or prolonged dull pain, physical or mental.
aches and pains minor ailments and physical discomforts.
– **NOTE**: See note s.v. ACHE *verb*.

†**ache** *noun*². ME–E17.
[ORIGIN Old French & mod. French from Latin *apium* parsley, from *apis* bee (attracted to the plant).]
Smallage; parsley.

†**ache** *noun*³ var. of AITCH.

ache /eɪk/ *verb intrans*. Also (*arch.*) **ake**.
[ORIGIN Old English *acan*, corresp. to forms in West Germanic; possible cognates in other Indo-European langs. are Greek *agos* sin, guilt, Sanskrit *āgas*. See note below.]
1 Suffer or be the source of continuous or prolonged dull pain or mental distress. OE.

S. RICHARDSON Does not your heart ake for your Harriet?
T. SHARPE The joints in his knees ached.

2 Feel an intense desire for. L18.

SHERWOOD ANDERSON I ached to see that race.

– **NOTE**: Historically the verb is *ake*, the noun *ache*. The noun was formerly pronunc. /-tʃ/ (cf. other noun/verb pairs such as *bake*/*batch* and *speak*/*speech*). This pronunc. was prevalent until E19, though the noun began to be confused with the verb as /-k/ about 1700. Dr Johnson is mainly responsible for the mod. spellings, as he erroneously derived them from Greek *akhos* 'pain' and declared them 'more grammatically written *ache*'.
■ **achingly** *adverb* so as to cause continuous dull pain M19.

achene /ə'ki:n/ *noun*. M19.
[ORIGIN from mod. Latin *achaenium*, irreg. from Greek *a-* A-¹⁰ + *khainein* gape.]
BOTANY. A small dry one-seeded fruit which does not open to liberate the seed.

Acheron /'akərɒn/ *noun*. E16.
[ORIGIN Latin *Acheron(t-)* from Greek *Akherōn*.]
In Greek mythology, one of the rivers of Hades; the infernal regions.
■ **Ache'rontic** *adjective* of or pertaining to Acheron, infernal; gloomy; on the brink of death: L16.

Acheulian /ə'ʃu:lɪən/ *adjective & noun*. Also **-ean**. E20.
[ORIGIN French *Acheuléen*, from St-*Acheul* near Amiens, France.]
(The culture or industry) of an early Palaeolithic period in Europe, the Middle East, Africa, and India, preceding the Mousterian, and distinguished in particular by the manufacture of stone hand axes.

à cheval /a ʃəval, ɑ: ʃə'vɑ:l/ *adverbial phr*. M19.
[ORIGIN French = on horseback.]
With one foot on each side; in command of two lines of communication; with a stake risked equally on two chances.

achieve /ə'tʃi:v/ *verb*. ME.
[ORIGIN Old French & mod. French *achever* come or bring to a head or end, from phr. *a chief*: see A-⁵, CHIEF *noun*.]
1 *verb trans*. Accomplish; carry out successfully. ME.

A. NEWMAN She had achieved a lot in the last twenty-four hours.
DAY LEWIS Insurgents who have achieved a revolution before one has even suspected a conspiracy.

†**2** *verb trans*. Finish, terminate. LME–L16.

SHAKES. *Hen. V* Bid them achieve me, and then sell my bones.

†**3** *verb intrans*. Come to an end; result, turn out. LME–M16.

LD BERNERS All your busynes shall acheue the better.

4 *verb trans*. Succeed in gaining; acquire by effort; reach (an end etc.). LME.

SHAKES. *Twel. N.* Some are born great, some achieve greatness.
S. GIBBONS All the ingredients for success were present, and success was achieved.

5 *verb intrans*. **a** Be successful; attain a desired end or level of performance. L15. ▸†**b** Attain successfully *to*. L15–L16.

a *Church Times* Intelligent people . . who had not achieved academically.

■ **achieva bility** *noun* the quality or state of being achievable E20. **achievable** *adjective* able to be achieved M17. **achiever** *noun* L16.

achievement /ə'tʃi:vm(ə)nt/ *noun*. L15.
[ORIGIN from ACHIEVE + -MENT or from Old French & mod. French *achèvement*.]
1 Completion, accomplishment. L15.
2 *HERALDRY*. Orig., an escutcheon or armorial device, *esp.* one granted in memory of a distinguished feat; also = HATCHMENT. Now, a representation of all the armorial devices to which a bearer of arms is entitled. L16.
3 Something achieved; a feat. L16.
– **COMB.**: **achievement motivation** motivation to attain a desired end or level of performance, competitiveness.

achillea /akɪ'li:ə, a'kɪlɪə/ *noun*. L16.
[ORIGIN Latin *achillea*, *-eos* from Greek *Akhilleios* a plant supposed to have been used medicinally by Achilles (see ACHILLES).]
Any of various plants of the genus *Achillea*, of the composite family, with flower heads usually in corymbs; *spec.* a common garden perennial, *A. filipendulina*, with yellow flower heads on tall stems. Cf. MILFOIL, ***sneezewort*** s.v. SNEEZE, YARROW.

Achilles /ə'kɪli:z/ *noun*. E17.
[ORIGIN Latin from Greek *Akhilleus*, a hero in Homer's *Iliad*, invulnerable except in the heel.]
A person like Achilles in point of valour, invulnerability, etc.
– **COMB.**: **Achilles heel**, **Achilles' heel** a person's only vulnerable spot, a weak point; **Achilles tendon** the tendon attaching the heel to the calf muscles.
■ **Achillean** *adjective* resembling Achilles, invulnerable L16.

achimenes /ə'kɪmənɪ:z/ *noun*. Pl. same. M19.
[ORIGIN mod. Latin (see below) from Greek *akhaimenis* a kind of plant.]
Any of various herbaceous perennial plants of the Central American genus *Achimenes* (family Gesneriaceae), cultivated for their tubular or trumpet-shaped flowers.

Achinese /atʃə'ni:z/ *noun & adjective*. Also **Acehnese**. L17.
[ORIGIN from *Acheh*, *Aceh* a territory in northern Sumatra + *-n-* + -ESE.]
▸**A** *noun*. Pl. same.
1 A member of a Muslim people of northern Sumatra. L17.
2 The Austronesian language of this people. L19.
▸**B** *adjective*. Of or pertaining to the Achinese or their language. L18.

achiote /atʃɪ'ɒti/ *noun*. M17.
[ORIGIN Spanish from Nahuatl *achiotl*.]
= ANNATTO.

achiral /eɪ'kʌɪər(ə)l/ *adjective*. M20.
[ORIGIN from A-¹⁰ + CHIRAL.]
Of a crystal, molecule, etc.: superposable on its mirror image.
■ **achi'rality** *noun* L20.

achkan /'atʃk(ə)n/ *noun*. E20.
[ORIGIN Hindi *ackan*.]
A knee-length coat, buttoned in front, worn by men in the Indian subcontinent.

achlamydeous /aklə'mɪdɪəs/ *adjective*. M19.
[ORIGIN from A-¹⁰ + Greek *khlamud-*, *khlamus* cloak + -EOUS.]
BOTANY. Of a flower: lacking both calyx and corolla.

achlorhydria /eɪklɔ:'hʌɪdrɪə, a-/ *noun*. L19.
[ORIGIN from A-¹⁰ + CHLOR-¹ + HYDRO- + -IA¹.]
MEDICINE. Absence of hydrochloric acid in the gastric secretions.
■ **achlorhydric** *adjective* exhibiting achlorhydria M20.

achlorophyllous /eɪklɔ:'rɒfɪləs/ *adjective*. L19.
[ORIGIN from A-¹⁰ + CHLOROPHYLLOUS.]
BOTANY. Lacking chlorophyll.

Acholi /ə'tʃəʊli/ *noun & adjective*. Also †**Shooli**. L19.
[ORIGIN Acholi.]
▸**A** *noun*. Pl. same. A member of a farming and pastoral people of northern Uganda and southern Sudan; the Nilotic language of this people. L19.
▸**B** *adjective*. Of or pertaining to the Acholi or their language. L19.

acholuric /akə'ljʊərɪk, eɪ-/ *adjective*. E20.
[ORIGIN French *acholurique*, from Greek *kholē* bile: see A-¹⁰, -URIC.]
MEDICINE. Designating a form of jaundice characterized by the absence of bile pigments in the urine.

achondrite /ə'kɒndrʌɪt/ *noun*. E20.
[ORIGIN from A-¹⁰ + CHONDRITE.]
A stony meteorite containing no chondrules.
■ **achondritic** /akən'drɪtɪk/ *adjective* E20.

achondroplasia /əkɒndrə'pleɪzjə, eɪˌkɒn-/ *noun*. L19.
[ORIGIN from Greek *akhondros*, from *a-* A-[10] + *khondros* cartilage: see -PLASIA.]
MEDICINE. A hereditary disease in which bone growth by production and ossification of cartilage at the epiphyses of the long bones is retarded, and which results in a form of dwarfism, with short limbs, a normal trunk, and a small face.
■ **achondroplasiac**, **achondroplasic**, **achondroplastic** *adjectives & nouns* (*a*) *adjective* affected with or pertaining to achondroplasia; (*b*) *noun* a person with achondroplasia: E20.

achromatic /akrəʊ'matɪk/ *adjective & noun*. L18.
[ORIGIN French *achromatique*, formed as A-[10], CHROMATIC.]
▸**A** *adjective*. Free from colour; transmitting light without decomposing it into its constituent colours. L18.
▸**B** *noun*. An achromatic lens. L18.
■ **'achromat** *noun* [-AT[2]] an achromatic lens E20. **achromatically** *adverb* M19. **ˌachroma'ticity** *noun* M19. **a'chromatism** *noun* the quality of being achromatic L18. **a'chromatize** *verb trans*. make achromatic M19.

achromatopsia /ˌeɪkrəʊmə'tɒpsɪə, ˌa-/ *noun*. Also **-psy** /-psi/. M19.
[ORIGIN from Greek *akhrōmatos* without colour (*khrōmat-*, *khrōma* colour) + *-opsia*, from *opsis* sight: see A-[10], -IA[1], -Y[3].]
MEDICINE. Total colour blindness.
■ **achromatopsic** *adjective & noun* (*a*) *adjective* pertaining to or exhibiting achromatopsia; (*b*) *noun* a person with achromatopsia: L20.

achromatous /eɪ'krəʊmətəs/ *adjective*. *rare*. L19.
[ORIGIN formed as ACHROMATOPSIA + -OUS.]
Colourless; *esp*. lacking the normal colour.

achromic /eɪ'krəʊmɪk/ *adjective*. *rare*. M18.
[ORIGIN from A-[10] + Greek *khrōma* colour + -IC.]
Free from colour; having no colour except black, white, or intermediate shades of grey.

achronical *adjective* see ACRONYCHAL.

achronological /ˌeɪkrɒnə'lɒdʒɪk(ə)l/ *adjective*. L20.
[ORIGIN from A-[10] + CHRONOLOGICAL.]
Not following chronological order, = UNCHRONOLOGICAL 1.

achy /'eɪkɪ/ *adjective*. Also **-ey**. L19.
[ORIGIN from ACHE *noun*[1] + -Y[1].]
Full of or suffering from aches.
■ **achiness** *noun* L20.

achylia /ə'kʌɪlɪə/ *noun*. L19.
[ORIGIN mod. Latin, from Greek *akhulos*, from *a-* A-[10] + *khulos* juice, chyle, + -IA[1].]
MEDICINE. Freq. more fully ***achylia gastrica*** /'gastrɪkə/. Absence of gastric secretion.

acicula /ə'sɪkjʊlə/ *noun*. Pl. **-lae** /-liː/, **-las**. Also **-lum** /-lʌm/, pl. **-la** /-lə/; **-lus** /-ləs/, pl. **-li** /-lʌɪ, -liː/; & anglicized (esp. *BOTANY*) as **acicle** /'asɪk(ə)l/. M19.
[ORIGIN Late Latin, dim. of *acus* needle: see -CULE.]
BOTANY & ZOOLOGY. A slender needle-like structure, such as a spine or prickle.

acicular /ə'sɪkjʊlə/ *adjective*. E18.
[ORIGIN formed as ACICULA + -AR[1].]
Needle-like (esp. of crystals).
■ **acicu'larity** *noun* M20. **acicularly** *adverb* in needle-like forms E18.

aciculate /ə'sɪkjʊlət/ *adjective*. M19.
[ORIGIN formed as ACICULA + -ATE[2].]
Covered with aciculae; marked or striated as if with a needle. Also = ACICULAR.

aciculum *noun* see ACICULA.

acid /'asɪd/ *noun*. L17.
[ORIGIN from the adjective.]
1 A sour substance; *spec*. in *CHEMISTRY*, any of a large class of substances that contain hydrogen replaceable by metals, and neutralize and are neutralized by alkalis, the most familiar examples being sour corrosive liquids able to dissolve metals. Also, in mod. use, any species capable of donating protons or of accepting pairs of electrons. L17.
nitric acid, ***oxalic acid***, ***phosphoric acid***, etc. ***acid of sugar***: see SUGAR *noun & adjective*. **come the acid** *slang* be unpleasant or offensive, speak in a caustic or sarcastic manner. ***conjugate acid***: see CONJUGATE *adjective*. **put the acid on** *Austral. & NZ slang* seek to extract a loan, favour, etc., from.
2 The drug LSD. *slang*. M20.
– COMB.: **acid-head** *slang* a user of the drug LSD; **acid house** a kind of popular synthesized dance music with a fast repetitive beat, popular in the 1980s and associated with the taking of drugs such as Ecstasy; **acid jazz** a kind of popular dance music incorporating elements of jazz, funk, soul, and hip hop; **acid rock** a type of rock music associated with the taking of hallucinogenic drugs; **acid test** a test for gold which involves nitric acid; *fig*. a crucial test.

acid /'asɪd/ *adjective*. E17.
[ORIGIN French *acide* or Latin *acidus*, from *acere* be sour.]
1 Sour, tart, sharp to the taste; tasting like vinegar. E17.
▸**b** *fig*. Biting, severe, unpleasant. L18. ▸**c** Of a colour: intense. E20.
▸**b** DISRAELI Rather an acid expression of countenance.
W. S. MAUGHAM He had a certain acid humour. **c** D. H. LAWRENCE You acid-blue metallic bird.
acid drop a kind of sweet with an acid taste.
2 *CHEMISTRY*. Having the essential properties of an acid; derived from or characteristic of an acid. E18.
acid air air containing a high proportion of acidic pollutants. ***acid AMIDE***. **acid dye** a dye which is a metallic salt of an acid and is usu. applied in an acid medium or as a cytological strain. **acid rain** rain made acidic by atmospheric pollution. **acid salt** a salt derived from an acid by incomplete exchange of the replaceable hydrogen. ***acid tide***: see TIDE *noun*.
3 *GEOLOGY*. Of an igneous rock: rich in silica. L19.
▸**b** *METALLURGY*. Pertaining to, resulting from, or designating steel-making processes involving silica-rich refractories and slags. L19.
– NOTE: In techn. senses opp. BASIC *adjective*.
■ **acidly** *adverb* sourly L19. **acidness** *noun* M17.

acidic /ə'sɪdɪk/ *adjective*. L19.
[ORIGIN from ACID *noun* + -IC.]
1 *GEOLOGY*. = ACID *adjective* 3. L19.
2 *CHEMISTRY*. Of, pertaining to, or having the properties of an acid; having a pH lower than 7. L19.

acidify /ə'sɪdɪfʌɪ/ *verb trans*. L18.
[ORIGIN formed as ACIDIC + -I- + -FY.]
Convert into an acid (now *rare*); make acid; add acid to.
■ **aˌcidifi'cation** *noun* the act or process of acidifying L18.

acidimetry /asɪ'dɪmɪtrɪ/ *noun*. M19.
[ORIGIN formed as ACIDIC + -I- + -METRY.]
CHEMISTRY. The measurement of the strengths of acids.
■ **†acidimeter** *noun* an instrument for acidimetry M–L19. **aˌcidi'metric**, **aˌcidi'metrical** *adjectives* of or pertaining to acidimetry M19.

acidise *verb* var. of ACIDIZE.

acidity /ə'sɪdɪtɪ/ *noun*. E17.
[ORIGIN French *acidité* or late Latin *aciditas*: see ACID *adjective, noun*, -ITY.]
1 The quality, state, or degree of being acid (*lit. & fig.*). E17.
W. S. MAUGHAM The vicar answered with some acidity.
2 Excess of acid in the stomach. M18.

acidize /'asɪdʌɪz/ *verb trans*. Also **-ise**. E20.
[ORIGIN from ACID *noun* + -IZE.]
Treat with acid; *spec*. pump acid into (an oil well) as a means of stimulating flow.
■ **acidi'zation** *noun* M20.

acidosis /asɪ'dəʊsɪs/ *noun*. Pl. **-doses** /-'dəʊsiːz/. E20.
[ORIGIN from ACID *noun* + -OSIS.]
MEDICINE. A condition of abnormally low pH of the body fluids.
■ **acidotic** /asɪ'dɒtɪk/ *adjective* E20.

acidulate /ə'sɪdjʊleɪt/ *verb trans*. M18.
[ORIGIN formed as ACIDULOUS + -ATE[3].]
Make somewhat acid or sour; flavour with an acid.
fig.: LD MACAULAY Scarcely any compliment not acidulated with scorn.
■ **acidu'lation** *noun* the process or state of being acidulated M19.

acidulous /ə'sɪdjʊləs/ *adjective*. M18.
[ORIGIN from Latin *acidulus*, from *acidus* sour: see ACID *adjective*, -ULOUS.]
Somewhat sour or acid (*lit. & fig.*).
CARLYLE He becomes . . gloomy and acidulous.
■ **acidulent** *adjective* = ACIDULOUS M19. **acidulously** *adverb* L19.

aciduria /asɪ'djʊərɪə/ *noun*. M20.
[ORIGIN from ACID *noun* + -URIA.]
MEDICINE. The presence of excessive acid in the urine.

acinaciform /asɪ'nasɪfɔːm, ə'sɪnə-/ *adjective*. M18.
[ORIGIN mod. Latin *acinaciformis*, from Greek *akinakēs* scimitar: see -FORM.]
Chiefly *BOTANY*. Scimitar-shaped.

acinus /'asɪnəs/ *noun*. Pl. **-ni** /-nʌɪ/. M18.
[ORIGIN Latin = berry growing in a cluster, kernel.]
1 *BOTANY*. A small berry growing in a cluster or as part of a compound fruit; a seed of such a berry. Now *rare* or *obsolete*. M18.
2 *ANATOMY*. Any of a number of small rounded terminal sacs in a gland, the cells of whose walls secrete into the central cavity; the small portion of lung tissue served by a single terminal bronchiole. M18.
■ **acinar** *adjective* = ACINOUS M20. **a'ciniform** *adjective* resembling a grape or a bunch of grapes M19. **acinous** *adjective* (*ANATOMY*) consisting of or pertaining to acini M19.

-acious /'eɪʃəs/ *suffix*.
[ORIGIN Repr. French *-acieux*, or from Latin *-acis*, *-ax* added chiefly to verbal stems to form adjectives + -OUS.]
Forming adjectives meaning 'given to, inclined to' or 'having much', as ***audacious***, ***pugnacious***, ***vivacious***.

-acity /'asɪtɪ/ *suffix*.
[ORIGIN French *-acité* or its source Latin *-acitas*, *-tatis*: see -ACIOUS, -TY[1].]
Forming nouns of quality corresp. to adjectives in -ACIOUS.

ack /ak/ *noun*. L19.
hist. Arbitrary syllable used for the letter *a* in spoken telephone communications and in the oral spelling of messages.
ack-ack [= *AA*] anti-aircraft (gunfire, regiment, etc.). **ack emma** [= *a.m.*] ante meridiem; air mechanic.

†-ack *suffix* var. of -AC.

ackee /'aki/ *noun*. Also **akee**. L18.
[ORIGIN Prob. from a Kru lang.]
The fruit, edible when cooked, of the tree *Blighia sapida*, native to W. Africa and introduced elsewhere, esp. in the W. Indies; the tree itself.

ackers /'akəz/ *noun pl. slang* (orig. *MILITARY*). M20.
[ORIGIN Prob. alt. of PIASTRE: orig. used by Brit. and allied troops in Egypt.]
Coins, notes, money; *spec*. piastres.

†acknow *verb trans*. Infl. as KNOW *verb*. OE.
[ORIGIN from A *preposition*[1] + KNOW *verb*: for the spelling with *ac-* see AC-.]
1 Recognize. OE–LME.
2 Acknowledge, confess, (*that*). (*dial.* after 16.) OE–M19.
3 ***be acknown***, be (self-)recognized in relation to anything, avow or confess (*to* a person). ME–M17.
– NOTE: Rare after OE exc. as *acknown* pa. pple.

acknowledge /ək'nɒlɪdʒ/ *verb trans*. L15.
[ORIGIN Prob. from KNOWLEDGE *verb* on the analogy of the relation of ACKNOW and KNOW *verb*: see AC-.]
1 Recognize or confess (a person or thing to be something); own the claims or authority of. L15.

Amer.* a variety of squash with a longitudinally ridged rind; **acorn worm** a wormlike hemichordate of the class Enteropneusta, having an acorn-shaped anterior end to its body.
■ **acorned** *adjective* bearing acorns; fed with acorns: E17. **acorning** *noun* hunting for or gathering acorns E19.

acosmism /əˈkɒzmɪz(ə)m/ *noun.* Also **akosm-**. M19.
[ORIGIN from A-[10] + COSMOS *noun*[1] + -ISM.]
Denial of the existence of the universe, or of a universe distinct from God.
■ **acosmist** *noun* a person who professes acosmism M19.

acotyledon /əkɒtɪˈliːd(ə)n/ *noun.* Now *rare* or *obsolete.* M18.
[ORIGIN from mod. Latin pl. *acotyledones*: see A-[10], COTYLEDON.]
BOTANY. A plant forming no distinct cotyledons, such as a fern, moss, etc.
■ **acotyledonous** *adjective* E19.

acouchi /əˈkuːtʃi/ *noun.* L18.
[ORIGIN French from Tupi.]
A S. American rodent of the genus *Myoprocta*, resembling an agouti.

acoustic /əˈkuːstɪk/ *adjective & noun.* E17.
[ORIGIN Greek *akoustikos*, from *akouein* hear: see -IC.]
▸**A** *adjective.* **1** Pertaining to the sense of hearing, or to audible sound. E17.
acoustic coupler: see COUPLER 4. ***acoustic IMPEDANCE.*** **acoustic mine** a mine designed to be detonated by sound waves. **acoustic shock** damaged hearing suffered by the user of an earphone as a result of sudden excessive noise in the device.
2 Of a material, a device, etc.: sound-absorbent. E20.
acoustic hood a sound-absorbent cover used esp. to reduce noise from a machine or appliance.
3 Of a musical instrument, gramophone, etc.: not electrically amplified. M20.
▸**B** *noun.* **1** In *pl.* (usu. treated as *sing.*). The branch of science that deals with sound and the phenomena of hearing. L17.
†**2** A medicine or appliance used to aid hearing. Only in 18.
3 In *pl.* The acoustic properties of a building, room, etc., esp. one in which music or drama is performed. Now also in *sing.*, *esp.* the acoustic properties or ambience of a sound recording or of a recording studio. L19.
■ **acoustician** /-ˈstɪʃ(ə)n/ *noun* an expert in acoustics M19.

acoustical /əˈkuːstɪk(ə)l/ *adjective.* E19.
[ORIGIN from ACOUSTIC + -AL[1].]
Of or pertaining to audible sound or the science of acoustics.
■ **acoustically** *adverb* L19.

acoustics *noun* see ACOUSTIC *noun*.

acousto- /əˈkuːstəʊ/ *combining form.* M20.
[ORIGIN from ACOUSTIC *adjective* + -O-.]
Forming chiefly adjectives with the sense 'involving acoustic and — effects', as ***acousto-electric***, ***acousto-optic***.

†**acover** *verb* see COVER *verb*[1].

ACP *abbreviation.*
African, Caribbean, and Pacific.

acquaint /əˈkweɪnt/ *adjective* (orig. *pa. pple*). *arch.* ME.
[ORIGIN Old French *acointe*, formed as ACQUAINT *verb*. Cf. QUAINT.]
Acquainted (*with*).

acquaint /əˈkweɪnt/ *verb.* ME.
[ORIGIN Old French *acointier* make known from late Latin *accognitare*, from Latin *accognit-* pa. ppl stem of *accognoscere*, from *ad* AC- + *cognoscere* know.]
†**1** *verb refl.* Make oneself known, become known (*to*). ME–L15. ▸**b** *verb intrans.* Become acquainted or familiar (*with*). LME–L18.

b HOR. WALPOLE Though the Choiseuls will not acquaint with you.

2 *verb refl.* Give or gain for oneself personal knowledge: foll. by *with* a person. Now only in *pass.* as ACQUAINTED. ME.

AV *Job* 22:21 Acquaint now thyselfe with him.

ACV *abbreviation.*
Air-cushion vehicle.

ACW *abbreviation.*
Aircraftwoman.

-acy /əsi/ *suffix.*
[ORIGIN A branch of **-CY**.]
Forming nouns of quality, state, or condition.
1 Repr. Latin *-acia*, from adjectives in *-aci-*, *-ax*, as ***fallacy***.
2 Repr. Latin *-atia* (medieval Latin often *-acia*), from nouns in *-at-*, *-as*, as ***abbacy***, ***primacy***; similarly ***supremacy***.
3 Repr. medieval Latin *-atia*, from nouns in *-atus*, as ***advocacy***, ***prelacy***; hence from nouns in **-ATE**¹, as ***confederacy***, and adjectives in **-ATE**², as ***accuracy***, ***obstinacy***.
4 Repr. Greek nouns in *-ateia*, as ***piracy***. See also **-CRACY**.

acyclic /eɪˈsʌɪklɪk, -ˈsɪk-/ *adjective.* L19.
[ORIGIN from **A-**¹⁰ + **CYCLIC**.]
Not cyclic.

acyl /ˈeɪsʌɪl, ˈasɪl/ *adjective.* L19.
[ORIGIN German, from Latin *acidum* acid: see **-YL**.]
CHEMISTRY. A radical (RCO·) derived from an organic acid by loss of hydroxyl from the carboxy group. Usu. in *comb.*
■ **acylate** *verb trans.* introduce an acyl radical into (a compound) E20. **acy lation** *noun* E20.

AD *abbreviation.*
Latin *anno domini* = in the year of our Lord, of the Christian era.
– **NOTE**: Usu. written in small capitals and placed before the numerals, as in AD 375 (not 375 AD).

ad /ad/ *noun. colloq.* M19.
[ORIGIN Abbreviation.]
An advertisement; advertising.
– **COMB. & PHRASES**: **admen** a person who produces advertisements commercially; **admass** the section of the community regarded as readily influenced by advertising; **adware** (proprietary name for) software for use in the advertising industry; software containing advertising matter such as banners or pop-ups; ***small ad***: see **SMALL** *adjective*.
■ **adless** *adjective* E20.

ad- /ad, *unstressed* əd/ *prefix.*
1 Repr. Latin *ad* preposition 'to', with sense of motion to or direction towards, addition, adherence, increase. The *d* was assim. to following *c*, *f*, *g*, *l*, *n*, *p*, *q*, *r*, *s*, *t* (see **AC-**, **AF-**, etc.); *ad-* was reduced to *a-* before *sc*, *sp*, *st* (see **A-**⁸). In Old French the double consonants of *acc-*, *add-*, etc., were reduced to single ones, and *adv-* became *av-*, and Old French words were adopted with such forms in English; but in the 14th cent. these began to be refashioned after Latin, as ***address***. Opp. to *ab-* away from, as in ***adaxial***, ***abaxial***, *ad-* is recent.
2 At the same time *ad-* was substituted for *a-* of different origin, as in ***advance***, ***addebted***, ***admiral***.

A/D *abbreviation.*
ELECTRONICS. Analogue to digital.

-ad /ad, əd/ *suffix*¹.
[ORIGIN Repr. Latin from Greek *-ad-*, *-as*.]
1 Forming collect. numerals, as ***monad***, ***myriad***, etc.
2 Forming fem. patronymics (var. of **-ID**²) as ***dryad***, ***naiad***, etc.
3 In names of epic poems, as ***Dunciad***, ***Rosciad***, after *Iliad*.
4 BOTANY. Forming names of members of some taxonomic groupings, as ***bromeliad***, ***cycad***.

-ad /əd/ *suffix*².
Repr. French *-ade*, as *ballad*, *salad*, etc.: see **-ADE**.

-ad /ad/ *suffix*³. E19.
[ORIGIN from Latin *ad* to: cf. **AD-**.]
ANATOMY. Invented to form adjectives and adverbs in the sense of 'nearer to' or 'towards' (the part denoted by the main element of the word), as ***dorsad*** etc.

ADA *abbreviation.*
Adenosine deaminase.

Ada /ˈeɪdə/ *noun.* L20.
[ORIGIN *Ada* Lovelace (1815–52), English mathematician, who assisted Charles Babbage on his mechanical computer.]
(The name of) a high-level computer programming language used chiefly in real-time computerized control systems, e.g. for aircraft navigation.

†**adad** *interjection.* Also **adod**. M17–M18.
[ORIGIN formed as **AGAD, EGAD**, etc.]
= **EGAD**.

adage /ˈadɪdʒ/ *noun*¹. M16.
[ORIGIN French from Latin *adagium*, from *ad* **AD-** + an early form of *aio* I say.]
A traditional maxim, a proverb of common experience.
■ **adagial** /əˈdeɪdʒɪəl/ *adjective* of the nature of an adage L17. †**adagy** *noun* [Latin *adagium*] an adage M16–M18.

adage /adaːʒ/ *noun*². Pl. pronounced same. M20.
[ORIGIN French, formed as **ADAGIO**.]
= **ADAGIO** *noun* 2.

adagio /əˈdɑːdʒɪəʊ/ *adverb, adjective, & noun.* L17.
[ORIGIN Italian, from *ad agio* at ease.]
MUSIC. ▸**A** *adverb & adjective.* In slow time, leisurely. L17.
▸**B** *noun.* Pl. **-os**.
1 A musical piece or movement in slow time. M18.
2 A dance or ballet movement in slow time. M18.

Adam /ˈadəm/ *noun.* ME.
[ORIGIN Hebrew *ʾādām* man, later interpreted as a name.]
1 The first man in Hebrew tradition. ME.
2 More fully (now the only form) ***old Adam***. Unregenerate human nature. E16.
– **COMB. & PHRASES**: **Adam-and-Eve** *dial.* any of various plants, *esp.* any of certain orchids (from the supposed resemblance of the tubers to a human couple); **Adam's ale**, (*Scot. & N. English*) **Adam's wine** *joc.* water; **Adam's apple** (***a***) any of various fruits, *esp.* a variety of lime; (***b***) the projection formed in the neck by the thyroid cartilage, esp. when prominent in men; **Adam's needle** yucca, esp. *Y. filamentosa*. **not know from Adam** have no knowledge of (a man). ***second Adam***: see **SECOND** *adjective*. **would you Adam and Eve it?** *rhyming slang* would you believe it?
■ **A damic** *adjective* = **ADAMICAL** M18. **A damical** *adjective* pertaining to or resembling Adam M17.

Adam /ˈadəm/ *adjective.* L19.
[ORIGIN A surname.]
Designed or built by, or in the style of, the brothers Robert and James Adam, 18th-cent. Scottish architects and designers.
■ **Ada mesque** *adjective* resembling the work of the Adam brothers M20.

adamant /ˈadəm(ə)nt/ *noun & adjective.* OE.
[ORIGIN Old French *adamaunt-* from Latin *adamant-*, *-ma(n)s* from Greek *adamant-*, *-mas* hardest iron or steel, diamond, orig. adjective 'invincible', from *a-* **A-**¹⁰ + *daman* tame. The sense 'magnet, lodestone' arose from assoc. of medieval Latin *adamas* with Latin *adamare* have a strong liking for. Cf. **DIAMOND** *noun & adjective*.]
▸**A** *noun.* An alleged rock or mineral, to which many (often contradictory) properties have been attributed, formerly sometimes identified with the diamond or with the lodestone or magnet. Now only *poet. & rhet.* as an embodiment of impregnable hardness. OE.

In full ***Adélie penguin***. A small penguin of Antarctic waters, *Pygoscelis adeliae*.

ademption /ə'dem(p)ʃ(ə)n/ *noun*. L16.
[ORIGIN Latin *ademptio(n-)*, from *adimere*, from *ad* AD- + *emere* take: see -ION.]
The action of taking away; *spec.* in LAW, revocation of a grant or bequest by prior disposal.

adenine /'adɪni:n/ *noun*. L19.
[ORIGIN from Greek *adēn* gland + -INE⁵.]
BIOCHEMISTRY. A derivative of purine which is one of the bases of nucleic acids, paired with thymine in double-stranded DNA; 6-aminopurine, $C_5H_5N_5$.

adenitis /adɪ'nʌɪtɪs/ *noun*. M19.
[ORIGIN from Greek *adēn* gland + -ITIS.]
MEDICINE. Inflammation of glands, *spec.* of lymph nodes.

adeno- /'adnəʊ/ *combining form* of Greek *adēn* gland: see **-o-**. Before a vowel **aden-**.
■ **adenocarci'noma** *noun*, pl. **-mas**, **-mata** /-mətə/, *MEDICINE* a malignant epithelial tumour of glandular form L19. **adenohy'pophysis** *noun*, pl. **-physes** /-fɪsi:z/, *ANATOMY* the anterior lobe of the hypophysis (pituitary gland) M20. **ade'noma** *noun*, pl. **-mas**, **-mata** /-mətə/, *MEDICINE* a benign epithelial tumour of glandular form L19. **ade'nomatous** *adjective* pertaining to or resem-

bling an adenoma L19. **adeno virus** *noun* (*MEDICINE*) any of a class of viruses (the first examples of which were discovered in adenoid tissue), most of which cause respiratory diseases M20.

adenoid /'adɪnɔɪd/ *adjective & noun.* M19.
[ORIGIN from Greek *adēn* gland + -OID.]
▸**A** *adjective. MEDICINE.* Glandular; like a gland. M19.
▸**B** *noun sing.* (*rare*) & in *pl.* A collection of lymphoid tissue in the wall of the nasopharynx, usu. becoming less prominent in early adult life; *colloq.* an enlarged condition of this tissue, hindering speech and breathing. L19.
■ **adenoidal** *adjective* (*a*) *rare* = ADENOID *adjective*; (*b*) suffering from enlarged adenoids; characteristic or suggestive of this condition: L19. **adenoidectomy** *noun* (an instance of) surgical removal of the adenoids E20. **adenoidy** *adjective* (*colloq.*) = ADENOIDAL (b) E20.

adenosine /ə'dɛnəʊsiːn/ *noun.* E20.
[ORIGIN Blend of ADENINE and RIBOSE.]
BIOCHEMISTRY. A nucleoside (adenine riboside), found in living tissue in the form of nucleotides (see below).
– COMB.: **adenosine deaminase** an enzyme which catalyses the deamination of adenosine to inosine (abbreviation *ADA*); **adenosine diphosphate**, **adenosine monophosphate**, **adenosine triphosphate**: nucleotides involved in many physiological processes, the breakdown of the triphosphate to the diphosphate providing energy, e.g. for muscular contraction.

adenylate /ə'dɛnɪleɪt/ *noun.* M20.
[ORIGIN formed as ADENYLIC + -ATE[1].]
BIOCHEMISTRY. A salt or ester of adenylic acid.
– COMB.: **adenylate cyclase** an enzyme that catalyses the formation of cyclic adenylic acid from adenosine triphosphate.

adenylic /adɪ'nɪlɪk/ *adjective.* L19.
[ORIGIN from ADEN(INE + -YL + -IC.]
BIOCHEMISTRY. ***adenylic acid***, a nucleotide composed of a phosphoric acid ester of adenosine, present in most DNA and RNA.

adeps /'adɛps/ *noun.* LME.
[ORIGIN Latin.]
Animal fat; lard.

adept /'adɛpt; *as adjective also* ə'dɛpt/ *adjective & noun.* M17.
[ORIGIN Latin *adeptus* pa. pple of *adipisci* attain, acquire.]
▸**A** *adjective.* Thoroughly proficient (*at*, *in*). M17.
▸**B** *noun.* (Orig. in Latin form †**adeptus**, pl. **-ti**.) A person who is proficient in or at anything. M17.
■ †**adeption** *noun* obtaining M16–M17. **adeptly** *adverb* M20. **adeptness** *noun* M19. **adeptship** *noun* (*rare*) thorough proficiency; the state or condition of an adept: E19.

adequacy /'adɪkwəsi/ *noun.* E19.
[ORIGIN from ADEQUATE *adjective*: see -ACY. Cf. earlier INADEQUACY.]
The state or quality of being adequate.

adequate /'adɪkwət/ *adjective.* E17.
[ORIGIN Latin *adaequatus* pa. pple, formed as ADEQUATE *verb*: see -ATE[2].]
(Foll. by *to*, †*with*.)
†**1** Equal in magnitude or extent. E17–M18.
2 Commensurate in fitness; sufficient, satisfactory. E17.
▸**b** Barely sufficient. E20.
3 *LOGIC.* Of an idea or concept: fully and clearly representing its object. L17.
■ **adequately** *adverb* E17. **adequateness** *noun* M17. **adequative** *adjective* adequate, equivalent E19.

adequate /'adɪkweɪt/ *verb trans.* L16.
[ORIGIN Latin *adaequat-* pa. ppl stem of *adaequare*, from *ad* AD- + *aequus* equal: see -ATE[3].]
Make or be equal or equivalent (*to*).
JOYCE Let them continue as is meet To adequate the balance-sheet. T. EAGLETON No text literally . . adequates its signifiers to some signified distinct from them.

adequation /adɪ'kweɪʃ(ə)n, -ʒ(ə)n/ *noun.* L16.
[ORIGIN Latin *adaequatio(n-)*, formed as ADEQUATE *verb*: see -ATION.]
†**1** The action of equalling. Only in L16.
2 The result of making equal or adequate; an equivalent. E17.
3 The action of equalizing or making equivalent; the fact of being equalized or made equivalent. E17.
4 *LINGUISTICS.* A change in meaning due to the influence of typical contexts. M20.

adespota /ə'dɛspətə/ *noun pl.* L19.
[ORIGIN Greek, neut. pl. of *adespotos* adjective, from *a-* A-[10] + *despotēs* master.]
BIBLIOGRAPHY. Literary works not attributed to, or not claimed by, an author.

Adessenarian /ədɛsɪ'nɛːrɪən/ *noun.* M18.
[ORIGIN from mod. Latin *adessenarii*, from Latin *adesse* be present: see ADESSIVE, -ARIAN.]
ECCLESIASTICAL HISTORY. A person who believed in the real presence of Christ's body in the Eucharist, but not by transubstantiation.

adessive /ə'dɛsɪv/ *adjective & noun.* M19.
[ORIGIN from Latin *adesse* be present, from *ad* AD- + *esse* be + -IVE.]
GRAMMAR. ▸**A** *adjective.* Designating, being in, or pertaining to a case in Finnish and other languages expressing position in or presence at a place. M19.

Of the form of air, gaseous; unsubstantial, unreal.

aero- /ˈɛːrəʊ/ *combining form* of Greek *aēr* air: see -O-.
Often *spec.* with ref. to aeroplanes and aviation.
■ **aero-allergen** *noun* an airborne allergen M20. **aero-bioˈlogical** *adjective* of or pertaining to aerobiology M20. **aerobiˈologist** *noun* an expert in or student of aerobiology M20. **aerobiˈology** *noun* the branch of knowledge that deals with the nature and distribution of the living organisms, spores, pollen, and seeds carried by the air M20. **aerobraking** *noun* (ASTRONAUTICS) a method for slowing down spacecraft by flying through a planet's atmosphere to produce aerodynamic drag M20. **aeroeˈlastic** *adjective* of or pertaining to aeroelasticity M20. **aeroelaˈsticity** *noun* the science of the interaction between aerodynamic forces and non-rigid structures M20. **aeroengine** *noun* an engine for propelling an aircraft M20. **aeroˈgenerator** *noun* a wind-powered electric generator M20. **aerogramme**, ***-gram** *noun* a message sent through the air; esp. = ***air letter*** s.v. AIR *noun*¹: L19. **aeˈrographer** *noun* a meteorologist L19. **aeˈrography** *noun* the description of the atmosphere; meteorology: M18. **aeromagˈnetic** *adjective* of, or pertaining to, or derived from the measurement of the earth's magnetism by means of airborne instruments M20. **ˌaeromagneˈtometer** *noun* an instrument for making aeromagnetic measurements M20. **aeromancy** *noun* divination or augury by the air; later, weather forecasting, meteorology: LME. **aeroˈmedical** *adjective* of or relating to the use of aircraft for medical purposes such as transporting patients to hospital M20. **aeˈrometry** *noun* (***a***) the measurement of the properties of the air; †(***b***) pneumatics: M18. **aeroˈmodelling** *noun* the hobby of building and flying model aircraft M20. **aeˈrophagy** *noun* (MEDICINE) the swallowing of air E20. **aerophobe** *noun* a person who is afraid of air travel M20. **aeroˈphobia** *noun* fear of air travel L20. **aeroˈponic** *adjective* of or by means of aeroponics L20. **aeroˈponics** *noun* a hydroponic technique in which the roots of a plant hang suspended in air and nutrient solution is delivered to them in the form of a fine mist M20. **aeroshell** *noun* (ASTRONAUTICS) an outer casing designed to protect a spacecraft during travel through an atmosphere M20. **aerospace** *noun* (the technology of flight in) the earth's atmosphere and outer space M20. **aerothermodyˈnamic** *adjective* of or pertaining to aerothermodynamics M20. **ˌaerothermodyˈnamics** *noun* (the branch of science that deals with) the thermodynamic behaviour of flowing gases M20. **aerotowing** *noun* the towing of a glider in the air by a powered aircraft M20.

aerobatics /ɛːrəˈbatɪks/ *noun pl.* E20.
[ORIGIN from AERO- after *acrobatics*.]
Feats of expert aviation; spectacular flying.
■ **ˈaerobat** *noun* a person who performs aerobatics E20. **aerobatic** *adjective* of or pertaining to aerobatics E20.

aerobic /ɛːˈrəʊbɪk/ *adjective.* L19.
[ORIGIN from AERO- + Greek *bios* life + -IC.]
1 BIOLOGY. Normally dependent for life upon the presence of free oxygen; taking place in or characterized by the presence of free oxygen. L19.
2 Of, pertaining to, or resulting from aerobics. M20.
■ **ˈaerobe** *noun* any organism that can grow in the presence of free oxygen L19. **aerobically** *adverb* (***a***) in the presence of free oxygen; (***b***) by means of aerobics: L19. **aerobicist** /ɛːˈrəʊbɪsɪst/ *noun* a person who practises aerobics L20. **aerobicized** *adjective* (of a person's body) toned by aerobic exercise L20.

aerobics /ɛːˈrəʊbɪks/ *noun.* M20.
[ORIGIN from AEROBIC: see -ICS.]
(The practice of) physical exercises for producing beneficial changes in the respiratory and circulatory systems by activities which can be sustained by virtue of their low oxygen demand.

aerodrome /ˈɛːrədrəʊm/ *noun.* L19.
[ORIGIN from AERO- + -DROME; in sense 1 from Greek *aerodromos* traversing the air.]
†**1** An aeroplane. L19–E20.
2 An area of open level ground, together with runways, hangars, and other installations, for the take-off, landing, and maintenance of aircraft. E20.

aerodynamics /ˌɛːrə(ʊ)dʌɪˈnamɪks/ *noun pl.* (usu. treated as *sing.*). M19.
[ORIGIN from AERO- + DYNAMICS.]
The branch of science that deals with the properties of air or other gases in motion and the interaction between the air and solid bodies (esp. aircraft) moving through it. Also, the aerodynamic properties of an aircraft etc.
■ **aerodynamic** *adjective* of or pertaining to aerodynamics or the phenomena with which it is concerned L19. **aerodynamical** *adjective* = AERODYNAMIC E20. **aerodynamically** *adverb* as regards aerodynamics E20. **aerodynamicist** /-sɪst/ *noun* an expert in aerodynamics M20.

aerofoil /ˈɛːrəfɔɪl/ *noun.* E20.
[ORIGIN from AERO- + FOIL *noun*¹.]
A structure which gives rise to a lift force when moving through the air, e.g. a wing of an aircraft; a similar structure causing downward pressure on a road vehicle.

aerogel /ˈɛːrədʒɛl/ *noun.* E20.
[ORIGIN from AERO- + GEL *noun*¹.]
CHEMISTRY. A solid material of extremely low density, produced by replacing the liquid component of a conventional gel by air or gas.

aerolite /ˈɛːrəlʌɪt/ *noun.* E19.
[ORIGIN from AERO- + -LITE.]
A meteorite; *spec.* a stony meteorite.
■ **aerolitic** /-ˈlɪtɪk/ *adjective* M19.

aerology /ɛːˈrɒlədʒi/ *noun.* M18.
[ORIGIN from AERO- + -LOGY.]
The branch of knowledge that deals with the atmosphere, now *spec.* with atmospheric conditions away from ground level.
■ **aeroˈlogical** *adjective* M19.

aeronaut /ˈɛːrənɔːt/ *noun.* L18.
[ORIGIN French *aéronaute*, from *aéro-* AERO- + Greek *nautēs* sailor.]
A traveller through the air; a balloonist, a pilot.

aeronautic /ɛːrəˈnɔːtɪk/ *adjective.* L18.
[ORIGIN from AERONAUT + -IC.]
Of or pertaining to aeronauts or aeronautics.
■ **aeronautical** *adjective* E19.

aeronautics /ɛːrəˈnɔːtɪks/ *noun pl.* (usu. treated as *sing.*). E19.
[ORIGIN mod. Latin *aeronautica*, formed as AERONAUTIC: see -ICS.]
The science, art, or practice of controlled flight through the air.

aeronomy /ɛːˈrɒnəmi/ *noun.* M20.
[ORIGIN from AERO- + -NOMY.]
The branch of science that deals with the upper regions of the atmosphere, where dissociation and ionization of air molecules are important.
■ **aeronomer** *noun* an expert in aeronomy M20. **aeroˈnomic**, **aeroˈnomical** *adjectives* of or pertaining to aeronomy M20. **aeronomist** *noun* = AERONOMER M20.

aerophone /ˈɛːrəfəʊn/ *noun.* M20.
[ORIGIN from AERO- + -PHONE.]
A musical instrument which employs a column of air to produce the sound.

aeroplane /ˈɛːrəplem/ *noun & verb.* M19.
[ORIGIN In sense A.1 from AERO- + PLANE *noun*³; in sense A.2 from French *aéroplane*, from *aéro-* AERO- + Greek *-planos* wandering.]
▸**A** *noun.* †**1** An aerofoil. M19–E20.
2 An aircraft that is heavier than air and has fixed (non-rotating) wings. L19.
▸**B** *verb intrans.* Fly like or in an aeroplane. E20.
■ **aeroplanist** *noun* (*rare*) a person who flies an aeroplane E20.

aerosol /ˈɛːrəsɒl/ *noun & verb.* E20.
[ORIGIN from AERO- + SOL *noun*⁵.]
▸**A** *noun.* **1** A colloidal suspension of particles in air or another gas. E20.
2 A substance packed under pressure and able to be released as a fine spray; a container holding such a substance. M20.
▸**B** *verb trans. & intrans.* Spray with an aerosol. M20.
■ **aerosoli zation** *noun* the action of aerosolizing something M20. **aerosolize** *verb trans.* make into an aerosol, disperse as an aerosol M20.

aerostat /ˈɛːrəstat/ *noun.* L18.
[ORIGIN French *aérostat*, from *aéro-* AERO- + Greek *statos* standing.]
1 Any craft which is sustained in the air by buoyancy, e.g. a balloon, an airship. L18.
†**2** An aeronaut. L18–L19.
■ **aerostation** /-ˈsteɪʃ(ə)n/ *noun* (now *rare*) [French] flight by lighter-than-air craft L18.

aerostatic /ɛːrəˈstatɪk/ *adjective.* L18.
[ORIGIN French *aérostatique*, formed as AEROSTAT: see -IC.]
1 Of or pertaining to aerostatics. L18.
2 Of or pertaining to aerostats and their use. L18.
■ **aerostatical** *adjective* (*rare*) L17.

aerostatics /ɛːrəˈstatɪks/ *noun pl.* (usu. treated as *sing.*). L18.
[ORIGIN mod. Latin *aerostatica*, formed as AEROSTAT: see -ICS.]
The science of the equilibrium and pressure of the air and other gases, and of the behaviour of bodies supported in them.

Aertex /ˈɛːtɛks/ *noun.* L19.
[ORIGIN from *aer-* as in AERATE + TEX(TILE.]
(Proprietary name for) a cellular cotton fabric used esp. for leisure wear and underwear.

aeruginous /ɛəˈruːdʒɪnəs/ *adjective.* E17.
[ORIGIN Latin *aeruginosus*, formed as AERUGO: see -OUS.]
Of the nature or colour of verdigris.

aerugo /ɛəˈruːgəʊ/ *noun.* M16.
[ORIGIN Latin, from *aer-*, *aes* bronze.]
= ***crystallized VERDIGRIS***.

aery *noun* var. of EYRIE.

aery /ˈɛːri/ *adjective. poet.* L16.
[ORIGIN Latin *aerius*, from *aer* air, the suffix assoc. with -Y¹.]
Aerial; ethereal, incorporeal.

Aeschylean /iːskɪˈliːən/ *adjective.* M19.
[ORIGIN from Latin *Aeschylus* from Greek *Aiskhulos*: see -EAN.]
Of, pertaining to, or characteristic of the Athenian tragic poet Aeschylus (525–456 BC), or his works, style, etc.

Aesculapius /iːskjʊˈleɪpɪəs/ *noun. joc. arch.* L16.
[ORIGIN Latin *Aesculapius*, Roman god of medicine.]
A physician.
■ **Aesculapian** *adjective* of or pertaining to Aesculapius, medicine, or physicians E17.

Aesopian /iːˈsəʊpɪən/ *adjective.* L17.
[ORIGIN from *Aesop* (see AESOPIC) + -IAN.]
1 = AESOPIC 1. L17.
2 [translating Russian *ézopovskíĭ*.] Designating or pertaining to Russian or Soviet Communist language or writing in which (esp. political) dissent is expressed ambiguously or allegorically, to avoid official censorship etc. M20.

Aesopic /iːˈsɒpɪk/ *adjective.* E18.
[ORIGIN Late Latin *Aesopicus*, from *Aesopus* from Greek *Aisōpos*: see -IC.]
1 Pertaining to or characteristic of Aesop, a semi-legendary Greek fabulist of the 6th cent. BC. E18.
2 = AESOPIAN 2. E20.
■ **Aesopical** *adjective* (*rare*) L16.

A

aesthesis /ɛsˈθiːsɪs/ *noun*. Also ***es-**. E18.
[ORIGIN Greek *aisthēsis* a perceiving: see AESTHETIC.]
The perception of the external world by the senses.
■ **aesthesiˈometer** *noun* an instrument for measuring tactile sensitivity M19.

aesthete /ˈiːsθiːt, ˈɛs-/ *noun*. Also ***es-**. L19.
[ORIGIN from AESTHETIC, after *athlete*, *athletic*, or from Greek *aisthētēs* a person who perceives, formed as AESTHETIC.]
A person who professes a superior appreciation of what is beautiful; formerly in British universities, a studious person (opp. ***hearty***).

aesthetic /iːsˈθɛtɪk, ɛs-/ *noun & adjective*. Also ***es-**. M18.
[ORIGIN Greek *aisthētikos*, from *aisthēta* things perceptible by the senses, from *aisthesthai* perceive: see -IC. Current senses derived through German from A. T. Baumgarten's *Æsthetica* (1750). Senses A.1 & 2 in sing. through German *Ästhetik*, French *esthétique*.]
▸**A** *noun*. **1** *sing.* & (usu.) in *pl.* (treated as *sing.*). The philosophy of the beautiful or of art; a system of principles for the appreciation of the beautiful etc. M18.

M. H. ABRAMS The concept that art is imitation . . played an important part in neo-classic aesthetics. W. STEVENS Tests of the strength of his aesthetic, his philosophy.

2 *sing.* & (usu.) in *pl.* (treated as *sing.*). The science of sensuous perception. (Used only with ref. to the works of Kant.) E19.

aestival /ˈiːstɪv(ə)l, iːˈstaɪv(ə)l; ɛ-/ *adjective*. Also ***est-**. LME.
[ORIGIN Old French & mod. French *estival* from Latin *aestivalis*, formed as AESTIVE: see -AL¹.]
Belonging to or of summer or the summer solstice; appearing in summer.

aestivate /ˈiːstɪveɪt, ˈɛst-/ *verb intrans.* Also ***est-**. E17.
[ORIGIN Latin *aestivat-* pa. ppl stem of *aestivare*, formed as AESTIVE: see -ATE³.]
Spend the summer, *spec.* (*ZOOLOGY*) in a state of torpor. Cf. HIBERNATE.
■ **aestivator** *noun* an animal that aestivates E20.

aestivation /iːstɪˈveɪʃ(ə)n, ɛst-/ *noun*. Also ***est-**. E17.
[ORIGIN formed as AESTIVATE: see -ATION.]
†**1** The spending of summer; summer residence. E17–M18.
2 *BOTANY.* The arrangement of the parts of a flower inside its bud before opening. Cf. VERNATION 1. E19.
3 *ZOOLOGY.* The act of spending the summer in a state of torpor. Cf. HIBERNATION. M19.

aestive /ˈiːstrv/ *adjective*. Also ***est-**. E17.
[ORIGIN Latin *aestivus*, from *aestus* heat: see -IVE.]
Aestival; hot and burning.

†**aestuary** *noun* var. of ESTUARY.

†**aestuation** *noun*. Also **est-**. L15–M18.
[ORIGIN Latin *aestuatio(n-)*, from *aestuare* boil up, from *aestus* heat: see -ATION.]
Feverish disturbance, ebullition.
■ †**aestuate** *verb intrans.* boil; surge up: E17–M18.

a.e.t. *abbreviation*.
SOCCER. After extra time.

aetatis /aɪˈtaːtɪs, iːˈtɛrtɪs/ *adjective*. Usu. abbreviation ***aet.*** /aɪt, iːt/, ***aetat*** /ˈaɪtaːt, ˈiːtɛt/. E19.
[ORIGIN Latin.]
Of or at the age of.

W. OWEN His son, aetat 13, learned in nothing.

aetheling *noun* var. of ATHELING.

aether *noun* see ETHER *noun*¹.

aethereal, aetherial *adjectives* see ETHEREAL.

†**Aethiop, Aethiopian** *nouns & adjectives* etc., vars. of ETHIOP etc.

aetiology /iːtɪˈɒlədʒi/ *noun*. Also **et-**. M16.
[ORIGIN medieval Latin *aetiologia* (Isidore) from Greek *aitiologia*, from *aitia* cause + *logia* -LOGY.]
1 The assignment of a cause; (occas.) the cause assigned. M16.
2 The philosophy of causation; the part of a science which treats of the causes of its phenomena. Now *rare* or *obsolete*. M17.
3 *MEDICINE.* The causation of disease (usu., of a specified disease), esp. as a subject for investigation. L17.
■ **ˌaetioˈlogical** *adjective* M18. **ˌaetioˈlogically** *adverb* M19.

aetites /iːˈtʌɪtiːz/ *noun*. L16.
[ORIGIN Latin from Greek *aetitēs* adjective (used as noun), from *aetos* eagle.]
A stone with a loose nucleus, formerly believed to be found in eagles' nests and to have magical and medicinal properties.

†**aetna** *noun* var. of ETNA.

AEU *abbreviation*.
hist. Amalgamated Engineering Union.

aeviternity /iːvɪˈtɜːnɪti/ *noun*. Now *rare*. Also **e-**. L16.
[ORIGIN from Latin *aeviternus* eternal + -ITY.]
Eternal existence; everlasting duration.

AF *abbreviation*.
Audio frequency.

af- /af, *unstressed* əf/ *prefix* (rarely productive).
Assim. form of Latin *ad-* before *f*. In Old French, Latin *aff-* was reduced to *af-*, which appears in early adoptions, but in later French, and hence in English, *aff-* was restored by Latinization, as ***affair***, ***affront***. Hence extended to some words of different origin, as ***affray***, ***affright***.

afanc /aˈvaŋk/ *noun*. M19.
[ORIGIN Welsh *afanc* beaver; cogn. with Irish *abac* beaver, dwarf.]
CELTIC MYTHOLOGY. An aquatic monster.

Afar /ˈafaː/ *noun & adjective*. Pl. of noun same. M19.
[ORIGIN Afar *qafar*.]
= DANAKIL.

afar /əˈfaː/ *adverb*. ME.
[ORIGIN from A *preposition*¹ 1 & A *preposition*² + FAR *adverb*.]
1 From a distance. Now only in ***from afar***. ME.
2 At or to a distance. Now usu. foll. by *off*. ME.

afara /əˈfaːrə/ *noun*. E20.
[ORIGIN Yoruba.]
= LIMBA *noun*².

AFB *abbreviation*. *US.*
Air Force Base.

AFC *abbreviation*.
1 Air Force Cross.
2 Association Football Club.

AFDC *abbreviation*.
In the US: Aid to Families with Dependent Children, a welfare benefit paid by the federal government.

afear /əˈfɪə/ *verb trans.* Now *dial.* OE.
[ORIGIN from A-¹ + FEAR *verb*.]
Frighten.
■ **afeared, afeard** *ppl adjective* (superseded in general use by AFRAID) OE.

afebrile /eɪˈfiːbrʌɪl/ *adjective*. L19.
[ORIGIN from A-¹⁰ + FEBRILE.]
MEDICINE. Unaccompanied by fever; not feverish.

affable /ˈafəb(ə)l/ *adjective*. LME.
[ORIGIN Old French & mod. French from Latin *affabilis*, from *affari*, from *ad* AF- + *fari* speak: see -ABLE.]
Easy to approach and converse with; courteous, esp. with inferiors; kindly and polite.
■ **affaˈbility** *noun* L15. **affably** *adverb* E17.

affair /əˈfɛː/ *noun*. ME.
[ORIGIN Anglo-Norman *afere*, Old French *afaire* (mod. *affaire*), from *à faire* to do: cf. ADO *noun*. See also EFFEIR.]
1 What one has to do; business; a concern, a matter. ME.

SHAKES. *Haml.* What is your affair in Elsinore?

affair of honour *arch.* a duel to settle a question of honour.

[ORIGIN A. C. W. *Aldis* (1878–1953), Brit. inventor.]
In full ***Aldis lamp***. (Proprietary name for) a hand lamp for signalling in Morse code.

aldo- /'aldəʊ/ *combining form* of ALDEHYDE: see **-O-**. Before a vowel **ald-**.
■ **aldo'sterone** *noun* (*BIOCHEMISTRY*) an adrenocortical steroid hormone important in electrolyte metabolism M20. **aldo'steronism** *noun* (*MEDICINE*) excessive secretion of aldosterone M20. **al'doxime** *noun* (*CHEMISTRY*) an oxime of an aldehyde, a compound of the general formula RCH=NOH (where R is an alkyl group) L19.

aldol /'aldɒl/ *noun.* L19.
[ORIGIN from ALD(EHYDE + -OL.]
CHEMISTRY. A viscous liquid, $CH_3CH(OH)CH_2CHO$, obtained when acetaldehyde dimerizes in dilute alkali or acid; 3-hydroxybutanal.
– COMB.: **aldol condensation** an addition reaction typified by the formation of aldol from acetaldehyde, undergone by most aldehydes and ketones.

aldose /'aldəʊz, -s/ *noun.* L19.
[ORIGIN from ALD(EHYDE + -OSE[2].]
CHEMISTRY. Any sugar which is also an aldehyde.

†**aldress** *noun.* M16–E18.
[ORIGIN Perh. contr. of ALDERMAN + -ESS[1].]
An alderman's wife.

aldrin /'ɔːldrɪn/ *noun.* M20.
[ORIGIN from K. *Alder* (1902–58), German chemist, + -IN[1].]
A chlorinated polycyclic hydrocarbon, $C_{12}H_8Cl_6$, formerly used as an insecticide.

ale /eɪl/ *noun.*
[ORIGIN Old English (*e*)*alu* = Old Saxon *alo-*, Old High German *al-*, Old Norse *ǫl*, from Germanic.]
1 Beer, formerly esp. of unhopped or paler-coloured kinds, a type of this, a drink of this, now chiefly in ***real ale*** & as a trade word. Also (usu. with specifying word) a similar drink made from other ingredients. Cf. BEER *noun*[1], PORTER *noun*[2]. OE.
brown ale, ***light ale***, ***mild ale***, ***pale ale***. ***cakes and ale***: see CAKE *noun*. ***ginger ale***: see GINGER *noun*. ***real ale***: see REAL *adjective*[2]. ***twopenny ale***: see TWOPENNY *adjective* 1. ***yard of ale***: see YARD *noun*[2].
2 Chiefly *hist.* A festival or gathering at which much ale is drunk. OE.
– COMB.: **ale-bench** a bench in or at the front of an alehouse; **aleberry** (*obsolete* exc. *dial.*) ale boiled with spice, sugar, and sops of bread; porridge made with ale; **aleconner** an inspector of ale (still a titular office in some boroughs); **alecost** [COST *noun*[1]] = COSTMARY; †**ale-draper** an alehouse-keeper; **ale firkin** a small barrel of ale; an old unit of liquid capacity equal to 9 (earlier 8) gallons; **ale gallon** an old unit of liquid capacity equal to 282 cu. in. (4.62 litres); **alehouse** (chiefly *hist.*) a house where ale is retailed; †**ale-knight** a frequenter of alehouses, a tippler; **ale-taster** an aleconner; **ale-wort** the fermenting infusion of malt.

aleatico /alɪ'atɪkəʊ/ *noun.* Also **A-**. E19.
[ORIGIN Italian.]
A sweet Italian red wine.

aleatory /'eɪlɪət(ə)ri/ *adjective.* L17.
[ORIGIN Latin *aleatorius*, from *aleator* dice player, from *alea* a die: see -Y[2].]
Depending on the throw of a die or on chance; depending on uncertain contingencies; *MUSIC & ART* involving random choice by the composer, performer, or artist.
■ Also **aleatoric** /ˌeɪlɪə'tɒrɪk/ *adjective* M20.

alec *noun* see SMART ALEC.

alecithal /eɪ'lɛsɪθ(ə)l/ *adjective.* L19.
[ORIGIN from A-[10] + Greek *lekithos* yolk + -AL[1].]
Of an egg or egg cell: having little or no yolk.

aleck *noun* see SMART ALEC.

†**alectoria** *noun.* Also **-ius**. LME–M19.
[ORIGIN Latin, formed as ALECTRYOMANCY.]
A precious stone said to be found in the gizzard of cocks.
■ †**alectorian** *noun & adjective* L16–L19.

A

alectryomancy /əˈlɛktrɪəmansi/ *noun*. Also **-toro-**, †**-tro-**. M17.
[ORIGIN from Greek *alectruōn*, *-tōr* cock + **-MANCY**.]
Divination by means of a cock with grains of corn.

alee /əˈliː/ *adverb & pred. adjective*. LME.
[ORIGIN from **A** *preposition*[1] 1 + **LEE** *noun*[1], partly after Old Norse *á hlé*.]
NAUTICAL. On the lee or sheltered side of a ship; to leeward.

aleft /əˈlɛft/ *adverb*, *arch*. ME.
[ORIGIN from **A** *preposition*[1] 1 + **LEFT** *noun*.]
On or to the left.

alegar /ˈeɪlɪgə/ *noun*. LME.
[ORIGIN from **ALE**, after **VINEGAR**.]
Sour ale; malt vinegar.

ale-hoof /ˈeɪlhuːf/ *noun*. Now *dial*. ME.
[ORIGIN Prob. alt. of earlier ***hayhove*** S.V. **HAY** *noun*[2].]
Ground ivy, *Glechoma hederacea*.

Alemannic /alɪˈmanɪk/ *adjective & noun*. Also **-manic**, **Alle-**. L18.
[ORIGIN Late Latin *Alemannicus*, from *Alemanni* pl. (Greek *Alamanoi*) a Germanic tribe, from Germanic (prob. formed as **ALL** + **MAN** *noun*, denoting a wide alliance of peoples): see **-IC**.]

MINERALOGY. A gem variety of chrysoberyl which appears green in daylight and red in artificial light.

alexia /əˈlɛksɪə, eɪ-/ *noun*. L19.
[ORIGIN Irreg. from **A-**[10] + Greek *lexis* speech (conf. with Latin *legere* read) + **-IA**[1].]
MEDICINE. Inability to read, or to understand written words, as a result of brain disorder. Cf. **DYSLEXIA**.
■ **alexic** *adjective* E20.

alexin /əˈlɛksɪn/ *noun*. Also **-ine**. L19.
[ORIGIN from Greek *alexein* ward off + **-IN**[1].]
PHYSIOLOGY. = **COMPLEMENT** *noun* 4e.

alexipharmic /əlɛksɪˈfɑːmɪk/ *noun & adjective*. Now *rare* or *obsolete*. Also †**-mac**. M17.
[ORIGIN French *alexipharmaque* from mod. Latin *alexipharmacum* from Greek *alexipharmakon* neut. sing. (as noun) of adjective from *alexein* ward off + *pharmakon* poison: assim. to **-IC**.]
▸**A** *noun*. An antidote against poison. M17.
▸**B** *adjective*. Having the quality or nature of an antidote. M17.
■ **alexipharmacon**, **-cum** *noun* = **ALEXIPHARMIC** *noun* M16. †**alexipharmical**, **-acal** *adjective & noun*: only in 17.

†**alexiteric** *adjective & noun*. L17–L19.
[ORIGIN from medieval Latin *alexiterium* remedy, from Greek *alexitērion* safeguard, + **-IC**.]
(A substance) having the power to ward off contagion, or act as an antidote.
■ †**alexiterial** *adjective & noun* E17–M19. †**alexiterical** *adjective* M17–L18. †**alexitery** *adjective & noun* E17–E18.

alexithymic /eɪˌlɛksɪˈθʌɪmɪk/ *adjective & noun*. L20.
[ORIGIN from **A-**[10] + Greek *lexis* speech + *thumos* soul + **-IC**.]
PSYCHOLOGY. (A person) lacking the ability to recognize and express emotions.
■ **alexithymia** *noun* an affective disorder characterized by an inability to recognize and express emotions L20.

aley *adjective* var. of **ALY**.

alfa /ˈalfə/ *noun*. Also **ha-** /ˈha-/. M19.
[ORIGIN Arabic *halfāʾ*, colloq. *halfa*.]
Esparto grass.

alfalfa /alˈfalfə/ *noun*. M19.
[ORIGIN Spanish from Arabic *al-fasfaṣa* a green fodder.]
= **LUCERNE** *noun*[2].

alfaqui /alfəˈkiː, *foreign* alfaˈki/ *noun*. Now *rare*. Pl. **-quis** /-ˈkiːz/, **-quies** /-ˈkiːɛs, *foreign* -ˈkies/. E17.
[ORIGIN Spanish *alfaquí* from Arabic *al-faqīh*, from *al* **AL-**[2] + *faqīh* a person skilled in Islamic jurisprudence.]
A Muslim expert in religious law.

alferez /alˈfɛrəz, *foreign* alˈfereθ/ *noun*. Also †**-res**. Pl. **-rezes** /-rəzɪz/, **-reces** /-rəsɪz, *foreign* -reθes/. L16.
[ORIGIN Spanish *alférez*, Old Spanish & Portuguese *-res* from Arabic *al-fāris* the horseman, the skilled fighter on horseback: see **AL-**[2].]
In Spanish, and formerly in Portuguese, armies: an ensign, a standard-bearer; a second lieutenant.

alfilaria /alfɪlaˈriːə/ *noun*. *US*. M19.
[ORIGIN Mexican Spanish, from Spanish *alfiler* pin, with ref. to the long-beaked carpels.]
= ***pin clover*** S.V. **PIN** *noun*[1].

alfin /ˈalfɪn/ *noun*. Long *obsolete* exc. *hist*. Also **-phin**. LME.
[ORIGIN Old French *aufin*, later also *alphin* (medieval Latin *alphinus*) from Spanish & Portuguese *alfil* from Arabic *al-fīl* the elephant: see **AL-**[2].]
A chess piece similar in function to the present-day bishop.

alfisol /ˈalfɪsɒl/ *noun*. M20.
[ORIGIN from arbitrary 1st elem. + **-SOL**.]
SOIL SCIENCE. A soil of an order comprising leached basic or slightly acid soils with a clay-enriched B horizon.

alforja /alˈfɔːhə, *foreign* alˈfɔrxa/ *noun*. Also †**-rge**. E17.
[ORIGIN Spanish *alforja*, Portuguese *-rge* from Arabic *al-qurj* saddlebag: see **AL-**[2].]
1 In Spain, Portugal, Latin America, and other areas of Spanish influence (as the south-western US): a wallet, a saddlebag. E17.
†**2** A cheek pouch. E–M18.

Alfredian /alˈfriːdɪən/ *adjective*. E19.
[ORIGIN from *Alfred* (see below) + **-IAN**.]
Pertaining to or characteristic of Alfred the Great (849–99), king of the West Saxons, or his writings.

Alfredo /alˈfreɪdəʊ/ *adjective*. L20.
[ORIGIN *Alfredo* di Lelio (1893–1959), Italian chef and restaurateur, who invented the sauce.]
Denoting a dressing for pasta, orig. consisting of butter and grated Parmesan cheese but now usu. a sauce incorporating butter, cream, garlic, and Parmesan. Freq. *postpositive*, in ***fettuccine Alfredo***.

[ORIGIN Italian *al fresco*: see **FRESCO**.]
▸**A** *adverb*. **1** In the open air. M18.
2 *ART*. In fresco. M18.
▸**B** *adjective*. Open-air. E19.

Alfvén /ˈalfveɪn, -vən/ *noun*. M20.
[ORIGIN Hannes *Alfvén* (1908–95), Swedish physicist.]
PHYSICS. Used *attrib*. with ref. to Alfvén's discoveries.
Alfvén speed, **Alfvén velocity** the speed of an Alfvén wave in a plasma of given properties. **Alfvén wave** a transverse magneto-hydrodynamic wave travelling in the direction of the magnetic field in a magnetized plasma.

alga /ˈalgə/ *noun*. Pl. **algae** /ˈaldʒiː, ˈalgiː/. M16.
[ORIGIN Latin = seaweed.]
Orig., seaweed; now, any of a large group of non-vascular mainly aquatic cryptogams capable of photosynthesis, including seaweeds and many unicellular and filament-

ous organisms. Also *collect.*, the mass formed by such organisms.
blue-green alga: see BLUE *adjective*. ***brown alga***: see BROWN *adjective*. ***green alga***: see GREEN *adjective*. ***red alga***: see RED *adjective*.

algal /'alg(ə)l/ *adjective & noun*. M19.
[ORIGIN from ALGA + -AL[1].]
▸**A** *adjective*. Of or pertaining to algae; of the nature of an alga. M19.
▸**B** *noun*. An alga. *rare*. M19.

algarroba /algə'rəubə/ *noun*. L16.
[ORIGIN Spanish from Arabic *al-ḳarrūb(a)*: see AL-[2], CAROB.]
1 (The pod of) the carob tree. L16.
2 (The fruit of) any of certain mesquites. M18.

algate /'ɔːlgeɪt/ *adverb*. Long *obsolete* exc. *dial.* Also **-gates** /-geɪts/. ME.
[ORIGIN from ALL + GATE *noun*[2]; *-s* analogical.]
†**1** Always, continually. ME–L16.
2 Anyhow; by all or any means. ME.
†**3** At any rate, at all events. ME–E17.
†**4** All the way, altogether. ME–E17.
5 Nevertheless, after all. ME.
6 Everywhere. *N. English*. L19.

algebra /'aldʒɪbrə/ *noun*. LME.
[ORIGIN Italian, Spanish, medieval Latin, from Arabic *al-jabr*, from *al* AL-[2] + *jabr* reunion of broken parts, from *jabara* set broken bones, reunite, restore. The term achieved currency in the title of a book, *'ilm al-jabr wa'l-muqābala* 'the science of restoring what is missing and equating like with like', by the mathematician al-Ḵwārizmī (cf. ALGORISM).]
†**1** The surgical treatment of fractures. LME–M16.
2 The part of mathematics which investigates the relations and properties of numbers or other mathematical structures by means of general symbols; a system of this based on given axioms. M16.
■ **algebraist** /-breɪɪst/ *noun* a person versed in algebra E17. **algebraize** *verb* (*a*) *verb trans.* express in algebraic form; (*b*) *verb intrans.* perform algebra: M19. †**algebrician** *noun* = ALGEBRAIST L16–L17. **algebrist** *noun* = ALGEBRAIST L17.

algebraic /aldʒɪ'breɪɪk/ *adjective*. M17.
[ORIGIN from ALGEBRA + -IC.]
Of, pertaining to, or occurring in algebra; *spec.* (of a function, etc.) able to be produced by the simple algebraic operations (opp. TRANSCENDENTAL *adjective*).

C. S. OGILVY The famous equation . . $e^{i\pi} = -1$, is not algebraic.

■ **algebraical** *adjective* of or relating to algebra L16. **algebraically** *adverb* in terms of, by means of, algebra M17. **algebraicize** /-sʌɪz/ *verb trans.* express in algebraic form L19.

algedonic /aldʒɪ'dɒnɪk/ *adjective*. L19.
[ORIGIN from Greek *algos* pain + *hēdonē* pleasure + -IC.]
Pertaining to or characterized by pleasure and pain, or reward and punishment.

Algerian /al'dʒɪərɪən/ *noun & adjective*. E17.
[ORIGIN from *Algeria* (see below) + -AN.]
▸**A** *noun*. **1** A native or inhabitant of the country of Algeria or the town of Algiers, in N. Africa. E17.
2 Wine from Algeria. M20.
▸**B** *adjective*. Of or pertaining to Algeria or Algiers. L19.
■ **Algerine** /'aldʒərɪːn/ *noun & adjective* (*arch.*) = ALGERIAN; *esp.* (characteristic of) a pirate from Algiers: M17.

-algia /'aldʒə/ *suffix*.
[ORIGIN from Greek *algos* pain + -IA[1].]
Forming nouns denoting pain in a specified part, as ***neuralgia***.
■ **-algic** *suffix*: forming corresp. adjectives.

algicide /'aldʒɪsʌɪd, 'algɪ-/ *noun*. E20.
[ORIGIN from ALGA + -I- + -CIDE.]
A substance poisonous to algae.

algid /'aldʒɪd/ *adjective*. E17.
[ORIGIN Latin *algidus*, from *algere* be cold: see -ID[1].]
Cold, chilly; *MEDICINE* characterized by a feeling of coldness.
■ **algidity** *noun* (*rare*) M17.

algin /'aldʒɪn/ *noun*. L19.
[ORIGIN from ALGA + -IN[3].]
Alginic acid or any of its salts.

alginic /al'dʒɪnɪk/ *adjective*. L19.
[ORIGIN from ALGIN + -IC.]
CHEMISTRY. ***alginic acid***, an insoluble gelatinous carbohydrate found (chiefly as salts) in many brown algae.
■ **alginate** *noun* a salt of alginic acid L19.

Algol /'algɒl/ *noun*. M20.
[ORIGIN from ALGO(RITHMIC *l*anguage.]
(The name of) an early high-level programming language.

algolagnia /algəʊ'lagnɪə/ *noun*. E20.
[ORIGIN from Greek *algos* pain + *lagneia* lust.]
PSYCHIATRY. The practice of obtaining sexual pleasure from pain inflicted on oneself or another.

algology /al'gɒlədʒi/ *noun*. M19.
[ORIGIN from ALGA + -OLOGY.]
The branch of science that deals with algae.
■ **algological** *adjective* M19. **algologist** *noun* M19.

Algonkian /al'gɒŋkɪən/ *adjective & noun*. L19.
[ORIGIN Var. of ALGONQUIAN.]
1 *GEOLOGY*. = PROTEROZOIC. L19.
2 = ALGONQUIAN. E20.

Algonkin *noun & adjective* var. of ALGONQUIN.

Algonquian /al'gɒŋkwɪən, -kɪ-/ *adjective & noun*. See also ALGONKIAN. L19.
[ORIGIN Irreg. from ALGONQUIN + -IAN.]
▸**A** *adjective*. Of or pertaining to a large group of N. American Indian peoples including the Algonquins proper; of or pertaining to (any of) the languages and dialects of these peoples. L19.
▸**B** *noun*. A member of, any of the languages or dialects of, this group of peoples. L19.

Algonquin /al'gɒŋkwɪn, -kɪn/ *noun & adjective*. Also **-kin** /-kɪn/. E17.
[ORIGIN French, contr. of †*Algoumequin*: cf. Micmac *algoomeaking* at the place of spearing fish and eels.]
▸**A** *noun*. A member of a N. American Indian people of the districts of Ottawa and Quebec; the language of this people; more widely = ALGONQUIAN *noun*. E17.

– PHRASES ETC.: **alive and kicking** *colloq.* very active. **alive and well** (**and living in —**) *colloq.* not (as has been suggested) ill or dead, and to be found in (the place named). **alive oh** [from a fish-sellers' cry] very much alive and active. ***burn alive***: see BURN *verb* 8. ***dead-alive***, ***dead-and-alive***: see DEAD *adjective & adverb*. ***Heavens alive***: see HEAVEN *noun*. **look alive!** *colloq.* be brisk. **man alive!** *colloq.*: an expletive. ***sakes alive!***: see SAKE *noun*¹. ***snakes alive!***: see SNAKE *noun* 1c.
■ **aliveness** *noun* M19.

aliyah /ˈalɪjə/ *noun*. Pl. **-yoth** /-jəʊt/. E20.
[ORIGIN Hebrew *āliyah*, lit. 'ascent'.]
JUDAISM. **1** The act or privilege of going up to the reading desk of a synagogue to read from the Torah. E20.
2 Immigration to Israel. Freq. (as ***First Aliyah***, ***Second Aliyah***, etc.), a particular episode of immigration. M20.

alizarin /əˈlɪz(ə)rɪn/ *noun*. Also **-ine**. M19.
[ORIGIN French *alizarine* from *alizari* madder, perh. from colloq. Arabic *al-ʿiṣāra* the juice or sap pressed out: see AL-², -IN¹.]
CHEMISTRY. The red colouring matter of madder root; 1,2-dihydroxyanthraquinone, $C_{14}H_8O_4$.
– COMB.: **alizarin red**, **alizarin yellow**: (the colours of) synthetic dyestuffs derived from or resembling alizarin.

Al-kaaba *noun* see KAABA.

alkahest /ˈalkəhɛst/ *noun*. Also †**alc(h)-**. M17.
[ORIGIN Prob. invented by Paracelsus, after Arabic.]
The universal solvent sought by the alchemists. Also *fig.*, anything universally applicable.

alkalaemia /alkəˈliːmɪə/ *noun*. E20.
[ORIGIN from ALKALI + -AEMIA.]
MEDICINE. A condition of abnormally raised pH of the blood.

alkalescent /alkəˈlɛs(ə)nt/ *adjective*. Now *rare*. M18.
[ORIGIN from ALKALI + -ESCENT.]
Slightly alkaline; conducive or tending to alkalinity.
■ **alkalescence**, **alkalescency** *nouns* tendency to alkalinity, slight alkaline character M18.

alkali /'alkəlʌɪ/ *noun*. Pl. **-s**, **-es**. LME.
[ORIGIN medieval Latin from Arabic *al-qalī* the calcined ashes of *Salsola* etc.: see AL-².]
1 A saline substance extracted from the calcined ashes of plants such as saltwort (genus *Salsola*) or glasswort (genus *Salicornia*); soda ash. LME.
2 A plant from which soda ash is obtained; saltwort, glasswort. Now *rare* or *obsolete*. L16.
3 Any substance which neutralizes or effervesces with acids and forms a caustic or corrosive solution in water; a water-soluble base, *esp.* a hydroxide. E17.
VOLATILE alkali.
4 A soluble salt or mixture of such salts existing in excess in the soil; terrain characterized by this. Freq. *attrib.* *N. Amer.* M19.

S. E. WHITE The limitless alkali of the Arizona plains. *attrib.*: J. H. BEADLE Little to see but . . alkali flats and sand-hills.

– COMB.: **alkali metal** *CHEMISTRY* any of the elements occupying group IA of the periodic table (namely lithium, sodium, potassium, rubidium, caesium, francium), which are soft, reactive metals forming soluble hydroxides.
■ **alkalify** /-ɪfʌɪ/ *verb trans.* make alkaline M19. †**alkallous** *adjective* = ALKALINE L17–M18.

alkalic /al'kalɪk/ *adjective*. M18.
[ORIGIN from ALKALI + -IC.]
1 Alkaline. *rare*. M18.
2 *GEOLOGY*. Of a rock or mineral: richer in alkali metals, esp. sodium and potassium, than the average for the group it belongs to. E20.

alkalide /'alkəlʌɪd/ *noun*. L20.
[ORIGIN from ALKALI + -IDE.]
CHEMISTRY. A binary ionic compound in which the anion is an alkali metal.

alkalimetry /alkə'lɪmɪtrɪ/ *noun*. E19.
[ORIGIN formed as ALKALIDE + -METRY.]
CHEMISTRY. The measurement of the strengths of alkalis.
■ **alkalimeter** *noun* an instrument for alkalimetry E19. **alkali'metric**, **alkali'metrical** *adjectives* M19.

alkaline /'alkəlʌɪn/ *adjective*. L17.
[ORIGIN from ALKALI + -INE¹.]
Of, pertaining to, or of the nature of alkalis; rich in alkali; *CHEMISTRY* having a pH greater than 7.
alkaline battery: in which the electrolyte is an alkaline solution. **alkaline earth** *CHEMISTRY* any of the strongly basic oxides of the metals calcium, strontium, barium, and radium; *loosely* any of these elements, which are placed in group IIA of the periodic table. **alkaline metal** = *ALKALI metal*. *alkaline tide*: see TIDE *noun*.
■ **alkalinity** /-'lɪnɪtɪ/ *noun* alkaline character or quality L18. **alkalinization** /alkəlmʌɪ'zeɪʃ(ə)n/ *noun* making alkaline; reduction of acidity: M20. **alkalinize** /-lɪn-/ *verb trans.* make alkaline E19.

alkalize /'alkəlʌɪz/ *verb trans.* Also **-ise**. M17.
[ORIGIN from ALKALI + -IZE.]
Make alkaline, treat with alkali.
■ †**alkalizate** *adjective* alkaline E17–M18. **alkali'zation** *noun* L17.

alkaloid /'alkəlɔɪd/ *adjective & noun*. E19.
[ORIGIN German: see ALKALI, -OID.]
CHEMISTRY. (Designating or pertaining to) any of a class of complex organic bases of vegetable origin which have pronounced physiological actions on humans (e.g. morphine, strychnine, nicotine).
vinca alkaloid: see VINCA *noun*¹.
■ **alka'loidal** *adjective* of the nature of an alkaloid; pertaining to alkaloids: L19.

alkalosis /alkə'ləʊsɪs/ *noun*. Pl. **-loses** /-'ləʊsiːz/. E20.
[ORIGIN from ALKALI + -OSIS.]
MEDICINE. A condition of abnormally raised pH of the body fluids.

alkane /'alkeɪn/ *noun*. L19.
[ORIGIN from ALKYL + -ANE.]
CHEMISTRY. Any of the saturated hydrocarbons (e.g. methane, butane) which form a series having the general formula C_nH_{2n+2}. Cf. **PARAFFIN**.

alkanet /'alkənɛt/ *noun*. ME.
[ORIGIN Colloq. Arabic *al-ḥanna(t)* = classical Arab. *al-ḥinnā'* ALCANNA.]
1 A red dye obtained from the roots of certain plants of the genus *Alkanna*, of the borage family, esp. *A. lehmannii*. ME.
2 Any plant of the genus *Alkanna*; any of several related plants having roots which can be used in similar ways, esp. *Anchusa officinalis* of Europe, with violet or occas. yellow or white flowers. Also (more fully ***green alkanet***, ***evergreen alkanet***), a coarse blue-flowered garden plant, *Pentaglottis sempervivens*, native to SW Europe. ME.

alkanna *noun* var. of ALCANNA.

alkaptonuria /al,kaptə'njʊərɪə/ *noun*. Also **alc-**. L19.
[ORIGIN from German *Alkapton*, *Alc-* homogentisic acid, from *alkali* ALKALI + Greek *kapton* neut. pres. pple of *kaptein* swallow greedily, + -URIA.]
MEDICINE. A hereditary metabolic disorder characterized by an accumulation of homogentisic acid in certain tissues and its excretion in the urine.
■ **alkaptonuric** *adjective & noun* (a person) suffering from alkaptonuria L19.

alkekengi /alkɪ'kɛndʒɪ/ *noun*. LME.
[ORIGIN medieval Latin from Arabic *al-* & Persian *kākanj*: see AL-².]
An ornamental plant, *Physalis alkekengi*, native to southern Europe and Asia, bearing red berries enclosed by an inflated orange calyx. Also called ***Chinese lantern***, ***winter cherry***, and other names.

alkene /'alkiːn/ *noun*. L19.
[ORIGIN from ALKYL + -ENE.]
CHEMISTRY. Any of the unsaturated hydrocarbons with one double bond, which form a series having the general formula C_nH_{2n}; = **OLEFIN**.

alkermes /al'kəːmiːz, -ɪz/ *noun*. M16.
[ORIGIN French *alkermès* from Arabic *al-qirmiz*: see AL-², KERMES.]
1 A confection or cordial containing the kermes insect; a sweet cordial coloured with cochineal. M16.
†**2** = **KERMES** 2. E17–M18.

alkie *noun* var. of ALKY.

†**alkin** *adjective*. Long *dial.* ME–L19.
[ORIGIN from genit. of ALL + genit. of KIN *noun & adjective*, orig. as prenominal phr., later treated as adjective.]
Of every kind; every kind of.

alkine *noun* see **ALKYNE**.

Alkoran *noun* var. of ALCORAN.

alkoxide /al'kɒksʌɪd/ *noun*. L19.
[ORIGIN from ALKOXY- + -IDE.]
CHEMISTRY. A salt or simple compound containing an alkoxyl radical.

alkoxy- /al'kɒksi/ *combining form*. Also as attrib. adjective **alkoxy**. L19.
[ORIGIN from ALKALI + OXY-.]
Used to denote the presence of an alkoxyl group.

alkoxyl /al'kɒksʌɪl, -sɪl/ *noun*. L19.
[ORIGIN formed as ALKOXY- + -YL.]
The radical RO· derived from an alcohol. Usu. in *comb.*

alky /'alkɪ/ *noun*. *slang*. Also **alkie**. M19.
[ORIGIN Abbreviation: see -Y⁶, -IE.]
1 = **ALCOHOL**. M19.
2 = **ALCOHOLIC** *noun*. M20.

S. KING They drink because it's what alkies are wired up to do.

alkyd /'alkɪd/ *noun*. E20.
[ORIGIN from ALKYL + ACID *noun*.]
CHEMISTRY. Any of a class of synthetic polyester resins. Usu. more fully ***alkyd resin*** etc.

alkyl /'alkʌɪl, -kɪl/ *noun*. L19.
[ORIGIN German, from *Alkohol* ALCOHOL: see -YL.]
CHEMISTRY. Any radical derived from an alkane by removal of a hydrogen atom; a compound of a metal, e.g. lead, with a number of such radicals. Freq. in *comb.*
■ **alkylate** *verb trans.* introduce an alkyl radical into (a compound) L19. **alky'lation** *noun* E20.

alkyne /'alkʌɪn/ *noun*. Orig. **-ine**. E20.
[ORIGIN from ALKYL + -YNE.]
CHEMISTRY. Any of the series of unsaturated hydrocarbons containing one triple bond and having the general formula C_nH_{2n-2}, e.g. acetylene.

all /ɔːl/ *adjective* (in mod. usage also classed as a *determiner*), *pronoun*, *noun*, *& adverb*.
[ORIGIN Old English (*e*)*all* = Old Frisian *al*, *ol*, Old Saxon, Old High German *al* (Dutch *al*, German *all*), Old Norse *allr*, Gothic *als*.]
▸**A** *adjective*. **1** With *noun sing.* The whole amount, quantity, extent, or compass of. (Preceding the noun and any determiners (the def. article, †the indef. article, demonstratives, possessives, etc.) and other adjectives; following the head noun (always so with pers. prons. without adjunct); or with *be* (*arch. rare* with other verbs) following the verb.) OE.

AV 1 *Pet.* 1:24 All flesh is as grasse. G. WASHINGTON All this looks very well on paper. LD MACAULAY All Devonshire had been gathered together to welcome him. K. MANSFIELD This all sounds very strenuous and serious. E. WAUGH All day the heat had been barely supportable. S. KAUFFMANN I still need all the love I can get. R. MILLAR But one desire—to give all my might to letters. A. AYCKBOURN It was all rather pathetic.

5 Just, merely, even. Passing into a mere intensive. *arch.* L16.

SIR W. SCOTT He . . Gave them a chain of twelve marks' weight
All as he lighted down.

6 With *the* and compar.: by that amount, to that extent. L16.

V. WOOLF One liked Mr Ramsay all the better for thinking that if his little finger ached the whole world must come to an end.

7 Modifying a verb: wholly, completely. *arch., rare*. E18.

P. J. BAILEY Gazing o'er thee, I all Forget the bounds of being.

— COMB.: With noun in adjective sense (see sense A. above, ALLSPICE, etc.) and in adverbs which were orig. noun phrs. (ALGATE, ALWAYS, etc.); also attrib., as ***all-night***, ***all-time***, etc. With noun in sense 'of all, universal', as ***all-creator***, ***all-destroyer***, ***all-father***, ***all-giver***, etc. With noun (usu. attrib.) in adverbial sense 'wholly, altogether, made wholly of', as ***all-male***, ***all-star***, ***all-wool***, etc. With adjective in adverbial sense 'wholly, infinitely', as ***all-beauteous***, ***all-holy***, ***all-merciful***, ***all-powerful***, etc. With adjective in sense 'representative of the whole of', as ***all-Russian*** etc. With pres. ppl adjective as the obj. of verbal action, sometimes also with the sense 'wholly, infinitely', as ***all-absorbing***, ***all-encompassing***, ***all-judging***, ***all-pervading***, ***all-seeing***, etc. With pa. ppl adjective in adverbial sense 'wholly, completely', also 'by all', as ***all-accomplished***, ***all-honoured***, ***all-praised***, etc. Hence with corresp. and deriv. nouns, as ***all-alikeness***, ***all-pervadingness***, ***all-powerfulness***, ***all-sufficiency***, etc. Special combs., as **all-American** *adjective* (*a*) representing the whole of, or only, America or the USA; (*b*) *colloq.* truly American; **all around** *adjective* (*US*) = ALL ROUND *adjective*; **all-clear** a signal that danger or difficulty is over; **all-electric** *adjective* using only electricity for heating and lighting; **all-fired** *adjective & adverb* (*slang*, chiefly *US*) [euphem. for *hell-fired*] infernal(ly), extreme(ly); **all-firedly** *adverb* (*slang*, chiefly *US*) infernally, extremely; **allgood** = ***Good King Henry*** s.v. GOOD *adjective*; **all hail** *interjection, noun phr., &* (with hyphen) *verb* (*arch.*) (a greeting of, greet with the words) [I wish you] all health; **allheal** (*a*) any of various plants having medicinal uses, esp. valerian, *Valeriana officinalis*; †(*b*) a panacea; †**all-hid** the game of hide-and-seek; **all-important** *adjective* of vital importance; **all-inclusive** *adjective* including everything or everyone, *spec.* (of a holiday or resort) in which all or most meals, drinks, etc. are included in the overall price; **all-in-one** *noun & adjective* (a garment etc.) made in a single connected piece; **all-might** *arch.* omnipotence; **all-nighter** *colloq.* a task etc. that takes all night; **all-or-none law**, **all-or-nothing law** *PHYSIOLOGY*: that the magnitudes of certain responses (esp. nerve impulses), once evoked, are independent of the strength of the stimuli; **all-points** *adjective* & (without hyphen) *noun* (*N. Amer.*) (a request, bulletin, etc., esp. for the apprehension of a wanted person) issued generally; **all-pro** *adjective & noun* (*a*) *adjective* designating or pertaining to either of two nominated American football teams made up of the best players of the season; (*b*) *noun* a player nominated to an all-pro team; **all-purpose** *adjective* with numerous uses; **all-red** *adjective* (*hist.*) entirely on British territory (usu. coloured red in maps); **allseed** any of a number of small plants producing much seed for their size, esp. *Polycarpon tetraphyllum*, of the pink family, and *Radiola linoides*, of the flax family; **all-terrain** *adjective* designating a robust bicycle or three-wheeled motorbike built to allow it to travel on all kinds of surface. **all-weather** *adjective* suitable for use whatever the weather; **allwhere(s)** *arch.* everywhere; **all work** work, esp. domestic work, of all kinds; ***maid of all work***: see MAID *noun*.

■ **allness** *noun* universality M17.

alla breve /alə 'breɪvi, *foreign* alla 'brɛve/ *adverbial, adjectival, & noun phr.* M18.
[ORIGIN Italian = according to the breve.]
MUSIC. With increased speed, at two minim beats in a bar instead of four crotchets; such a tempo or time signature.

alla cappella /ˌalə kə'pɛlə/ *adverbial & adjectival phr.* M18.
[ORIGIN Italian.]
= A CAPPELLA.

Allah /'alə, ə'lɑː/ *noun.* L16.
[ORIGIN Arabic *'allāh* prob. contr. of *al-'ilāh* the god, from *al* AL-[2] + *'ilāh* god.]
The name of God among Arabs and Muslims.

alla marcia /ˌalə 'mɑːtʃə/ *adverbial, adjectival, & noun phr.* L19.
[ORIGIN Italian.]
MUSIC. (A piece, movement, etc.) in the style of a march.

†**allanerly** *adverb & adjective* var. of ALLENARLY.

allanite /'alənʌɪt/ *noun.* E19.
[ORIGIN from T. *Allan* (1777–1833), Scot. mineralogist + -ITE[1].]
MINERALOGY. A brownish-black monoclinic mineral of the epidote group containing rare earth metals, aluminium, and iron.

allantoid /ə'lantɔɪd/ *adjective & noun.* M17.
[ORIGIN Greek *allantoeidēs* (Galen), from *allant-*, *allas* sausage (named from its form in a calf): see -OID.]
ANATOMY. (Of or pertaining to) the allantois.

allantoin /ə'lantəʊɪn/ *noun.* M19.
[ORIGIN from ALLANTOIS + -IN[1]: it was discovered in the allantoic fluid of cows.]
CHEMISTRY. A crystalline base formed in the nitrogen metabolism of many mammals (excluding primates); 5-ureidohydantoin, $C_4H_6N_4O_3$.

allantois /ə'lantəʊɪs/ *noun.* Pl. **-toides** /-təʊɪdiːz/. M17.
[ORIGIN mod. Latin, spurious form evolved from *allantoides* ALLANTOID.]
ANATOMY. The fetal membrane lying beneath the chorion in mammals, birds, and reptiles.
■ **allan'toic** *adjective* of or pertaining to the allantois M19.

allargando /alɑː'gandəʊ/ *adverb, adjective, & noun.* L19.
[ORIGIN Italian = broadening.]
MUSIC. ▶**A** *adverb & adjective.* A direction: getting slower and slower and often also fuller in tone. L19.
▶**B** *noun.* Pl. **-di** /-di/, **-dos**. A passage (to be) so played. M20.

allative /'alətɪv/ *adjective & noun.* M19.
[ORIGIN from Latin *allat-* pa. ppl stem of *afferre* bring to, from *ad* AF- + *ferre* carry + -IVE.]
GRAMMAR. ▶**A** *adjective.* Designating, being in, or pertaining to a case in Finnish and other languages denoting motion to or towards. M19.
▶**B** *noun.* *The* allative case; a word, form, etc., in the allative case. E20.

†**allay** *noun*[1]. ME.
[ORIGIN Old Northern French *aley*, *alai*, formed as ALLAY *verb*[2].]
1 = ALLOY *noun* I. ME–E19.

LD BERNERS Money . . of the same forme and alay as is in Paris. BACON Mixture of Falshood, is like Allay in Coyne of Gold and Siluer. T. D'URFEY Those that know finest metal say, No Gold will coin without Allay.

2 = ALLOY *noun* II. L16–L18.

CLARENDON The Committee . . prepared other Votes of a brighter allay. F. BURNEY Good-nature gives pleasure without any allay.

†**allay** *noun*[2]. LME.
[ORIGIN from ALLAY *verb*[1], infl. by ALLAY *noun*[1].]
1 Dilution. LME–M17.
2 Abatement, tempering of the force of something. LME–M18.
3 Repression, hindrance. M17–E18.
4 Alleviation. Only in M19.

allay /ə'leɪ/ *verb*[1].
[ORIGIN Old English *alecǧan*, from A-[1] + LAY *verb*[1]; = Old High German *irleggen* (German *erlegen*), Gothic *uslagjan*. The sense-development has been infl. by formal identity with (in Middle English) ALLEGE *verb*[1], *verb*[2] and with ALLAY *verb*[2].]
▶**I** *verb trans.* †**1** Lay down, lay aside; annul, abolish; abandon. OE–LME.

1 A person who causes alternation. *rare*. M19.
2 An electric generator producing an alternating power supply. L19.

alternity /ɔːlˈtɜːnɪti, ɒl-/ *noun*. *rare*. M17.
[ORIGIN French *alternité* or medieval Latin *alternitas* formed as ALTERN: see -ITY.]
Being alternate; alternation.

althaea /əlˈθiːə/ *noun*. Also **-thea**. LME.
[ORIGIN Latin from Greek *althaia* marshmallow, from *althein* heal.]
A plant of the genus *Althaea* of the mallow family, *esp.* marshmallow. Also, the ornamental shrub *Hibiscus syriacus* (formerly *A. frutex*).

Althing /ˈɔːlθɪŋ, ˈɒl-/ *noun*. L18.
[ORIGIN Icelandic *alþing* from Old Norse *alþingi*, from *allr* ALL *adjective* + *þing* THING *noun*².]
hist. The general assembly of Iceland.

altho' *conjunction* see ALTHOUGH.

althorn /ˈalthɔːn/ *noun*. M19.
[ORIGIN German, formed as ALT, HORN *noun*.]
MUSIC. A wind instrument of the saxhorn family.

although /ɔːlˈðəʊ, ɒl-/ *conjunction*. Also (*colloq.*) **altho'**. ME.
[ORIGIN from ALL *adverb* + THOUGH.]
Even though; notwithstanding the fact that; and yet, nevertheless.

E. O'NEILL I think she's much better, don't you—although she won't admit it. G. EWART Although he giggled Dominic was shocked.

alti *noun* pl. of ALTUS *noun*.

alti- /ˈalti/ *combining form* of Latin *altus* high and *alte* highly: see **-i-**.
■ **altiplanation** *noun* (GEOLOGY) the production of terraces or other flat surfaces by periglacial processes such as solifluction E20.

altimeter /ˈaltɪmiːtə/ *noun*. E19.
[ORIGIN from ALTI- + -METER.]
†**1** An instrument for measuring altitudes geometrically. Only in Dicts. E–M19.
2 An instrument used to determine altitude attained, esp. a barometric or radio-echo device fitted in an aircraft etc. E20.

altimetry /alˈtɪmɪtri/ *noun*. LME.
[ORIGIN medieval Latin *altimetria*: see ALTI-, -METRY.]
The measurement of height or altitude.
■ **altimetric** *adjective* E20.

altiplano /altɪˈplɑːnəʊ, *foreign* altiˈplano/ *noun*. Pl. **-os** /-əʊz, *foreign* -os/. E20.
[ORIGIN Spanish.]
The high tableland of central S. America.

altisonant /alˈtɪsənənt/ *adjective*. *arch.* E17.
[ORIGIN from Latin *altisonus*, formed as ALTI- + *sonare* to sound + -ANT¹.]
High-sounding, pompous, loud.

altissimo /alˈtɪsɪməʊ/ *noun*. L18.
[ORIGIN Italian, superl. of ALTO.]
Mus. ***in altissimo***, in the second octave above G at the top of the treble stave. Cf. ALT.

†altitonant *adjective*. L16–M17.
[ORIGIN Latin *altitonant-*, *-ans*, formed as ALTI- + pres. pple of *tonare* to thunder: see -ANT¹.]
Thundering from on high: an epithet of Jove (Jupiter).

altitude /ˈaltɪtjuːd/ *noun*. LME.
[ORIGIN Latin *altitudo*, *-din-*, from *altus* high: see -TUDE.]
1 ASTRONOMY. Angular distance above the horizon. Cf. ***zenith distance***. LME.
2 Height or depth, as dimensions of space. LME.
3 Height above the ground or above sea level; great height, loftiness. LME.

S. HAUGHTON The Himalaya chain . . has a mean altitude of about 18,000 feet. W. DALRYMPLE I could feel the weakening effects of altitude.

4 A height; in *pl.*, great heights. LME. ▸**†b** In *pl. fig.* Lofty feelings, airs, phrases, etc. E17–E19.

New Scientist Conifer forests at high altitudes.

5 *fig.* Eminence; high or exalted position. L15.
6 GEOMETRY. The height of a triangle or other figure, measured by a perpendicular from a vertex to the base or base produced. L16.
– COMB.: **altitude sickness** illness caused by ascent to high altitude, characterized chiefly by nausea and exhaustion.
■ **altitudinal** *adjective* relating to height or degree of elevation L18. **altitudinous** *adjective* high, lofty M19.

altivolant /alˈtɪvələnt/ *adjective*. *rare*. M17.
[ORIGIN Latin *altivolant-*, *-ans*, formed as ALTI- + pres. pple of *volare* to fly: see -ANT¹.]
Flying on high.

alto /ˈaltəʊ/ *noun & adjective*. L16.
[ORIGIN Italian = high (*sc.* song) from Latin ALTUS.]
MUSIC. ▸**A** *noun*. Pl. **-os**.
1 a The highest adult male voice, with range above the tenor, the counter-tenor voice; a part written for such a voice. L16. ▸**b** A female voice of similar range, a contralto voice; a part written for such a voice. E19.
2 A person who has a counter-tenor or contralto voice. L18.
3 An alto wind instrument (see sense B. below). L19.
▸**B** *adjective*. Designating, pertaining to, or intended for a counter-tenor or contralto voice. Also, designating that member of a group of similar instruments with a range or relative pitch comparable to an alto voice (among wind instruments usu. the second or third highest member of the family). E18.
alto clef: placing middle C on the middle line of the stave. **alto horn** (*a*) = ALTHORN; (*b*) *US* an alto saxophone.

alto- *prefix* see ALL *adverb* 2.

altocumulus /altəʊˈkjuːmjʊləs/ *noun*. Pl. **-li** /-laɪ, -liː/. L19.
[ORIGIN from mod. Latin *alto-*, from *altus* high, + CUMULUS.]
METEOROLOGY. A cloud or cloud type resembling cumulus but occurring at medium altitude (usu. 2 to 7 km, 6500 to 23,000 ft).

altogether /ɔːltəˈgɛðə, ɒl-/ *noun & adverb*. OE.
[ORIGIN from ALL + TOGETHER.]
▸**A** *noun*. †**1** The whole together; the total; everything. OE–E16.

TINDALE *1 Cor.* 7:19 Circumcision is nothynge . . but the keppynge of the commaundmentes of god is altogether.

2 ***for altogether***, for ever, for good. *arch.* M16.
3 A whole; an overall effect. Now *rare*. M18.
4 *The* nude. *colloq.* L19.
▸**B** *adverb*. **1** Totally; entirely; in all respects. OE.

H. T. BUCKLE In Greece, we see a country altogether the reverse of India. S. HILL It is getting altogether too hot to walk back to Cliff House.

2 All in one place or in a group; all at once. From 17 usu. ***all together***. ME.

W. HARRIS The crew began, all together, tugging and hauling the boat.

3 In all; in total amount. L18.

J. AUSTEN Altogether, they will have five hundred a-year amongst them.

4 On the whole; taking everything into account. E19.

W. E. COLLINSON Altogether I cannot think of any modern writer who has exercised so far-reaching an influence on our everyday speech.

■ **altogetherness** *noun* (now *rare*) wholeness, unity L17.

alto-relievo /ˌaltəʊrɪˈliːvəʊ/ *noun*. Also **-rilievo** /-rɪˈljɛrvəʊ/. Pl. **-os**. M17.
[ORIGIN Italian *alto-rilievo*: see ALTO, RELIEVO *noun*¹.]
(A sculpture, moulding, carving, etc., in) high relief.

altostratus /altəʊˈstrɑːtəs, -ˈstrɛɪtəs/ *noun*. L19.
[ORIGIN from mod. Latin *alto-*, from *altus* high, + STRATUS.]
METEOROLOGY. A cloud or cloud type resembling stratus or cirrostratus but occurring at medium altitude (usu. 2 to 7 km, 6500 to 23,000 ft).

altricial /alˈtrɪʃ(ə)l/ *adjective*. L19.
[ORIGIN from mod. Latin *Altrices*, a former division of birds, pl. of *altrix* fem. of *altor* nourisher, from *alere* nourish: see -IAL.]
ZOOLOGY. (Having young which are) helpless at birth; nidicolous. Cf. PRECOCIAL.

altruism /ˈaltrʊɪz(ə)m/ *noun*. M19.
[ORIGIN French *altruisme* (A. Comte), from Italian *altrui* somebody else: see -ISM.]
Regard for others as a principle of action; unselfishness.
■ **altruist** *noun* an altruistic person M19. **altruˈistic** *adjective* of, pertaining to, or practising altruism; unselfish: M19. **altruˈistically** *adverb* M19.

altus /ˈaltəs/ *noun & adjective*. Pl. of noun **-ti** /-taɪ, -tiː/. L16.
[ORIGIN Latin = high.]
EARLY MUSIC. = ALTO.

ALU *abbreviation*.
COMPUTING. Arithmetic and logic unit.

alu *noun* var. of ALOO.

aludel /ˈaljʊdɛl/ *noun*. LME.
[ORIGIN Old French *alutel*, later *aludel*, from Spanish from Arabic *al-ʾuṭāl* the sublimation vessel: see AL-².]
A pear-shaped earthenware or glass pot, open at both ends so that a series could be fitted one above another, formerly used in sublimation.

alula /ˈaljʊlə/ *noun*. Pl. **-lae** /-liː/. L18.
[ORIGIN mod. Latin, dim. of *ala* wing.]
1 ORNITHOLOGY. A bastard wing. L18.
2 ENTOMOLOGY. A small lobe at the base of a wing or elytron, present in certain insects. E19.

alum /ˈaləm/ *noun & verb*. LME.
[ORIGIN Old French from Latin *alumen* rel. to *aluta* tawed leather.]
▸**A** *noun*. CHEMISTRY.
1 A hydrated double sulphate of aluminium and potassium, forming colourless octahedral crystals and having astringent properties; $KAl(SO_4)_2{\cdot}12H_2O$. LME.
2 Any of various substances resembling this; now *spec.* any of a series of isomorphous double sulphates in which other elements or radicals may replace aluminium or potassium. LME.
With specifying word indicating the characteristic element or source, as ***ammonium alum***, ***chrome alum***, ***ferric alum***, ***iron alum***, ***potash alum*** (= sense 1), ***rock alum***, ***Roman alum***, ***soda alum***, etc.
– COMB.: **alum rock** (*a*) = ALUNITE; (*b*) alum shale; **alum root** *N. Amer.* any of various plants with astringent roots, *esp.* heuchera; **alum schist**, **alum shale**, **alum slate** argillaceous rock impregnated with alum; **alum stone** = ALUNITE.
▸**B** *verb trans.* Treat or impregnate with alum. LME.

alumina /əˈluːmɪnə/ *noun*. L18.
[ORIGIN from Latin *alumin-*, *alumen* ALUM, after *soda*, *magnesia*, etc.]
Aluminium oxide, Al_2O_3, a white heat-resistant solid which is a major constituent of many rocks, esp. clays, and is found crystallized as corundum, sapphire, etc.
■ †**alumine** *noun* [French] = ALUMINA L18–M19. **aluminate** *noun* (CHEMISTRY) a salt formed (as) from alumina and a base M19.

aluminium /aljʊˈmɪnɪəm/ *noun & adjective*. Also ***aluminum** /əˈluːmɪnəm/. E19.
[ORIGIN from ALUMINA + -IUM.]
▸**A** *noun*. A light silvery ductile and malleable metal, not readily tarnished by air, which is a chemical element, atomic no. 13 (symbol Al). E19.
▸**B** *attrib.* or as *adjective*. Of aluminium; made with or containing aluminium. M19.
aluminium bronze an alloy of aluminium with copper (and sometimes other metals). **aluminium foil** aluminium in very thin sheets, used as wrapping material etc.
■ **aluminize** /əˈljuːmɪnaɪz/ *verb trans.* coat with aluminium E20.

alumino- /əˈluːmɪnəʊ/ *combining form* of ALUMINA and ALUMINIUM: see **-o-**.
■ **aluminoˈsilicate** *noun* a silicate containing aluminium, *esp.* one in which aluminium replaces some of the silicon in the ion SiO_4^-; *spec.* any of the numerous minerals of this kind, e.g. the clay minerals and feldspars: E20. **aluminoˈthermic** *adjective* of or pertaining to aluminothermy E20. **aluminoˈthermy** *noun* the production of high temperatures (for welding, smelting, etc.) by means of the oxidation of powdered aluminium E20.

aluminous /əˈluːmɪnəs/ *adjective*. LME.
[ORIGIN from Latin *aluminosus*, from *alumin-*, *alumen* ALUM: see -OUS.]
Of the nature of or containing alum or alumina.

aluminum *noun* see ALUMINIUM.

alumna /əˈlʌmnə/ *noun*. Pl. **-nae** /-niː/. L19.
[ORIGIN Latin, fem. of ALUMNUS.]
A female graduate or former student of a school, college, university, or other educational institution.

alumnus /əˈlʌmnəs/ *noun*. Pl. **-ni** /-nʌɪ/. M17.
[ORIGIN Latin = nursling, pupil, from *alere* nourish.]
Formerly, a pupil. Now *spec.*, a (male) graduate or former student of a school, college, university, or other educational institution.

alunite /ˈaljʊnʌɪt/ *noun*. M19.
[ORIGIN French, from *alun* formed as ALUM + -ITE¹.]
MINERALOGY. A hexagonal basic sulphate of potassium and aluminium, used in alum manufacture.

alunogen /əˈljuːnədʒ(ə)n/ *noun*. M19.
[ORIGIN French *alunogène*, formed as ALUNITE: see -GEN.]
MINERALOGY. A hydrated aluminium sulphate, usu. occurring as masses of feathery or fibrous triclinic crystals.

alure /ˈaljə/ *noun*. Now *arch. & dial.* ME.
[ORIGIN Old French *aleor*, later *aleeur*, Anglo-Norman *aleür* passage, gallery, etc., esp. in fortifications.]
A passage, gallery, or cloister to walk in, *esp.* one behind battlements or on the roof of a church.

alveary /ˈalvɪəri/ *noun*. Now *rare* or *obsolete*. L16.
[ORIGIN from Latin *alvearium* set of beehives, from *alveus* beehive: see -ARY¹.]
A beehive.

fig.: J. BARET An alvearie or quadruple dictionarie.

alveolar /alˈvɪələ/ *adjective & noun*. L18.
[ORIGIN from ALVEOLUS + -AR¹.]
▸**A** *adjective*. Of or pertaining to an alveolus or alveoli; PHONETICS (of a consonant) articulated with the tip of the tongue at or near the ridge of the upper teeth. L18.
alveolar ridge the ridge that contains the sockets of the upper teeth.
▸**B** *noun*. **1** ANATOMY. An alveolar process. *rare*. L19.
2 PHONETICS. An alveolar consonant. L19.
■ **alveolarity** /-ˈlarɪti/ *noun* (PHONETICS) the quality of being alveolar M20.

alveolitis /ˌalvɪəˈlʌɪtɪs/ *noun*. L19.
[ORIGIN formed as ALVEOLAR + -ITIS.]
MEDICINE. Inflammation of an alveolus or alveoli (now usu. *spec.* of the lungs).

alveolo- /alˈvɪələʊ, alvɪˈəʊlə(ʊ)/ *combining form*. L19.
[ORIGIN from ALVEOLUS: see -O-.]
Of or pertaining to the sockets of the teeth or the alveolar ridge; PHONETICS alveolar and —, as ***alveolo-palatal***.

alveolus /alˈvɪələs, alvɪˈəʊlə(s)/ *noun*. Pl. **-li** /-lʌɪ, -liː/. L17.
[ORIGIN Latin, dim. of *alveus* cavity.]
Chiefly ANATOMY. A small cavity or depression; *esp.* (***a***) the socket of a tooth; (***b***) any of the terminal air sacs of the lungs; (***c***) an acinus.
■ **alˈveolate** *adjective* pitted with small cavities E19. **ˈalveole** *noun* [French] = ALVEOLUS M18.

alveus /ˈalvɪəs/ *noun*. L17.
[ORIGIN Latin.]
The channel or bed of a river, the trough of the sea. Also, beach ground between the high- and low-water marks.

alvine /ˈalvʌɪn/ *adjective*. Now *rare*. M18.
[ORIGIN mod. Latin *alvinus*, from *alvus* belly: see -INE¹.]
Of or pertaining to the bowels.

alway /ˈɔːlweɪ, ɔːlˈweɪ/ *adverb*. Now *arch. & poet.* OE.
[ORIGIN Orig. two words, from ALL + WAY *noun* (= *all the way*).]
1 = ALWAYS 2. OE.
2 = ALWAYS 1. LME.
†**3** = ALWAYS 3. LME–L15.

always /ˈɔːlweɪz, -ɪz/ *adverb*. ME.
[ORIGIN Prob. distrib. genit., formed as ALWAY + -S³.]
1 On all occasions; invariably; repeatedly; at every available opportunity; whenever appropriate or possible. ME.

MILTON And Love hath oft, well meaning, wrought much wo, Yet always pity or pardon hath obtain'd. ADDISON She is always seeing Apparitions. SHELLEY None slow enough for sadness: till we came Homeward, which always makes the spirit tame. YEATS I always said you could not trust these Moors. J. D. SALINGER She was somebody you always felt like talking to on the phone.

2 Throughout all (the) time; for ever; continually; from as far back as can be remembered. LME.

DONNE But what thy thorny crowne gain'd, that give mee, A crowne of Glory, which doth flower alwayes. F. J. FURNIVALL Since I first saw the Boxes . . , I always meant to have a turn at them. SCOTT FITZGERALD In a real dark night of the soul it is always three o'clock in the morning. W. H. AUDEN It wasn't always like this? Perhaps it wasn't, but it is. DAY LEWIS The smell of bacon and the smell of breadcrumbs have always been closed memories for me.

3 Whatever the circumstances; in any event; anyway. LME.

GEO. ELIOT Fred had always (at that time) his father's pocket as a last resort.

alwise /ˈɔːlwʌɪz/ *adverb*. *arch.* ME.
[ORIGIN from ALL *adjective* + -WISE, = ***in all wise***; assoc. with ALWAYS.]
In every way; in any way; at all events; *Scot.* always.

aly /ˈeɪli/ *adjective*. Also **aley**. M16.
[ORIGIN from ALE + -Y¹.]
Of or like ale.

alyssum /ˈalɪs(ə)m, əˈlɪs(ə)m/ *noun*. Also (in sense 2) **alison** /ˈalɪs(ə)n/. M16.
[ORIGIN mod. Latin (see below), from Latin *alysson* from Greek *alusson*, from *a-* A-¹⁰ + *lussa* rabies.]
1 Any of several cruciferous plants belonging to the chiefly yellow-flowered genus *Alyssum* or formerly included in it. M16.
2 *spec.* In full ***sweet alyssum***. A small Mediterranean plant, *Lobularia maritima*, much grown for its fragrant white flowers. E19.

Alzheimer's disease /ˈaltshʌɪməz dɪˌziːz/ *noun phr.* E20.
[ORIGIN from Alois *Alzheimer* (1864–1915), German neurologist.]
MEDICINE. Mental deterioration occurring in middle or old age, owing to progressive generalized degeneration of the brain; (premature) senile dementia. Also ***Alzheimer's***.

AM *abbreviation*.
1 Amplitude modulation.
2 Latin *anno mundi* in the year of the world.
3 Latin *Artium Magister* Master of Arts. Cf. **MA**. *US*.
4 Assembly Member (a member of the Welsh Assembly).

Am *symbol*.
CHEMISTRY. Americium.

am *verb* see **BE** *verb*.

a.m. *abbreviation*.
Ante meridiem.

AMA *abbreviation*.
American Medical Association.

ama /ˈamə/ *noun*. Pl. same. M20.
[ORIGIN Japanese, lit. 'sea woman'.]
A Japanese woman who dives for shellfish and edible seaweed.

amability /amə'bɪlɪti/ *noun*. Now *rare* or *obsolete*. E17.
[ORIGIN French *amabilité* or Latin *amabilitas*, from *amabilis* lovely, from *amare* to love: see -ITY.]
Lovableness.

amacrine /ˈamək(r)ʌɪn, -krɪn/ *adjective & noun*. E20.
[ORIGIN from A-¹⁰ + Greek *makros* MACRO- + *in-*, *is* sinew, strip.]
HISTOLOGY. ▸**A** *adjective*. Designating a type of small nerve cell within the retina having dendrites but no axon. E20.
▸**B** *noun*. An amacrine cell. E20.

amadavat *noun* see AVADAVAT.

amado /ˈamado/ *noun*. Pl. same. L19.
[ORIGIN Japanese, from *ame* rain + *to* door.]
(Each of) a set of shutters on the outer side of the windows of a Japanese house.

amadou /ˈamədu:/ *noun*. L18.
[ORIGIN French, of unknown origin.]
A kind of tinder made from either of the bracket fungi *Fomes fomentarius* and *Phellinus igniarius*, soaked in saltpetre.

amah /ˈɑːmə/ *noun*. M19.
[ORIGIN Portuguese *ama* nurse.]
In parts of the Indian subcontinent and the Far East: a wet nurse, children's nurse, or house servant.

†**amain** *verb* var. of AMAINE.

amain /əˈmeɪn/ *adverb*. *arch.* M16.
[ORIGIN from A *preposition*¹ 4 + MAIN *noun*¹.]
1 In or with full force; vehemently, violently. M16.
2 At full speed; without delay. M16.
3 Exceedingly, greatly. L16.

†**amaine** *verb*. Also **amain**. M16.
[ORIGIN Old French & mod. French *amener*, formed as A-⁵ + *mener* bring.]
1 *verb trans.* Direct, guide. *rare*. Only in M16.
2 NAUTICAL. **a** *verb trans.* Lower (a sail etc., esp. the topsail). Only in E17. ▸**b** *verb intrans.* Lower the topsail as a sign of yielding; *gen.* yield. E17–M19.

Amal /əˈmɑːl, *foreign* ˈamal/ *noun*. L20.
[ORIGIN Arabic *'amal* hope.]
A political and paramilitary organization of Shiite Muslims founded in Lebanon in 1975.

amalgam /əˈmalgəm/ *noun*. L15.
[ORIGIN French *amalgame* or medieval Latin *amalgama*, prob. ult. from Greek *malagma* emollient.]
1 CHEMISTRY. Orig., a soft mass formed esp. by combination (of gold, etc.) with mercury. Now, any alloy with mercury. L15.

N. V. SIDGWICK Another peculiarity of mercury is its power of forming liquid metallic solutions or amalgams.

2 An intimate plastic mixture of substances. E17.
3 *fig.* A combination of various elements. L18.

M. FONTEYN His perfect amalgam of virtuosity and elegance.

4 An ingredient in an amalgam or alloy. Now *rare* or *obsolete*. M19.

J. H. BURTON No tin or other amalgam.

amalgam /əˈmalgəm/ *verb*. *arch.* LME.
[ORIGIN medieval Latin *amalgamare*, formed as AMALGAM *noun*.]
1 *verb trans.* Amalgamate (*lit. & fig.*). LME.
†**2** *verb intrans.* Form an amalgam. L16–L17.
■ **amalgamable** *adjective* L17.

amalgamate /əˈmalgəmeɪt/ *verb*. Pa. pple & ppl adjective **-ated**, (*arch.*) **-ate** /-ət/. E17.
[ORIGIN medieval Latin *amalgamat-* pa. ppl stem of *amalgamare*: see AMALGAM *verb*, -ATE³.]
1 CHEMISTRY. **a** *verb trans.* Soften by combining with mercury; alloy with mercury. E17. ▸**b** *verb intrans.* Combine with mercury. M18.
2 *verb trans. & intrans.* Unite, mix together; combine in a homogeneous whole. L18.

COLERIDGE [The Romans] were ordained . . to conquer and amalgamate the materials of Christendom. A. CRUMP Two banks of issue had amalgamated. P. H. GIBBS The old *Daily Post*, afterwards amalgamated with another journal. A. J. P. TAYLOR A reorganization commission was to devise schemes for closing the less efficient pits and amalgamating the others.

■ **amalgamater** *noun* (*rare*) = AMALGAMATOR M19. **amalgamative** *adjective* tending to or characterized by amalgamation M19. **amalgamator** *noun* a person who or thing which amalgamates; an apparatus used in amalgamating; a person involved in an amalgamation: M19.

amalgamation /əmalgəˈmeɪʃ(ə)n/ *noun*. E17.
[ORIGIN formed as AMALGAMATE, perh. through French: see -ATION.]
1 CHEMISTRY. The action or process of amalgamating; the state of being alloyed with mercury. E17.
2 The action of combining into one uniform whole. L18.

A. J. P. TAYLOR The amalgamation of public assistance with the local councils. E. F. SCHUMACHER The amalgamation of many small family farms into large agricultural units operated as if they were factories.

3 A homogeneous union. E19.

G. B. SHAW Her dialect is now a spirited amalgamation of the foreign accents of all the waiters she has known.

amand *noun* see AMEND *noun*.

Amandebele *noun pl.* see NDEBELE *noun*.

amandine /əˈmandʌɪn/ *noun & adjective*. M19.
[ORIGIN French, from *amande* ALMOND: see -INE⁴.]
(Something) prepared or served with almonds.

amang *preposition & adverb* see AMONG.

amanuensis /əˌmanjʊˈɛnsɪs/ *noun*. Pl. **-enses** /-ˈɛnsiːz/. E17.
[ORIGIN Latin (Suetonius), from *a manu* in *servus a manu* slave at hand + *-ensis* belonging to: see -ESE.]
A person who writes from dictation or copies manuscript; a literary assistant.
■ **amanuense** *verb intrans.* (*rare*) act as an amanuensis M19.

Amapondo *noun & adjective* see PONDO.

amaracus /əˈmarəkəs/ *noun*. Now *rare* or *obsolete*. LME.
[ORIGIN Latin from Greek *amarakos* marjoram.]
An aromatic plant, dittany of Crete (*Origanum dictamnus*).

amaranth /ˈaməranθ/ *noun*. Also **-ant** /-ant/ & in Latin forms **-ant(h)us** /-ʌs/. M16.
[ORIGIN French *amarante* or mod. Latin *amaranthus*, alt. after names in *-anthus* (Greek *anthos* flower) of Latin *amarantus* from Greek *amarantos* unfading, from *a-* A-¹⁰ + *maran-*, *marainein* wither.]
1 Any of various plants of the family Amaranthaceae and esp. of the genus *Amaranthus*, characterized by chaffy spikes of small flowers and often by coloured foliage. M16.
globe amaranth an erect annual, *Gomphrena globosa*, bearing long-lived globular flower heads. **green amaranth** a pigweed, *Amaranthus hybridus*. **purple amaranth** *Amaranthus cruentus*, bearing purple flowering spikes.
2 An imaginary flower that never fades. E17.
3 The purple colour of *Amaranthus* leaves. L17. ▸**b** A red dye used esp. to colour food. L19.
4 = ***purpleheart*** S.V. PURPLE *adjective*. E20.

amaranthine /amə'ranθʌɪn, -θɪn/ *adjective*. Also **-tine** /-t-/, †**-tin**. M17.
[ORIGIN from AMARANTH + -INE¹.]
1 Of or pertaining to the everlasting flower amaranth. M17.
2 Fadeless, undying. L18.
3 Of the colour amaranth. *rare*. L19.
— NOTE: First recorded in Milton.

amaretto /amə'rɛtəʊ/ *noun*. Pl. **-tti** /-ti/. E20.
[ORIGIN Italian, from *amaro* bitter (almond) + *-etto* dim. suffix (see -ET¹).]
1 A type of Italian macaroon biscuit. Usu. in *pl.* E20.
2 A sweet almond-flavoured liqueur orig. made at Saronno in northern Italy. M20.

amaryllid /amə'rɪlɪd/ *noun*. M19.
[ORIGIN Latin *Amaryllid-*, *Amaryllis*: see AMARYLLIS, -ID².]
BOTANY. Any plant of the large family Amaryllidaceae, which includes many bulbous plants, such as amaryllis, daffodil, snowdrop, etc.
■ **ˌamaryllidˈdaceous** *adjective* of or pertaining to the family Amaryllidaceae M19.

amaryllis /amə'rɪlɪs/ *noun*. L18.
[ORIGIN mod. Latin, use of Latin *Amaryllis* from Greek *Amarullis*, a country girl in Theocritus, Virgil, and Ovid.]
A bulbous plant of the genus *Amaryllis*, or formerly of this genus, which now contains only one species (the southern African *A. belladonna*, belladonna lily).

amasi *noun* see MAAS.

amass /əˈmas/ *verb & noun*. L15.
[ORIGIN Old French & mod. French *amasser* or medieval Latin *amassare*, ult. formed as AD- + MASS *noun*².]
▸**A** *verb*. **1** *verb trans.* **a** Accumulate (wealth or other resources) as one's own. L15. ▸**b** *gen.* Heap together, pile up, collect. Now *rare*. L16.

a C. V. WEDGWOOD The son of a small landowner whose family had first amassed, and then lost, considerable wealth. G. [ORIGIN Prob. from a child's word, perh. infl. by AMAH.]
Mother.

ammeter /ˈamɪtə/ *noun*. L19.
[ORIGIN from AM(PERE + -METER.]
An instrument for measuring electrical current, esp. in amperes.

ammine /ˈamiːn/ *noun*. L19.
[ORIGIN from AMM(ONIA + -INE⁵.]
CHEMISTRY. A coordination compound of ammonia with a metal.

ammo /ˈaməʊ/ *noun*. *colloq.* E20.
[ORIGIN Abbreviation of AMMUNITION: see -O.]
Ammunition, esp. for small arms.

ammocoete /ˈaməʊsiːt/ *noun*. M19.
[ORIGIN mod. Latin *Ammocoetes*, from Greek *ammos* sand + *koitē* bed.]
The larva of a lamprey (orig. believed to be a distinct creature and given its own genus, *Ammocoetes*).

†**ammodyte** *noun*. E17.
[ORIGIN Latin *ammodytes* from Greek *ammodutēs* sand-burrower, from *ammos* sand + *duein* to dive.]
1 A southern European venomous snake, the sand-natter (*Vipera ammodytes*). E17–L18.
2 A sand eel. (*Ammodytes* is a genus of sand eels.) L17–M19.

ammonal /ˈamən(ə)l/ *noun*. E20.
[ORIGIN from AMMON(IUM + AL(UMINIUM.]
A high explosive consisting chiefly of ammonium nitrate, with some powdered aluminium and occas. other ingredients.

ammonia /əˈməʊnɪə/ *noun*. L18.
[ORIGIN mod. Latin, from *sal ammoniacus* sal ammoniac: see AMMONIAC, -IA¹.]
A colourless pungent gas, NH_3, which is extremely soluble in water giving a strongly alkaline solution; an aqueous solution of this gas.
■ **ammoniate** *verb trans.* treat with ammonia (chiefly as ***ammoniated*** *ppl adjective*) E19.

ammoniac /əˈməʊnɪak/ *adjective & noun*. Also as noun in Latin form **-iacum** /-ɪakəm/; †**arm-**. ME.
[ORIGIN Old French *armoniac* (14), *amm-* (15) from Latin *ammoniacus*, *-um* from Greek *ammōniakos*, *-on* of Ammon, used as noun for the salt and the gum, which were said to be obtained (the former from camel dung) from near the temple of Jupiter Ammon, Siwa, Egypt.]
► **A** *adjective*. **1** ***sal ammoniac***, ammonium chloride, a hard white crystalline salt. ME.
2 ***gum ammoniac***, a bitter, odoriferous gum resin obtained from certain N. African or Asian umbelliferous plants, and having some medicinal use; *esp.* that from *Dorema ammoniacum*, native to Persia. LME.
3 Ammoniacal. Now *rare* or *obsolete*. M17.
► **B** *noun*. Gum ammoniac. LME.

ammoniacal /amə(ʊ)ˈnʌɪək(ə)l/ *adjective*. M18.
[ORIGIN from AMMONIAC + -AL¹.]
Of the nature of or containing ammonia.

ammoniacum *noun* see AMMONIAC.

ammonification /əˌməʊnɪfɪˈkeɪʃ(ə)n/ *noun*. L19.
[ORIGIN from AMMONIA + -FICATION.]
The production of ammonia or ammonium compounds, esp. by micro-organisms; treatment with or conversion into ammonia.
■ **a·mmonify** *verb trans.* (freq. as ***ammonifying*** *ppl adjective*) E20.

ammonio- /əˈməʊnɪəʊ/ *combining form*.
[ORIGIN from AMMONIUM: see -O-.]
Indicating the presence of the ammonium ion (esp. in names of minerals).

ammonite /ˈamənʌɪt/ *noun*. M18.
[ORIGIN mod. Latin *ammonites*, from medieval Latin *cornu Ammonis* horn of Ammon, name given to these fossils from their supposed resemblance to the involuted horn of Jupiter Ammon: see -ITE¹.]
PALAEONTOLOGY. Any of numerous fossil cephalopods of the order Ammonoidea, which have a chambered shell usu. coiled into a plane spiral, and occur mainly in Mesozoic rocks.
■ **ammo·nitic** *adjective* pertaining to or characteristic of ammonites; (of shell suture lines) highly convoluted: M19. **ammoni·tiferous** *adjective* containing ammonites M19. **ammonoid** *noun* any fossil cephalopod belonging to Ammonoidea, which comprises the ammonites and similar forms M19.

ammonium /əˈməʊnɪəm/ *noun*. E19.
[ORIGIN from AMMONIA + -IUM.]
CHEMISTRY. The ion NH_4^+, which occurs in the salts formed by ammonia and in ammonia solutions.

ammunition /amjʊˈnɪʃ(ə)n/ *noun & verb*. L16.
[ORIGIN French †*am(m)unition*, from division of *la munition* the MUNITION as *l'amunition*.]
► **A** *noun*. **1** Military stores or supplies, formerly of all kinds, now restricted to projectiles (bullets, shells, grenades, etc.) and propellants (powder etc.). L16.
2 *fig.* Facts, arguments, etc., used in attack or defence. M17.

▸**B** *verb trans.* Supply with ammunition. Chiefly as ***ammunitioned*** *ppl adjective*. M17.

amnesia /amˈniːzjə/ *noun*. L18.
[ORIGIN Greek *amnēsia* forgetfulness.]
Loss of memory.
■ **amnesiac** *noun* a person suffering from amnesia E20. **amnesic** *adjective* M19. **amnestic** *adjective & noun* (*a*) *adjective* pertaining to, suffering from, or characterized by amnesia; (*b*) *noun* an amnesiac: L19.

amnesty /ˈamnɪsti/ *noun & verb*. L16.
[ORIGIN French †*amnestie* (now *-istie*) or Latin *amnestia* from Greek *amnēstia* forgetfulness: cf. AMNESIA.]
▸**A** *noun*. An act of forgetfulness; an intentional overlooking; a general pardon, esp. for a political offence. L16.
Amnesty International an organization upholding and campaigning for the human rights of prisoners of conscience.
▸**B** *verb trans.* Give an amnesty to. E19.

amnio /ˈamnɪəʊ/ *noun. colloq.* Pl. **-os**. L20.
[ORIGIN Abbreviation.]
An amniocentesis.

amnio- /ˈamnɪəʊ/ *combining form* of AMNION: see **-O-**.
■ **amniocentesis** /-sɛnˈtiːsɪs/ *noun*, pl. **-teses** /-ˈtiːsiːz/, [Greek *kentēsis* pricking, from *kentein* prick] *MEDICINE* the sampling of amniotic fluid during pregnancy by insertion of a hollow needle into the uterus M20. **amnɪˈotomy** *noun* (*MEDICINE*) rupture of the fetal membranes in order to induce birth M20.

amnion /ˈamnɪən/ *noun*. Pl. **-nia** /-nɪə/, **-nions**. M17.
[ORIGIN Greek = caul, dim. of *amnos* lamb.]
An inner membrane that forms round a developing fetus in mammals, birds, and reptiles.
■ Also †**amnios** *noun* M17–M19.

amniotic /amnɪˈɒtɪk/ *adjective*. E19.
[ORIGIN Irreg. from AMNION + -OTIC, perh. through French *amniotique*. Cf. *chaos, chaotic*.]
ANATOMY. Of or pertaining to the amnion.
amniotic cavity the fluid-filled cavity inside the amnion, in which the fetus develops. **amniotic fluid** the fluid contained in the amniotic cavity.
■ **amniote** *noun & adjective* (designating or pertaining to) any animal whose embryo develops within an amnion and chorion and possesses an allantois, i.e. a mammal, bird, or reptile L19.

amoeba /əˈmiːbə/ *noun*. Also ***ameba**. Pl. **-bas**, **-bae** /-biː/. M19.
[ORIGIN mod. Latin from Greek *amoibē* change, alternation.]
A single-celled aquatic protozoan, characterized by a constantly changing shape.
■ **amoeˈbiasis** *noun*, pl. **-ases** /-əsiːz/. *MEDICINE* infection with amoebas, esp. as causing dysentery E20. **amoebicide** *noun* a substance that kills amoebas E20. **amoebiform** *adjective* resembling an amoeba M19. **amoebocyte** *noun* a cell resembling an amoeba, *esp.* a leucocyte in some invertebrates L19. **amoeboid** *adjective* resembling or characteristic of an amoeba M19.

amoebean /əmiːˈbiːən/ *adjective*. Also **-baean**, ***ameb-**. M17.
[ORIGIN from Latin *amoebaeus* from Greek *amoibaios* interchanging + -AN. Cf. AMOEBA.]
Esp. of verse dialogue: alternately answering; responsive.

amoebic /əˈmiːbɪk/ *adjective*. Also ***amebic**. L19.
[ORIGIN from AMOEBA + -IC.]
Pertaining to, of the nature of, or caused by an amoeba or amoebas.

amok /əˈmɒk/ *adjective, noun, & adverb*. Also **amuck** /əˈmʌk/, (earliest) †**am(o)uco**, pl. **-os**. E16.
[ORIGIN (Portuguese *am(o)uco* from) Malay *amuk* fighting furiously, in a homicidal frenzy. See also MUCK *noun*².]
▸†**A** *adjective*. In a homicidal frenzy. *rare*. Only in E16.
▸**B** *noun*. **1** A Malay in a homicidal frenzy. M17.
2 A homicidal frenzy; an act of running amok. M19.

amplexus /amˈplɛksəs/ *noun*. M20.
[ORIGIN Latin = embrace.]
ZOOLOGY. The mating position of frogs and toads, in which the male clasps the female about the back.

ampliation /amplɪˈeɪʃ(ə)n/ *noun*. *arch*. E16.
[ORIGIN Old French & mod. French, or Latin *ampliatio(n-)*, from *ampliat-* pa. ppl stem of *ampliare*, from *amplus* AMPLE: see -ATION.]
1 Enlarging; amplification. E16.
2 An enlargement, an extension. L16.
3 *LAW* (now *hist.*). Deferring of judgement for further consideration. M17.

ampliative /ˈamplɪətɪv/ *adjective*. M17.
[ORIGIN French *ampliatif* (medieval Latin *ampliativus*), formed as AMPLIATION: see -ATIVE.]
Amplificatory; *spec.* (*LOGIC*) enlarging a simple conception by predicating of it something which is not directly implied in it (now chiefly in ***ampliative induction***).

amplification /ˌamplɪfɪˈkeɪʃ(ə)n/ *noun*. E16.
[ORIGIN Old French & mod. French, or Latin *amplificatio(n-)*, from *amplificat-* pa. ppl stem of *amplificare*: see AMPLIFY, -FICATION.]
1 The action of amplifying something; enlargement; augmentation; enhancement; *RHETORIC* elaboration to increase effect or add importance. E16.
2 The result of amplifying; something which has been extended or elaborated. E16.
3 A thing which amplifies; an addition. E18.
■ **amplificatory** *adjective* tending or serving to amplify something L18.

amplifier /ˈamplɪfʌɪə/ *noun*. M16.
[ORIGIN from AMPLIFY + -ER¹.]
1 A person who amplifies; *esp.* a person who amplifies a statement or narrative. M16.
2 A device for amplifying input electrical signals, esp. in sound reproduction. E20.

amplify /ˈamplɪfʌɪ/ *verb*. LME.
[ORIGIN French *amplifier* from Latin *amplificare* enlarge, from *amplus* AMPLE: see -FY.]
1 *verb trans.* Enlarge, increase, augment; enhance; elaborate on (a statement or narrative); exaggerate. LME. ▸**b** *spec.* Increase the strength or amplitude of (an electrical signal or other physical quantity). E20.
2 *verb intrans.* Expatiate, speak largely, (*arch.* also foll. by *on*, *upon*). M16.
3 *verb intrans.* Become larger, increase. *rare*. E17.

amplitude /ˈamplɪtjuːd/ *noun*. M16.
[ORIGIN French, or Latin *amplitudo*, from *amplus* AMPLE: see -TUDE.]
1 Physical extent; largeness; bulk; *esp.* width, breadth. M16.

T. NASHE It cuts out an Island of some amplitude. C. LAMB An amplitude of form and stature, answering to her mind. T. WALKER And exploiting his great strength, / hurls his amplitude the length / of a pond too small for him.

2 Excellence, grandeur, splendour. *arch.* M16.

R. COKE To the greater amplitude and glory of God.

3 Copiousness; abundance; wide range. M16.

BACON All works are overcommen by amplitude of reward . . and by the conjunction of labours. LD MACAULAY His mind is . . distinguished by the amplitude of its grasp.

†**4** *ASTRONOMY*. Angular distance from the eastern or western point of the horizon at rising or setting. E17–M19.
5 The maximum extent of vibration or oscillation from an equilibrium position; the maximum extent of deviation from the mean value of an alternating electrical signal or other oscillatory phenomenon. M19.
– COMB.: **amplitude modulation** variation of the amplitude of a radio or other wave as a means of carrying information such as an audio signal.
■ **ampli'tudinous** *adjective* ample, copious E20.

ampoule /ˈampuːl/ *noun*. M17.
[ORIGIN mod. French: see AMPUL.]
1 = AMPULLA 2. *rare*. M17.
2 A small sealed glass vessel for holding sterilized materials for injection, poisons, air-sensitive chemicals, etc. E20.

ampster /ˈam(p)stə/ *noun*. *Austral. slang*. Also **ams-** /ˈams-/. M20.
[ORIGIN Unknown.]
A showman's or trickster's accomplice who starts the buying of tickets, goods, etc.

amptman *noun* var. of AMTMAN.

ampul /ˈampuːl, -p(ə)l/ *noun*. Now *rare* or *obsolete*. OE.
[ORIGIN Old French *ampo(u)le* (mod. *ampoule*) from Latin AMPULLA.]
†**1** *gen.* A small bottle or flask; a phial. OE–L15.
2 *spec.* = AMPULLA 2. LME.

ampulla /amˈpʊlə/ *noun*. Pl. **-llae** /-liː/. LME.
[ORIGIN Latin, dim. of *ampora* var. of AMPHORA.]
1 *ROMAN ANTIQUITIES*. A small two-handled globular flask or bottle. LME.
2 A vessel for holding consecrated oil or for other sacred uses. L16.
3 *ANATOMY*. A vessel or cavity shaped like the ancient ampulla. M19.
ampulla of Lorenzini /lɒr(ə)nˈziːni/ [Stefano *Lorenzini*, 17th-cent. Italian physician] *ICHTHYOLOGY* a saclike sensory structure sensitive to electric fields, which occurs in numbers in the heads of certain fishes, esp. elasmobranchs. ***VATER's ampulla***.
■ **ampullar** *adjective* of the form or character of an ampulla (sense 3) M19.

amputate /ˈampjʊteɪt/ *verb*. M16.
[ORIGIN Latin *amputat-* pa. ppl stem of *amputare*, from *am-* for *amb-* around + *putare* prune, lop: see -ATE³.]
1 *verb trans.* Cut off, lop off; prune. *obsolete* exc. as *fig.* use of sense 2. M16.
2 *verb trans. & intrans.* *spec.* Cut off from an animal body (some part, esp. a limb because of injury or disease). M17.
■ **amputator** *noun* a person who amputates E19. **ampu tee** *noun* a person who has lost a limb or other part of the body by amputation E20.

amputation /ampjʊˈteɪʃ(ə)n/ *noun*. E17.
[ORIGIN formed as AMPUTATE: see -ATION.]
1 A cutting or lopping off; a pruning. *obsolete* exc. as *fig.* use of sense 2. E17.
2 *spec.* The operation of cutting off a limb or other part of an animal body. E17.

AMRAAM *abbreviation*.
Advanced medium-range air-to-air missile.

Amratian /amˈreɪʃ(ə)n/ *adjective*. E20.
[ORIGIN from el-*Amra* a district in Egypt + -*i*- + -IAN.]
Designating or pertaining to an early period of the ancient predynastic culture in Egypt.

amrita /amˈriːtə, *foreign* ˈʌmrɪtə/ *noun*. *poet.* Also **-reeta**. L18.
[ORIGIN Sanskrit *amṛta* an immortal, nectar.]
Ambrosia.

amscray /ˈamskreɪ/ *verb intrans.* *US slang*. Now *rare*. M20.
[ORIGIN Pig Latin.]
= SCRAM *verb*².

amster *noun* var. of AMPSTER.

amtman /ˈamtman/ *noun*. Now *hist.* Also **ampt-**. Pl. **-men**. L16.
[ORIGIN German *Amtmann*, Dutch, & Scandinavian.]
In Germany, Scandinavia, etc.: a person in charge; a bailiff, steward, magistrate, etc.

amtrac /ˈamtrak/ *noun*. *US*. Also **amph-** /ˈamf-/; **-ck**. M20.
[ORIGIN from AM(PHIBIOUS + TRAC(TOR.]
An amphibious tracked vehicle for landing assault troops.

amu *abbreviation*. Also **a.m.u.**
Atomic mass unit.

amuck, †**amuco** *adjective, noun, & adverb* see AMOK.

amulet /ˈamjʊlɪt/ *noun*¹. L16.
[ORIGIN Latin *amuletum* (Varro, Pliny) of unknown origin.]
Something worn as a charm against evil, disease, witchcraft, etc.; *fig.* a preservative, a protection, a charm.
■ **amuletic** /-ˈlɛtɪk/ *adjective* M18.

†**amulet** *noun*² see OMELETTE.

amuse /əˈmjuːz/ *verb*. L15.
[ORIGIN Old French & mod. French *amuser* entertain, †deceive, from *à* AD- + *muser* MUSE *verb*².]
1 *verb trans.* Divert the attention of (a person) in order to mislead; delude, deceive. (The usual sense 17–18.) *arch.* L15.

H. NELSON Their Fleet was to amuse ours whilst they cross from Leghorn.

†**3** *verb trans.* **a** Engage the attention of. E17–L18. ▸**b** Confound, puzzle, bewilder. E17–M18.

a P. HOLLAND Why art thou amused upon the course of the stars?

4 *verb trans.* Make (someone) laugh or smile; cause to find something funny. M17.

G. B. SHAW It amuses him to be treated in this fashion: he chuckles secretly. W. SHAWCROSS He would try to amuse everyone by barking like a dog.

5 *verb trans.* Provide interesting and enjoyable occupation for; entertain. L18.

D. DU MAURIER I've a mass of things to see to this morning, do you think you can amuse yourself?

■ **amusable** *adjective* E19. **amusedly** /-zɪdlɪ/ *adverb* in an amused manner, with amusement M19. **amu see** *noun* (*rare*) a person amused or to be amused M19. **amuser** *noun* L16. **amusingly** *adverb* in an amusing manner E19. **amusingness** *noun* the state or quality of being amusing E19.

amuse-bouche /əˌmjuːzˈbuːʃ, *foreign* amyzbuʃ (*pl. same*)/ *noun*. L20.
[ORIGIN French, from *amuser* amuse, gratify + *bouche* mouth.]
= AMUSE-GUEULE.

amuse-gueule /əˌmjuːzˈgəːl, *foreign* amyzgœl (*pl. same*)/ *noun*. L20.
[ORIGIN French, from *amuser* amuse, gratify + *gueule* mouth.]
A cocktail savoury; also *fig.*, a taster.

amusement /əˈmjuːzm(ə)nt/ *noun*. E17.
[ORIGIN French, formed as AMUSE: see -MENT.]
†**1** Musing; mental abstraction. E17–E18.
2 Distraction or diversion of the attention; beguiling, deception; an instance of this. *arch.* E17.
†**3** Distracting bewilderment. M–L17.
4 A pastime; a means of recreation; something amusing. (Orig. *derog.*) M17.

J. H. NEWMAN To take . . pleasure in our families rather than to seek amusements out of doors. V. WELBURN Roll-up, roll-up . . . Amusements . . . Candy-floss . . . Roundabouts.

5 Pleasurable occupation of the attention without seriousness; (orig., idle time-wasting) entertainment, recreation; the causing of laughter or smiles; humour aroused by something droll or grotesque. L17.

POPE Amusement is the happiness of those that cannot think. COLERIDGE The same craving for amusement, i.e. to be away from the Muses for relaxation. G. GREENE His old Italian face showed few emotions but a mild amusement. A. J. P. TAYLOR Lloyd George derived a malicious amusement from the way in which the spokesmen of these two democratic countries . . defied Wilson. S. HILL To the amusement of her mother and sisters. T. STOPPARD A little team I run, mainly for our own amusement.

– COMB.: **amusement arcade** a place for recreation containing automatic game-playing machines, etc.

amusette /amjʊˈzɛt/ *noun*. M18.
[ORIGIN French = plaything: see AMUSE, -ETTE.]
hist. A type of light field cannon.

amusive /əˈmjuːzɪv/ *adjective*. E18.
[ORIGIN from AMUSE + -IVE.]
†**1** Deceitful, illusive. E–M18.
†**2** Affording recreation. Only in M18.
3 Affording pleasing entertainment; causing laughter or smiles. M18.
4 Having amusement as an object. *rare*. L18.
■ **amusively** *adverb* L18. **amusiveness** *noun* (*rare*) E19.

A

amygdala /əˈmɪgdələ/ *noun*. Pl. **-lae** /-liː/. Long anglicized as †**-dal**; also †**-dale**. OE.
[ORIGIN Latin from Greek *amugdalē* almond; some uses & form *-dale* from French.]
†**1** An almond. OE–LME.
2 *ANATOMY.* Orig. = **ALMOND** *noun* 3b. Now, either of two of the basal ganglia of the brain adjoining the optic tract. LME.

amygdale /əˈmɪgdeɪl/ *noun*[1]. L19.
[ORIGIN French formed as **AMYGDALA**.]
GEOLOGY. A vesicle in an igneous rock, containing secondary minerals.
■ **amygdule** *noun* a small amygdale L19.

†**amygdale** *noun*[2] var. of **AMYGDALA**.

amygdalin /əˈmɪgdəlɪn/ *noun*. M19.
[ORIGIN from Latin **AMYGDALA** + **-IN**[1].]
CHEMISTRY. A bitter crystalline glycoside found in bitter almonds and the stones of peaches, apricots, etc.

amygdaline /əˈmɪgdəlʌɪn/ *adjective*. *rare*. L17.
[ORIGIN Latin *amygdalinus* from Greek *amugdalinos* of almonds: see **AMYGDALA**, **-INE**[2].]
Of or pertaining to almonds; almond-shaped.

amygdaloid /əˈmɪgdəlɔɪd/ *adjective & noun*. M18.
[ORIGIN from Latin **AMYGDALA** + **-OID**.]
▸ **A** *adjective*. Almond-shaped; like almonds; *GEOLOGY* containing numerous amygdales. M18.
amygdaloid nucleus *ANATOMY* an amygdala of the brain.
▸ **B** *noun*. *GEOLOGY.* An igneous rock containing numerous amygdales. L18.
■ **amygda'loidal** *adjective* (*GEOLOGY*) E19.

amyl /ˈɛmʌɪl, ˈamʌɪl/ *noun*. M19.
[ORIGIN from Latin *amylum* starch + **-YL**.]
CHEMISTRY. Pentyl; *spec.* the primary straight-chain radical C_5H_{11}·.
– COMB.: **amyl nitrate** a colourless synthetic liquid, $C_5H_{11}NO_3$, used as an additive in diesel fuel to improve its ignition properties; **amyl nitrite** a yellowish volatile synthetic liquid, $C_5H_{11}NO_2$, used medicinally as a vasodilator, rapidly absorbed by the body on inhalation, and sometimes used for its stimulatory effects.
■ **amylene** *noun* pentene; ***amylene hydrate***, tertiary pentyl alcohol, an anaesthetic: M19.

amylase /ˈamɪleɪz/ *noun*. L19.
[ORIGIN formed as **AMYL** + **-ASE**.]
An enzyme which hydrolyses starch.

amylo- /ˈamɪlə(ʊ/ *combining form* of Latin *amylum* starch, or of **AMYL**: see **-O-**.
■ **amylo'barbitone** *noun* a narcotic and sedative barbiturate, 5-ethyl-5-isopentyl-barbituric acid; (a proprietary name for the drug is **AMYTAL**): M20. **amy'lolysis** *noun* the breakdown of starch to sugars L19. **amylo'lytic** *adjective* of or pertaining to amylolysis L19. **amylo'pectin** *noun* the amorphous form of starch, consisting of branched polysaccharide chains E20. **amy'lopsin** *noun* a pancreatic enzyme which converts starch to sugars L19. **amylose** *noun* the crystallizable form of starch, consisting of long unbranched polysaccharide chains L19.

amyloid /ˈamɪlɔɪd/ *adjective & noun*. M19.
[ORIGIN formed as **AMYLO-** + **-OID**.]
▸ **A** *adjective*. **1** Resembling (the chemical structure of) starch. M19.
2 *MEDICINE.* Of or pertaining to amyloid. L19.
▸ **B** *noun*. *MEDICINE.* A glycoprotein (orig. thought to be akin to starch) deposited in the liver, kidneys, spleen, or other tissues in certain diseases. L19.
■ **amyloi'dosis** *noun* deposition of amyloid in the tissues E20.

amyotrophy /amɪˈɒtrəfi/ *noun*. L19.
[ORIGIN from **A-**[10] + Greek *mu-*, *mus* muscle + **-O-** + **-TROPHY**.]
MEDICINE. Atrophy of muscle.
■ **amyotrophic** /-ˈtrəʊfɪk, -ˈtrɒfɪk/ *adjective* characterized by amyotrophy; ***amyotrophic lateral sclerosis*** = **LOU GEHRIG'S DISEASE**: L19.

Amytal /ˈamɪt(ə)l/ *noun*. E20.
[ORIGIN from **AMYL** + euphonic *-t-* + **-AL**[2].]
(Proprietary name for) amylobarbitone.

AN *abbreviation*.
Anglo-Norman.

an *adjective* (*indef. article*) see **A** *adjective*.

an /an, ən/ *preposition*. *arch.* Also as *prefix* (= **AN-**[1]). OE.
[ORIGIN Orig. form of **ON** *preposition*; later a var. of **ON** *preposition* before vowels: cf. **A** *preposition*[1].]
= **ON** *preposition*.

an /(ə)n/ *conjunction & noun*. Now *arch. & dial.* (see also A.1 below). Also **an'**. ME.
[ORIGIN Weakened form of **AND** *conjunction*[1] *& noun*.]
▸ **A** *conjunction*. **1** = **AND** *conjunction*[1] I (coordinating). Now *rare* as a written form exc. *an'* as repr. illiterate or dial. use, though the pronunc. is common in informal speech. ME.
2 = **AND** *conjunction*[1] II (conditional). M16.
▸ **B** *noun*. = **AND** *noun*. M19.

an- /ən/ *prefix*[1] (not productive). OE.
[ORIGIN Proclitic var.]
= **AN** *preposition*, as ***anent***, ***anon***. Cf. **A-**[2].

an- /ən/ *prefix*[2] (not productive). ME.
Repr. Anglo-Norman *an-*, Old French *en-* from Latin *in-* (see **IN-**[2]), as ***anoint***.

an- /ən/ *prefix*[3] (not productive). ME.
Repr. Latin *an-* assim. form of **AD-** before *n*, directly, or indirectly through French (Old French *a-* refash. after Latin in French itself or after adoption in English), as ***annex***, ***announce***, ***annul***.

an- /an/ *prefix*[4] (not productive).
Repr. Greek **ANA-** before a vowel, as ***aneurysm***.

an- /an, *unstressed* ən/ *prefix*[5].
Repr. Greek privative *an-* without, lacking, not, the original form of **A-**[10] retained before vowels, as ***anecdote***, ***anonymous***. A productive prefix of negation and privation in mod. techn. terms, as ***analgesia***, ***anachoic***, ***anhydrous***.

-an /*in sense* 1 (ə)n, *in sense* 2 -an/ *suffix*.
1 Repr. Latin *-anus*, *-na*, *-num* of or belonging to, as ***urban***, ***sylvan***, directly, or indirectly through French *-ain(e)* later refash. A productive suffix, forming ***adjectives*** (often used as *nouns*), esp. from names of places (as ***American***, ***Chilean***), systems (as ***Anglican***), zoological classes or orders (as ***crustacean***), and founders (as ***Lutheran***). Already in Latin added so commonly to *-ius*, forming *-ianus*, that **-IAN** is in use merely a euphonic var. of **-AN** (as ***Russian***, ***Presbyterian***, ***crocodilian***, ***Christian***).
2 [German: cf. **-ANE**.] *CHEMISTRY.* Used more or less arbitrarily to form names of organic compounds, esp. polysaccharides (as ***dextran*** etc.).

ana /ˈɑːnə/ *noun*[1]. M18.
[ORIGIN from **-ANA**.]
1 As *sing.* (with pl. **-s**). A collection of a person's memorable sayings. M18.
2 As *pl.* Publications or other items concerning or associated with a person, place, activity, etc. M18.

ana /ˈanə/ *adverb & noun*[2]. Long *obsolete* exc. in Dicts. LME.
[ORIGIN medieval Latin from Greek *ana* again.]
▸ **A** *adverb*. In recipes for drugs etc.: of each, of every one alike. LME.
▸ †**B** *noun*. An equal quantity or number (of each ingredient in a recipe); an instruction to use this. M–L17.

ana- /ˈanə/ *prefix*. Before a vowel usu. **an-**.
Repr. Greek *ana-* up, back, again, anew.
■ **ana'genesis** *noun* (*BIOLOGY*) species formation without branching of the evolutionary line of descent (cf. **CLADOGENESIS**) L19. **anage'netic** *adjective* of or pertaining to anagenesis L19. **anaphase** *noun* (*BIOLOGY*) the stage of cell division in which daughter chromosomes separate towards opposite poles of the spindle L19. **ana'plasia** *noun* (*BIOLOGY*) loss of specialized characteristics by cells, as in the formation of tumours dedifferentiation E20. **ana'plastic** *adjective* (*MEDICINE*) †(*a*) of or pertaining to plastic surgery (only in Dicts.); (*b*) pertaining to or characterized by anaplasia: L19. †**anaplasty** *noun* (*MEDICINE*) plastic surgery (Dicts.): only in L19.

-ana /ˈɑːnə/ *suffix*.
[ORIGIN Latin, neut. pl. ending of adjectives in *-anus*: see **-AN** 1.]
Forming pl. nouns with the sense 'publications or other items concerning or associated with a person, place, or topic', as ***Americana***, ***cricketana***, ***railwayana***, ***Shakespeareana***, ***Victoriana***. Occas. as euphonic var. of **-IANA**, after Latin words ending in *-iana*.

anabaptise *verb* var. of **ANABAPTIZE**.

Anabaptism /anəˈbaptɪz(ə)m/ *noun*. Also (in sense 2 usu.) **a-**. M16.
[ORIGIN ecclesiastical Latin *anabaptismus* (Augustine) from Greek *anabaptismos*, formed as **ANA-** + *baptismos* **BAPTISM**.]
1 *hist.* The doctrines of the 16th-cent. Continental Anabaptists or (opprobriously) of the later Baptists (see **ANABAPTIST**). M16.
2 Rebaptism. Now *rare*. M17.

Anabaptist /anəˈbaptɪst/ *noun*. Also **a-**. M16.
[ORIGIN French *anabaptiste* or mod. Latin *anabaptista*, formed as **ANABAPTISM**: see **-IST**.]
hist. **1** A member of any of various 16th-cent. religious groups in Germany, Switzerland, and the Low Countries, who recognized the baptism of (adult) believers only. M16.
2 (Used more or less opprobriously for) a Baptist (see **BAPTIST** *noun* 2). Also *loosely*, a person who rejected other Anglican doctrines. L16.
■ **,Anabap'tistic** *adjective* M17. **,Anabap'tistical** *adjective* M16. **,Anabap'tistically** *adverb* M16. †**Anabaptistry** *noun* = **ANABAPTISM** 1 M16–E18.

anabaptize /anəbapˈtʌɪz/ *verb trans.* Now *rare*. Also **-ise**. M17.
[ORIGIN medieval Latin *anabaptizare* from Greek *anabaptizein*, formed as **ANA-** + *baptizein* **BAPTIZE**.]
Rebaptize; rechristen; rename.

anabasis /aˈnabəsɪs/ *noun*. *literary*. Pl. **-ases** /-əsiːz/. E18.
[ORIGIN Greek = going up, formed as **ANA-** + *basis* going. Cf. **KATABASIS**.]
A military advance, an up-country march, *esp.* that of Cyrus the Younger into Asia, as narrated by Xenophon.

anabatic /anəˈbatɪk/ *adjective*. M19.
[ORIGIN Greek *anabatikos*, from *anabatēs* a person who ascends, from *anabainein* go up: see **ANA-**, **-IC**.]
1 *MEDICINE.* Of or pertaining to the course of a disease to its climax. Only in Dicts. M19.
2 *METEOROLOGY.* Of a wind: caused by local upward motion of warm air. Opp. **KATABATIC**. E20.

anabiosis /anəbʌɪˈəʊsɪs/ *noun*. L19.
[ORIGIN Greek *anabiōsis* a return to life, from *anabioein* come to life again: see **ANA-**, **-OSIS**.]
BIOLOGY. Revival from a state of suspended animation or apparent lifelessness; a temporary state of greatly reduced metabolism that some organisms can enter.
■ **anabiotic** /-ˈɒtɪk/ *adjective* L19.

anabolic /anəˈbɒlɪk/ *adjective*. L19.
[ORIGIN formed as **ANABOLISM** + **-IC**.]
BIOLOGY. Pertaining to, involved in, or characterized by anabolism. Opp. **CATABOLIC**.
anabolic steroid any of a class of synthetic steroid hormones used to increase muscle size.

anabolism /aˈnabəlɪz(ə)m/ *noun*. L19.
[ORIGIN from Greek *anabolē* a throwing up, ascent, from *anaballein*, formed as **ANA-** + *ballein* to throw: see **-ISM**.]
BIOLOGY. Constructive metabolism; the metabolic synthesis of complex substances and their incorporation into body tissue. Opp. **CATABOLISM**.

anabranch /ˈanəbrɑːn(t)ʃ/ *noun*. Chiefly *Austral.* M19.
[ORIGIN from *anastomosing* pres. pple of **ANASTOMOSE** *verb* + **BRANCH** *noun*.]
A stream that leaves a river and re-enters it downstream.

anacard /ˈanəkɑːd/ *noun*. Now *rare* or *obsolete*. Also in Latin forms **-dium** /-dɪəm/, †**-dus**. LME.
[ORIGIN medieval Latin *anacardus*, mod. Latin *-dium* from Greek *anakardion*, from *ana* like + *kardion* heart-shaped ornament.]
A cashew nut.

anachoret *noun* see **ANCHORITE**.

anachronic /anəˈkrɒnɪk/ *adjective*. E19.
[ORIGIN from **ANACHRONISM**, after pairs such as *synchronism*, *synchronic*: see **-IC**. Cf. French *anachronique*.]
Erroneous in date or order; involving anachronism.
■ **anachronically** *adverb* E19.

anachronism /əˈnakrənɪz(ə)m/ *noun*. M17.
[ORIGIN French *anachronisme* or Greek *anakhronismos*, from *anakhronizesthai* refer to a wrong time, formed as **ANA-** + *khronos* time: see **-ISM**.]
1 An error in computing time or fixing dates; the relating of an event, custom, or circumstance to a wrong period of time. M17.

T. HEARNE Virgil making Dido and Æneas Co-temporaries, whereas they lived at Three Hundred Years distance . . committed an Anachronism. H. B. STOWE Some anachronisms with regard to the time of the session of courts have been allowed.

2 Something or someone out of harmony with the time. E19.

V. SACKVILLE-WEST He had thought of Chevron as a dead thing, an anachronism, an exquisite survival . . with its . . servants and luxury. M. MCCARTHY She herself was a smoldering anachronism, a throwback to one of those ardent young women of the Sixties, Turgenev's heroines. S. J. PERELMAN Anachronisms in the script . . , like penicillin and the atomic bomb.

■ **anachro'nistic** *adjective* of the nature of or involving anachronism L18. **anachro'nistically** *adverb* E20. **anachronous** *adjective* = **ANACHRONISTIC** E19.

anaclasis /əˈnakləsɪs/ *noun*. Also **-klasis** & (orig.) in Greek characters. Pl. **-ases** /-əsiːz/. L18.
[ORIGIN Greek *anaklasis* bending back, from *anaklaein*: see **ANACLASTIC**.]
CLASSICAL PROSODY. In Ionic metre: an interchange of the final long syllable of the first foot with the opening short syllable of the second.

anaclastic /anəˈklastɪk/ *adjective*. M18.
[ORIGIN from Greek *anaklastos*, from *anaklaein* bend back, refract, formed as **ANA-** + *klaein* break, + **-IC**.]
1 Springing back. *rare*. M18.
2 *OPTICS.* Pertaining to or produced by refraction. *rare*. L18.
3 *CLASSICAL PROSODY.* Of, pertaining to, or involving anaclasis. L19.

anaclitic /anəˈklɪtɪk/ *adjective*. E20.
[ORIGIN from Greek *anaklitos* for reclining, from *anaklinein*, from *klinein* to lean, slope: see **-IC**. Orig. in phr. *anaclitic type*, translating German *Anlehnungstypus* (Freud).]
PSYCHOANALYSIS. Orig., denoting a person whose choice of a love object is governed by the dependence of the libido on another instinct, e.g. hunger. Now in extended use, relating to or characterized by a strong emotional dependence on another or others.
■ **anaclitically** *adverb* M20.

anacoluthon /anəkəˈluːθɒn, -θ(ə)n/ *noun*. Pl. **-tha** /-θə/. E18.
[ORIGIN Late Latin from Greek *anakolouthon* neut. sing. of adjective = lacking sequence, formed as **AN-**[5] + *akolouthos* following.]
A sentence or construction lacking grammatical sequence.
■ **anacoluthia** *noun* = **ANACOLUTHON** M19. **anacoluthic** *adjective* M19.

anaconda /anəˈkɒndə/ *noun.* Also †**-do**. M18.
[ORIGIN Unexpl. alt. of Latin *anacandaia* python, for Sinhalese *henakaṇḍayā* whip snake, perh. from *heṇa* lightning + *kanda* stem.]
Orig., a large python of Ceylon (Sri Lanka). Now, a S. American boa of the genus *Eunectes*, esp. the very large, semi-aquatic *E. murinus*. Also *loosely*, any large constricting snake.

anacreontic /ənakrɪˈɒntɪk/ *adjective & noun.* E17.
[ORIGIN Late Latin *anacreonticus*, from Greek *Anakreōn*, *-ont-* Anacreon: see **-IC.**]
▸**A** *adjective.* After the manner of the Greek lyric poet Anacreon (*c* 570–490 BC); convivial, amatory. E17.
▸**B** *noun.* A poem after the manner of Anacreon; an erotic poem. M17.

anacronym /ənˈakrənɪm/ *noun.* L20.
[ORIGIN from **AN-**[5] + **ACRONYM.**]
An acronym of which the majority of people do not know the words from which its constituent letters are taken (e.g. *Nicam*, *scuba*).

anacrusis /anəˈkruːsɪs/ *noun.* Pl. **-cruses** /-ˈkruːsiːz/. M19.
[ORIGIN mod. Latin from Greek *anakrousis* prelude, from *anakrouein*, formed as **ANA-** + *krouein* to strike.]
1 *PROSODY.* An unstressed syllable at the beginning of a verse. M19.
2 *MUSIC.* An unstressed note or unstressed notes before the first strong beat of a phrase. E20.

anadem /ˈanədɛm/ *noun. poet.* E17.
[ORIGIN Latin *anadema* from Greek = head-band. Cf. **DIADEM.**]
A wreath for the head, usu. of flowers; a chaplet, a garland.

anadiplosis /anədɪˈpləʊsɪs/ *noun.* Pl. **-ploses** /-ˈpləʊsiːz/. M16.
[ORIGIN Greek *anadiplōsis*, from *anadiploun* to double: see **ANA-**, **DIPLO-**, **-OSIS.**]
RHETORIC. Reduplication; the beginning of a sentence, line, or clause with the concluding, or any prominent, word of the one preceding; an instance of this.

anadromous /əˈnadrəməs/ *adjective.* M18.
[ORIGIN from Greek *anadromos* running up (of fish entering a river): see **ANA-**, **-OUS.**]
ZOOLOGY. Of fish: that ascend rivers from the sea to spawn.

anaemia /əˈniːmɪə/ *noun.* Also ***anemia**. E19.
[ORIGIN mod. Latin from Greek *anaimia*, formed as **AN-**[5] + *haima* blood: see **-IA**[1].]
MEDICINE. A deficiency of red blood cells or their haemoglobin, often causing pallor.
pernicious anaemia: see **PERNICIOUS** *adjective*[1].

anaemic /əˈniːmɪk/ *adjective.* Also ***anemic**. M19.
[ORIGIN from **ANAEMIA** + **-IC.**]
Pertaining to or exhibiting anaemia; *fig.* spiritless, weak.

anaerobic /anɛːˈrəʊbɪk/ *adjective.* L19.
[ORIGIN from **AN-**[5] + **AEROBIC.**]
BIOLOGY. Living or taking place in the absence of free oxygen; lacking free oxygen.
■ **anaerobe** *noun* any organism that can grow in the absence of free oxygen L19. **anaerobically** *adverb* in the absence of free oxygen L19. **anaerobiosis** *noun* life under anaerobic conditions L19.

anaesthesia /anɪsˈθiːzjə/ *noun.* Also ***anes-**. E18.
[ORIGIN mod. Latin from Greek *anaisthēsia*, formed as **AN-**[5] + *aisthēsis* sensation: see **-IA**[1].]
Absence of sensation; *esp.* artificially induced inability to feel pain.
general anaesthesia: involving the whole body (with loss of consciousness). **local anaesthesia**: involving a limited part of the body.
■ **anaesthesiologist** *noun* an expert in or student of anaesthesiology M20. **anaesthesiology** *noun* the branch of knowledge that deals with anaesthesia; the practice of anaesthesia: E20. **anaesthesis** *noun* (*rare*) anaesthesia M19.

anaesthetic /anɪsˈθɛtɪk/ *adjective & noun.* Also ***anes-**. M19.
[ORIGIN from Greek *anaisthētos* without feeling: see **ANAESTHESIA**, **-IC.**]
▸**A** *adjective.* Of, pertaining to, or producing anaesthesia. M19.
▸**B** *noun.* A substance which produces anaesthesia. M19.

B. MALAMUD He cut into the pussing sores with a scalpel, without anaesthetic.

general anaesthetic, **local anaesthetic** an agent which produces general, local, anaesthesia.
■ **anaesthetically** *adverb* as or in the manner of an anaesthetic M19.

anaesthetize /əˈniːsθətaɪz/ *verb trans.* Also ***anes-**; **-ise**. M19.
[ORIGIN formed as **ANAESTHETIC** + **-IZE.**]
Deprive of feeling; administer an anaesthetic to.

fig.: A. KOESTLER Deformities . . will only appear as comic if sympathy is anaesthetized.

■ **anaesthetist** *noun* a person who administers anaesthetics L19. **anaesthetization** *noun* M19.

anagen /ˈanədʒən/ *noun.* E20.
[ORIGIN from **ANA-** + **-GEN**]
BIOLOGY. The stage in the life cycle of a hair or hair follicle in which growth takes place.

anaglyph /ˈanəglɪf/ *noun.* L16.
[ORIGIN Greek *anagluphē* work in low relief, formed as **ANA-** + *gluphein* carve.]
1 An embossed ornament in low relief. L16.
2 A composite stereoscopic picture printed in superimposed complementary colours. L19.
■ **anaglyphic** *adjective* = **ANAGLYPTIC** M17.

Anaglypta /anəˈglɪptə/ *noun.* Also **a-**. L19.
[ORIGIN Latin *anaglypta* work in low relief: see **ANAGLYPTIC.**]
(Proprietary name for) a thick embossed wallpaper.

anaglyptic /anəˈglɪptɪk/ *adjective.* M17.
[ORIGIN Late Latin *anaglypticus* from Greek *anagluptikos*: see **ANAGLYPH**, **-IC.**]
Of or pertaining to embossed anaglyphs or the art of carving in low relief; embossed in low relief.

anagnorisis /anəgˈnɒrɪsɪs/ *noun.* Pl. **-rises** /-rɪsiːz/. L18.
[ORIGIN Greek *anagnōrisis.*]
Recognition; the denouement in a drama.

†**anagnost** *noun.* E17–E18.
[ORIGIN Latin *anagnostes* from Greek *anagnōstēs* reader.]
A reader, esp. aloud; a prelector.

anagogy /ˈanəgɒdʒi/ *noun.* LME.
[ORIGIN Analogical alt. of ecclesiastical Latin from Greek *anagōgē* (religious or ecstatic) elevation, mystical feeling, from *anagein* lift up, formed as **AN-**[4] + *agein* to lead.]
1 Spiritual, mystical, or allegorical interpretation. LME.
†**2** Spiritual elevation, esp. to understand mysteries. *rare.* Only in E18.
■ **anagoge** /anəˈgəʊdʒi/ *noun* [ecclesiastical Latin] = **ANAGOGY** 1 M16. **anagogic** *adjective* = **ANAGOGICAL** LME. **anagogical** *adjective* having a spiritual, mystical, or allegorical interpretation E16. **anagogically** *adverb* L16.

anagram /ˈanəgram/ *noun & verb.* L16.
[ORIGIN French *anagramme* or mod. Latin *anagramma*, from Greek **ANA-** + *gramma* letter.]
▸**A** *noun.* **1** A transposition of the letters of a word or phrase to form another word or phrase. L16.
†**2** *transf. & fig.* A transposition; a mutation. M17–E18.
▸**B** *verb trans.* Infl. **-mm-**. = **ANAGRAMMATIZE.** *rare.* M17.
■ **anagrammatic** *adjective* = **ANAGRAMMATICAL** E19. **anagrammatical** *adjective* of or pertaining to an anagram; performed or produced by transposition of letters: E17. **anagrammatically** *adverb* E17. **ana grammatism** *noun* the formation of anagrams E17. **ana grammatist** *noun* a maker of anagrams E17. **anagrammatize** *verb trans.* transpose so as to form an anagram; change into another word or phrase by a different arrangement of letters: L16.

anaklasis *noun* var. of **ANACLASIS.**

anal /ˈeɪn(ə)l/ *adjective.* M18.
[ORIGIN mod. Latin *analis*: see **ANUS**, **-AL**[1]. Cf. French *anal.*]
1 Of or pertaining to the anus; situated near the anus. M18.
2 *PSYCHOLOGY.* Designating or pertaining to a stage of infantile psychosexual development that is thought to involve a preoccupation with the anus and defecation; of or pertaining to a personality supposed to be the result of fixation at this stage. E20.
— **SPECIAL COLLOCATIONS & COMB.**: **anal-erotic** *adjective & noun* (*PSYCHOLOGY*) (*a*) *adjective* pertaining to or characterized by eroticism associated with the anal region; (*b*) *noun* a person characterized by such eroticism. **anal-retentive** *PSYCHOLOGY* (a person) displaying excessive orderliness and parsimony (interpreted as the result of conflict over toilet-training in infancy). **anal sadism** *PSYCHOLOGY* abnormal aggressive and destructive tendencies thought to be caused by fixation at the anal stage of development. **anal-sadistic** *adjective* (*PSYCHOLOGY*) displaying anal sadism.
■ **anality** *noun* (*PSYCHOLOGY*) anal quality or character M20. **anally** *adverb* via the anus L20.

analcime /əˈnalsiːm/ *noun.* E19.
[ORIGIN French from Greek *analkimos* weak, formed as **AN-**[5] + *alkimos* stout, brave: the mineral was found to be weakly electrified by friction.]
MINERALOGY. A zeolite occurring as white or faintly coloured trapezohedral crystals.
■ Also **analcite** *noun* M19.

analects /ˈanəlɛkts/ *noun pl.* Also in Latin form **analecta** /anəˈlɛktə/. LME.
[ORIGIN Latin *analecta* from Greek *analekta* things gathered up, from *analegein*, formed as **ANA-** + *legein* gather.]
†**1** Crumbs, gleanings. LME–E18.
2 *spec.* Literary gleanings. M17.

analemma /anəˈlɛmə/ *noun.* Pl. **-mmae** /-miː/, **-mmas**. M17.
[ORIGIN Latin (Vitruvius) = sundial, from Greek *analēmma* support, (base of a) sundial.]
1 (An astronomical instrument incorporating) an orthographic projection of the sphere on the plane of the meridian. M17.
2 A figure representing the sun's daily declination and the difference between the right ascension of the mean sun and that of the true sun, drawn esp. on terrestrial globes. M19.

analeptic /anəˈlɛptɪk/ *adjective & noun.* L16.
[ORIGIN Late Latin *analeptic(m)pticus* from Greek *analēptikos* restorative: see **-IC.** Cf. French *analeptique.*]
MEDICINE. ▸**A** *adjective.* **1** Restorative, strengthening. L16.
2 Able to stimulate the central nervous system. M20.
▸**B** *noun.* **1** A restorative medicine or food. L17.
2 A stimulant of the central nervous system. M20.

analgesia /anə(ə)lˈdʒiːzjə/ *noun.* E18.
[ORIGIN Greek *analgēsia* painlessness, ult. formed as **AN-**[5] + *algeein* feel pain.]
MEDICINE. Absence or reduction of ability to feel pain; relief of pain, esp. by drugs; medication that acts to relieve pain.
■ **analgesic** /-sɪk/ *adjective & noun* (*a*) *adjective* pertaining to analgesia; (*b*) *noun* an analgesic drug tending to remove pain: L19.

analog *noun* see **ANALOGUE.**

analogate /əˈnalәgәt/ *noun.* M17.
[ORIGIN from **ANALOG**(**OUS** + **-ATE**[1].]
A thing, concept, etc., shown to be analogous; an analogue.

analogic /anəˈlɒdʒɪk/ *adjective.* M17.
[ORIGIN French *analogique* or Latin *analogicus* from Greek *analogikos*: see **ANALOGUE**, **-IC.**]
Of or pertaining to analogy.

analogical /anəˈlɒdʒɪk(ə)l/ *adjective.* L16.
[ORIGIN formed as **ANALOGIC** + **-AL**[1].]
†**1** *MATH.* Proportional; in exact ratio. Only in L16.
2 Of the nature of analogy; according to analogy. E17.
3 Expressing an analogy. E17.
4 = **ANALOGOUS** 1. *arch.* M17.
5 Of or pertaining to analogy. M19.
■ **analogically** *adverb* L16. **analogicalness** *noun* (*rare*) M18.

analogise *verb* var. of **ANALOGIZE.**

analogist /əˈnalәdʒɪst/ *noun.* M19.
[ORIGIN from **ANALOGIZE** + **-IST.**]
A person who argues from or seeks analogies.

analogize /əˈnalәdʒʌɪz/ *verb.* Also **-ise**. M17.
[ORIGIN Greek *analogizesthai* reckon up; later from **ANALOGY**: see **-IZE.**]
1 *verb intrans.* Employ analogy. M17.
2 *verb trans.* Represent by analogy. M18.
3 *verb intrans. & trans.* (Show to) be in harmony *with*. M18.

analogon /əˈnalәg(ə)n/ *noun.* Now *rare.* Pl. **-ga** /-gə/. E19.
[ORIGIN Irreg. use as noun of neut. sing. of Greek *analogos*: see **ANALOGY.**]
= **ANALOGUE** *noun* 1.

analogous /əˈnalәgәs/ *adjective.* M17.
[ORIGIN from Latin *analogus* (Varro) from Greek *analogos*: see **ANALOGY**, **-OUS.**]
1 Having analogy; similar in certain attributes, circumstances, relations, or uses; parallel. (Foll. by *to*, *with*.) M17.
2 = **ANALOGICAL** 3. *rare.* L17.
■ **analogously** *adverb* in a manner analogous (*to*, *with*); by or according to analogy: M17.

analogue /ˈanәlɒg/ *noun & adjective.* Also (*US* & also *gen.* in *COMPUTING*) **-log**. E19.
[ORIGIN French from Greek **ANALOGON.**]
▸**A** *noun.* **1** An analogous or parallel word or thing; a representative in different circumstances; something or someone performing a corresponding part. E19.
2 *CHEMISTRY.* A compound with a molecular structure closely similar to that of another. M20.
3 A synthetic food product resembling a natural food in taste and texture. L20.
▸**B** *adjective.* **1** Designating, pertaining to, or operating with signals or information represented by a continuously variable quantity, such as spatial position, voltage, etc. Opp. **DIGITAL.** M20.
2 Of a clock or watch: showing the time by means of hands or a pointer rather than displayed digits. L20.

analogy /əˈnalәdʒi/ *noun.* LME.
[ORIGIN French *analogie* or Latin *analogia* (Varro) from Greek = equality of ratios, proportion (orig. Math.), from *analogos* proportionate, conformable.]
†**1** Appropriateness; correlation; correspondence or adaptation of one thing to another. LME–L18.

GOLDSMITH Some philosophers have perceived so much analogy to man in the formation of the ocean, that they have not hesitated to assert its being made for him alone.

2 Mathematical proportion; agreement of ratios. M16.
3 Equivalence or likeness of relations; agreement, parallelism; a similarity. (Foll. by *to*, *with*, *between*.) M16.

BACON Which three parts active have a correspondence and analogy with the three parts speculative. SIR T. BROWNE Who from some analogy of name conceive the Ægyptian Pyramids to have been built for granaries. D. BREWSTER There is still one property of sound, which has its analogy also in light.

4 A figure of speech involving a comparison; a simile, a metaphor. M16.

HOBBES According to the same analogy, the Dove, and the Fiery Tongues . . might also be called Angels. D. M. THOMAS The Church's dogmas, he said, smiling, were the whalebone of the soul. The analogy delighted her.

5 Grammatical patterning; similarity of formative or constructive linguistic processes. M16. ▸**b** *spec.* Imitation

A

of existing words in forming (the inflections or constructions of) others, without the existence of corresponding intermediate stages of formation. L19.

b JOYCE Unusual polysyllables of foreign origin she interpreted phonetically or by false analogy.

6 *LOGIC.* Resemblance of relations or attributes forming a ground of reasoning; the process of reasoning from parallel cases. E17.

W. STUBBS Analogy . . is not proof, but illustration.

7 = ANALOGUE *noun* 1. M17.

LYTTON The child is the analogy of a people yet in childhood.

8 *BIOLOGY.* Resemblance of form or function without fundamental identity. E19.

– PHRASES: **by analogy** after an established pattern or model, by extension. **by analogy with**, **on the analogy of** on the model of, in imitation of. **draw an analogy (between)** make a comparison (between), point out similarities or parallelism (in).

analphabet /an'alfəbɛt/ *adjective & noun. rare.* As noun also **-bete**. L16.
[ORIGIN Latin *analphabetus* from Greek *analphabētos*, formed as AN-[5] + ALPHABET.]
▸**A** *adjective.* Totally illiterate. L16.
▸**B** *noun.* A person who is totally illiterate; (in extended use) a person without knowledge of a particular subject etc. L19.

analphabetic /analfə'bɛtɪk/ *adjective.* L19.
[ORIGIN from Greek *analphabētos* (see ANALPHABET) + -IC.]
1 = ANALPHABET *adjective. rare.* L19.
2 *PHONETICS.* Representing sounds by composite signs, not by single letters or symbols. L19.

†**analyse** *noun.* M17–M18.
[ORIGIN French formed as ANALYSIS.]
= ANALYSIS.

analyse /'an(ə)lʌɪz/ *verb trans.* Also ***-lyze**. L16.
[ORIGIN Perh. orig. formed as ANALYSE *noun*; later infl. by French *analyser*.]
1 Ascertain the elements of (something complex); examine minutely the constitution of. L16. ▸**b** Examine critically (a literary or musical composition) in order to bring out essential elements or structure. E17. ▸**c** *CHEMISTRY.* Ascertain the constituents of (a sample of a mixture or compound) or their amounts. M17. ▸**d** *GRAMMAR.* Resolve (a sentence, phrase, etc.) into smaller grammatical elements. E18. ▸**e** *PHILOSOPHY.* Subject to logical or philosophical analysis. E20.

New Scientist Deborah . . has analysed the differences between women's and men's conversational styles. *Which?* The results were then statistically analysed.

†**2** Dissect (material things). E17–L18.
3 *PSYCHOLOGY.* Subject to psychological analysis; *spec.* = PSYCHOANALYSE. E20.
■ **analysa'bility** *noun* the quality of being analysable E20. **analysable** *adjective* able to be analysed M19. **analysand** /ənalɪ'zand/ *noun* a person undergoing psychological analysis M20. **analysandum** /ənalɪ'zandəm/ *noun*, pl. **-da** /-də/, *PHILOSOPHY* that which is to be analysed or clarified E20. **analysans** /ənalɪ'zanz/ *noun* (*PHILOSOPHY*) the clarifying expression in a philosophical analysis M20. **analy'sation** *noun* (now *rare*) analysis M18.

analyser /'an(ə)lʌɪzə/ *noun.* Also ***-lyzer**. E17.
[ORIGIN from ANALYSE *verb* + -ER[1].]
1 A person who analyses; an analyst. E17.
2 An instrument or device for performing analysis; *spec.* a device able to transmit only light polarized in a given direction. M19.

analysis /ə'nalɪsɪs/ *noun.* Pl. **-lyses** /-lɪsiːz/. L16.
[ORIGIN medieval Latin from Greek *analusis*, from *analuein* unloose, formed as ANA- + *luein* loosen.]
▸**I** *gen.* **1** The resolution or breaking up of something complex into its various simple elements; the exact determination of the elements or components of something complex. L16.
in the final analysis, **in the last analysis**, **in the ultimate analysis** after all due consideration, in the end. ***dimensional analysis***, ***harmonic analysis***, ***linguistic analysis***, ***prosodic analysis***, etc. ***retrograde analysis***: see RETROGRADE *adjective*.
2 A statement of the result of such an operation. M17.
bowling analysis *CRICKET* a statement of a bowler's performance record (overs and maiden overs bowled, runs conceded, wickets taken, etc.).
▸**II** *spec.* **3** Critical examination of a literary or musical composition in order to bring out essential elements or structure. L16.
4 *PHILOSOPHY.* **a** The resolution, by application of logic etc., of complex structures, facts, propositions, and concepts into their elements. L16. ▸**b** The tracing of things to their source and the resolution of knowledge into its original principles; the discovery of general principles underlying concrete phenomena. E18. ▸**c** The finding of an expression exactly equivalent to a given word, phrase, or sentence, for the purposes of clarification. E20.
a philosophical analysis *spec.* the branch of philosophy that deals with the clarification of existing concepts and knowledge.
5 *GRAMMAR.* The resolution of a sentence, phrase, etc., into smaller grammatical elements. E17.
6 *CHEMISTRY.* The qualitative or quantitative determination by chemical or instrumental means of the constituents of a substance, or of particular components (e.g. contaminants) of a substance. M17.
gravimetric analysis, ***qualitative analysis***, ***quantitative analysis***, ***thermal analysis***, etc.
7 *MATH.* Orig., resolution into simpler propositions already proved or admitted; later, algebra. Now, the part of mathematics which embraces the theory of functions, the use of limits, continuity, and the operations of calculus. M17.
8 *PSYCHOLOGY.* Treatment by the examination of memories, dreams, etc.; *spec.* = PSYCHOANALYSIS. E20.
lay analysis: see LAY *adjective*. ***transactional analysis***: see TRANSACTIONAL 2.
– NOTE: In various senses contrasted with *synthesis*.

analyst /'an(ə)lɪst/ *noun.* M17.
[ORIGIN French *analyste*, from *analyser* ANALYSE *verb*, after nouns in *-iste* -IST from verbs in *-iser* -IZE.]
1 A person engaged or skilled in analysis. M17.

N. G. CLARK The days are past when every chemist was his own analyst. *Computers & the Humanities* Computational analysts of style. *Times* Analysts say the market may drift for a while.

2 *PSYCHOLOGY.* A person who practises or has been trained in psychological analysis; *spec.* = PSYCHOANALYST. E20.

W. STYRON My analyst said that my transference problem has passed from the hostile to the affectionate stage.

lay analyst: see LAY *adjective*.

analytic /anə'lɪtɪk/ *noun & adjective.* L16.
[ORIGIN from Latin *analytica* from Greek *analutika* use as noun of neut. pl. adjective by Aristotle as a title of his treatises on logic; as adjective from late Latin *analyticus* from Greek *analutikos*, from *analuein*: see ANALYSIS, -IC.]
▸**A** *noun sing.* & (usu.) in *pl.* (treated as *sing.*). The use of analysis; *spec.* the part of logic which deals with analysis. Now only with ref. to Aristotle's works. L16.
▸**B** *adjective.* **1** Of or pertaining to analysis. E17.
analytic proposition *PHILOSOPHY* a proposition the truth of which depends on the definition of the terms employed, a self-evident proposition.
2 = ANALYTICAL 1. E19.

M. MITCHELL So still was her face as she stared at Stuart that he, never analytic, took it for granted that she was merely surprised.

3 *LINGUISTICS.* Of a language: = ISOLATING. E19.

M. L. SAMUELS The largest grammatical restructuring known in the history of most European languages—the so-called change from synthetic to analytic structure.

4 *PSYCHOLOGY.* Seeking to analyse ideas and their origins; of, pertaining to, or employing psychological analysis; *spec.* = PSYCHOANALYTIC. M19.
5 *MATH.* = HOLOMORPHIC. L19.
■ **analyticity** /an(ə)lɪ'tɪsɪtɪ/ *noun* the property of being analytic M20.

analytical /anə'lɪtɪk(ə)l/ *adjective.* E16.
[ORIGIN from late Latin *analyticus* (see ANALYTIC) + -AL[1].]
1 Employing analysis; employing the methods of analysis. E16.
analytical geometry geometry involving the use of algebra; coordinate geometry.
2 Of or pertaining to analysis. M17.
3 *LINGUISTICS.* Of a language: = ISOLATING. E19.
4 *PSYCHOLOGY.* = ANALYTIC 4. M19.
analytical psychology: *spec.* that of Jung.
■ **analytically** *adverb* M17.

analyze *verb*, **analyzer** *noun* see ANALYSE *verb*, ANALYSER.

Anamese *adjective & noun* var. of ANNAMESE.

anamnesis /anəm'niːsɪs/ *noun.* Pl. **-neses** /-'niːsiːz/. L16.
[ORIGIN Greek *anamnēsis* remembrance.]
1 The recalling of things past; reminiscence. L16.
2 *CHRISTIAN CHURCH.* That part of the Eucharistic canon in which the sacrifice of Christ is recalled. L19.
3 A patient's account of his or her medical history. L19.
■ **anamnestic** /-'nɛstɪk/ *noun & adjective* †(*a*) *noun* a medicine to aid the memory; (*b*) *adjective* recalling to mind, aiding the memory; pertaining to or of the nature of anamnesis: E18.

anamorphic /anə'mɔːfɪk/ *adjective.* E20.
[ORIGIN from ANA- + Greek *morphē* form + -IC.]
1 Of or pertaining to an anamorphosis. E20. ▸**b** Of a lens: that produces an image distorted in one dimension. M20.
2 *BOTANY & ZOOLOGY.* Characterized by anamorphosis. M20.

anamorphosis /anə'mɔːfəsɪs/ *noun.* Pl. **-phoses** /-fəsiːz/. E18.
[ORIGIN Greek *anamorphōsis* transformation: see ANA-, MORPHOSIS.]
1 A distorted projection or drawing of anything, which appears normal when viewed from a particular point or by means of a suitable mirror. E18.
2 *BOTANY & ZOOLOGY.* Progression to a higher type. Now *spec.* development of the adult form through a series of small changes. M19.
■ **anamorphoscope** *noun* a mirror designed to give a correct image of an anamorphosis L19.

†**anan** *adverb* var. of ANON *adverb*.

ananas /ə'nɑːnəs/ *noun.* L16.
[ORIGIN French & Spanish from Portuguese *ananás* from Guarani *naná*.]
The pineapple plant (*Ananas comosus*) or fruit.

anandamide /ə'nandəmʌɪd/ *noun.* L20.
[ORIGIN from Sanskrit *ā-nandá* happiness, joy + AMIDE.]
BIOCHEMISTRY. An amide of arachidonic acid that is a naturally occurring cannabinid receptor agonist, and is also found in some plant products such as chocolate.

anandrous /ə'nandrəs/ *adjective.* M19.
[ORIGIN from Greek *anandros* without males, from *an-* AN-[5] + *andr-*, *anēr* man + -OUS.]
BOTANY. Having no stamens.

anapaest /'anəpiːst, -pɛst/ *noun.* Also ***-pest**. Also (earlier) in Latin form †**-p(a)estus**. L16.
[ORIGIN Latin *anapaestus* from Greek *anapaistos* reversed, formed as ANA- + *paiein* to strike: so called because it is the reverse of a dactyl.]
PROSODY. **1** A foot consisting of two short syllables followed by one long syllable or, in English etc., of two unstressed syllables followed by a stressed syllable. L16.
2 A verse composed of or containing such feet. M19.

anapaestic /anə'piːstɪk, -'pɛst-/ *adjective & noun.* Also ***-pest-**. L17.
[ORIGIN Late Latin *anapaesticus* from Greek *anapaistikos*: see ANAPAEST, -IC.]
PROSODY. ▸**A** *adjective.* Composed of or containing anapaests; of or pertaining to an anapaest or anapaests. L17.
▸**B** *noun.* An anapaestic verse or line. Usu. in *pl.* L17.

†**anapaestus** *noun*, **anapest** *noun*, **anapestic** *adjective & noun*, †**anapestus** *noun* see ANAPAEST, ANAPAESTIC *adjective & noun*.

anaphora /ə'naf(ə)rə/ *noun.* L16.
[ORIGIN Branch I from Latin from Greek = repetition, formed as ANA- + *pherein* carry; branch II from late Greek.]
▸**I 1** *RHETORIC.* The repetition of the same word or phrase in several successive clauses. L16.
2 *LINGUISTICS.* The use of an expression which refers to or stands for an earlier word or group of words. M20.
▸**II 3** *CHRISTIAN CHURCH.* The part of the Eucharist at which the oblation is made. M18.
■ **anaphoric** /anə'fɒrɪk/, **anaphorical** /anə'fɒrɪk(ə)l/ *adjectives* of, pertaining to, or constituting grammatical anaphora; referring to or standing for an earlier word or words: E20. **ana'phorically** *adverb* M20.

anaphrodisiac /ənafrə'dɪzɪak/ *adjective & noun.* E19.
[ORIGIN from AN-[5] + APHRODISIAC.]
(A drug) that reduces sexual desire.

anaphylaxis /anəfɪ'laksɪs/ *noun.* E20.
[ORIGIN mod. Latin, from Greek ANA- + *phulaxis* watching, guarding.]
MEDICINE. An acute allergic reaction to an antigen on reintroduction.
■ **anaphylactic** *adjective* of or pertaining to anaphylaxis; ***anaphylactic shock***, extreme reaction to a second dose of an antigen: E20. **anaphylactoid** *adjective* resembling anaphylaxis or anaphylactic shock E20.

anaplasmosis /anəplaz'məʊsɪs/ *noun.* Pl. **-moses** /-'məʊsiːz/. E20.
[ORIGIN from mod. Latin *Anaplasma* (see below) + -OSIS.]
VETERINARY MEDICINE. A disease of cattle and other animals due to infection with micro-organisms of the genus *Anaplasma*, and characterized chiefly by anaemia.

anaplerosis /anəplɪ'rəʊsɪs/ *noun. rare.* Pl. **-roses** /-'rəʊsiːz/. L17.
[ORIGIN Greek *anaplērōsis*, from *anaplēroun* fill up: see -OSIS.]
The filling up of a deficiency (formerly *spec.* (*MEDICINE*) of tissue).
■ **anaplerotic** *adjective & noun* (*a*) *adjective* promoting anaplerosis; †(*b*) *noun* an anaplerotic medicine: E18.

anapsid /ə'napsɪd/ *adjective & noun.* M20.
[ORIGIN mod. Latin *Anapsida* pl. (see below), formed as AN-[5] + Greek (*h*)*apsid-*, (*h*)*apsis* arch: see -ID[3].]
ZOOLOGY. ▸**A** *adjective.* Of, pertaining to, or characteristic of the subclass Anapsida of reptiles lacking temporal openings in the skull. M20.
▸**B** *noun.* An anapsid reptile. M20.

anaptyxis /anəp'tɪksɪs/ *noun.* L19.
[ORIGIN mod. Latin from Greek *anaptuxis* unfolding, formed as ANA- + *ptuxis* folding.]
PHONETICS. The development of a vowel between two consonants.
■ **anaptyctic** *adjective* L19.

anarch /'anɑːk/ *noun.* M17.
[ORIGIN Greek *anarkhos* without a chief, formed as AN-[5] + -ARCH.]
1 An instigator of anarchy, a leader of revolt. *poet.* M17.
2 An anarchist. L19.
■ **a'narchal** *adjective* (*rare*) = ANARCHICAL E19.

anarchism /'anəkɪz(ə)m/ *noun*. M17.
[ORIGIN In early use formed as ANARCH + -ISM; later after French *anarchisme*.]
The principles or practice of anarchy or anarchists.

anarchist /'anəkɪst/ *noun*. M17.
[ORIGIN In early use formed as ANARCH + -IST; later after French *anarchiste*.]
An advocate of anarchy; a person who believes that all government should be abolished.
■ **anar'chistic** *adjective* associated with or tending to anarchy L19.

anarchy /'anəki/ *noun*. M16.
[ORIGIN medieval Latin *anarchia* from Greek *anarkhia*, formed as ANARCH: see -Y³.]
1 Absence of government in a society (orig. as a source of civil disorder, later also as a political ideal); a state of political or social confusion; absolute freedom of the individual. M16.

CARLYLE Without sovereigns, true sovereigns, temporal and spiritual, I see nothing possible but an anarchy: the hatefullest of things. C. V. WEDGWOOD Meanwhile the country, lacking any accepted government, slipped towards anarchy. G. K. ROBERTS *Anarchy* The organisation of society on the basis of voluntary cooperation, and especially without the agency of political institutions, i.e. the state.

2 *transf. & fig.* Absence or non-recognition of authority in any sphere; moral or intellectual conflict; a state of disorder; chaos. M17.

A. COWLEY Thousand worse Passions then possesst The Interregnum of my Breast. Bless me from such an Anarchy! CHESTERFIELD Our language is . . in a state of anarchy. M. BEERBOHM An anarchy of small curls.

■ **a'narchial** *adjective* (now *rare*) = ANARCHICAL E18. **a'narchic** *adjective* = ANARCHICAL L18. **a'narchical** *adjective* of or pertaining to anarchy; disorderly; unregulated: L16. **a'narchically** *adverb* L19. **anarchize** *verb trans.* (*rare*) reduce to anarchy E19. **a'narcho-** *combining form* [-O-] involving anarchy and, used esp. in ***anarcho-syndicalism***, ***anarcho-syndicalist*** *nouns* (a supporter of) a movement aiming at the transfer of the means of industrial production to unions of workers M20.

anarthria /ə'nɑːθrɪə/ *noun*. L19.
[ORIGIN Greek = lack of vigour, formed as ANARTHROUS: see -IA¹.]
MEDICINE. Inability to articulate in speech, usu. as a result of cerebral disease.

anarthrous /ə'nɑːθrəs/ *adjective*. E19.
[ORIGIN from Greek AN-⁵ + *arthron* joint, definite article + -OUS.]
GREEK GRAMMAR. Of a noun: used without the article.

anasarca /anə'sɑːkə/ *noun*. Now *rare*. LME.
[ORIGIN medieval Latin *anasarc(h)a* from Greek *anasarx* adjective (Galen) = *ana sarka* (*ana-* up, *sarx* flesh).]
MEDICINE. A generalized oedema of subcutaneous tissue, usu. with accumulation of fluid in serous cavities.

fig.: DISRAELI An aged power . . which . . looked with complacency on its own unnatural greatness, its political anasarca.

■ **anasarcous** *adjective* of the nature of or exhibiting anasarca L17.

Anasazi /anə'sɑːzɪ/ *noun & adjective*. M20.
[ORIGIN Navajo *anaasázi*, lit. 'enemy ancestors'.]
ARCHAEOLOGY. ▶**A** *noun*. Pl. same, **-s**. A member of the Basket Maker and Pueblo peoples of northern Arizona and New Mexico, considered as together forming one continuous civilization; the culture of these peoples, the classic phase of which is dated between *c* 1050 and 1300.

anastatic /anə'statɪk/ *adjective*. *obsolete* exc. *hist*. M19.
[ORIGIN from Greek *anastatos* ppl formation on *anistanai* set up + -IC.]
Designating a lithographic process of printing reproductions from slightly raised metallic plates.

anastigmatic /anəstɪg'matɪk/ *adjective*. L19.
[ORIGIN from AN-⁵ + ASTIGMATIC.]
Of a lens or lens system: free from astigmatism.
■ **a'nastigmat** *noun* [-AT²] an anastigmatic lens or lens-system L19.

anastomosis /ənastə'məʊsɪs/ *noun*. Pl. **-moses** /-'məʊsiːz/. L16.
[ORIGIN Greek *anastomōsis*, from *anastomoun* provide with a mouth or outlet, from ANA- + *stoma* mouth: see -OSIS.]
(A) cross-connection between two vessels, channels, branches, etc. (orig., blood vessels). Also (*MEDICINE*), (a) surgical formation of an interconnecting passage between blood vessels, hollow viscera, etc.
■ **a'nastomose** *verb trans.* (now *rare*) & *intrans.* connect or communicate by anastomosis L17.

anastomotic /ənastə'mɒtɪk/ *adjective & noun*. M17.
[ORIGIN Greek *anastomōtikos* proper for opening: see ANASTOMOSIS, -OTIC.]
▶**A** *adjective*. †**1** Of a medicine: designed to open the mouths of vessels. M17–M19.
2 Of or pertaining to anastomosis. M19.
▶†**B** *noun*. An anastomotic medicine. Only in E18.

anastrophe /ə'nastrəfi/ *noun*. M16.
[ORIGIN Greek *anastrophē* turning back, formed as ANA- + *strephein* to turn.]
RHETORIC. Inversion or unusual order of words or clauses.

anatase /'anəteɪz/ *noun*. E19.
[ORIGIN French from Greek *anatasis* extension, formed as ANA- + *teinein* to stretch: with allus. to the length of the crystals.]
MINERALOGY. One of the tetragonal forms of titanium dioxide (cf. RUTILE), found usu. as brown dipyramidal crystals.

anathema /ə'naθəmə/ *noun*. Pl. **-mas**, in sense 3 also **anathemata** /anə'θiːmətə/. E16.
[ORIGIN ecclesiastical Latin (as senses 1 and 2) from Greek, orig. 'a thing devoted' (sense 3), later 'an accursed thing' (see *Romans* 9:3), orig. var. of *anathēma* votive offering, from *anatithenai* set up.]
1 Something or someone accursed or assigned to damnation; something or someone detested. E16.

BACON He would wish to be an Anathema from Christ, for the Salvation of his Brethren. J. GALSWORTHY Let them go! They are as much anathema to me as I, no doubt, am to them.

anathema maranatha /marə'naɪθə/ [Greek *Maran atha* = Aramaic *māran 'ātā* come, Lord] (taken as) a portentously intensified anathema.

2 The formal act or formula of consigning to damnation; the curse of God; the curse of the Church, excommunicating a person or denouncing a doctrine etc.; a denunciation of alleged impiety, heresy, etc.; an imprecation. L16.

BURKE The divine thunders out his anathemas. LYTTON 'Confound the man!' was my mental anathema. GLADSTONE The Pope . . has condemned the slave trade—but no more heed is paid to his anathema than to the passing wind. W. FAULKNER Gaunt, fanaticfaced country preachers thundered anathema from the rustic pulpit at his oblivious and unregenerate head.

3 [Greek *anathēma*.] Something devoted or consecrated to divine use. Now *rare*. L16.

S. BIRCH The little figures . . may have been votive offerings to the gods, such anathemata being offered by the poor.

■ †**anathem** *noun* = ANATHEMA 1, 2 M16–L18. **anathe'matical** *noun & adjective* (*rare*) †(*a*) *noun* = ANATHEMA 2; (*b*) *adjective* of the nature of an anathema: L16. **anathematism** *noun* a statement of anathema, an ecclesiastical denunciation M16. **'anatheme** *noun* (now *rare*) = ANATHEMA 3 M17. **anathemize** *verb trans.* (*rare*) = ANATHEMATIZE 1 L17.

anathematize /ə'naθəmətʌɪz/ *verb*. Also **-ise**. M16.
[ORIGIN Old French & mod. French *anathématiser* from ecclesiastical Latin *anathematizare* from Greek *anathematizein*, from *anathema*: see ANATHEMA, -IZE.]
1 *verb trans.* Pronounce an anathema against; denounce; curse. M16.
2 *verb intrans.* Pronounce anathemas; curse. M18.
■ **a,nathemati'zation** *noun* M16. **anathematizer** *noun* (*rare*) M17.

anatocism /ə'natəsɪz(ə)m/ *noun*. Now *rare* or *obsolete*. M17.
[ORIGIN Latin *anatocismus* (Cicero) from Greek *anatokismos*, from *tokos* interest: see ANA-, -ISM.]
Compound interest.

Anatolian /anə'təʊlɪən/ *adjective & noun*. Also †**Nat-**. L16.
[ORIGIN from *Anatolia* (cf. Greek *anatolē* east) Asia Minor + -AN.]
▶**A** *adjective*. Of or pertaining to Anatolia, now the Asian portion of Turkey, or its inhabitants. L16.
▶**B** *noun*. A native or inhabitant of Anatolia. L16.
■ Also **Anatolic** *adjective* M19.

anatomical /anə'tɒmɪk(ə)l/ *adjective*. L16.
[ORIGIN from French *anatomique* or late Latin *anatomicus*: see ANATOMY, -ICAL.]
1 Of or pertaining to the study or practice of anatomy. L16.
2 Of or pertaining to the anatomy; structural. E18.
■ **anatomic** *adjective* anatomical L17. **anatomically** *adverb* M17. **anatomico-** *combining form* [-O-] anatomical and —, as ***anatomico-physiological*** *adjective* L18.

anatomise *verb* var. of ANATOMIZE.

anatomist /ə'natəmɪst/ *noun*. M16.
[ORIGIN French *anatomiste* or medieval Latin deriv. of *anatomizare* ANATOMIZE: see -IST.]
1 A person who dissects dead bodies; a person skilled in (esp. human) anatomy. M16.
2 *fig.* A person who dissects or analyses a subject. L16.

anatomize /ə'natəmʌɪz/ *verb*. Also **-ise**. LME.
[ORIGIN French *anatomiser* or medieval Latin *anatomizare*: see ANATOMY, -IZE.]
1 *verb trans. & intrans.* Dissect; cut up (an animal or vegetable body) in order to display the position, structure, and relations of its various parts. LME.
2 *verb trans. fig.* Reveal in detail; analyse. L16.
†**3** *verb trans.* Analyse chemically. E–M17.
■ **anatomi'zation** *noun* M17. **anatomizer** *noun* M17.

anatomy /ə'natəmi/ *noun*. LME.
[ORIGIN Old French & mod. French *anatomie* from late Latin *anatomia* from Greek, formed as ANA- + -TOMY.]
1 The science of the structure of the bodies of humans, animals, and plants; a treatise in this field. LME.

C. P. SNOW The anatomy they learn is sheer unscientific nonsense.

MORBID anatomy.

2 Anatomical structure. LME.
†**3** A body or part anatomized; a subject for dissection. L15–M18.
4 The artificial separation of the parts of a human, animal, or vegetable body, in order to discover their position, structure, and relations; dissection. M16.

ADDISON Curious observations which he had lately made in an anatomy of an human body.

5 *fig.* Detailed examination or analysis; structure, organization. M16.

ROBERT BURTON The Anatomy of Melancholy: what it is [etc.]. A. SAMPSON Anatomy of Britain.

†**6** A model or drawing of the human body as dissected. M16–M18.
7 A skeleton; a corpse of skin and bone, a mummy; an emaciated being. Cf. **ATOMY** *noun*¹. *arch*. L16.

DISRAELI Death in the Gothic form of a gaunt anatomy parading through the universe. CARLYLE The thread-paper Duchess of Kendal . . poor old anatomy. *fig.*: J. A. FROUDE What lean and shrivelled anatomies the best of such descriptions would seem!

8 The bodily frame. Chiefly *joc*. L16.

J. G. LOCKHART Brown leathern gaiters buttoned upon his nether anatomy. T. H. WHITE You may grow old and trembling in your anatomies.

†**9** Chemical analysis. E17–E18.

anatopism /ə'natəpɪz(ə)m/ *noun*. *rare*. E19.
[ORIGIN from Greek ANA- + *topos* place + -ISM.]
A putting of a thing out of its proper place.

anatropous /ə'natrəpəs/ *adjective*. M19.
[ORIGIN formed as AN-⁵ + ATROPOUS.]
BOTANY. Of an ovule: inverted on its funicle.

anatto *noun* var. of ANNATTO.

Anaxagorean /anək,sagə'riːən/ *adjective*. L16.
[ORIGIN from Latin *Anaxagoras* (see below) + -EAN.]
Of or pertaining to the Greek philosopher Anaxagoras (fl. during the 5th cent. BC), who taught that matter was eternal but was combined into bodies by a supreme intelligence.

anbury /'anb(ə)ri/ *noun*. Now *dial*. Also **am-** /'am-/. L16.
[ORIGIN Perh. from *ang-* in Old English *angnægl* AGNAIL, *angseta* carbuncle, pimple + BERRY *noun*¹ in the sense of a red mark or pustule.]
1 A soft tumour or spongy wart on horses, oxen, etc. L16.
2 Clubroot of turnips or cabbages. M18.

ANC *abbreviation*.
African National Congress.

-ance /(ə)ns/ *suffix*.
[ORIGIN French from Latin (i) *-antia*, from pres. ppl stems in *-ant-* -ANT¹, (ii) *-entia*: see -ENCE.]
Forming nouns of quality (or instances of it), as ***arrogance***, ***relevance***, or of action, as ***assistance***, ***penance***. Since the 16th cent. many words ending in *-ance* from French have been altered back to *-ence* after Latin, and more recent words have taken *-ance* or *-ence* according to the Latin vowel (hence much inconsistency, as ***dependence***, ***dependance***, ***resistance***, ***subsistence***). Through such pairs as ***appear***, ***appearance*** it became to some extent a living suffix and was appended to verbs of non-Romance origin, as ***forbear***, ***forbearance***, ***hinder***, ***hindrance***, ***rid***, ***riddance***. Now a common formative element in techn. terms, as ***absorbance***. Cf. **-ANCY**.

ancestor /'ansɛstə/ *noun*. ME.
[ORIGIN Old French *ancestre* (mod. *ancêtre*) from Latin *antecessor*, formed as ANTE- + *cess-* pa. ppl stem of *cedere* go: assim. to -OR.]
1 A person, usu. more remote than a grandparent, from whom one is descended; a forefather. Also *transf. & fig.*, an animal from which another is (remotely) descended; a source, a precursor. ME.

H. H. MILMAN St. Peter . . the spiritual ancestor of the Bishop of Rome. M. C. SELF It is believed that his [the Suffolk's] ancestors were the horses of the Norsemen. F. FITZGERALD In the rites of ancestor worship the child imitated the gestures of his grandfather.

2 *LAW*. A person who precedes another in the course of inheritance. E17.
3 An animal or other organism from which another has evolved. M19.

B. J. WILLIAMS The reptilian ancestors of mammals.

■ **ance'storial** *adjective* (now *rare*) = ANCESTRAL M17. **ancestress** *noun* a female ancestor L16.

ancestral /an'sɛstr(ə)l/ *adjective*. LME.
[ORIGIN Old French *ancestrel* (mod. *-al*), formed as ANCESTOR + -AL¹.]
1 Of, pertaining to, or inherited from ancestors. LME.

COLERIDGE Kubla heard from far Ancestral voices prophesying war. G. ORWELL Why should one feel it to be intolerable unless one had some kind of ancestral memory that things had once been different?

2 Of, pertaining to, or constituting an evolutionary ancestor; earlier in a line of (evolutionary) development. (Foll. by *to*.) M19.

D. MORRIS In the Old World . . ancestral apes were spreading over a wide forest area.

■ **ancestrally** *adverb* L19.

A

ancestrula /anˈsɛstrʊlə/ *noun*. Pl. **-lae** /-liː/, **-las**. E20.
[ORIGIN mod. Latin, irreg. from French ANCESTRAL + Latin *-ula* fem. dim. suffix.]
ZOOLOGY. The original zooecium in a bryozoan colony.

ancestry /ˈansɛstri/ *noun*. ME.
[ORIGIN Alt. of Old French *ancesserie* after ANCESTOR: see -Y³, -RY.]
1 Ancestral lineage or descent; *spec.* noble, aristocratic, or ancient descent. Also *fig.*, origin, background. ME.

ADDISON Title and ancestry render a good man more illustrious. W. S. GILBERT I can trace my ancestry back to a protoplasmal primordial atomic globule. M. C. SELF Somewhere in the ancestry of Janus there must have been a happy 'nick' which gave him the peculiar characteristics of the Quarter horse. J. K. GALBRAITH The explanation of consumer behaviour has its ancestry in a much older problem.

2 *collect.* One's ancestors. *arch.* ME.

W. COWPER Our ancestry, a gallant Christian race.

■ **an'cestrial** *adjective* (*rare*) = ANCESTRAL M17.

ancho /ˈantʃəʊ/ *noun*. Orig. and chiefly *US*. Pl. **-os**. E20.
[ORIGIN from Mexican Spanish (*chile*) *ancho*, lit. 'wide (chilli)', in allusion to its shape.]
A large aromatic variety of chilli, used (usu. dried) in Mexican cuisine; the plant bearing this. Also more fully ***ancho chilli***, ***chile ancho***.

anchor /ˈaŋkə/ *noun*¹.
[ORIGIN Old English *ancor*, *-cer*, *-cra* (= Old Frisian, Middle & mod. Low German, Middle Dutch *anker*, late Old High German *anchar* (German *Anker*), Old Norse *akkeri*) from Latin *ancora* from Greek *agkura*. In Middle English reinforced by Old French & mod. French *ancre*. The present spelling follows the erron. Latin *anchora*.]
1 An appliance for holding a ship etc. fixed in a particular place by mooring it to the bottom of the sea or river, or for similarly holding a balloon etc. by mooring it to the ground; a heavy metal structure traditionally composed of a long shank with a ring at one end for the cable and at the other end two arms or flukes, tending upwards, with barbs on each side. OE.
kedge anchor, ***mushroom anchor***, etc.
2 *fig.* A ground or source of confidence or security. LME.
3 Any contrivance or instrument that fulfils a purpose similar to that of an anchor. M16. ▸**b** In *pl.* The brakes of a vehicle. *colloq.* M20.
4 Something resembling an anchor in shape, as an architectural moulding. M17.
5 In full ***anchorman***, ***anchorperson***, ***anchorwoman***. A person playing a vital part, as the end member of a tug-of-war team, the last runner in a relay race, the compère of a broadcast programme, etc. E20.
– PHRASES: **at anchor** moored by an anchor. **bring to anchor** moor with an anchor. **cast anchor**, **come to anchor** let down the anchor(s). ***crown and anchor***: see CROWN *noun*. **drop anchor** = ***cast anchor*** above. ***foul anchor***: see FOUL *adjective*. ***fouled anchor***: see FOUL *verb*. **SHEET ANCHOR**. **weigh anchor** take up the anchor(s).
– COMB.: **anchor-hold** *noun*¹ the hold or grip that an anchor takes; a place for anchoring; *fig.* a firm hold, a point clung to, a ground of confidence, security, etc.; ***anchorman***, ***anchorperson***: see sense 5 above; **anchor plate** a heavy piece of timber or metal serving as a support, e.g. for the cables of a suspension bridge; **anchor ring** (***a***) the ring through which the cable is attached to an anchor; (***b***) *GEOMETRY* a torus of circular cross-section; ***anchorwoman***: see sense 5 above.
■ **anchorless** *adjective* without an anchor; *fig.* without a firm hold, drifting: M19.

anchor /ˈaŋkə/ *noun*². Long *arch.* or *hist.*
[ORIGIN Old English *ancra*, *ancor*, *-cer* perh. through Old Irish *anchara*, *angcire* from ecclesiastical Latin *anchoreta* ANCHORITE.]
An anchorite; an anchoress.
– COMB.: **anchor-hold** *noun*² the cell or retreat of an anchorite.

anchor /ˈaŋkə/ *verb*. ME.
[ORIGIN Old French & mod. French *ancrer* = medieval Latin *anc(h)orare*: see ANCHOR *noun*¹.]
1 *verb trans.* Secure (a ship etc.) by means of an anchor; place at or bring to anchor. ME.

SOUTHEY It was not possible to anchor the fleet. SCOTT FITZGERALD An enormous couch on which two young women were buoyed up as though upon an anchored balloon.

2 *verb trans. transf.* & *fig.* Fix as with an anchor, fix firmly. ME.

SHAKES. *Rich. III* Till that my nails were anchor'd in thine eyes. E. O'NEILL Green seaweed anchored to a rock. J. B. PRIESTLEY I didn't feel quite right in my mind, I wasn't firmly anchored to reality.

3 *verb intrans.* Cast anchor; come to anchor; be moored by means of an anchor. L16.

MILTON Sea-faring men . . whose Bark by chance Or Pinnace anchors in a craggy Bay. *fig.*: SHAKES. *Meas. for M.* Heaven hath my empty words, Whilst my invention . . Anchors on Isabel.

4 *verb trans.* & *intrans.* Act as anchorperson of (a broadcast programme). M20.

anchorage /ˈaŋk(ə)rɪdʒ/ *noun*¹. ME.
[ORIGIN from ANCHOR *noun*¹ + -AGE. Cf. French *ancrage*.]
1 A toll or charge for anchoring. *arch.* ME.
2 **a** Conditions admitting of anchoring; a place at which to anchor. L16. ▸**b** *transf.* & *fig.* A point of support or rest; a hold; something on which to depend or repose. L17.

b J. A. FROUDE The Church anchorage no longer tenable in the change of wind, and the new anchorage in the Bible as yet partially discovered and imperfectly sounded. J. TYNDALL I crossed the fissure, obtained the anchorage at the other side, and helped the others over.

3 A set of anchors. *rare*. L16.

SHAKES. *Tit. A.* The bark . . Returns with precious lading to the bay From whence at first she weigh'd her anchorage.

4 The action or process of anchoring; the condition of lying at anchor. E17.

anchorage /ˈaŋk(ə)rɪdʒ/ *noun*². Now *arch.* or *hist.* L16.
[ORIGIN from ANCHOR *noun*² + -AGE. Cf. *hermitage*, *parsonage*.]
The cell or retreat of an anchorite.

anchoress /ˈaŋkərɛs/ *noun*. Also (*arch.*) **ancress** /ˈaŋkrɛs/. LME.
[ORIGIN from ANCHOR *noun*² + -ESS¹.]
A female anchorite; a nun.

anchorite /ˈaŋkərʌɪt/ *noun*. Also **anchoret** /ˈaŋkərɪt/, (esp. in sense 2) **anachoret** /əˈnakərɪt/. LME.
[ORIGIN medieval Latin *anc(h)orita*, ecclesiastical Latin *anchoreta* from ecclesiastical Greek *anakhōrētēs*, from *anakhōrein* retire, retreat, formed as ANA- + *khōrein* withdraw, from *khōra*, *khōros* place. Superseding ANCHOR *noun*².]
1 A person who has withdrawn from the world, usu. for religious reasons; a hermit, a recluse. LME.
2 *ECCLESIASTICAL HISTORY.* A recluse of the early Eastern Church. L16.
3 *gen.* A person of solitary or secluded habits. E17.
■ **ancho'retic** *adjective* M17. **anchoritic** /-ˈrɪt-/ *adjective* M19. **anchoritical** /-ˈrɪt-/ *adjective* M17.

anchoveta /antʃəˈvɛtə/ *noun*. M20.
[ORIGIN Spanish, dim. of *anchova*: see ANCHOVY.]
A Pacific anchovy, *Cetengraulis mysticetus*, used as bait or to make fishmeal.

anchovy /ˈantʃəvi, anˈtʃəʊvi/ *noun*. L16.
[ORIGIN Spanish & Portuguese *ancho(v)a*, of unknown origin.]
A small, mainly Mediterranean fish of the herring family, *Engraulis encrasicholus*, which has a rich flavour and is usu. eaten pickled or in pastes, sauces, etc. Also, any of numerous related fishes.
– COMB.: **anchovy pear** (the edible fruit of) the W. Indian tree *Grias cauliflora*.

anchusa /ənˈkuːsə, -ˈtʃuː-/ *noun*. M16.
[ORIGIN Latin (Pliny) from Greek *agkhousa*, *egkh-*.]
Any plant of the genus *Anchusa*, of the borage family; *esp.* the plant *A. azurea*, grown for its deep blue flowers.

anchylose *verb*, **anchylosis** *noun* vars. of ANKYLOSE, ANKYLOSIS.

†**anciency** *noun*. M16–L19.
[ORIGIN Alt. of ANCIENTY as if ANCIENT *adjective* were of ppl origin, after *decent*, *decency*, etc.]
Ancientness; antiquity.

ancien régime /ɑ̃sjɛ̃ reʒim/ *noun phr.* Pl. ***-s -s*** (pronounced same). L18.
[ORIGIN French = former regime.]
The system of government in France before the Revolution of 1789. Also *transf.*, the old system or style of things.

ancient /ˈeɪnʃ(ə)nt/ *noun*¹. In senses 2, 6 also **A-**. LME.
[ORIGIN from the adjective.]
1 An old man (or animal); a patriarch. *arch.* LME.
2 A person who lived in times long past; a Greek or Roman of classical antiquity, esp. an author. Freq. in ***the ancients***. L15.

[ORIGIN A town in Italy.]
(A bird of) a breed of poultry having black and white mottled plumage.

ancona /anˈkoːna, anˈkəʊnə/ *noun*². Pl. ***-ne*** /-ne, -ni/. L19.
[ORIGIN Italian = medieval Latin, of uncertain origin: perh. alt. of Greek *eikona* ACCUS. of *eikōn* ICON.]
An altarpiece, *esp.* one consisting of a group of paintings connected by architectural structure.

ancone *noun* pl. of ANCONA *noun*².

ancones *noun pl.* see ANCON.

ancress *noun* see ANCHORESS.

-ancy /(ə)nsi/ *suffix*.
[ORIGIN from or after Latin *-antia* -ANCE. Cf. -ENCY.]
Forming nouns of quality, as ***relevancy***, or state, as ***expectancy***, but not of action (cf. -ANCE). Many words orig. in *-ance* have been refash., as ***constancy***.

ancylostomiasis /ˌaŋkɪləʊstəˈmʌɪəsɪs, ˌansɪ-/ *noun*. Pl. **-ases** /-əsiːz/. Also **ank-** /ˌaŋk-/. L19.
[ORIGIN from mod. Latin *Ancylostoma* (see below) from Greek *agkulos* crooked + *stoma* mouth, + -IASIS.]
MEDICINE. Hookworm infection of the small intestine, esp. by *Ancylostoma duodenale* or *Necator americanus*, often leading to anaemia. Also called ***uncinariasis***.

and /ənd, (ə)n, *stressed* and/ *conjunction*[1], *adverb, & noun.*

[ORIGIN Old English *and, ond*, corresp. to Old Frisian *and(a), ande, end(a), en*, Old Saxon *ande, endi* (Dutch *en*), Old High German *anti, enti* (German *und*), Sanskrit *atha* thereupon, also. See also AN *conjunction.*]

►**A** *conjunction.* **I** Coordinating. Introducing a word, phr., clause, or sentence which is to be taken side by side with, along with, or in addition to, that which precedes.

1 Simply additive. (When connecting three or more members it is expressed only with the last in ordinary prose but formerly, & still *colloq. & rhet.* for emphasis, with every member.) OE. ▸**b** Introducing an adversative clause: on the other hand, yet, but. *arch. & rhet.* OE. ▸†**c** Before either of two members connected. ME–E16.

SHAKES. *Com. Err.* My master and his man are both broke loose. AV *Ps.* 90:10 The dayes of our yeres are threescore yeeres and ten. MILTON My three-and-twentieth year. ADDISON We do in our Consciences believe two and two make four. T. MOORE Six hundred and eighty-five ways to dress eggs. KEATS Dance, and Provençal song, and sunburnt mirth! BYRON Through life's road, so dim and dirty, I have dragged to three and thirty. R. KIPLING Oh it's Tommy this, an' Tommy that, an' 'Tommy, go away'. G. B. SHAW My lunch will cost me one [shilling] and sixpence. B. RUSSELL The present holders of power are evil men, and the present manner of life is doomed. JOYCE He saw the priest bend down and kiss the altar and then face about and bless all the people. S. SASSOON Allgood was quiet, thoughtful, and fond of watching birds. P. SCOTT Susy removed the mirror and only set it up again when she had finished. **b** AV *Matt.* 22:30 Hee said, I goe sir, and went not.

and all, hit and run, now and then, once and for all, smash and grab, still and all, time and again, to and fro, etc. **and/or** either together or as an alternative. ***but and***: see BUT *conjunction.*

2 Connecting occurrences of the same member, expressing continuous or indefinite repetition. OE.

SHAKES. *2 Hen. IV* A hundred mark is a long one for a poor lone woman to bear; and I have borne, and borne, and borne. BYRON I have lived for months and months on shipboard. YEATS Eternity is passion, girl or boy, Cry at the onset of their sexual joy 'For ever and for ever'.

two and two: see TWO *noun* 1.

3 Introducing a consequence, actual or predicted; after an imperative: in the case or circumstance that you do so. OE.

A. E. HOUSMAN Their shoulders held the sky suspended; They stood, and earth's foundations stay. D. L. SAYERS Spray with Sanfect and you're safe.

4 Introducing an explanation, amplification, or parenthesis. OE.

SHAKES. *Temp.* I heard a humming, And that a strange one too. THACKERAY A regular bang-up chap, and no mistake. DICKENS Scrooge signed it: and Scrooge's name was good upon 'Change. LD MACAULAY He and he alone has done all this. G. K. CHESTERTON The French would certainly have recovered the stolen French provinces whenever they could; and quite right too.

5 Connecting two verbs approaching the sense of *to* with the inf., esp. after *go, come, try.* OE.

G. B. SHAW Without waiting for them to come and ask for these things. SCOTT FITZGERALD Here's your money. Go and buy ten more dogs with it. E. O'NEILL Try and use your brains!

6 Continuing a narration from a previous sentence or from implied assent to a previous question or opinion. OE.

AV *John* 21:21 Peter seeing him saith to Jesus, Lord, and what shall this man do? C. KINGSLEY And why could not you run away, boy?

7 Expr. a difference of quality between things of the same name or class. M16.

BROWNING Alack, there be roses and roses, John!

8 Connecting two adjectives or an adjective and an adverb, of which the former approaches an adverbial relation to the latter, esp. in ***good and***, ***nice and***. L16.

Blackwood's Magazine They shall drive nice and slowly. J. LONDON The lawyers . . waded into me good and hard for the cash. E. O'NEILL It's nice and quiet out here.

9 Expr. surprise at, or asking the truth of, what one has already heard. L18.

W. J. MICKLE And are ye sure the news is true? And are ye sure he's weel?

►**II** Conditional.

10 Provided that; on condition that. Also ***and if***. Now *arch. & dial.* ME.

11 Even if; although. Now *arch. & dial.* LME.

†**12** As if, as though. LME–E17.

†**13** *indirect interrog.* Whether. L16–E17.

►**B** *adverb.* [A Latinism.] Also, even. Long *arch.* LME.

►**C** *noun.* **1** An instance of the conjunction 'and' (esp. conditional); an expression of condition or doubt. E16.

J. ASHFORD As my old aunt used to say, 'If ifs and ands were pots and pans, there'd be no work for tinkers' hands.'

2 (Usu. **AND**.) *COMPUTING.* A Boolean operator which gives the value unity if and only if all the operands are unity, and is otherwise zero. Usu. *attrib.* M20.

– COMB.: **AND gate** a circuit which produces an output only when signals are received simultaneously through all input connections.

†**and** *conjunction*[2] (after *compars.*). LME–L16.

[ORIGIN Erron. expansion of north. dial. var. (cf. *'N conjunction*[2]) of THAN *conjunction*[2], formally conf. with AN *conjunction* = AND *conjunction*[1], *adverb, & noun.*]
= THAN *conjunction*[2].

-and /and/ *suffix.*

Repr. Latin *-andus, -da, -dum* of the gerundive of Latin verbs in *-are*, forming nouns usu. with the sense 'person (or thing) to be treated in a specified way', as ***analysand***, ***multiplicand***. The neut. gerundial ending is sometimes retained, as in ***memorandum***.

3 *BOTANY.* Bearing stamens and pistils on the same inflorescence, or on the same plant. M18.

android /ˈandrɔɪd/ *noun & adjective.* Orig. in Latin form †**-oides**. E18.

[ORIGIN mod. Latin *androides*, from Greek ANDRO- + *-eidēs* -OID.]

►**A** *noun.* An automaton resembling a human being; *SCIENCE FICTION* a synthetic human being. E18.

►**B** *adjective.* Resembling (that of) a male. L19.

andrology /anˈdrɒlədʒi/ *noun.* L19.

[ORIGIN from ANDRO- + -LOGY.]

The branch of medicine that deals with male reproductive function and with diseases and conditions particular to men.

Andromeda /anˈdrɒmɪdə/ *noun.* M16.

[ORIGIN Latin from Greek *Andromedē*: see PERSEUS.]

1 (The name of) a constellation of the northern hemisphere between Perseus and Pegasus. M16.

2 (**a-**.) Either of two low pink-flowered shrubs of northern bogs, *Andromeda polifolia* and (*N. Amer.*) *A. glaucophylla*, of the heath family. Also called ***bog rosemary***. M18.

■ **Andromedid** *noun & adjective* [-ID[3]] *ASTRONOMY* (designating) any of a shower of meteors (now rarely seen) which appear to radiate from the constellation Andromeda L19.

andropause /ˈandrəpɔːz/ *noun.* M20.

[ORIGIN from ANDRO- + PAUSE *noun*, after *menopause.*]

A collection of symptoms, including fatigue and a decrease in libido, experienced by some (esp. older) men and attributed to a gradual decline in androgen levels; the stage of a man's life when this occurs.

■ **andropausal** *adjective* L20.

androsace /anˈdrɒsəsi, -ki/ *noun.* L19.

[ORIGIN medieval Latin *androsaces* from Greek *androsakes* (Dioscurides), name of an unidentified marine plant or zoophyte, formed as ANDRO- + *sakos* shield.]

A

Any of numerous dwarf tufted alpine plants of the genus *Androsace*, belonging to the primula family and bearing red or white flowers.

androsterone /andrə(ʊ)'stɪərəʊn, an'drɒstərəʊn/ *noun*. M20.
[ORIGIN from ANDRO- + -STERONE.]
BIOCHEMISTRY. A relatively inactive metabolite of testosterone.
■ '**androstane** *noun* [-ANE] a saturated hydrocarbon of which testosterone and related compounds are derivatives M20. **androstene'dione**, **-tendione** *noun* [-ENE + DI-[2] + -ONE] an isomer of testosterone which accompanies the latter in androgenic secretions, in some animals being the predominant male hormone M20.

-androus /'andrəs/ *suffix*.
[ORIGIN from mod. Latin *-andrus* from Greek *-andros*, formed as ANDRO-: see -OUS.]
BOTANY. Having male reproductive organs of an indicated kind or number, as ***gynandrous***, ***monandrous***, etc.

ane /eɪn/ *adjective & noun*. *Scot. & N. English*. ME.
[ORIGIN Var. of ONE *adjective* etc.]
= ONE *adjective & noun* (now only as absol. form of the numeral).

-ane /eɪn/ *suffix*.
1 Var. of **-AN**, usu. with differentiation, as ***humane***, ***urbane***, but also alone, as ***mundane***.
2 *CHEMISTRY*. Forming names of paraffins and other saturated hydrocarbons, as ***methane***, ***octane***, etc., and of hydrides of other elements, as ***silane***, and more or less arbitrarily of other organic compounds, as ***lindane***.

anear /ə'nɪə/ *verb*. *arch*. M16.
[ORIGIN from A-[1] + NEAR *verb*.]
†**1** *verb intrans*. Draw or be near *to*. M–L16.
2 *verb trans*. Approach. L16.

anear /ə'nɪə/ *preposition & adverb*. *arch*. M16.
[ORIGIN from A-[1] + NEAR *adverb*[2] *& preposition*[2].]
▸**A** *preposition*. Near to, close to. M16.
▸**B** *adverb*. **1** Nearly, almost. E17.
2 Near, close by. L18.

aneath /ə'ni:θ/ *preposition & adverb*. *Scot. & N. English*. M18.
[ORIGIN Alt. of *beneath* after *afore* and *before*, *aside* and *beside*.]
= BENEATH.

anecdota *noun pl.* see ANECDOTE.

anecdotage /'anɪkdəʊtɪdʒ/ *noun*. L18.
[ORIGIN Sense 1 from ANECDOTE + DOTAGE; sense 2 from ANECDOTE + -AGE.]
1 Garrulous old age. *joc*. L18.
2 Anecdotes; anecdotal literature. E19.

anecdote /'anɪkdəʊt/ *noun*. In sense 1 also (earlier) in Latin pl. form **anecdota** /ə'nɛkdə(ʊ)tə/. L17.
[ORIGIN French, or mod. Latin *anecdota* from Greek *anekdota* things unpublished, neut. pl. of *anekdotos*, formed as AN-[5] + *ekdotos*, from *ekdidōnai* publish, give out.]
1 In *pl*. Secret or hitherto unpublished details of history. L17.
2 a A narrative of an amusing or striking incident (orig. an item of gossip). E18. ▸**b** *ART*. (The portrayal of) a small narrative incident; a painting portraying a small narrative incident. M20.
■ **anec'dotal** *adjective* of, pertaining to, or consisting of anecdotes M19. **anec'dotalism** *noun* (*a*) a propensity for telling anecdotes; (*b*) anecdotal quality: E20. **anec'dotalist** *noun* a person given to or adept in telling anecdotes E20. **anec'dotic** *adjective* (*a*) = ANECDOTAL; (*b*) inclined to tell anecdotes: L18. **anec'dotical** *adjective* = ANECDOTIC M18. **anec'dotically** *adverb* in an anecdotic manner, with use of anecdotes M19. **anecdotist** /'anɪkdəʊtɪst, ə'nɛkdəʊtɪst/ *noun* a teller of anecdotes M19.

anechoic /anɪ'kəʊɪk/ *adjective*. M20.
[ORIGIN from AN-[5] + ECHO *noun* + -IC.]
Free from echo.

anelastic /anɪ'lastɪk/ *adjective*. M20.
[ORIGIN from AN-[5] + ELASTIC.]
PHYSICS. Not elastic.
■ **,anelas'ticity** *noun* M20.

anele /ə'ni:l/ *verb trans*. *arch*. ME.
[ORIGIN from AN-[1] + *elien* to oil, from Old English *ele* from Latin *oleum* oil.]
Anoint; give extreme unction to.

anemia *noun*, **anemic** *adjective* see ANAEMIA, ANAEMIC.

anemo- /ə'nɛməʊ, anɪ'mɒ/ *combining form* of Greek *anemos* wind: see **-O-**.
■ **a'nemochore** *noun* [Greek *khorein* to spread] a plant whose seeds are dispersed by the wind E20. **a'nemogram** *noun* a record produced by an anemograph L19. **a'nemograph** *noun* an instrument for recording the speed, and sometimes also direction, of the wind M19. **anemo'graphic** *adjective* of or pertaining to an anemograph L19. **ane'mology** *noun* (*rare*) the science of the winds L18. **ane'mophilous** *adjective* (*BOTANY*) wind-pollinated L19. **ane'mophily** *noun* pollination by the wind L19. **a'nemoscope** *noun* an instrument for indicating wind direction and strength E18.

anemometer /anɪ'mɒmɪtə/ *noun*. E18.
[ORIGIN from ANEMO- + -METER.]
1 An instrument for measuring the speed or force of the wind, or of any gas in motion. E18.
2 An apparatus for indicating wind pressure in an organ. M19.
■ **anemometry** *noun* the measurement of wind speed; the use of anemometers: M19.

anemone /ə'nɛməni/ *noun*. M16.
[ORIGIN Latin from Greek *anemōnē*, from *anemos* wind.]
1 A plant of the genus *Anemone*, of the buttercup family; *esp.* (also ***wood anemone***) *A. nemorosa*, a common woodland plant bearing delicate white flowers in early spring (also called ***windflower***). Also, a flower of such a plant. M16.
Japanese anemone: see JAPANESE *adjective*. ***plumose anemone***. ***St Brigid anemone***. ***St Brigid's anemone***: see SAINT *noun & adjective*.
2 More fully ***sea anemone***. An anthozoan belonging to the order Actiniaria, having a radiating array of tentacles around the mouth. M18.
– COMB.: **anemone fish** any of a number of damselfishes (esp. of the genus *Amphiprion*), which live in commensal association with sea anemones.

anencephalic /a,nɛnsɪ'falɪk, -kɛ'falɪk/ *adjective*. M19.
[ORIGIN from Greek *anegkephalos* without brain (Galen) (from AN-[5] + *egkephalos* brain) + -IC.]
MEDICINE. Having all or most of the brain congenitally absent.
■ **anen'cephalous** *adjective* = ANENCEPHALIC E19. **anen'cephaly**, †**-lia** *noun* anencephalic condition M19.

anent /ə'nɛnt/ *preposition & adverb*. Now chiefly *dial*.
[ORIGIN Old English *on ef(e)n*, *emn*, formed as ON *preposition* + EVEN *adjective & noun*, = Old Saxon *an eban*, Middle High German *eneben*, *nebent*, (also mod.) *neben*. Form history not fully explained.]
▸**A** *preposition*. **1** In line with; in company with. OE.
2 In the sight of, before. ME.
†**3** Against, towards, fronting. ME–M19.
4 In respect of; with reference to; concerning, about. Now *arch. & Scot*. ME.
▸**B** *adverb*. Opposite. E16.

-aneous /'eɪnɪəs/ *suffix*.
[ORIGIN from Latin *-aneus*: see -EOUS, -OUS.]
Forming adjectives from Latin words in *-aneus*, as ***cutaneous***, ***miscellaneous***.

anergy /'anədʒi/ *noun*. Orig. in Latin form †**-gia**. L19.
[ORIGIN mod. Latin *anergia* from Greek, from AN-[5] + *ergon* work: see -Y[3].]
MEDICINE. **1** Abnormal lack of energy. L19.
2 (The usual sense.) Absence of response to a given antigen or allergen. E20.
■ **a'nergic** *adjective* characterized by anergy L19.

†**anerly** *adverb & adjective*. *Scot. & N. English*. ME–L19.
[ORIGIN from ANE; the *-er-* is unexpl., but cf. FORMERLY, ALLENARLY.]
Alone, only; solitary.

aneroid /'anərɔɪd/ *adjective & noun*. M19.
[ORIGIN French *anéroïde*, from Greek A-[10] + *nēros* wet, damp: see -OID.]
(A barometer) that depends on the action of air pressure on the elastic top of a box containing a vacuum.

anesthesia *noun*, **anesthetic** *adjective*, **anesthetize** *verb*, etc., see ANAESTHESIA etc.

anestrus *noun* see ANOESTRUS.

anethole /'anɪθəʊl/ *noun*. Also (earlier) †**-ol**. M19.
[ORIGIN from Latin *anethum* anise + -OLE[1].]
CHEMISTRY. An aromatic ether which is the major constituent of certain oils, e.g. anise, fennel; *p*-1-propenylphenyl methyl ether, $C_{10}H_{12}O$.

aneuploid /'anjʊplɔɪd/ *adjective*. E20.
[ORIGIN from AN-[5] + EUPLOID.]
BIOLOGY. Not euploid.
■ **aneuploidy** *noun* aneuploid condition E20.

aneurin /ə'njʊərɪn, 'anjʊrɪm/ *noun*. M20.
[ORIGIN from A(NTI- + POLY)NEUR(ITIS + VITAM)IN.]
= THIAMINE.

aneurysm /'anjʊrɪz(ə)m/ *noun*. Also **-ism**. LME.
[ORIGIN Greek *aneurusma* dilatation, from *aneurunein* widen out, from AN-[4] + *eurunein*, from *euros* wide.]
MEDICINE. A morbid dilatation of the wall of a blood vessel, usu. an artery.
dissecting aneurysm: see DISSECT *verb* 1.
■ **aneu'rysmal** *noun & adjective* †(*a*) *noun* (*rare*) = ANEURYSM; (*b*) *adjective* characterized by or of the nature of an aneurysm: LME.

anew /ə'nju:/ *adverb*. ME.
[ORIGIN from A-[3] + NEW *adjective*.]
1 Afresh, once more. ME.
2 In a new way. LME.
†**3** Recently. LME–E16.

anfractuosity /anfraktjʊ'ɒsɪti/ *noun*. L16.

antelopine *adjective* var. of ANTILOPINE.

antelucan /antɪ'luːk(ə)n/ *adjective.* M17.
[ORIGIN Latin *antelucanus*, formed as ANTE- + *luc-*, *lux* light: see -AN.]
Of or pertaining to the hours before dawn; happening before dawn.

ante meridiem /ˌantɪ mə'rɪdɪəm/ *adjectival & adverbial phr.* M16.
[ORIGIN Latin: see MERIDIAN *adjective*.]
Before midday; between midnight and the following noon. Abbreviation ***a.m.***
■ ***anteme ridian*** *adjective* (*rare*) pertaining or appropriate to the forenoon or morning M17.

†**antemetic** *noun & adjective* var. of ANTI-EMETIC.

ante-mortem /antɪ'mɔːtəm/ *adjective.* L19.
[ORIGIN Latin *ante mortem* before death.]
Made before death.

antemundane /antɪ'mʌndeɪn/ *adjective.* M18.
[ORIGIN from ANTE- + Latin *mundus* world + -ANE 1.]
Existing or occurring before the creation of the world.

antenatal /antɪ'neɪt(ə)l/ *adjective.* E19.
[ORIGIN from ANTE- + NATAL *adjective*¹.]
1 Happening or existing before birth. E19.
2 *MEDICINE.* Pertaining to or concerned with the health and well-being of women during pregnancy. L19.
■ **antenatally** *adverb* L19.

antenna /an'tɛnə/ *noun.* Pl. **-nnae** /-niː/, (esp. sense 4) **-nnas**. M17.
[ORIGIN Latin, alt. of *antemna* sailyard, used in pl. as translation of Aristotle's *keraioi* 'horns' of insects.]
1 *ZOOLOGY.* Either of a pair of sensory appendages on the heads of insects, crustaceans, and some other arthropods; a feeler. M17.
G. DURRELL A weird creature . . , a pear-shaped body, long antennae that twitched indignantly.
2 *fig.* In *pl.* Receptive senses, means of exploration. M19.
E. POUND My soul's antennæ are prey to such perturbations. L. LEE Antennae of eyes and nose and grubbing fingers.
3 *BOTANY.* Either of a pair of projections on the male flowers of certain orchids of the genus *Catasetum*, which when touched cause the ejection of the pollinia. M19.
4 = AERIAL *noun*. Chiefly *US & techn.* E20.
J. CHEEVER A north wind was howling in the television antennas. T. PYNCHON A radio transmitting station was set up on the cliff, antennas aimed at the Continent.
V antenna: see V, V 2.
■ **antennal, antennary** *adjectives* of, pertaining to, or of the nature of antennae M19. **ante'nniferous** *adjective* bearing antennae E19. **antenniform** *adjective* of the form of antennae M19. **antennule** *noun* a small antenna M19.

antenuptial /antɪ'nʌpʃ(ə)l/ *adjective.* E19.
[ORIGIN Late Latin *antenuptialis*, formed as ANTE- + NUPTIAL.]
Born, occurring, etc. before marriage.

ante-orbital *adjective* var. of ANTORBITAL.

antepagment /antɪ'pagm(ə)nt/ *noun.* Also in Latin form **-pagmentum** /-pag'mɛntəm/, pl. **-ta** /-tə/. L17.
[ORIGIN Latin *antepagmentum*, formed as ANTE- + *pangere* fasten: see -MENT.]
ARCHITECTURE. Each of the jambs or moulded architraves of a door. Usu. in *pl.*

antepartum /antɪ'pɑːtəm/ *adjective.* L19.
[ORIGIN Latin *ante partum* before birth.]
MEDICINE. Occurring not long before childbirth.

antepast /'antɪpɑːst/ *noun. arch.* L16.
[ORIGIN from ANTE- + Latin *pastus* food: cf. REPAST *noun*, ANTIPASTO.]
A first course to whet the appetite, an hors d'oeuvre; a foretaste.

antependium /antɪ'pɛndɪəm/ *noun.* Also †**anti-**. L16.
[ORIGIN medieval Latin, formed as ANTE- + Latin *pendere* hang.]
A veil or hanging for the front of an altar.

antepenult /antɪpɪ'nʌlt/ *adjective & noun.* L16.
[ORIGIN Abbreviation of ANTEPENULTIMA.]
= ANTEPENULTIMATE.

antepenultima /ˌantɪpɪ'nʌltɪmə/ *noun.* Pl. **-mae** /-miː/, **-mas**. L16.
[ORIGIN Late Latin (*syllaba*) *antepaenultima*, formed as ANTE- + PENULTIMA.]
PROSODY. The last syllable but two of a word or verse.

A

antepenultimate /ˌantɪpɪˈnʌltɪmət/ *adjective & noun.* L17.
[ORIGIN formed as ANTE- + PENULTIMATE.]
▸ **A** *adjective.* The last but two. L17.
▸ **B** *noun.* = ANTEPENULTIMA E18.

anteposition /ˌantɪpəˈzɪʃ(ə)n/ *noun. rare.* M18.
[ORIGIN from ANTE- + POSITION *noun*, as if from Latin *anteponere* place before: cf. POSTPOSITION.]
The placing of anything in front, *esp.* (GRAMMAR) in front of a word which usually precedes.

anteprandial /antɪˈprandɪəl/ *adjective.* E19.
[ORIGIN from ANTE- + Latin *prandium* dinner + -AL¹.]
Done, happening, or taken before dinner or any large meal.

anter *noun & verb* see AUNTER.

ante rem /ˈantɪ rɛm/ *adjectival & adverbial phr.* L19.
[ORIGIN medieval Latin (Albertus Magnus) = before the thing.]
PHILOSOPHY. Prior to the existence of something else; *spec.* (of a universal) prior to the particular; of or pertaining to the theory that the universal is logically prior to the particular. Cf. IN RE 2, POST REM.

anterior /anˈtɪərɪə/ *adjective.* M16.
[ORIGIN French *antérieur* or Latin *anterior*, compar. from *ante* before: see -IOR.]
1 Fore, more to the front; *esp.* in ANATOMY, situated in the front of the body, or nearer to the head, forepart, etc.; in the case of humans and other erect animals, = VENTRAL. M16. ▸**b** BOTANY. Situated further away from the axis. E19.
2 Former, earlier, prior (*to*). L16.

R. L. STEVENSON News of their anterior home. M. LOWRY From what conceivable standpoint of rectitude did she imagine she could judge what was anterior to her arrival?

■ **anteri'ority** *noun* E18. **anteriormost** *adjective* (chiefly BIOLOGY) in the furthest forward position, nearest to the anterior M20. **anteriorly** *adverb* L16.

antero- /ˈantərəʊ/ *combining form* of ANTERIOR, used (chiefly ANATOMY) to form adjectives and corresp. adverbs: see -O-.
■ **anterograde** *adjective* directed forwards in time; *spec.* (of amnesia) involving inability to remember new information: L19. **antero'lateral** *adjective* both anterior and lateral M19. **anteropo'sterior** *adjective* pertaining to front and back; directed forwards and backwards: M19. **anteropos'teriorly** *adverb* in an anteroposterior direction, frontwards and backwards M19.

anteroom /ˈantɪruːm, -rʊm/ *noun.* M18.
[ORIGIN from ANTE- + ROOM *noun*¹, after ANTECHAMBER.]
A room leading to another.

antes /ˈantɪz/ *noun pl.* L16.
[ORIGIN French repr. Latin *antae* pl. of ANTA.]
ARCHITECTURE. Antae.

ante-temple /ˈantɪtɛmp(ə)l/ *noun.* E18.
[ORIGIN medieval Latin *antetemplum* translating Greek PRONAOS: see ANTE-, TEMPLE *noun*¹.]
A portico of a church or ancient temple.

anteversion /antɪˈvəːʃ(ə)n/ *noun.* M19.
[ORIGIN from ANTE- + VERSION.]
ANATOMY. Forward inclination of the uterus.

antevert /ˈantɪvəːt/ *verb trans.* M17.
[ORIGIN Latin *antevertere* anticipate, prevent, formed as ANTE- + *vertere* turn.]
1 Avert beforehand, prevent, anticipate. *rare.* M17.
2 Turn forward. Chiefly as ***anteverted*** *ppl adjective* (ANATOMY, of the uterus), inclined forward. M19.

anth- /anθ/ *prefix* (no longer productive).
Var. of Greek ANTI- before an aspirate.

anthelion /anˈθiːlɪən/ *noun.* Pl. **-lia** /-lɪə/. L17.
[ORIGIN Greek *anthēlion* neut. of *anthēlios*, earlier *antēlios* opposite to the sun, from ANTH- + *hēlios* sun.]
A parhelion opposite to the sun in the sky. Also, a glory, a halo.

anthelix /anˈθiːlɪks/ *noun.* Also **antihelix** /antɪhiːlɪks/. Pl. **-lices** /-lɪsiːz/, **-lixes**. E18.
[ORIGIN Greek: see ANTH-, HELIX 3.]
ANATOMY. The curved elevation within the helix of the ear.

anthelmintic /anθ(ə)lˈmɪntɪk/ *adjective & noun.* Also **-thic** /-θɪk/. L17.
[ORIGIN from ANTH- + Greek *helminth-*, *-mins* worm + -IC.]
MEDICINE. ▸**A** *adjective.* Active against parasitic worms. L17.
▸ **B** *noun.* An anthelmintic medicine. E18.

anthem /ˈanθəm/ *noun & verb.* OE.
[ORIGIN ecclesiastical Latin *antiphona* ANTIPHON: spelling with *-th-* dates from 15.]
▸ **A** *noun.* **1** = ANTIPHON *noun* 1. *arch.* OE.
2 A composition in non-metrical prose (usu. from the Scriptures or Liturgy) set to music for sacred use. LME.
3 Any song of praise and gladness; *esp.* a song (sometimes strictly a hymn) adopted by a nation to express patriotism or loyalty (usu. more fully ***national anthem***). LME.
▸ **B** *verb trans.* Celebrate in an anthem. E17.

anthemic /anˈθɛmɪk/ *adjective.* L20.
[ORIGIN from ANTHEM + -IC.]
Suggestive of or resembling an anthem; *spec.* (of a popular song or refrain) designed to rouse or stir an audience or assembly. Often mildly *derog.*

S. RUSHDIE The overall effect is oddly affirmative, even anthemic.

anthemion /anˈθiːmɪən/ *noun.* Pl. **-mia** /-mɪə/. M19.
[ORIGIN Greek = flower.]
A figure or ornament resembling honeysuckle.

anther /ˈanθə/ *noun.* Orig. in (in sense 1 only in) Latin form **†-era**, pl. **-erae**. E16.
[ORIGIN French *anthère* or mod. Latin *anthera*, in classical Latin medicine extracted from flowers, from Greek *anthēra*, fem. of *anthēros* of flowers, from *anthos* flower.]
†**1** A medicine extracted from flowers, used to treat sore gums. E16–L17.
2 BOTANY. The part of the stamen in which pollen is contained and from which it is shed when mature. E18.
■ **antheral** *adjective* L18.

antheridium /anθəˈrɪdɪəm/ *noun.* Pl. **-dia** /-dɪə/. M19.
[ORIGIN mod. Latin: see ANTHER, -IDIUM.]
BOTANY. A male reproductive organ in a cryptogam.
■ **antheridial** *adjective* M19.

antherozoid /ˌanθ(ə)rəˈzəʊɪd/ *noun.* Also **-zooid** /-ˈzəʊɔɪd/. M19.
[ORIGIN from ANTHER + -O- + ZO(O)ID.]
BOTANY. A motile male gamete produced by a cryptogam or gymnosperm.

anthesis /anˈθiːsɪs/ *noun.* M19.
[ORIGIN Greek *anthēsis* flowering, from *anthein* to blossom.]
BOTANY. The time when a flower opens, or becomes sexually functional.

antho- /ˈanθəʊ/ *combining form* of Greek *anthos* flower: see -O-.
■ **an'thography** *noun* (*rare*) scientific description of flowers L19. **antho'mania** *noun* an extravagant passion for flowers L18. **antho'maniac** *noun* (*rare*) a person with anthomania M19. **an'thophilous** *adjective* (of insects etc.) frequenting flowers L19. **anthophore** *noun* (BOTANY) a stalk which raises the receptacle above the calyx M19. **antho'xanthin** *noun* (CHEMISTRY) any yellow flavonoid pigment found in plants M19.

anthocyanin /anθəˈsʌɪənɪn/ *noun.* Orig. †**-cyan**. M19.
[ORIGIN German *Anthocyan*, from Greek ANTHO- + *kuanos* blue: see -IN¹.]
CHEMISTRY. Any of a large class of blue, violet, or red flavonoid pigments found in plants.
■ **anthocy'anidin** *noun* any of the pigments of which the anthocyanins are glycosides E20.

anthology /anˈθɒlədʒi/ *noun.* M17.
[ORIGIN French *anthologie* or medieval Latin *anthologia* from Greek, from *anthos* flower: see -LOGY.]
1 a A collection of poems by various authors, chosen as being especially fine or appropriate. M17. ▸**b** A collection of other literary works or of paintings, songs, etc. L18.

Anthony /ˈantəni/ *noun.* LME.
[ORIGIN Name of the patron saint of swineherds, to whom one of each litter was traditionally vowed.]
The smallest pig of a litter. Also ***Anthony pig***, ***Anthony hog***, etc.
See also ***St Anthony cross***, ***St Anthony's cross***, ***St Anthony's fire*** s.v. SAINT *noun & adjective*, TANTONY.

Anthony Eden /ˌantəni ˈiːd(ə)n/ *noun.* M20.
[ORIGIN English statesman, 1897–1977.]
A black Homburg hat.

anthophyllite /anθəˈfɪlʌɪt, anˈθɒfɪlʌɪt/ *noun.* E19.
[ORIGIN from mod. Latin *anthophyllum* clove + -ITE¹: so called from its typical clove-brown colour.]
MINERALOGY. An orthorhombic ferromagnesian amphibole which occurs usu. as fibrous or asbestiform masses.

anthozoan /anθəˈzəʊən/ *noun & adjective.* L19.
[ORIGIN from mod. Latin *Anthozoa* (see below), from Greek *anthos* flower + *zōia* animals + -AN.]
▸ **A** *noun.* Any animal of the class Anthozoa of marine coelenterates, which includes sea anemones, corals, and sea pens. L19.
▸ **B** *adjective.* Of or pertaining to Anthozoa. L19.

anthracene /ˈanθrəsiːn/ *noun.* M19.
[ORIGIN from Greek *anthrak-*, *anthrax*, coal + -ENE.]
CHEMISTRY. A tricyclic aromatic hydrocarbon, $C_{14}H_{10}$, found in coal tar and isolated as colourless crystals.

anthracite /ˈanθrəsʌɪt/ *noun & adjective.* L16.
[ORIGIN Greek *anthrakitēs*, formed as ANTHRACENE: see -ITE¹.]
†**1** A gem described by Pliny, supposedly hydrophane. L16–M18.
2 A hard, non-bituminous kind of coal consisting of relatively pure carbon. Also ***anthracite coal***. E19.
3 (Of) the dark grey colour of this coal. L19.
■ **anthra'citic** *adjective* of, pertaining to, or of the nature of anthracite coal M19.

anthracnose /anˈθraknəʊs/ *noun.* L19.
[ORIGIN French, from Greek *anthrak-*, *anthrax* coal + *nosos* disease.]
A fungal disease of plants, characterized by dark lesions.

anthracoid /ˈanθrəkɔɪd/ *adjective.* L19.
[ORIGIN from Greek *anthrak-*, ANTHRAX + -OID.]
Of a bacterium: of the kind typified by the anthrax bacillus.

anthracosaur /ˈanθrəkəsɔː/ *noun.* M20.
[ORIGIN from mod. Latin *Anthracosaurus* genus name, from Greek *anthrak-*, *anthrax* coal + *sauros* lizard.]
PALAEONTOLOGY. Any member of the suborder Anthracosauroideae of labyrinthodont amphibians of the Cretaceous and Permian periods.

anthracosis /anθrəˈkəʊsɪs/ *noun.* Pl. **-coses** /-ˈkəʊsiːz/. M19.
[ORIGIN from Greek *anthrak-*, *anthrax* coal + -OSIS.]
MEDICINE. Pneumoconiosis caused by inhalation of coal dust.
■ **anthracotic** *adjective* suffering from anthracosis M19.

anthracothere /ˈanθrəkəθɪə/ *noun.* M19.
[ORIGIN French *anthracothère* from Greek *anthrak-*, *anthrax* coal + *thērion* wild animal: its remains were first found in coal-bearing strata.]
PALAEONTOLOGY. An extinct artiodactyl of the family Anthracotheriidae, resembling a pig, found as fossils of Middle Tertiary age.

anthranilic /anθrəˈnɪlɪk/ *adjective.* M19.
[ORIGIN from Greek *anthrax* coal + ANIL + -IC: app. so called because of a dark blue-black substance intermediate in its first preparation.]
CHEMISTRY. ***anthranilic acid***, a colourless or yellow crystalline compound first obtained by alkaline hydrolysis of indigo; *o*-aminobenzoic acid, $C_7H_7NO_2$.
■ **an'thranilate** *noun* a salt or ester of this acid M19.

anthraquinone /ˈanθrəkwɪnəʊn/ *noun.* L19.
[ORIGIN from ANTHRA(CENE + QUINONE.]
CHEMISTRY. A yellow crystalline quinone, $C_{14}H_8O_2$, which is obtained by oxidation of anthracene, and is the basis of many natural and synthetic dyes. Also, any of various other quinones with similar structures.

anthrax /ˈanθraks/ *noun.* LME.
[ORIGIN Latin = carbuncle, from Greek *anthrax*, *anthrak-* coal, carbuncle.]
MEDICINE. **1** A carbuncle, a pustule. Now *rare* or *obsolete*. LME.
2 Infection with the bacterium *Bacillus anthracis*, which in animals (esp. sheep and cattle) usu. takes the form of a fatal acute septicaemia, and in humans usu. affects the skin, causing development of a pustule, or the lungs, causing wool-sorters' disease, a form of pneumonia. L19.

anthropic /anˈθrɒpɪk/ *adjective.* M19.
[ORIGIN Greek *anthrōpikos*, formed as ANTHROPO-: see -IC.]
Of or pertaining to humankind; human.
anthropic principle the cosmological principle that theories of the origin of the universe are constrained by the necessity to allow individual human existence.
■ **anthropically** *adverb* M20.

anthropo- /ˈanθrəpəʊ/ *combining form* of Greek *anthrōpos* human being: see -O-.
■ **anthropo'genic** *adjective* (***a***) of or pertaining to anthropogeny; (***b***) originated by humans: L19. **anthropo'genically** *adverb* L20. **anthro'pogeny** *noun* the investigation of the origin of humans M19. **anthropogeo'graphical** *adjective* of or pertaining to anthropogeography M17. **anthropoge'ography** *noun* human geography; geographical anthropology: L19. †**anthropography** *noun* an anatomical or ethnographic description L16–M19. **anthro'polatry** *noun* worship of a human being M17. **anthro'ponymy** *noun* the study of persons' names M20. **anthropo'psychism** *noun* the ascription of human mental characteristics to a divine being or agencies at work in nature L19. **anthropo'sophical** *adjective* of or pertaining to anthroposophy E20. **anthro'posophist** *noun* an adherent or advocate of anthroposophy E20. **anthro'posophy** *noun* (***a***) the knowledge of the nature of humans; human wisdom; (***b***) a movement inaugurated by Rudolf Steiner (1861–1925) to develop the faculty of cognition and the realization of spiritual reality: M18. **anthropo'tomical** *adjective* (now *rare*) of or in human anatomy M19. **anthro'potomist** *noun* (now *rare*) a person who studies human anatomy M19. **anthro'potomy** *noun* (now *rare*) the anatomy of the human body M19.

anthropocentric /anθrəpəˈsɛntrɪk/ *adjective.* M19.
[ORIGIN from ANTHROPO- + -CENTRIC.]
Centring in humans; regarding humanity as the central fact of the universe.
■ **anthropocentrically** *adverb* M20. **anthropocentricism** /-sɪz(ə)m/, **anthropocentrism** *nouns* an anthropocentric view or doctrine E20.

anthropoid /ˈanθrəpɔɪd/ *adjective & noun.* M19.
[ORIGIN Greek *anthrōpoeidēs*, formed as ANTHROPO-: see -OID.]
▸ **A** *adjective.* **1** Of human shape; *spec.* of or pertaining to the primate suborder Anthropoidea, comprising humans, apes, and monkeys. M19.
anthropoid ape a large ape of the family Pongidae; a gorilla, orang-utan, or chimpanzee.
2 Apelike. *colloq.* M20.
▸ **B** *noun.* A being that is human in form only; *esp.* an anthropoid ape. M19.
■ **anthro'poidal** *adjective* M19.

anthropolite /anˈθrɒp(ə)lʌɪt/ *noun*. Now *rare* or *obsolete*. L18.
[ORIGIN from ANTHROPO- + -LITE.]
A petrified human being; a human fossil.

anthropological /anθrəpəˈlɒdʒɪk(ə)l/ *adjective*. E19.
[ORIGIN formed as ANTHROPOLOGY + -ICAL.]
Of, pertaining to, or connected with anthropology; relating to the nature of humankind.
■ **anthropologic** *adjective* anthropological L17. **anthropologically** *adverb* L19.

anthropology /anθrəˈpɒlədʒi/ *noun*. L16.
[ORIGIN from ANTHROPO- + -LOGY.]
The science of humankind, in the widest sense.
cultural anthropology = *social anthropology* below. **physical anthropology** the science of human zoology, evolution, and ecology. **social anthropology** the science of human social and cultural behaviour and its development.
■ **anthropologist** *noun* L18. **anthropologize** *verb intrans.* (*colloq.*) study anthropology M20.

anthropometric /anθrəpəˈmɛtrɪk/ *adjective & noun*. L19.
[ORIGIN from ANTHROPOMETRY + -IC.]
▸ **A** *adjective*. Of or pertaining to anthropometry. L19.
▸ **B** *noun*. In *pl.* (treated as *sing.*). Anthropometry, now esp. as used in designing furniture and machinery. L19.
■ **anthropometrical** *adjective* L19. **anthropometrically** *adverb* L19.

anthropometry /anθrəˈpɒmɪtri/ *noun*. M19.
[ORIGIN from ANTHROPO- + -METRY.]
The branch of science that deals with the measurement and proportions of the human body and their variation.
■ **anthropometer** *noun* an instrument used in anthropometry L19. **anthropometrist** *noun* a person engaged in anthropometry L19.

anthropomorph /anˈθrɒpəmɔːf, ˈanθrə-/ *noun*. L19.
[ORIGIN formed as ANTHROPOMORPHOUS.]
ART. A representation of the human form.

anthropomorphic /anθrəpəˈmɔːfɪk/ *adjective*. E19.
[ORIGIN formed as ANTHROPOMORPH + -IC.]
1 Of the nature of anthropomorphism. E19.
2 Having or representing a human form. L19.
■ **anthropomorphical** *adjective* M19. **anthropomorphically** *adverb* M19.

anthropomorphise *verb* var. of ANTHROPOMORPHIZE.

anthropomorphism /anθrəpəˈmɔːfɪz(ə)m/ *noun*. M18.
[ORIGIN formed as ANTHROPOMORPHOUS + -ISM.]
Ascription of human form, attributes, or personality to God, a god, an animal, or something impersonal; an instance of this.
■ **anthropomorphist** *noun* a person who uses anthropomorphism M19.

anthropomorphite /anθrəpəˈmɔːfʌɪt/ *noun & adjective*. Also **A-**. LME.
[ORIGIN ecclesiastical Latin *anthropomorphitae* pl. from ecclesiastical Greek *anthrōpomorphitai*, formed as ANTHROPOMORPHOUS: see -ITE¹.]
(Designating) a member of a religious sect ascribing a human form to God.
■ **anthropomorphitic** *adjective* M19. †**anthropomorphitical** *adjective* L17–M18. **anthropomorphitism** *noun* the doctrine of anthropomorphites; anthropomorphism: M17.

anthropomorphize /anθrəpəˈmɔːfʌɪz/ *verb*. Also **-ise**. M19.
[ORIGIN formed as ANTHROPOMORPHOUS + -IZE.]
1 *verb trans.* Render or regard as human in form. M19.
2 *verb intrans.* Use anthropomorphism. M19.
■ **anthropomorphization** *noun* L19.

anthropomorphous /anθrəpəˈmɔːfəs/ *adjective*. M18.
[ORIGIN from Greek *anthrōpomorphos*, formed as ANTHROPO- + *morphē* form: see -OUS.]
Of human form.

anthropopathy /anθrəˈpɒpəθi/ *noun*. M17.
[ORIGIN from ANTHROPO- + -PATHY.]
Ascription of human emotions to God.
■ **anthropopathism** *noun* = ANTHROPOPATHY M19. **anthropopathic** *adjective* E19. **anthropopathically** *adverb* M19.

anthropophagi /anθrəˈpɒfəgʌɪ, -dʒʌɪ/ *noun pl.* Sing. (*rare*) **-gus** /-gəs/. M16.
[ORIGIN Latin *anthropophagus*, *-gi* from Greek *anthrōpophagos* man-eating, formed as ANTHROPO-: see -PHAGOUS.]
Cannibals.
■ †**anthropophaginian** *noun* (*rare*, Shakes.) a cannibal: only in L16. **anthropophagite** *noun* a habitual cannibal M16.

anthropophagy /anθrəˈpɒfədʒi/ *noun*. M17.
[ORIGIN Greek *anthrōpophagia*, formed as ANTHROPOPHAGI: see -Y³.]
Cannibalism.
■ **anthropophagous** /-gəs/ *adjective* cannibal M19.

anthurium /anˈθ(j)ʊərɪəm/ *noun*. M19.
[ORIGIN mod. Latin (see below), from Greek *anthos* flower + *oura* tail.]
Any of various tropical American plants of the genus *Anthurium* (family Araceae), several of which are grown for their ornamental foliage or brightly coloured flowering spathes.

†**anthypophora** *noun*. M16–M18.
[ORIGIN Latin from Greek *anthupophora*, formed as ANTH- + *hupophora* allegation.]
RHETORIC. A counter-inference, a contrary allegation.

anti /ˈanti/ *noun, adjective, & preposition*. L18.
[ORIGIN independent use of ANTI-.]
▸ **A** *noun*. A person who is antagonistic or opposed to something or someone. L18.
▸ **B** *adjective*. Antagonistic, opposed. M19.
▸ **C** *preposition*. Antagonistic or opposed to, against. M20.

anti- /ˈanti/ *prefix*. Also **ant-** before a vowel or *h* (see ANTH-).
[ORIGIN Greek = opposite, against, in exchange, instead, representing, rivalling, simulating.]
Used in words adopted (ult.) from Greek and in English words modelled on these, and as a freely productive prefix with the sense 'opposite, against, preventing', forming (***a***) nouns from nouns, as ***antibody***, ***anticlimax***, ***antidemocrat***; also with the senses 'rival, pseudo-', as ***Antichrist***, ***antipope***, 'the reverse of, unlike the conventional', as ***anti-hero***, ***antinovel***, and (with suffix *-ism*, *-ist*) '(the doctrine of) a person opposed to', as ***anti-Americanism***, ***anti-feminism***, ***anti-feminist***, ***anti-imperialism***, ***anti-imperialist*** (those in *-ist* also used attrib. or as adjective); in *PHYSICS* designating an antiparticle of a specified particle, as ***antineutrino***, ***antineutron***, ***antiproton***, ***antiquark***; in *BIOLOGY & MEDICINE* designating substances which counteract or inhibit the effect of another substance, as ***anticholinesterase***, ***antihormone***, ***antivitamin***; in *CHEMISTRY* (usu. italicized) designating geometrical isomers of organic compounds containing C=N or N=N in which the principal atoms or groups attached to the doubly bonded atoms are on opposite sides of the plane of the double bond (opp. *syn-*); (***b***) adjectives from adjectives, the prefix acting as a preposition governing the noun implied, as ***anti-American***, ***anti-colonial***, ***antimalarial***, ***anti-papal***, ***anti-parliamentary***, ***anti-revolutionary***, ***anti-Semitic***, (these can further form adverbs where appropriate); these adjectives can be used ellipt. as nouns, esp. *MEDICINE* designating a drug or other agent counteracting the noun implied, as ***anticonvulsant***, ***antidepressant***; (***c***) adjectives from nouns in attrib. use, as ***anti-apartheid*** (demonstration etc.), ***anti-combination*** (laws etc.), ***anti-court*** (party etc.), ***anti-missile*** (missile etc.), ***anti-noise*** (regulations etc.), ***anti-roll*** (bar etc.), ***anti-slavery*** (society etc.), ***anti-union*** (feeling etc.), ***anti-war*** (literature, party, etc.).
■ **anti-abortion** *adjective* opposed to abortion on demand L20. **anti-aborti·onist** *noun & adjective* (a person who is) anti-abortion L20. **anti-ˈaircraft** *adjective & noun* (a gun etc.) for defence against hostile aircraft E20. **anti-ˈaliasing** *noun* (*COMPUTING*) the process of smoothing curved or inclined lines that have been drawn on a computer screen by means of pixels in a fixed array and therefore appear artificially jagged L20. **anti-ˈattrition** *noun* (now *rare*) something which resists the effects of friction E19. **antibacˈterial** *adjective* active against bacteria E20. **antiˈbilious** *adjective* (now *rare*) of use against biliousness E19. **Anti-ˈBirmingham** *noun* (*ENGLISH HISTORY*) an opponent of the 1680 Exclusion Bill, a Tory (cf. BIRMINGHAM) L17. **Antiˈburgher** *noun* (*hist.*) a member of the section of the Secession Church in Scotland which held it unscriptural to take the burgess oath (cf. BURGHER 2) M18. **anti-ˈbusing**, ***-bussing** /-bʌsɪŋ/ *adjective* (*US*) opposed to the counteracting of racial segregation by transporting pupils in buses to more distant schools M20. **antiˈcathode** *noun* in an X-ray tube, the target on which electrons from the cathode impinge, producing X-rays E20. **antiˈcatholic**, **anti-ˈCatholic** *adjective & noun* (a person) opposed to what is catholic or (*esp.*) Roman Catholic M17. **anti-ˈchoice** *adjective* opposed to granting choice, *spec.* to granting pregnant women the right to choose abortion L20. **antiˈclerical** *adjective & noun* (a person who is) opposed to clerical rule or influence, esp. in politics M19. **antiˈclericalism** *noun* opposition to clerical rule or influence L19. **antiˈclockwise** *adjective & adverb* in a direction of movement opposite to that of the hands of a clock, moving in a curve from right to left as seen from a central position L19. **antiˈcodon** *noun* (*BIOCHEMISTRY*) a triplet of nucleotides forming a unit of genetic code in transfer RNA, corresponding to a complementary codon in messenger RNA. **anticoˈdonic** *adjective* of or pertaining to an anticodon L20. **anticomˈpetitive** *adjective* tending to suppress (esp. economic) competition M20. **anticonˈvulsant** *adjective & noun* (a medicine) that prevents or retards convulsions M20. **antide pressant** *adjective & noun* (a drug) that alleviates the symptoms of depression M20. **antidiaˈrrhoeal** *adjective & noun* (a drug) used to alleviate diarrhoea M20. **antidiuˈretic** *adjective & noun* (a drug) that tends to inhibit the secretion of urine (***antidiuretic hormone*** = VASOPRESSIN; abbreviation *ADH*) E20. **antifeˈbrific** *adjective & noun* (now *rare*), **antiˈfebrile** *noun & adjective* (a medicine) of use against fever M17. **antiˈfeedant** *noun* a naturally occurring substance in certain plants which adversely affects insects or other animals which eat the plants M20. **antiform** *noun* (*GEOLOGY*) a fold that is convex upwards, irrespective of the chronological sequence of the strata (opp. *synform*) M20. **antifouling** *noun* the prevention of fouling of a ship's hull; a paint or other substance applied in order to prevent fouling: M19. **antifreeze** *adjective & noun* (designating) a chemical agent added to water in order to lower the freezing point, esp. for use in the radiator of an engine E20. **antiˈfriction** *noun & adjective* (a substance) that reduces friction M19. **antiˈfungal** *adjective & noun* (a substance) active against fungi or fungal growth M20. **anti-ˈGallican** *adjective & noun* (a person) opposed to what is French M18. **anti-ˈGallicanism** *noun* opposition or aversion to the French E19. **antiglobaliˈzation** *noun* opposition to the increase in global power and influence of businesses etc. L20. **anti-god** *noun* (***a***) a rival god; (***b***) an evil demon or devil: M17. **anti-hero** *noun* a person, esp. the chief character in a novel etc., who is the opposite of or unlike a conventional hero E18. **anti-heroine** *noun* an untypical or unconventional heroine E20. **antiˈhistamine** *noun & adjective* (a drug) that counters the physiological effects of histamine, esp. in some allergies M20. **ˌantihistaˈminic** *adjective & noun* = ANTIHISTAMINE M20. **antihyˈsteric** *noun & adjective* (now *rare*) (a medicine) of use against hysteria M18. **antihyˈsterical** *adjective* (*rare*) = ANTIHYSTERIC *adjective* M17. **anti-ˈJacobin** *adjective & noun* (a person) opposed to the Jacobins (1789) or to the French Revolution E19. **anti-knock** *noun & adjective* (designating) a substance added to motor fuel to prevent detonation in the engine E20. **anti-life** *noun & adjective* (a principle or attitude) opposed to living fully and harmoniously with the natural order E20. **anti-lock**, **anti-locking** *adjectives* (of a vehicle braking system) designed to prevent the wheels from locking L20. **antimaˈlarial** *adjective & noun* (a drug) of use against malaria M20. **antimatter** *noun* (*PHYSICS*) matter whose elementary particles are the antiparticles of those (electrons, protons, etc.) making up normal matter M20. **antime tabolite** *noun* a substance resembling a metabolite and interfering with normal metabolic processes M20. **antimiˈcrobial** *adjective & noun* (a substance) active against microbes M20. †**antimonarchial** *adjective* = ANTIMONARCHICAL L17–M18. †**antimonarchic** *adjective* = ANTIMONARCHICAL M17–M18. **antimoˈnarchical** *adjective* opposed to monarchy E17. **antiˈmonarchist** *noun* a professional opponent of monarchs and monarchy M17. **anti- national** *adjective* opposed to one's own nation or to a national party E19. **antineoˈplastic** *noun & adjective* (a drug) that suppresses neoplasia M20. †**antinephritic** *adjective & noun* (a medicine) of use against kidney disease L17–M19. †**antinephritical** *adjective* of use against kidney disease: only in M17. **antinode** *noun* (*PHYSICS*) a point or line at which the amplitude of a vibrating system is a maximum L19. **antinovel** *noun* a novel of an unconventional, often experimental, type M20. **anti-ˈnuclear** *adjective* opposed to nuclear weapons M20. **anti-odonˈtalgic** *adjective* (*rare*) of use against toothache E19. **antiˈoxidant** *noun & adjective* (an agent) that inhibits oxidation M20. **antiˈparallel** *adjective* (chiefly *PHYSICS*) parallel but moving or oriented in opposite directions M17. **antiparticle** *noun* (*PHYSICS*) an elementary particle having the same mass as a given particle but an opposite electrical charge, or (in the case of an uncharged particle) an opposite magnetic moment; a particle of antimatter: M20. **antiperiˈstaltic** *adjective* (*PHYSIOLOGY*) acting contrary to peristaltic motion E18. **antiperˈsonnel** *adjective* (of bombs, weapons, etc.) designed to kill, injure, or obstruct human beings M20. **antiˈperspirant** *noun & adjective* (a substance) tending to inhibit perspiration M20. †**antipestilential** *adjective* of use against pestilence M17–E19. **antiphase** *noun* (*PHYSICS*) opposite phase, when difference in phase is at a maximum (i.e. 180° out of phase) M20. **antipole** *noun* the opposite pole; *fig.* the direct opposite: E19. **antipruˈritic** *noun & adjective* (a substance) that relieves itching L19. **antipsyˈchotic** *noun & adjective* (a drug) used to treat psychotic disorders L20. **antipyˈretic** *noun & adjective* (a medicine) that tends to reduce fever L17. **antiraˈchitic** *adjective* (*MEDICINE*) preventing or curing rickets M19. **antiˈretroviral** *noun & adjective* (a drug) that inhibits the activity of retroviruses such as HIV M20. **antiˈresonance** *noun* (*PHYSICS*) a condition in which an interaction or a response has a minimum value E20. **ˌantisabbaˈtarian** *adjective & noun* (a person) opposed to the observance of the Sabbath M17. **antiscorˈbutic** *adjective & noun* (a medicine) that prevents or cures scurvy M17. †**antiscorbutical** *adjective* = ANTISCORBUTIC *adjective* M17–M18. **anti scriptural** *adjective* opposed to Scripture L17. †**antiscripturist** *noun* a person who denies the truth and authority of Scripture M17–M18. **anti-self** *noun* an adopted persona that is the opposite of the conscious normal self E20. **anti-ˈSemite** *noun*, **anti-Seˈmitic** *adjective* (a person) hostile to Jews L19. **anti-ˈSemitism** *noun* hostility or opposition to Jews L19. **antiserum** *noun*, pl. **-ra**, **-rums**, *MEDICINE* a serum containing antibodies, usu. for a particular antigen E20. **antispasˈmodic** *adjective & noun* (*MEDICINE*) (a medicine) of use against involuntary-muscle spasm L17. **antiˈstatic** *adjective* counteracting the effects of static electricity M20. **ˌantisyphiˈlitic** *noun & adjective* (a medicine) of use against syphilis M19. **antiˈterrorism** *noun* opposition to or measures against terrorism L19. **antiˈterrorist** *adjective* opposing terrorism M20. **antite tanic** *noun & adjective* (a drug) that counteracts or prevents tetanus L19. **antiˈtheism** *noun* opposition to belief in the existence of a god M19. **anti-ˈtheist** *noun* a person opposed to belief in the existence of a god M19. **antitheˈistic** *adjective* of or pertaining to antitheists, opposed to belief in a god M19. **antiˈtoxic** *adjective* (*PHYSIOLOGY*) of the nature of, pertaining to, or containing an antitoxin L19. **antitoxin** *noun* (*PHYSIOLOGY*) an antibody effective against an antigenic (usu. bacterial) toxin L19. **antitrade** *noun* (*METEOROLOGY*) (more fully ***antitrade wind***) orig., any of the prevailing westerly winds of middle latitudes; now, a contrary wind blowing at a high altitude above the trade wind: M19. **antitragus** *noun*, pl. **-gi** /-gʌɪ, -dʒʌɪ/, *ANATOMY* a small cartilaginous projection above the lobe of the ear, opposite the tragus M19. **ˌantitriniˈtarian** *noun & adjective* (a person) opposed to the doctrine of the Trinity E17. **antiˈtrust** *adjective* (*US*) opposed to trusts or similar monopolistic combinations L19. **antiˈtussive** *adjective & noun* (a drug) that cures or relieves a cough E20. **antiveˈnene** *noun* an antiserum for a snake venom or other animal poison L19. **antiˈvenin** *noun* = ANTIVENENE E20. **antiˈviral** *adjective* acting against viruses L20. **antiˈvirus** *noun* an antiviral agent M20.

†**anti-apex** *noun* see ANTAPEX.

antibiosis /ˌantɪbʌɪˈəʊsɪs/ *noun*. L19.
[ORIGIN from ANTI- + SYM]BIOSIS *noun*.]
BIOLOGY. Antagonism between organisms (opp. ***symbiosis***); *esp.* the action of antibiotics.

antibiotic /ˌantɪbʌɪˈɒtɪk/ *adjective & noun*. M19.
[ORIGIN from ANTI- + Greek *biōtikos* fit for life, from *bios* life: see -OTIC.]
▸ **A** *adjective*. †**1** Doubting the possibility of life (in a particular environment). M–L19.
2 Harmful to or destructive of living matter, esp. microorganisms; of or pertaining to antibiotics. L19.
▸ **B** *noun*. A substance which is capable of destroying or inhibiting the growth of bacteria or other microorganisms; *spec.* one that is produced by another microorganism (or is a synthetic analogue of a microbial product), and is used therapeutically. M20.

A

– NOTE: Rare before M20.

antibody /'antɪbɒdi/ *noun*. E20.
[ORIGIN from ANTI- + BODY *noun*, translating German *Antikörper*.]
PHYSIOLOGY. A protein produced in the body which reacts with a given antigen (whose introduction usu. stimulates its formation).
– COMB.: **antibody-negative**, **antibody-positive** *adjectives* in which antibodies associated with a particular antigen (esp. with HIV) are absent or present.

antic /'antɪk/ *noun*, *adjective*, & *verb*. Also †**antique**. See also ANTIQUE. E16.
[ORIGIN Italian *antico* ancient, from Latin *antiquus*, *anticus* ANTIQUE, used in English = *grottesco*: see GROTESQUE.]

5 The using of money before it is at one's disposal; a sum so used in advance. M16.
†**6** Prepossession, prejudice. M17–E18.
7 Contemplation or consideration in advance; the action of looking forward to something; (esp. eager or pleasurable) expectation. E18.

T. C. WOLFE He felt a thrill of pleasurable anticipation.

anticlimax /antɪ'klʌɪmaks/ *noun*. E18.
[ORIGIN from ANTI- + CLIMAX *noun*.]
1 *RHETORIC*. The addition of a particular which, against expectation, suddenly lowers the effect; the opposite of climax. E18.
2 An ineffective end where a climax is expected; a descent contrasting with a previous rise. E19.
■ **ˌanticli'mactic** *adjective* of the nature of an anticlimax L19. **ˌanticli'mactically** *adverb* E20.

anticlinal /antɪ'klʌɪn(ə)l/ *adjective*. E19.
[ORIGIN from ANTI- + Greek *klinein* to lean, slope + -AL¹.]
1 *GEOLOGY*. Pertaining to or of the nature of an anticline. Opp. *synclinal*. E19.
2 *ANATOMY*. Of a vertebra: having an upright spine, towards which the spines of adjacent vertebrae incline. L19.
3 *BOTANY*. Of a cell wall etc.: perpendicular to the surface of the meristem. Of growth: taking place by the formation of anticlinal walls. Opp. *periclinal*. L19.
■ **anticlinally** *adverb* M19.

anticline /'antɪklʌɪn/ *noun*. M19.
[ORIGIN formed as ANTICLINAL after INCLINE *noun*.]
GEOLOGY. A fold from whose axis the strata incline downwards on either side. Opp. SYNCLINE.
■ **anticli'norium** *noun*, pl. **-ria** /-rɪə/, a system of folds which has an overall anticlinal form L19.

anticoagulant /ˌantɪkəʊ'agjʊl(ə)nt/ *adjective* & *noun*. E20.
[ORIGIN from ANTI- + COAGULANT.]
(A substance) that inhibits coagulation of the blood.
■ **anticoagulate** *verb trans.* treat with an anticoagulant M20. **anticoagu'lation** *noun* M20.

anticyclone /antɪ'sʌɪkləʊn/ *noun*. M19.
[ORIGIN from ANTI- + CYCLONE.]
METEOROLOGY. A pressure system characterized by a high central barometric pressure and a slow clockwise (northern hemisphere) or anticlockwise (southern hemisphere) circulation.
■ **anticy'clonic** *adjective* of, pertaining to, of the nature or characteristic of an anticyclone L19. **anticy'clonically** *adverb* L19.

antidoron /antɪ'dɔːrɒn/ *noun*. M19.
[ORIGIN Greek *antidōron*, formed as ANTI- + *dōron* gift.]
ORTHODOX CHURCH. The unconsecrated bread remaining after the Eucharistic Liturgy, blessed by the priests and given to non-communicants as well as communicants.

†**antidotary** *noun* & *adjective*. LME.
[ORIGIN medieval Latin *antidotarius*, *-um*, from *antidotum*: see ANTIDOTE *noun*, -ARY¹. Cf. French *antidotaire*.]
▸**A** *noun*. A book describing antidotes; also, a dispensary. LME–E18.
▸**B** *adjective*. Of the nature of an antidote. L16–M17.

antidote /'antɪdəʊt/ *noun*. LME.
[ORIGIN French, or Latin *antidotum* from Greek *antidoton* use as noun of neut. of *antidotos*, formed as ANTI- + *do-* stem of *didonai* give.]
1 A medicine given to counteract the effects of a poison (or, formerly, a disease). (Foll. by *against*, *for*, *to*.) LME.
2 *fig.* Something which counteracts an evil. (With constructions as sense 1.) M16.
■ **antidotal** *adjective* pertaining to or of the nature of an antidote M17.

antidote /'antɪdəʊt/ *verb trans.* M17.
[ORIGIN from ANTIDOTE *noun*, after medieval Latin *antidotare*, French *antidoter*.]
†**1** Provide with an antidote; fortify against an evil. M17–E18.
2 Administer an antidote against; counteract (a poison, an evil). M17.

antidromic /antɪ'drəʊmɪk/ *adjective*. E20.
[ORIGIN from ANTI- + Greek *dromos* running + -IC.]
PHYSIOLOGY. Of an impulse: travelling in the opposite direction to that normal in a nerve fibre. Opp. ORTHODROMIC 2.
■ **antidromically** *adverb* E20.

anti-emetic /ˌantɪ'mɛtɪk/ *noun* & *adjective*. Also †**antemetic**. E18.
[ORIGIN from ANTI- + EMETIC.]
(A medicine) serving to prevent vomiting.

antiferromagnetic /ˌantɪferəʊmag'nɛtɪk/ *adjective*. M20.
[ORIGIN from ANTI- + FERROMAGNETIC.]
PHYSICS. Designating or exhibiting a form of magnetism characterized by an antiparallel alignment of adjacent electron spins in a crystal lattice.
■ **ˌantiferro magnet** *noun* an antiferromagnetic substance M20. **antiferro'magnetism** *noun* M20.

anti-g /antɪ'dʒiː/ *adjective*. M20.
[ORIGIN from ANTI- + *g* = acceleration due to gravity.]
Of clothing (for pilots etc.): designed to counter the effects of high acceleration.

antigen /'antɪdʒ(ə)n/ *noun*. E20.
[ORIGIN German from French *antigène*, formed as ANTI-, -GEN.]
PHYSIOLOGY. A foreign substance which, when introduced into the body, stimulates the production of an antibody.
■ **anti'genic** *adjective* of the nature of or pertaining to an antigen E20. **anti'genically** *adverb* M20. **antige'nicity** *noun* M20.

antigorite /an'tɪgərʌɪt/ *noun*. M19.
[ORIGIN from *Antigorio*, a valley in Piedmont, Italy + -ITE¹.]
MINERALOGY. A magnesium silicate mineral of the serpentine group, occurring usu. as thin green plates.

antigravity /antɪ'gravɪti/ *adjective* & *noun*. E20.
[ORIGIN from ANTI- + GRAVITY.]
▸**A** *adjective*. Acting in opposition to the effects of gravity or of high acceleration; (of muscles) serving to maintain the erect posture of the body. E20.
▸**B** *noun*. A (hypothetical) force opposed to that of gravity. M20.
■ Also **anti-grav** *adjective* & *noun* (*colloq.*) M20.

Antiguan /an'tiːg(w)ən/ *adjective* & *noun*. M19.
[ORIGIN from *Antigua* (see below) + -AN.]
(A native or inhabitant) of the W. Indian island of Antigua, part of the country Antigua and Barbuda.

antihelix *noun* var. of ANTHELIX.

Antillean /an'tɪlɪən/ *adjective*. L19.
[ORIGIN from *Antilles* (see below) + -AN.]
Of or pertaining to the Antilles, a group of islands in the W. Indies.

antilog /'antɪlɒg/ *noun*. *colloq*. E20.
[ORIGIN Abbreviation.]
= ANTILOGARITHM.

antilogarithm /antɪ'lɒgərɪð(ə)m/ *noun*. M17.
[ORIGIN from ANTI- + LOGARITHM.]
MATH. †**1** The logarithm of the complementary trigonometrical function (to a sine etc.), or the complement of the logarithm of a sine etc. *rare*. M17–L18.
2 The number to which a given logarithm belongs. L17.
■ **ˌantiloga'rithmic** *adjective* of or pertaining to antilogarithms M18.

antilogism /an'tɪlədʒɪz(ə)m/ *noun*. E20.
[ORIGIN from Greek *antilogia* (see ANTILOGY) + -ISM: cf. late Greek *antilogismos*.]
LOGIC. A set of three propositions which cannot be true together.

antilogy /an'tɪlədʒi/ *noun*. E17.
[ORIGIN French *antilogie* (= medieval Latin *antilogium*, *-gia*) from Greek *antilogia* contradiction, from ANTI- + *-logia* -LOGY.]
A contradiction in terms or ideas.

antilopine /an'tɪləpʌɪn/ *adjective*. Also **ante-**. E19.
[ORIGIN from mod. Latin *antilopus* ANTELOPE + -INE¹.]
Pertaining to or characteristic of an antelope; of the nature of or resembling an antelope.

antimacassar /ˌantɪmə'kasə/ *noun*. Now chiefly *hist*. M19.
[ORIGIN from ANTI- + MACASSAR.]
A cover put over the backs (and arms) of chairs etc. as a protection against grease or as an ornament.
■ **antimacassared** *adjective* covered or adorned with an antimacassar E20.

antimasque /'antɪmɑːsk/ *noun*. Also **-mask**. E17.
[ORIGIN from ANTI- + MASQUE *noun*.]
A grotesque interlude as a contrast, given between the acts of a masque.
■ **antimasquer** *noun* a performer in an antimasque M17.

antimeric /antɪ'mɛrɪk/ *adjective*. L19.
[ORIGIN from Greek ANTI- opposite + *meros* part + -IC.]
Characterized by the existence of or designating forms which are mirror images of each other.
■ **'antimer(e)** *noun* either of a pair of antimeric forms; an enantiomorph: L19.

antimonate /'antɪmənɛɪt, antɪ'məʊnɛɪt/ *noun*. M19.
[ORIGIN from ANTIMONY + -ATE¹.]
CHEMISTRY. A salt of antimonic acid.
■ Also **anti'moniate** *noun* (now *rare*) E19.

antimonial /antɪ'məʊnɪəl/ *adjective & noun*. E17.
[ORIGIN from ANTIMONY + -AL¹.]
▸ **A** *adjective*. Of or pertaining to antimony; containing antimony. E17.
▸ **B** *noun*. A medicine containing antimony E18.
■ **antimonian** *adjective* = ANTIMONIAL *adjective*; *esp.* (*MINERALOGY*) containing antimony: M17.

antimonic /antɪ'mɒnɪk/ *adjective*. E19.
[ORIGIN from ANTIMONY + -IC.]
CHEMISTRY. Of pentavalent antimony.
antimonic acid a colloidal acid, $HSb(OH)_6$ (approx.), formed e.g. when antimony pentachloride is hydrolysed.

antimonide /'antɪmənʌɪd, antɪ'məʊ-/ *noun*. M19.
[ORIGIN from ANTIMONY + -IDE.]
CHEMISTRY. A compound of antimony with a more electropositive element.

antimonious /antɪ'məʊnɪəs/ *adjective*. E19.
[ORIGIN from ANTIMONY + -OUS.]
CHEMISTRY. Of trivalent antimony.
antimonious acid the hypothetical parent acid of antimonites.

antimonite /'antɪmənʌɪt, antɪ'məʊnʌɪt/ *noun*. E19.
[ORIGIN from ANTIMONY + -ITE¹.]
1 *CHEMISTRY*. A salt formed (as) by reaction of antimony trioxide with alkalis. E19.
2 *MINERALOGY*. = STIBNITE. *rare*. M19.

antimony /'antɪmənɪ/ *noun*. LME.
[ORIGIN medieval Latin *antimonium*, of unknown origin.]
1 The mineral stibnite, Sb_2S_3. *obsolete* exc. as in phrs. below. LME.
2 A brittle silvery-white metalloid chemical element, atomic no. 51, of which stibnite is the chief ore, used in many alloys (e.g. type metal) (symbol Sb). E19.
– PHRASES: **black antimony** (***a***) *arch.* stibnite; (***b***) an unstable non-metallic allotrope of antimony. ***glass of antimony***: see GLASS *noun*. **grey antimony** *arch.* stibnite. ***REGULUS of antimony***. **white antimony** *arch.* antimony trioxide, Sb_2O_3.
– COMB.: **antimony ochre** cervantite or a similar mineral; antimony tetroxide, Sb_2O_4.
■ **anti'moniated** *adjective* combined or impregnated with antimony E18.

antinomian /antɪ'nəʊmɪən/ *adjective & noun*. M17.
[ORIGIN from medieval Latin *Antinomi*, name of the sect, formed as ANTINOMY, + -AN.]
▸ **A** *adjective*. Opposed to the obligatoriness of moral law; of or pertaining to the antinomians. M17.
▸ **B** *noun*. A person who maintains that the moral law is not binding on Christians; *spec.* a member of a 16th-cent. sect in Germany alleged to hold this opinion. M17.
■ **antinomianism** *noun* M17.

antinomy /an'tɪnəmɪ/ *noun*. L16.
[ORIGIN Latin *antinomia* from Greek, formed as ANTI- + *nomos* law: see -Y³. Cf. French *antinomie*.]
1 A contradiction in a law, or between two laws; a conflict of authority. L16.
†**2** A contradictory law or principle. Only in M17.
3 (After Kant.) A paradox; intellectual contradictoriness. L18.
■ **anti'nomic** *adjective* (*rare*) M19. **anti'nomical** *adjective* (*rare*) L19.

Antiochene /an'tʌɪəkiːn/ *noun & adjective*. M19.
[ORIGIN Latin *Antiochenus*, from *Antiochia* Antioch.]
ECCLESIASTICAL HISTORY. (An adherent) of the theological school represented by the church at Antioch in Syria in the 4th and 5th cents.
■ Also **Antiochian** /antɪ'ɒkɪən/ *adjective & noun* M19.

†**antipape** *noun* see ANTIPOPE.

antipasto /antɪ'pɑːstəʊ/ *noun*. Pl. **-ti** /-tiː/, **-tos**. M20.
[ORIGIN Italian, formed as ANTEPAST.]
An appetizer, an hors d'oeuvre.

antipathetic /ˌantɪpə'θɛtɪk/ *adjective*. M17.
[ORIGIN formed as ANTIPATHY, after PATHETIC.]
Having an antipathy or constitutional aversion; opposed in nature or tendency (*to*).
■ **antipathetical** *adjective* E17. **antipathetically** *adverb* M17.

antipathic /antɪ'paθɪk/ *adjective*. M19.
[ORIGIN from ANTIPATHY + -IC.]
Of or pertaining to antipathy; of a contrary nature or character (*to*).

antipathy /an'tɪpəθi/ *noun*. L16.
[ORIGIN French *antipathie* or Latin *antipathia* from Greek *antipatheia*, from *antipathēs* opposed in feeling, formed as ANTI- + PATHOS: see -Y³.]
†**1** Contrariety of feeling, nature, or disposition (*with* a thing, *between* things). L16–L17.

2 Of or pertaining to the Apocrypha. E17.

3 Sham, counterfeit. E17.

JONSON A whoreson, upstart, apocryphal captain.

▸†**B** *noun*. An apocryphal writing. Only in 17.

■ **apocryphally** *adverb* without authenticity M19.

apocynthion /apəˈsɪnθɪən/ *noun*. M20.

[ORIGIN from APO- + neut. of Greek *Kunthios* (adjective) designating Mount Cynthus: see CYNTHIA.]

ASTRONOMY. The point at which a spacecraft in lunar orbit is furthest from the moon's centre, after having been launched from the earth. Cf. APOLUNE.

†**apod** *adjective*. Also **-ode**. Only in 19.

[ORIGIN formed as APODAL: cf. French *apode*.]

ZOOLOGY. Apodous; apodal.

apodal /ˈapəd(ə)l/ *adjective & noun*. Now *rare* or *obsolete*. M18.

[ORIGIN from Greek *apod-*, *apous* without feet, from A-¹⁰ + *pous* foot, partly through mod. Latin *Apoda*, *Apodes* (taxonomic groupings): see APODAN, -AL¹.]

ZOOLOGY. ▸**A** *adjective*. Lacking feet; (of fish) lacking ventral fins. M18.

▸**B** *noun*. = APODAN. M19.

apodan /ˈapəd(ə)n/ *noun*. L19.

[ORIGIN from mod. Latin *Apoda*, an order (usu. called Gymnophiona) + -AN: see APODAL.]

ZOOLOGY. = CAECILIAN.

†**apode** *adjective* var. of APOD.

apodeictic *adjective* etc., **apodeixis** *noun*, see APODICTIC etc., APODIXIS.

apodeme /ˈapədiːm/ *noun*. M19.

[ORIGIN mod. Latin *apodema*, from Greek APO- + *demas* body, frame.]

ZOOLOGY. A hollow invagination of the cuticle of an arthropod, which serves as a point of attachment for muscle.

apodictic /apəˈdɪktɪk/ *adjective*. Also **-deictic** /-ˈdʌɪktɪk/. M17.

[ORIGIN Latin *apodicticus* from Greek *apodeiktikos*, from *apodeiknunai* demonstrate, from APO- + *deiknunai* show.]

Clearly demonstrated or established.

■ **apodictical** *adjective* (*arch.*) based on necessary truth, apodictic L16. **apodictically** *adverb* E17.

apodixis /apə(ʊ)ˈdɪksɪs/ *noun*. *rare*. Also **-deixis** /-ˈdʌɪksɪs/. L16.

[ORIGIN Latin from Greek *apodeiksis*, from *apodeiknunai*: see APODICTIC.]

Demonstration; proof.

apodosis /əˈpɒdəsɪs/ *noun*. Pl. **-oses** /-əsiːz/. E17.

[ORIGIN Late Latin from Greek, from *apodidonai* give back, from APO- + *didonai* give.]

GRAMMAR & RHETORIC. The concluding clause of a sentence; *spec.* the consequent clause of a conditional sentence. Opp. PROTASIS 2.

apodous /ˈapədəs/ *adjective*. E19.

[ORIGIN formed as APODAL + -OUS.]

ZOOLOGY. Without feet; having only rudimentary feet.

apodyterium /ˌapədɪˈtɪərɪəm/ *noun*. Pl. **-ria** /-rɪə/. E17.

[ORIGIN Latin from Greek *apodutērion*, from *apoduein* to strip.]

CLASSICAL HISTORY. A room adjacent to a bath or palaestra where clothes were deposited.

apoenzyme /apəʊˈɛnzʌɪm/ *noun*. M20.

[ORIGIN from APO- + ENZYME.]

BIOCHEMISTRY. The protein part of an enzyme, which is inactive unless combined with a coenzyme.

apogamy /əˈpɒgəmi/ *noun*. L19.

[ORIGIN from APO- + -GAMY.]

BOTANY. Asexual reproduction; *spec.* the production in some ferns etc. of a sporophyte directly from a prothallus without the union of gametes.

■ **apogamous** *adjective* characterized by or of the nature of apogamy L19. **apogamously** *adverb* L19.

apogee /ˈapədʒiː/ *noun*. Formerly also in Latin & Greek forms. L16.

[ORIGIN French *apogée* or mod. Latin *apog(a)eum* from Greek *apogaion*, *-geion* use as noun (sc. *diastēma* distance) of neut. of *apogaios*, *-geios* far from the earth, from APO- + *gaia*, *gē* earth.]

(Opp. PERIGEE.)

1 *ASTRONOMY*. The point furthest from the earth in the path of a body orbiting the earth. (Orig. also used with ref. to the sun and planets, viewed geocentrically.) L16.

†**2** The point in the sky at which the sun has the highest altitude at noon (i.e. at the summer solstice). E–M17.

3 *fig.* The furthest or highest point; the culmination, the climax. M17.

P. A. SCHOLES Beethoven's Ninth Symphony remains the apogee of the orchestral art. E. BOWEN This conversation we're having now . . seems to me the apogee of bad taste.

J. AUSTEN A short-necked, apoplectic sort of fellow.

▸**B** *noun.* A sufferer from apoplexy; a person liable to apoplexy. **L17.**
■ †**apoplectical** *adjective* **E17–E19. apoplectically** *adverb* **L19. apoplectiform** *adjective* (now *rare* or *obsolete*) having the form of apoplexy **M19.**

apoplex /'apəplɛks/ *noun & verb*. *arch.* **M16.**
[ORIGIN Late Latin *apoplexis* from Greek, var. of *apoplēxia*: see **APOPLEXY.**]
▸**A** *noun.* Apoplexy. **M16.**
▸**B** *verb trans.* Strike with apoplexy; benumb. **E17.**

apoplexy /'apəplɛksi/ *noun*. **LME.**
[ORIGIN Old French & mod. French *apoplexie* from late Latin *apoplexia* from Greek *apoplēxia*, from *apoplēssein* disable by a stroke, from **APO-** + *plēssein* strike.]
1 A sudden loss of sensation and movement due to a disturbance of blood supply to the brain; a stroke. **LME.**
2 With specifying word: a haemorrhage or failure of blood supply in another organ or part. Now *rare* or *obsolete*. **M19.**

apoprotein /'apəʊprəʊtiːn/ *noun*. **L20.**
[ORIGIN from **APO-** + **PROTEIN.**]
BIOCHEMISTRY. A protein which together with a prosthetic group forms a particular biochemical molecule such as a hormone or enzyme.

apoptosis /apəp'təʊsɪs/ *noun*. **E19.**
[ORIGIN Greek *apoptōsis* lit. 'falling away or off', formed as **APO-** + **PTOSIS.**]
1 *MEDICINE.* Loosening (of a bandage, ligament, etc.); the loosening and falling off of a scab or crust. *rare* (only in Dicts.). **E19.**
2 *MEDICINE & BIOLOGY.* The controlled destruction of cells, as in the growth and development of an organism; the type of cell lysis characteristic of this. **L20.**
■ **apoptotic** /-'tɒtɪk/ *adjective* **L20.**

aporetic /apə'rɛtɪk/ *adjective*. **E17.**
[ORIGIN French *aporétique* from Greek *aporētikos*, from *aporein* be at a loss, from **A-**[10] + *poros* passage: see **-IC.**]
Full of doubts and objections; inclined to doubt.

aporia /ə'pɔːrɪə, ə'pɒrɪə/ *noun*. **M16.**
[ORIGIN Late Latin from Greek, from *aporos* impassable, from **A-**[10] + *poros*: see **APORETIC**, **-IA**[1].]
1 *RHETORIC.* The expression of doubt. **M16.**
2 A doubtful matter, a perplexing difficulty. **L19.**

aport /ə'pɔːt/ *adverb & pred. adjective*. **M16.**
[ORIGIN from **A** *preposition*[1] 1 + **PORT** *noun*[5].]
NAUTICAL. On or towards the port side of the ship.
put the helm aport port the helm, i.e. move the rudder to starboard, causing the vessel to turn to the right.

aposematic /ˌapəsʌɪə'matɪk/ *adjective*. **L19.**
[ORIGIN from **APO-** + **SEMATIC.**]
ZOOLOGY. Of coloration, markings, etc.: serving to warn or repel.

aposiopesis /ˌapəsʌɪə'piːsɪs/ *noun*. Pl. **-peses** /-'piːsiːz/. **L16.**
[ORIGIN Latin from Greek *aposiōpēsis*, from *aposiōpan* be silent.]
RHETORIC. (A) sudden breaking off in speech.
■ **aposiopetic** /-'pɛtɪk/ *adjective* **M17.**

apospory /ə'pɒsp(ə)ri/ *noun*. **L19.**
[ORIGIN from **APO-** + Greek *spora* seed + **-Y**[3].]
BOTANY. In some cryptogams: the growth of a gametophyte directly from a sporophyte, without spore production.
■ **aposporous** *adjective* characterized by or of the nature of apospory **L19. aposporously** *adverb* **L19.**

apostasy /ə'pɒstəsi/ *noun*. Also †**-acy**. **ME.**
[ORIGIN ecclesiastical Latin *apostasia* from late Greek alt. of *apostasis* defection: see **-Y**[3].]
1 Abandonment or renunciation of one's religious faith or moral allegiance. **ME.** ▸**b** Renunciation of religious vows without dispensation. **ME.**

S. JOHNSON Shakespeare approximates the remote, and familiarizes the wonderful. E. H. GOMBRICH He must purify the world of matter, erase its flaws, and approximate it to the idea. J. G. FARRELL A compress . . placed on the palm after the edges of the wound had been evenly approximated.

2 *verb intrans.* Come near or close (*to*, esp. in quality, number, etc., rarely physically). L18.

JOHN ROSS The shores gradually approximate. A. G. GARDINER There are times when the dog approximates so close to our intelligences that he seems to be of us. E. J. HOWARD Pleasing meant approximating to the man's idea of the sort of woman his position and intelligence owed him.

3 *verb trans.* Come close to, approach closely, (used as sense 2). L18.

JAMES SULLIVAN We may yet approximate . . a certainty that is demonstrative. E. POUND Progress lies rather in an attempt to approximate classical quantitative metres (NOT to copy them) than in a carelessness regarding such things.

■ **approximator** *noun* (*rare*) a person who approximates *to* M19.

approximation /əprɒksɪ'meɪʃ(ə)n/ *noun.* LME.

[ORIGIN Late Latin *approximatio(n-)*, formed as APPROXIMATE *verb*; later from APPROXIMATE *verb*: see -ATION.]

1 The action of bringing or coming near in place, time, or any conception to which ideas of space apply; the state of being near, proximity. LME.

2 A coming or getting near to identity in quantity, quality, or degree; the result of such a process; a value or quantity that is nearly but not exactly correct. M17.

approximative /ə'prɒksɪmətɪv/ *adjective.* E19.

[ORIGIN from APPROXIMATE *verb* + -IVE: cf. French *approximatif*.]

Of approximate character; nearly but not exactly reaching accuracy.

■ **approximatively** *adverb* M19.

appui /ə'pwiː, *foreign* apɥi/ *noun. arch.* L16.

[ORIGIN French.]

1 †**a** *gen.* Support; a stay, a prop. L16–L17. ▸**b** *MILITARY.* Defensive support. L18.

b point of appui = *point d'appui* s.v. POINT *noun*[2] 2.

†**2** *HORSEMANSHIP.* The tension of the reins; the response of the horse's mouth to the control through the reins. E18–E19.

appulse /ə'pʌls/ *noun.* E17.

[ORIGIN Latin *appulsus* a driving towards, from *appuls-* pa. ppl stem of *appellere*, from *ad* AP-[1] + *pellere* drive.]

1 A driving or energetic motion towards a place; a strong impulse towards something. *arch.* E17.

2 *ASTRONOMY.* An apparent close approach (falling short of occultation) by a planet etc. to a star or other body. M17.

appurtenance /ə'pəːt(ɪ)nəns/ *noun.* ME.

[ORIGIN Anglo-Norman *apurtenaunce*, Old French *apartenance*, *apert-*, ult. from late Latin *appertinere* (see APPERTAIN) + -ANCE.]

1 *LAW.* A minor property, right, or privilege, subsidiary or incidental to a more important one; an appendage. Usu. in *pl.* ME.

C. SANDBURG The land and all appurtenances thereto and all deposits of oil and gold.

2 A contributory adjunct, an accessory. Usu. in *pl.* LME.

SHAKES. *Haml.* Th' appurtenance of welcome is fashion and ceremony. L. STRACHEY The bonnet with its jet appurtenances. M. MUGGERIDGE It had now become a grammar school, with all the usual appurtenances in the shape of houses, prefects, blazers, a school song, and so on.

3 The fact or state of appertaining. *rare.* M19.

W. D. WHITNEY The word is a token of the most indefinite appurtenance.

appurtenant /ə'pəːt(ə)nənt/ *adjective & noun.* Also (esp. in sense A.2, *arch.*) **appertinent**. LME.

[ORIGIN Old French *apartenant* pres. pple of *apartenir* APPERTAIN: see -ANT[1].]

▸**A** *adjective.* **1** Belonging (*to*) as a (subsidiary or incidental) property, right, or privilege. LME.

2 Appertaining (*to*); appropriate (*to*); relating, pertinent. LME.

▸**B** *noun.* An appurtenance. Now *rare.* LME.

APR *abbreviation.*

Annual percentage rate (of interest on money lent).

Apr. *abbreviation.*

April.

apraxia /ə'praksɪə/ *noun.* L19.

[ORIGIN German *Apraxie* from Greek *apraxia* inaction.]

MEDICINE. Inability to perform given purposive actions, as a result of cerebral disorder.

après /'apreɪ, *foreign* apʀɛ/ *preposition.* M19.

[ORIGIN French = after.]

1 ***après coup*** /kuː/ [lit. 'after stroke'], after the event; as an afterthought. M19.

2 ***après-ski*** /skiː/ *noun & adjective*, (worn, done, etc., at) the time when skiing is over for the day at a resort. M20.
▸**b** Used with English words in imitation of ***après-ski***, as ***après-bath***, ***après-sex***, etc. M20.

A

apricate /'aprɪkeɪt/ *verb. rare.* L17.
[ORIGIN Latin *apricat-* pa. ppl stem of *apricari* bask in the sun, from *apricus* exposed (to the sun): see -ATE³.]
1 *verb intrans.* Bask in the sun. L17.
2 *verb trans.* Expose to sunlight. M19.

apricot /'eɪprɪkɒt/ *noun.* Orig. †**abrecock**, †**apricock**. M16.
[ORIGIN Portuguese *albricoque* or Spanish *albaricoque* from Hispano-Arabic *al-barqūq*, from AL-² + *barqūq* from late Greek *praikokion* from Latin *praecoquum* noun, from neut. of var. of *praecox* early-ripe. Assim. to French *abricot* and perhaps infl. by Latin *apricus* ripe.]
1 The juicy stone fruit of the tree *Prunus armeniaca*, of the rose family. M16.
Irish apricot: see IRISH *adjective*.
2 The tree itself, cultivated in the warmer temperate regions and orig. native to China. M16.
3 The pinkish-yellow colour of the ripe fruit. L19.
– COMB.: **apricot plum** (the edible yellow stone fruit of) a tree of the rose family, *Prunus simonii*, which is native to China and bears white blossom.

April /'eɪprɪ(ə)l/ *noun.* OE.
[ORIGIN Latin *Aprilis* use as noun of adjective (sc. *mensis* month).]
The fourth month of the year in the Gregorian calendar. Also *fig.*, with allusion to April's position in spring or to bright changeable weather with showers, considered characteristic of the month in Britain and elsewhere in the northern hemisphere.

TENNYSON Half-opening buds of April. ***attrib.***: SHAKES. *Two Gent.* The uncertain glory of an April day. *fig.*: P. SIDNEY In the April of your age. SHAKES. *Ant. & Cl.* The April's in her eyes. It is love's spring.

– COMB.: **arena stage** *THEATRICAL* a stage placed amid the audience; **arena theatre** theatre-in-the-round.

arenaceous /arɪˈneɪʃəs/ *adjective*. **M17.**
[ORIGIN from Latin *arenaceus*, formed as ARENA: see -ACEOUS.]
Having the appearance or consistency of sand; sandy; living or growing in sand.
arenaceous rock = ARENITE.

arenavirus /əˈriːnəvʌɪrəs/ *noun*. Also **areno-**. **L20.**
[ORIGIN from Latin *arenosus* sandy formed as ARENA, + VIRUS.]
MEDICINE. Any of a class of viruses (e.g. that of Lassa fever), which appear under an electron microscope to contain sandlike granules.

arene /ˈariːn/ *noun*. **M20.**
[ORIGIN from AR(OMATIC + -ENE.]
CHEMISTRY. An aromatic hydrocarbon.

arenite /ˈarɪnʌɪt/ *noun*. **E20.**
[ORIGIN formed as ARENA + -ITE[1].]
GEOLOGY. A sandstone or other sedimentary rock made up very largely of sand-sized particles.

arenose /ˈarɪnəʊs/ *adjective*. **LME.**
[ORIGIN Latin *arenosus*, formed as ARENA: see -OSE[1].]
Sandy, gritty.
■ Also **†arenous** *adjective* **LME–M18.**

arenovirus *noun* var. of ARENAVIRUS.

aren't *verb* see BE *verb*.

areo- /ˈariəʊ/ *combining form* of Greek *Arēs* Mars: see **-O-**.
■ **areo'centric** *adjective* (*ASTRONOMY*) having the planet Mars as centre **L19.** **are'ology** *noun* the scientific study of the planet Mars **L19.**

areola /əˈriːələ/ *noun*. Pl. **-lae** /-liː/. **M17.**
[ORIGIN Latin, dim. of AREA.]
Chiefly *ANATOMY.* **1** A small space or interstice, esp. within body tissue such as bone. **M17.**
2 A small circular area; *spec.* the area of pigmented skin surrounding a nipple. **L17.**
■ **areolar** *adjective* containing many areolae (sense 1); ***areolar tissue***, loose connective tissue found beneath the skin and around muscles, organs, etc.: **E19.** **'areole** *noun* an areola; *esp.* a small area bearing spines or hairs on a cactus: **E19.**

†areometer *noun*. Also **araeo-**. **L17–L19.**
[ORIGIN French *aréomètre*, from Greek *araios* thin: see -METER.]
= HYDROMETER *noun* 1.

Areopagi *noun* pl. of AREOPAGUS.

Areopagite /arɪˈɒpəgʌɪt, -dʒʌɪt/ *noun*. **LME.**
[ORIGIN Latin *areopagites* from Greek *areiopagitēs*: see AREOPAGUS, -ITE[1].]
GREEK HISTORY. A member of the court of Areopagus (see AREOPAGUS).
■ **areopagitic** /ˌarɪɒpəˈdʒɪtɪk/ *noun & adjective* †(***a***) *noun* a speech imitating that of Isocrates addressed to the court of Areopagus; (***b***) *adjective* of or pertaining to the Areopagus or its court: **M17.** **areopagitical** /ˌarɪɒpəˈdʒɪtɪk(ə)l/ *adjective* **L16.**

Areopagus /arɪˈɒpəgəs/ *noun*. Pl. **-gi** /-gʌɪ/. **M17.**
[ORIGIN Latin, from Greek *Areios pagos* hill of Ares (Mars), where the highest judicial court of ancient Athens held its sittings, hence the court itself.]
An important tribunal.

†aret *verb trans.* Also **-tt.** Infl. **-tt-**. **LME.**
[ORIGIN Old French *aret(t)er* from *à* A-[5] + *reter* from Latin *reputare* REPUTE *verb*.]
1 Adjudge, reckon (to be). **LME–L15.**
2 Impute (esp. as a fault) *to*; charge *upon*. **LME–E17.**

Argand /ˈɑːgənd/ *noun*. **L18.**
[ORIGIN French surname.]
1 *hist.* [A. *Argand* (1755–1803), French physicist.] ▸**a** ***Argand burner***, a kind of cylindrical burner for oil or gas, allowing air to pass both inner and outer surfaces of the flame. **L18.** ▸**b** In full ***Argand lamp***. A lamp fitted with such a burner. **E19.**
2 *MATH.* [J. R. *Argand* (1768–1822), French mathematician.] ***Argand diagram***, a diagram on which complex numbers are represented geometrically using Cartesian axes. **E20.**

argent /ˈɑːdʒ(ə)nt/ *noun & adjective*. **LME.**
[ORIGIN Old French & mod. French from Latin *argentum* silver.]
▸**A** *noun*. †**1** Silver coin; money, cash. **LME–M18.**
2 The metal silver. Now *arch. & poet.* **M16.**
3 *HERALDRY.* The tincture silver or white in armorial bearings. **M16.**
▸**B** *adjective*. Chiefly *HERALDRY.* Silver, white. **L15.**

W. DE LA MARE Wan as the argent moon. T. H. WHITE The cognizance was argent, a tall cross gules.

■ **argen'tiferous** *adjective* yielding silver **L18.** **argentry** *noun* (*rare*) silver plate **E17.**

argentaffin /ɑːˈdʒɛntəfɪn/ *adjective*. **E20.**
[ORIGIN French *argentaffine*, from Latin *argentum* silver + *affinis* akin.]
Readily stained black by silver salts; *spec.* (*ANATOMY*, now *arch.*) designating numerous isolated endocrine cells situated in the intestinal epithelium.
■ **argentaffi'noma** *noun*, pl. **-mas**, **-mata** /-mətə/. *MEDICINE* an intestinal tumour whose tissue stains like argentaffin cells, from which it is thought to develop **M20.**

argentic /ɑːˈdʒɛntɪk/ *adjective*. **E19.**
[ORIGIN from Latin *argentum* silver + -IC.]
CHEMISTRY. Of or pertaining to divalent silver.
– NOTE: Orig. designating monovalent compounds (cf. ARGENTOUS).

argentine /ˈɑːdʒ(ə)ntʌɪn/ *adjective*[1] & *noun*[1]. **LME.**
[ORIGIN Old French & mod. French *argentin(e)*, formed as ARGENT + -INE[1].]
▸**A** *adjective*. **1** Of, made of, or containing silver. **LME.**
2 Silvery. **LME.**
▸**B** *noun*. **1** Silver; material simulating silver. Now *rare* or *obsolete*. **L16.**
2 A small silvery marine fish of the salmoniform genus *Argentina*. **M18.**

Argentine /ˈɑːdʒ(ə)ntʌɪn/ *adjective*[2] & *noun*[2]. **E19.**
[ORIGIN Spanish *Argentina* (in *República, formerly Confederación, Argentina*) lit. 'silvery', named from the Rio de la Plata (Spanish *plata* silver).]
▸**A** *adjective*. Of, pertaining to, or designating the federal republic which occupies the greater part of the southern end of S. America, extending from Chile in the west to the Brazilian and Uruguayan borders and the Atlantic Ocean in the east, and bordering Bolivia and Paraguay in the north (now usu. called ***Argentina***). **E19.**
Argentine ant a S. American ant, *Iridomyrmex humilis*, which has been introduced and become a pest elsewhere.
▸**B** *noun*. **1** A native or inhabitant of Argentina. **E19.**
2 ***the Argentine***, Argentina. **L19.**
■ **Argentinian** /ɑːdʒ(ə)n'tɪnɪən/ *adjective & noun* (***a***) *adjective* of or pertaining to Argentina; (***b***) *noun* = ARGENTINE *noun*[2] 1: **E20.**

argentite /ˈɑːdʒ(ə)ntʌɪt/ *noun*. **M19.**
[ORIGIN from Latin *argentum* silver + -ITE[1].]
MINERALOGY. A form of silver sulphide crystallizing in the cubic system and occurring as dark grey crystals with a metallic lustre.

argento- /ɑːˈdʒɛntəʊ/ *combining form* of Latin *argentum* silver: see **-O-**.
■ **argentophil(e)**, **argento'philic** *adjectives* = ARGYROPHILIC **M20.**

A

argentous /ɑːˈdʒɛntəs/ *adjective.* M19.
[ORIGIN formed as ARGENTO- + -OUS.]
CHEMISTRY. Of or pertaining to monovalent silver.
– NOTE: Orig. designating certain compounds apparently of a lower valency (cf. ARGENTIC).

Argie /ˈɑːdʒi/ *noun & adjective. slang. derog.* Also **Argy.** L20.
[ORIGIN Abbreviation of ARGENTINE *adjective*[2] & *noun*[2] or ARGENTINIAN: see -IE.]
(An) Argentine, (an) Argentinian.

argil /ˈɑːdʒɪl/ *noun.* LME.
[ORIGIN Old French *argille* from Latin *argilla* from Greek *argillos* clay.]
Clay, *esp.* potter's clay.

argillaceous /ɑːdʒɪˈleɪʃəs/ *adjective.* L17.
[ORIGIN from Latin *argillaceus*, from *argilla* clay, + -OUS: see ARGIL, -ACEOUS.]
Of the nature of clay; largely composed of clay; clayey.

argillite /ˈɑːdʒɪlʌɪt/ *noun.* L18.
[ORIGIN from Latin *argilla* clay + -ITE[1].]
GEOLOGY. An indurated argillaceous rock that is harder than shale and does not split easily.

arginase /ˈɑːdʒɪneɪz/ *noun.* E20.
[ORIGIN from ARGININE + -ASE.]
BIOCHEMISTRY. An enzyme which hydrolyses arginine to urea and ornithine.

arginine /ˈɑːdʒɪniːn/ *noun.* L19.
[ORIGIN German *Arginin*, perh. from Greek *arginoeis* bright-shining, white: see -INE[5].]
BIOCHEMISTRY. A basic amino acid, $HN{=}C(NH_2)NH(CH_2)_3CH(NH_2)COOH$, which occurs in many proteins, is essential in the diet of vertebrates during periods of intensive growth, and is involved in urea synthesis; guanidine aminovaleric acid.

Argive /ˈɑːgʌɪv, -dʒʌɪv/ *noun & adjective.* M16.
[ORIGIN Latin *Argivus* (Greek *Argeios*) pertaining to Argos (see below).]
▸**A** *noun.* A native or inhabitant of Argos, a city state of ancient Greece, or the surrounding territory of Argolis; (in Homeric and later classical use) a Greek. M16.
▸**B** *adjective.* Of or pertaining to Argos or Argolis. Also, Grecian, Greek. L16.

argle /ˈɑːg(ə)l/ *verb. obsolete* exc. *dial.* L16.
[ORIGIN Alt. of ARGUE, with *-le* as in *haggle*.]
1 *verb trans.* Argue about. L16.
2 *verb intrans.* = ARGY-BARGY *verb.* E19.

argle-bargle /ˈɑːg(ə)lˈbɑːg(ə)l (main stress variable)/ *verb & noun. dial. & colloq.* E19.
[ORIGIN Redupl. of ARGLE.]
▸**A** *verb.* **1** *verb trans.* Exchange (words) in argument. *rare.* E19.
2 *verb intrans.* = ARGY-BARGY *verb.* E19.
▸**B** *noun.* = ARGY-BARGY *noun.* L19.

Argo /ˈɑːgəʊ/ *noun.* M16.
[ORIGIN Latin: cf. ARGONAUT.]
(The name of) a large constellation of the southern hemisphere now divided into Carina, Puppis, Vela, and Pyxis; the Ship. Also ***Argo Navis*** /ˈnɛɪvɪs/ [Latin *navis* ship].

argol /ˈɑːgɒl, -g(ə)l/ *noun*[1]. ME.
[ORIGIN Anglo-Norman *argoîle*, of unknown origin.]
= TARTAR *noun*[1] 1.

argol /ˈɑːg(ə)l/ *noun*[2]. Also **argal.** M19.
[ORIGIN Mongolian.]
Dried cattle dung used as fuel in the steppes of central Asia.

argon /ˈɑːgɒn/ *noun.* L19.
[ORIGIN Greek, neut. of *argos* idle, inactive, from A-[10] + *ergon* work.]
A colourless odourless gaseous chemical element, atomic no. 18, which is one of the noble gases and is present in air to the extent of about one per cent by volume (symbol Ar).

Argonaut /ˈɑːg(ə)nɔːt/ *noun.* L16.
[ORIGIN Latin *argonauta* from Greek *argonautēs* sailor (*nautēs*) in the ship Argo.]
1 Any of the legendary sailors who travelled with Jason in the Argo in quest of the Golden Fleece. L16. ▸**b** *transf.* (Also **a-**.) An adventurer with a quest, esp. for gold; an explorer. E19.

arsenate /ˈɑːs(ə)nɛɪt/ *noun.* E19.
[ORIGIN from ARSENIC *noun & adjective*[1] + -ATE[1].]
CHEMISTRY. A salt or ester of any oxyacid of arsenic (orig. only of arsenic acid, H_3AsO_4).
■ Also **arseniate** /ɑːˈsiːnɪɛt/ *noun* (now *rare*) E19.

arsenic /ˈɑːs(ə)nɪk/ *noun & adjective*[1]. LME.
[ORIGIN Old French & mod. French from Latin *arsenicum* from Greek *arsenikon* yellow orpiment, (identified with *arsenikos* male, but in fact) from Arabic *az-zarnīḵ*, formed as AL-[2] + *zarnīḵ* orpiment from Persian, from *zar* gold.]
▸**A** *noun.* **1** Yellow orpiment, arsenic sulphide, As_2S_3 (more fully ***yellow arsenic***). Also, realgar, AsS (more fully ***red arsenic***). Now *rare*. LME.
2 Arsenic trioxide, As_2O_3 (more fully ***white arsenic***). Also, this or any other arsenic compound used as a poison; *fig.*, poison. LME.
3 The chemical element common to these, in its usual form a brittle steel-grey metalloid, atomic no. 33 (symbol As). E19.
▸**B** *attrib.* or as *adjective.* Of arsenic, arsenical. LME.
■ **arsenicated** /ɑːˈsɛnɪkeɪtɪd/ *adjective* (now *rare* or *obsolete*) treated, mixed, or combined with arsenic L18. †**arseniuret** *noun* = ARSENIDE M19–E20. **arseniuretted** /ɑːˈsɛnjʊrɪtɪd/ *adjective* (*arch.*) combined with arsenic E19.

arsenic /ɑːˈsɛnɪk/ *adjective*[2]. E19.
[ORIGIN from ARSENIC *noun & adjective*[1], the ending being identified with -IC.]
CHEMISTRY. Of pentavalent arsenic.
arsenic acid a weak acid, H_3AsO_4, with oxidizing properties.

arsenical /ɑːˈsɛnɪk(ə)l/ *adjective & noun.* E17.
[ORIGIN from ARSENIC *noun* + -AL[1].]
▸**A** *adjective.* Of the nature of, pertaining to, or containing arsenic. E17.
▸**B** *noun.* A compound (esp. organic) of arsenic. L19.

arsenide /ˈɑːs(ə)nʌɪd/ *noun.* M19.
[ORIGIN from ARSENIC *noun* + -IDE.]
CHEMISTRY. A compound of arsenic with a more electropositive element.

arsenious /ɑːˈsiːnɪəs/ *adjective.* E19.
[ORIGIN from ARSENIC *noun* + -IOUS.]
CHEMISTRY. Of trivalent arsenic.
arsenious acid a weak acid, H_3AsO_3, formed when arsenic trioxide dissolves in water.
■ Also **'arsenous** *adjective* E19.

arsenite /ˈɑːs(ə)nʌɪt/ *noun.* E19.
[ORIGIN from ARSENIC *noun* + -ITE[1].]
CHEMISTRY. A salt of arsenious acid.

arseno- /ˈɑːs(ə)nəʊ, ɑːˈsɛnəʊ/ *combining form.* Also (in some mineral names) **arsen-**.
[ORIGIN from ARSENIC *noun* + -O-.]
Forming names of compounds and derivatives of arsenic.
■ **ar'senolite** *noun* (*MINERALOGY*) a form of arsenic trioxide crystallizing in the cubic system, occurring usu. as colourless octahedra M19. **arseno'pyrite** *noun* (*MINERALOGY*) an arsenide and sulphide of iron (and usu. also cobalt), occurring as silvery-grey monoclinic prisms; mispickel: M19.

arses *nouns* pls. of ARSE *noun*, ARSIS.

arsey /ˈɑːsi/ *adjective. slang.* Also **arsy**. M20.
[ORIGIN from ARSE *noun* + -Y[1].]
1 Of a person: lucky. Orig. and chiefly *Austral.* M20.

J. WALKER I was real arsy to pick up a job here.

2 Bad-tempered, angry; aggressive, uncooperative. L20.

G. ISON She gets all arsy . . and says something about not being one of his tarts.

3 Arrogant, condescending, self-important, pretentious. L20.

DAVID MITCHELL And what's this about you speaking arsey foreign languages?

arshin /ɑːˈʃiːn/ *noun.* Also **-shine**. M16.
[ORIGIN Russian, of Turkic origin.]
A Russian and Turkish unit of length, equal to about 70 cm.

A

arsine /ˈɑːsiːn/ *noun*. L19.
[ORIGIN from ARS(ENIC *noun* + -INE⁵.]
CHEMISTRY. A highly poisonous gas, AsH_3. Also, any substituted derivative of this.

arsis /ˈɑːsɪs/ *noun*. Pl. **arses** /ˈɑːsiːz/. LME.
[ORIGIN Late Latin from Greek = lifting, raising, from *airein* raise.]
The syllable or part of a metrical foot that is stressed (orig., CLASSICAL PROSODY, by raised pitch or volume); the unstressed beat in barred music. Opp. **THESIS**.

†arsmet(r)ike *noun* see **ARITHMETIC** *noun*¹.

arson /ˈɑːs(ə)n/ *noun*. L17.
